I. DISCUSSION

Pursuant to I.R.C.P. Rule 42(a), the parties hereby move to consolidate the above-referenced subcases. These subcases, currently pending before the Court, raise common issues of fact and law.

At present, one of these subcases, 57-02118, is set for scheduling conference on March 5, 1996, at 2:30 p.m. The parties ask that the scheduling conference include the other above-referenced subcases.

The parties have discussed the matter with IDWR and it concurs in consolidating these subcases.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

Dear Jan:

Please find enclosed copies of the data entries of our claims A57-04103, A57-04104, A02-00064, and A02-00065. They have been signed and notarized.

On claims A57-04103 and A57-04104, I had made a calculation error and the correct total should be the 2,909.8 as shown on your print-out. On claims A02-00064 and A02-00065, I inadvertently added in the City of Homedale for 343.75 acres and City of Marsing for 212.66 acres for a total of 556.41 acres which was actually a double entry as they had already been entered in the quarter/quarter descriptions as place of use. The total for these two claims should be 23,173.8 as shown on your print-out.

In Item #14 "Remarks" I have drawn a line through the remarks pertaining to the city acreages. You may want to make that deletion from your data entry in the computer.

With the correctd acreage totals, our filing fees should have been $23,174 ($1.00 per acre) plus $300 (six filings at $50 each) for a total of $23,474. Our original adjudication fee paid was $24,031, which would result in a $557 overpayment.

I do apologize for the inconvenience my errors have made for you. We would like to request the $557 refund, and would like to extend a "Thank you" for your assistance and patience with us in this matter.

