Important Information About Your Water Right

January 24, 2003

Elizabeth L Cuff
11600 W Powderhorn Ct
Boise, Idaho 83704

Dear Water Right Claimant(s):

This letter accompanies copies of an ***Order Amending Irrigation Period of Use Element in Partial Decree, Nunc Pro Tunc*** (hereinafter "***Order***") for water right numbers 57-2342, and 57-10842. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of these water rights. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The purpose of the ***Order*** is to set forth beginning and ending dates for the irrigation period of use for each of these water rights. As stated in the face of each ***Order***, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). The ***Order*** also incorporates into the ***Partial Decrees*** an express statement that each ***Partial Decree*** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). These ***Orders***, in combination with the ***Partial Decrees*** that were issued for these water rights on December 15, 1997, set forth all of the elements of your water rights. The Snake River Basin Adjudication (SRBA) Court suggests that you keep these documents in a safe location together with a copy of each ***Partial Decree*** to show evidence of these water rights. The original of these ***Orders*** and the original of each ***Partial Decree*** for these water rights are on file with SRBA Court. If you do not have a copy of the original ***Partial Decree***, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the ***Orders*** are entered ***Nunc Pro Tunc***, meaning that the ***Orders*** will be treated as if they were issued on the same date that the ***Partial Decrees*** were originally issued.

Sincerely,

Diana Delaney

_____	)	PROVISIONS, <i>NUNC PRO TUNC</i>

A *Partial Decree* was entered for the above-captioned irrigation water right on December 15, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on July 26, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 2, IDWR Basin 57, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-01 to 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as

may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

RE: Water Rights in Reporting Area 2, Basin 57
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources supplemental recommendation for your water right(s) in basin 57 (watershed of Owyhee County draining to Snake River). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area.

In response to the Idaho Supreme Court's decision in Basin-wide Issue 5 after most water rights in the Basin 57 had been decreed, the SRBA Court requested me to file supplemental reports for Basin 57 regarding the period of use for irrigation water uses and general provisions. The enclosed documents fulfill that request. The general provision enclosed is in addition to those already adopted by the Court.

Note you have just over 30 days in which to review your water rights and those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouse in Murphy and at all Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Dear Liz:

Enclosed is a copy of the license for Water Right No. 57-07236E with the gold embossed seal of the Department. In talking with the state office staff who process licenses, they indicated they no longer use these since the licenses are now computer generated.

Water Right No. 57-04034 was a statutory claim filed by Givens Hot Springs for domestic and commercial use (copy enclosed). We discussed this claim earlier and you did not file a Snake River Basin claim on this right because it had a 1968 priority date for domestic and commercial use from a groundwater source which invalidated the water right due to the groundwater statute requiring an application for permit be filed for a commercial use at the time development of the well was begun on wells drilled and used after 3-25-63. The original Permit No. 57-07236 was filed by Givens Hot Springs in 1979 to cover this well and six others which were either existing or proposed. It appears they planned a development for domestic and heating of 143 homes. Enclosed is a copy of this original permit and Memorandum Decision and Order issued on 5-18-79. After the approval several assignments of portions of the permit began coming in. Lester Moncrief was assigned 122 of the 143 proposed homes and Shirley Marsh retained 21 of which she assigned 1 home to the Jump's and 1 home to the Greene's with the remaining 19 assigned to you as domestic use for .36 cfs along with the heating use for .88 cfs. Your portion of this permit could not be amended from domestic and heating purposes to irrigation and commercial, because it would result in an increase in consumptive use. Therefore we amended it for licensing purposes to domestic and commercial use and filed claim No. A57-10842 to cover the irrigation from the well dating back to 1881 based on the historical irrigation use from the spring at the same location where the well now is. Because of the groundwater statute which requires an application for permit be filed for any development of a groundwater source after March 25, 1963, with the exception of domestic or stockwater uses, we could not use the 1968 priority date on 57-04034 for a commercial use. The Statutory Claim No. 57-04034 is not a valid filing for commercial use due to the priority date of 1968. Therefore, Application for

MICROFILMED

JUL 21 1994

Permit 57-07236 was filed in 1979 to legally record the existing uses, and proposed uses, from this well and others. Your Water Right Nos. 57-07236E and 57-10842 both cover this well for commercial and domestic purposes back to 1979 under 57-07236E and irrigation purposes back to 1881 under 57-10842. No objections were filed against any of your rights as recommended and the decree of non-objected rights is proposed to be signed by the Judge in December of this year. There are no other filings by anyone other than yourself to the well in the softball field. No one can claim a right to a source with the point of diversion on another's property without an easement or right-of-way from that person. Your mobile home is listed on 57-07236E, along with the 3 cabins, 32 RV hook-ups, the fountain and all uses in the poolhouse except to fill the pool. The pool water from the spring is covered under Water Right No. 57-04032.

