STIPULATION FOR WITHDRAWAL

DESCRIPTIVE SUMMARY

This is a stipulation to resolve claims for water rights and objections to claims for water rights. This stipulation is made between Harry Richard Bass, Henry Brandau, ~~Ted K. Blackstock~~, and Chipmunk Grazing Association, collectively referred to as "Private Claimants," and the United States.

MAR 09 1996

STIPULATION

WHEREAS, the United States recognizes the significant role of the livestock industry in the settlement, history and culture of Owyhee County, Idaho; and,

WHEREAS, the United States and the Private Claimants recognize the importance of the stockwater rights at issue in

these consolidated sub-cases to the livestock industry in Owyhee County and the United States Bureau of Land Management ("BLM") grazing program; and,

WHEREAS, the United States and the Private Claimants have filed competing claims for the same stockwater rights on the federal public land, and have filed objections to each others' claims for stockwater rights; and,

WHEREAS, the United States and the Private Claimants wish to resolve their dispute regarding ownership of these stockwater rights without further litigation, expense and delay;

THEREFORE, The Private Claimants and the United States of America, by and through their respective counsel, stipulate and agree as follows:

1. Pursuant to I.R.C.P. 41(a)(1)(ii), the United States dismisses with prejudice its objections to the water rights claimed in SRBA subcases 57-10375 and 57-10930D.
2. Pursuant to I.R.C.P. 41(a)(1)(ii), the Private Claimants dismiss with prejudice their claims to the water rights made in the SRBA subcases identified on Appendix A attached to this stipulation.
3. Pursuant to I.R.C.P. 41(a)(1)(ii), the Private Claimants dismiss with prejudice that portion of their claims to the water rights identified on Appendix B which are located on the federal public land. The Private Claimants will execute such further stipulations, such as Standard Form 5's, ~~MICROFILMED~~ Special

claims?

Master or the Court deem necessary to exclude all federal public land from the claimed place of use or point of diversion of these water rights.

4. Pursuant to I.R.C.P. 41(a)(1)(ii), the Private Claimants dismiss with prejudice their objections to the water rights claimed by the United States in the SRBA subcases identified on Appendix C attached to this stipulation.
5. The parties agree that the United States is the owner of the water rights identified on Appendix C. For each of these water rights, the purpose of use is the watering of livestock owned by persons holding BLM-issued grazing permits. With respect to those claims to water rights on Appendix C for which the United States holds a prior license or decree, the purpose of use shall be stockwater and whatever other uses were previously licensed or decreed. The stockwater purpose of use of the water rights on Appendix C shall not be changed so long as a valid BLM-issued grazing permit exists for the land on which a particular water right is located.
6. Nothing in this stipulation shall prevent the BLM from administering the use of a grazing allotment and its associated water rights in accordance with applicable law, including taking such administrative actions as

changing the boundaries of grazing allotments or modifying or terminating BLM-issued grazing permits.

7. Pursuant to I.R.C.P. 41(a)(1)(ii), the Private Claimants dismiss with prejudice their objections to the recommendation of the Director of the Idaho Department of Water Resources ("IDWR") with respect to the water rights identified on Appendix D. The Private Claimants recognize that the Director disallowed parts of these claims because the Private Claimants sought water rights on the federal public land that were in conflict with water rights claimed by the United States. The Private Claimants agree not to pursue the claims for stockwater located on the federal public land which were disallowed by the Director in the subcases identified on Appendix D.
8. This stipulation was reached through negotiations for the purpose of resolving legal disputes, including pending litigation. All parties agree that no offers and/or compromises made in the course of the negotiations regarding the SRBA subcases consolidated under case number 57-11124 et. al. shall be construed as admissions against interest or be used in any legal proceeding.
9. All parties agree to bear their own costs and attorney fees in connection with this matter.

The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for subcase 57-07354 was filed. Subsequently, on February 21, 1997, the parties, filed a *Stipulation to Withdraw* pursuant to I.R.C.P. 41, wherein the parties agreed that the water right be decreed as reported.

A *Preliminary Special Master's Report and Recommendation* was issued. No motion to alter or amend was filed and the time for filing such a motion has expired; now therefore,

IT IS RECOMMENDED that subcase 57-07354 be decreed as recommended in the *Special Master's Report and Recommendation for Partial Decree*.

DATED May 6, 1997.

REASONS SUPPORTING EACH BOX CHECKED

(BOX 1) This water right was developed by historic use for stockwater by private individuals on unappropriated open range. Our current Federal grazing permit is based on that historic use and was awarded through an adjudication process in 1935. Our privately owned grazing permit can be bought, sold, traded, inherited and taxed and is totally dependent upon our continued ability to use this water right. Therefore the name on this water right should be ours.
