INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

THIS CLAIM HAS BEEN REASSIGNED NUMBER 57-10795 UNDER BENEFICIAL USE. CHECKING THE WATER RIGHTS BASE UNDER POD AND POU DID NOT SHOW ANY PREVIOUS WATER RIGHTS.

Dear Ken:

In trying to be sure that all of the claims filed in Basin 57 have been accounted for, we have prepared a final list of those claims we are responsible for, and those claims that it appears fall under your jurisdiction. When we sent you copies of the domestic or stockwater claims remaining on our shelf for Basin 57, we did so without keeping a list of what those were. I thought you might like to have a complete listing of the claims which we show need your verification (we hope), in case we missed sending copies to you. Please let us know if you need copies of any of these claims, and we will be happy to send a copy to you. This list includes the water uses that now fall under the new domestic/stockwater definition, up to .24 cfs. We conducted exams on quite a few claims for domestic or stockwater uses when we went out to examine irrigation systems for the same claimant. I have omitted these claims from this list to avoid any duplication of effort on your part.

Also, as we have been preparing our claim recommendations for the Director's report, there have been a few problem areas discovered that I thought you would like to know about. The Reynolds Creek and Upper Shoofly Creek decrees included filings for domestic and stockwater from both groundwater or surface water sources within the decree boundaries. In researching for any claims filed within these two decrees, for which a decreed right does not exist, we did find a few domestic/stockwater claims also. Enclosed is a memo from Kay Walker who researched the Reynolds Creek decreed area. This memo lists the domestic/stockwater claims she found which do not appear to have an existing decreed right on file. Two of these claims were questionable and Kay has attached additional memos to you concerning items that we could not verify with office records. One problem we have had in handling these types of claims is that the only priority date they can have, if no decreed right exists, would be the day after the deadline for claims filing in that decree, which was August 6, 1979. There is the possibility that they, or a previous owner of their property were not joined in the Reynolds Creek Adjudication, however, all of these claimants do show up as being served notice. Another catch to these type of claims is that only the ones with groundwater sources can have the 1979 priority date, since surface water sources must be prior to May 20, 1971. On the claims we have that fall into this category, we will be recommending the claim for disallowal, and suggesting to the claimants that they may want to record their water right by filing an application for permit.

In the Shoofly Creek decreed area we found only Claim No. A57-10002 for which no previously decreed right exists. This claim is in the name of Robert C. Davis, who did have a decreed right in the Shoofly Creek decree, for which he has filed a claim, however, it is only for an irrigation well with no mention of domestic use. The cutoff for claims filing in the Shoofly Creek decree was September 7, 1982.

This research also uncovered a few claims filed, based on beneficial use with 10,000 series numbers, for which decreed rights did exist, but under a different number. Claim No.'s A57-10083 and A57-10084 fall into this category. These claims should have been claimed under Water Right No.'s 57-07084B and 57-07084F, which were included in the Reynolds Creek decree under Permit No. 57-07084. Therefore, we have changed Claim No. A57-10083 to A57-07084B and Claim No. A57-10084 to A57-07084F, and are notifying the claimant of the number changes. In both claims the priority dates originally claimed are later than the priority dates listed on the existing licenses for each right. We are also notifying the claimant of this discrepancy, and if they do amend the claims to show the earlier dates, we will be sure and send a copy of the amended claims to you. Enclosed are the computer generated copies of these two claims under the new claim numbers attached to a copy of the old claims that may or may not have been sent to you previously.

Also enclosed is a copy of Claim No. A57-10795 which replaces Claim No. A57-02136. I think you may have received a copy of A57-02136 which Kenworthy's originally filed on. As it turned out, Kenworthy's do not own the land listed in that original water right, therefore, they replaced it with Claim No. A57-10795 for a different legal description.

Finally, Claim No.'s A57-07285 and A57-10844 are also enclosed. Claim No. A57-07285 was misfiled in our shelves under A55-07285 at the time copies of the Basin 57 domestic/stockwater claims were sent to you. Claim No. A57-10844 was found misfiled in the Elmore County non-data entered claims and was also not on the shelf when copies were made. As far as we can tell all Basin 57 claims are now accounted for in our office.

If you have any questions concerning the claims in this letter, or any other Basin 57 claims, please feel free to call me. We are discovering that making sense of some of these claims can be very frustrating, and sympathize with you in working towards completion of your claim recommendations.

Sincerely,

JAN SHURTE

MEMORANDUM

TO: KEN DUNN

FROM: KAY WALKER

DATE: APRIL 22, 1991

RE: BENEFICIAL USE CLAIMS IN REYNOLDS CREEK DECREE AREA

We have gone through the Reynolds Creek Decree area and found a few beneficial use claims which cannot be recognized in the Snake River Basin Adjudication with the priority dates claimed. The priority dates of these claims cannot be prior to the last date of claims taking in the Reynolds Creek Adjudication which is August 6, 1979. These claims have been sent to you for verification under your contract.

Dear Mr. Kenworthy;

In doing some checking on the duplicated water right number 57-02136, I find this right originally filed in the name of Fred Bailey. It was licensed for irrigation of 82 acres with a supplementary domestic use.

I am enclosing a map which encompasses townships 5 and 6 south, range 3 east and sections 14. Please look over this map to determine your diversion and place of use. Indicate such on this map. Also, if you have a previous water right it would be helpful if you could send me a copy of it or the identification number. I found no information in the data base; however, it may have been filed under the name of a previous owner.

Water rights are appurtenant to property; therefore, if Fred Bailey was a previous owner of your place we may be in the ballpark. If no previous water right was ever filed on your well you may still file a beneficial use claim based on the date of first usage of your well.

Also enclosed is a copy of the water right claim you filed in December. Please use this copy to make any changes. I have enclosed a stamped, self-addressed envelope for your convenience. Once I receive this information, I will make the necessary corrections and send you a copy of the amended claim. Don't hesitate to contact me if you have questions or comments.

Sincerely,

Linda A. Werner
