REMARKS:

Priority date claimed is the same as the priority date of Pt. #57-02200 which is also for Hardtrigger Creek, but for a different 20 acres. Normally, we would recommend a priority date of the date after the field exam was completed for 57-02200 (7-28-64), however, I spoke with Mr. Jensen on 11-12-91 & asked him why the original owner of this land (filed 57-02200) did not include these 20 acres on that right if he was irrigating them. Mr. Jensen stated that when he went to Mr. Blich to get the affidavit to

support this priority date he asked Mr. Blich why these 20 acres were not included on 57-02200. Mr. Blich replied that he wanted to irrigate them with Snake River water as soon as he could install a system, rather than using Hardtrigger Ch, and he felt it would jeopardize getting a water right for a Snake R. diversion if he included these 20 acres on the app. for 57-02200, so he left them off. Mr. Blich did submit an affidavit supporting the 51 priority date for these acres.

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