Sincerely,

Joyce A. Cuddeback

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

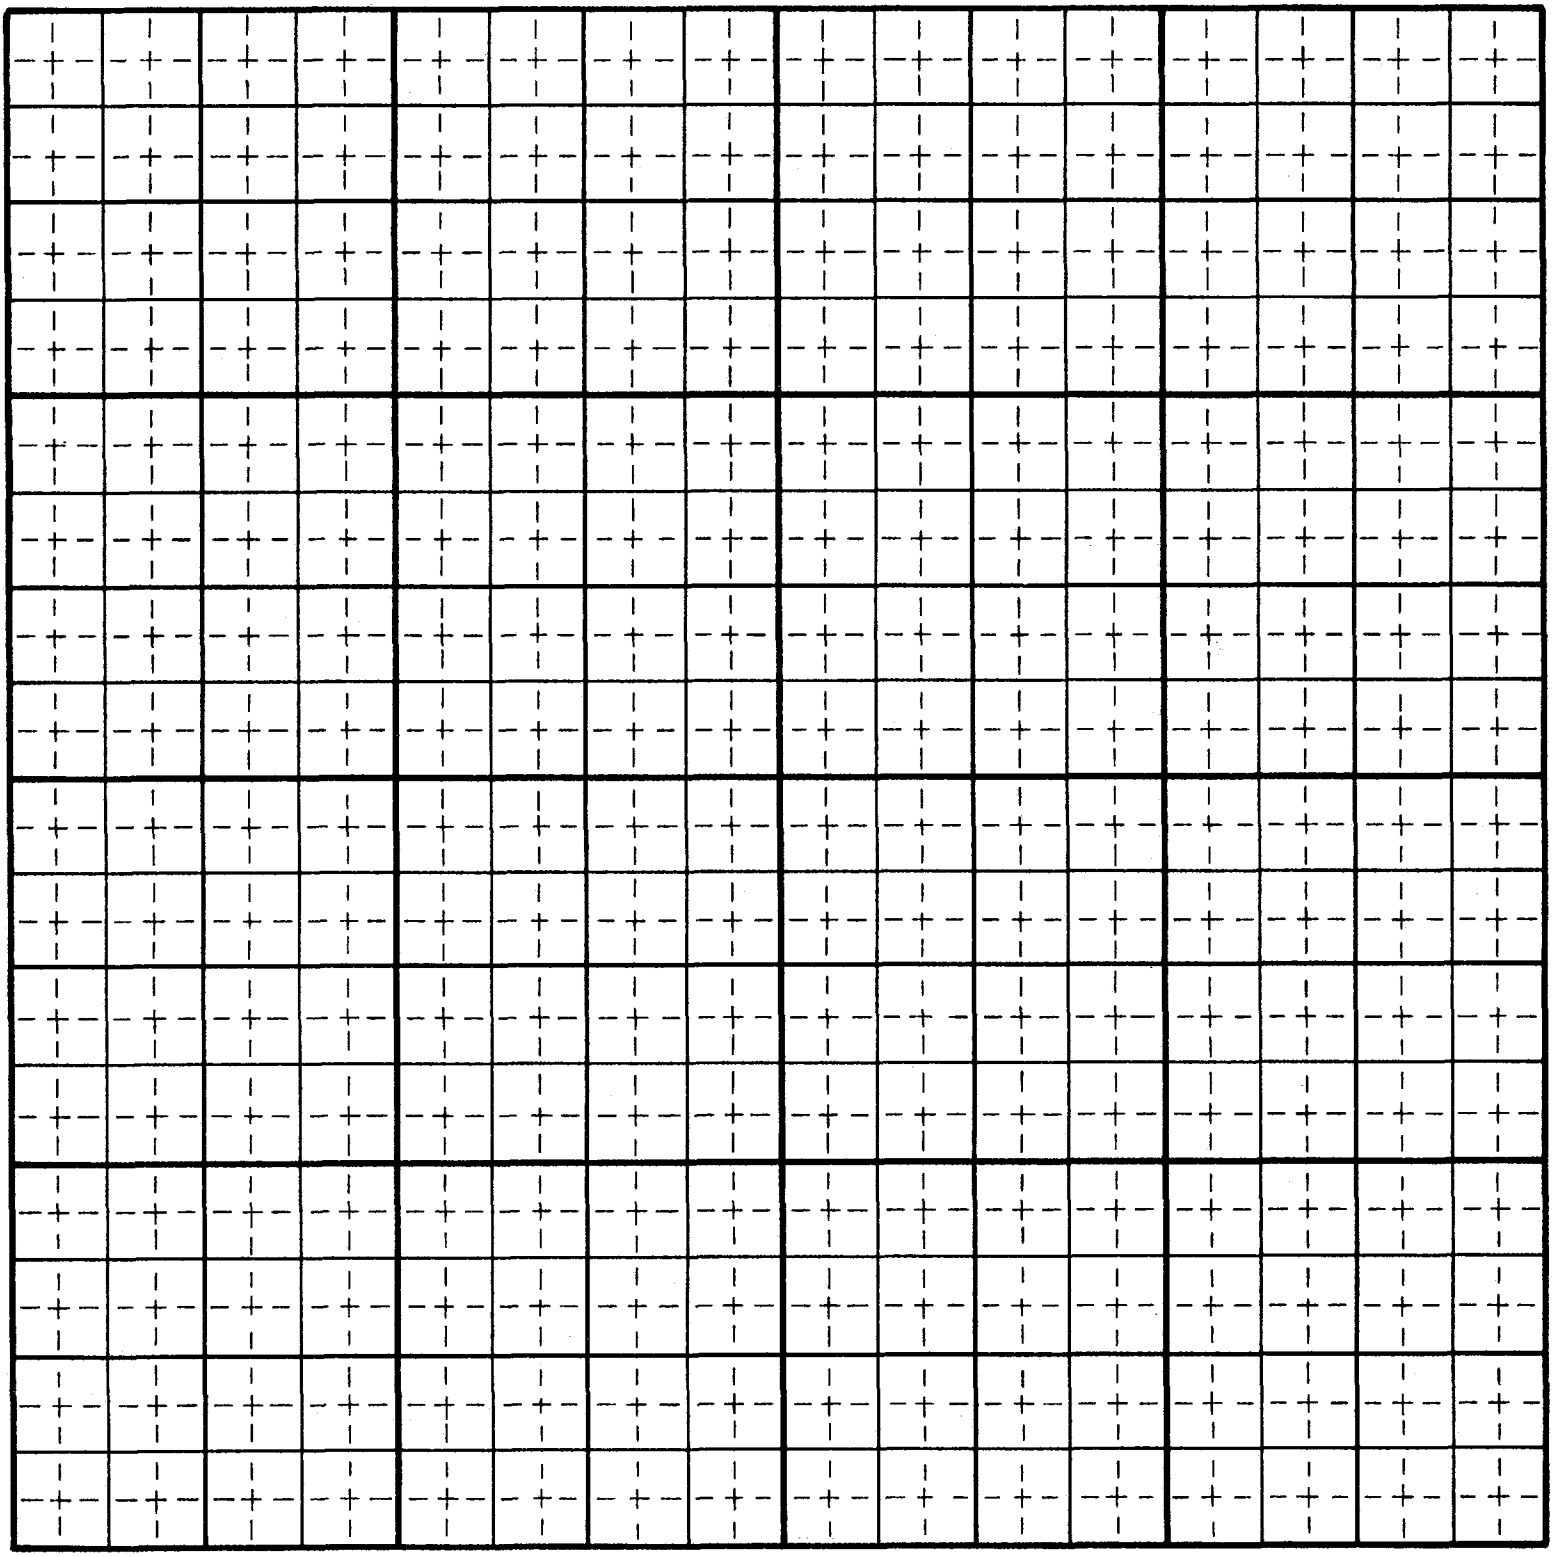

The cost of the subscription to the docket sheet is $7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that the Gem Irrigation District
(Name of Claimant)

P. O. Box 67, Homedale, Idaho 83628 Telephone No. (208) 337-3760
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows: The McDowell Ditch, a/k/a The McDowell Canal.

(1) Date of priority: (When was the water first applied to a beneficial use) 1906 - See Exhibit A

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Succor Creek, a/k/a Sucker Creek tributary to Snake River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(4) 10 cfs (cfs, af) TOTAL QUANTITY USED.

*This period of use may vary according to seasonal weather conditions & irrigation requirements.

(5) A) Point of diversion: (Location of point where water is diverted from its source)
NW ¼ SW ¼, Sec. 7 Twp. 3N Rge. 5W B.M., County of Owyhee, Idaho.
Additional points of diversion: McDowell Ditch is on the South side of Succor Creek and Patch Ditch is on the North side of Succor Creek.

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Concrete Diversion Dam with spillgates across the entire width of Succor Creek, with a headgate on the South side for the McDowell Ditch (Patch Ditch headgate is on the North side). The Dam is capable of blocking the entire flow.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location. The water diverted into the McDowell Ditch provides irrigation water for those lands located in Owyhee County, Idaho and more particularly described on the attached Exhibit A which is by this reference incorporated herein.

Case No. 39576	)	**FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR**
	)	**WATER RIGHT NO: 57-10854**

FINDINGS OF FACT

A notice of claim was filed for this water right to pursuant to I.C.§ 42-1409(1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 2 (Basin 57), which includes portions of Owyhee County. The Director of the Idaho Department of Water Resources then filed a *Director's Report for Reporting Area 57 (Director's Report)* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-10854 was filed on February 26, 1993, by the United States Bureau of Reclamation. A response to the objection was filed on July 1, 1993 by the State of Idaho Department of Water Resources.

On February 16, 1996, the United States and GEM Irrigation District filed *Parties' Stipulation to Consolidate Subcases*. An ***Order Consolidating Subcases (Order)*** was issued February 21, 1996, the ***Order*** consolidated subcases 57-02118, 57-02177, 57-04104, 57-10854, 57-10912, 57-10913 and 57-10807.