If you feel there is a problem remaining with these rights, please contact me and we can proceed from there. Remember, however, that the 1979 priority date on 57-07236E is the same as Sunrise Park Subdivision's because they were at one time the same right. They are now separate rights and another right with an earlier priority date for your commercial use would have to be a right dating back prior to 3-25-1963 and that can be proven in court to have existed prior to that date. At this time, a court action would have to be initiated by an attorney to enter this late claim. If you feel the commercial use from this well for the uses covered was begun prior to 1963, please contact me. It has always been my understanding that the RV hookups and plumbing in the poolhouse for the hot tubs, etc. began after 1963. Feel free to contact me if you have further questions.

I need to specifically address water right #57-07236E. We received a license for that water right on March 23, 1992 with an incorrect priority date. You were contacted in that regard, and on June 22, 1992, we received a new license with the correct priority date. However, I recently took a close look at the license, and realized it had not been notarized with the Department of Water Resources "seal", as water licenses are. (By "seal", I am referring to the embosser normally used by the Department of Water Resources on these licenses.) So, I am asking that you please send a license with this official seal on it.

One further question is in regard to water right #57-4034, indicated on the enclosed

RE: Water Rights of Elizabeth L. Cuff

Dear Jan:

This is to notify you of my address change, effectively immediately:

New Address:
Elizabeth L. Cuff
P. O. Box 254
Gleneden Beach, OR 97388

Also, please note the following:

<u>Water Right #:</u>	<u>Location:</u>	<u>Current Status:</u>
57-02342	Farm	Have <i>NOT</i> yet received license.
57-10013	River home-well	Have <i>NOT</i> yet received license.
57-07458	River home-recreation	Have received license: Everything is OK.
57-04032	Givens "spring"	Have <i>NOT</i> yet received license.
57-10842	Givens "well"	Have <i>NOT</i> yet received license.
57-07236E	Givens "well"	Have received license, but <i>WITHOUT</i> official DWR seal.

I need to specifically address water right #57-07236E. We received a license for that water right on March 23, 1992 with an incorrect priority date. You were contacted in that regard, and on June 22, 1992, we received a new license with the correct priority date. However, I recently took a close look at the license, and realized it had not been notarized with the Department of Water Resources "seal", as water licenses are. (By "seal", I am referring to the embosser normally used by the Department of Water Resources on these licenses.) So, I am asking that you please send a license with this official seal on it.

One further question is in regard to water right #57-4034, indicated on the enclosed

MICROFILMED
JUL 21 1994

information. This water right would belong to the current Givens Hot Springs; it would not belong to anyone claiming water rights in Sunrise Skypark, as there was no other well located in section 21 in 1968 or 1979, other than the one currently located on our property. This also concurs with the enclosed data. My question is, how did water right #57-07236E get assigned to our well near the softball field? Is it possible that #57-07236E refers to the well which is located on our property, next to the trailer house? The well, currently assigned #57-07236E, and located near the softball field, is the oldest well on any of the Givens Hot Springs property, both now, and at any time Givens Hot Springs was a part of Sunrise Skypark. It is my thought that water right #57-4034 is the correct water right number for the well by the softball field, which would give it a priority date of 1968.

The reason this has not been noticed before, is because of all the confusion on my part, and on the part of the Department of Water Resources with regard to the Givens area water rights.

Jan, could you please trace this, so that I might have a valid explanation. If my thinking is right, what can be done to correct the error?

Also, would you please inform me when the water right licenses might arrive, which we have not yet received. Your help is greatly appreciated.

Most sincerely,

Elizabeth L. Cuff

REMARKS:

Evidence of priority submitted repeatedly shows that a spring was used for irrigation of approx. 10³ acres of land around Green's Hot Springs resort. Even if this spring was the spring now used solely for the pool & hot tubs under Claim No. A57-04032, then the right was transferred to the other spring which is specifically spoken of on pg. 30 of the evidence when the other spring became the well under this right. The irrigation

of this land is spoken of in the Homestead papers and the orig. owner himself stated on pg. 3 that he first moved there on Nov. 9, 1881. Pg. 6 speaks of use of springs to raise vegetables, etc. Claim No. 57-07236E covers the new commercial use of this well which only came about when health & welfare condemned using the spring (now used in the pool & hot tubs) for ^{their} domestic purposes. Thus, the later priority for 57-07236E. So, this well was originally the other spring mentioned in the evd. of priority; esp. pg. 30-800 yds. from hotel.