On April 3, 1996, the parties, the United States Bureau of Reclamation, and GEM Irrigation District filed a *Stipulation to Dismiss Objection and Dismiss the United States as a Party (Stipulation)*, which stated in part: "[t]he parties further agree that the water right filed by GEM Irrigation District, Subcase No. 57-10854, should be decreed as recommended." *Stipulation*, ¶ 7. Subsequently, the United States' objection was dismissed. ***Order Dismissing Objections,*** Apr. 8, 1996. On April 10, 1996, the United States' and GEM Irrigation filed *Parties' Stipulation to Amend Prior Stipulation to Dismiss Objection and Dismiss the United States as a Party*, which further clarified the parties' intent that water right 57-10854 should be decreed.

CONCLUSIONS OF LAW

Under ***SRBA Administrative Order 1***, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be recommended for each subcase.

Under I.R.C.P. 41, an action may be dismissed with prejudice by stipulation or court order. The record on file for this subcase, particularly the *Stipulation to Dismiss Objection and Dismiss United States as a Party,* clearly establishes the intent of the parties that this subcase be decreed as recommended.

Therefore, based on the file and record herein, IT IS RECOMMENDED that subcase 57-10854 be **decreed** as recommended in the ***Preliminary Special Master's Report.***

IT IS SO RECOMMENDED.

Case No. 39576	)	
	)	**FINDINGS OF FACT AND CONCLUSIONS OF LAW FOR**
	)	**WATER RIGHT NO: 57-10854**

FINDINGS OF FACT

A notice of claim was filed for this water right to pursuant to I.C.§ 42-1409(1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 2 (Basin 57), which includes portions of Owyhee County. The Director of the Idaho Department of Water Resources then filed a *Director's Report for Reporting Area 57 (Director's Report)* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-10854 was filed on February 26, 1993, by the United States Bureau of Reclamation. A response to the objection was filed on July 1, 1993 by the State of Idaho Department of Water Resources.

On February 16, 1996, the United States and GEM Irrigation District filed *Parties' Stipulation to Consolidate Subcases*. An ***Order Consolidating Subcases (Order)*** was issued February 21, 1996, the ***Order*** consolidated subcases 57-02118, 57-02177, 57-04104, 57-10854, 57-10912, 57-10913 and 57-10807.

On April 3, 1996, the parties, the United States Bureau of Reclamation, and GEM Irrigation District filed a *Stipulation to Dismiss Objection and Dismiss the United States as a Party (Stipulation)*, which stated in part: "[t]he parties further agree that the water right filed by the United States on behalf of the Bureau of Reclamation, Subcase No. 57-10854, should be decreed as recommended." *Stipulation*, ¶ 7. Subsequently, the United States' objection was dismissed. ***Order Dismissing Objections,*** Apr. 8, 1996. On April 10, 1996, the United States' and GEM Irrigation filed *Parties' Stipulation to Amend Prior Stipulation to Dismiss Objection and Dismiss the United States as a Party*, which further clarified the parties' intent that water right 57-10854 should be decreed.

CONCLUSIONS OF LAW

Under ***SRBA Administrative Order 1***, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be recommended for each subcase.

Under I.R.C.P. 41, an action may be dismissed with prejudice by stipulation or court order. The record on file for this subcase, particularly the *Stipulation to Dismiss Objection and Dismiss United States as a Party,* clearly establishes the intent of the parties that this subcase be decreed as recommended.

Therefore, based on the file and record herein, IT IS RECOMMENDED that subcase 57-10854 be **decreed** as recommended in the ***Preliminary Special Master's Report.***

IT IS SO RECOMMENDED.

DATED February 9, 1996.

II. STATEMENT OF THE RESPONSE

1. |X| Name and Address: I respond to the objection concerning the name and/or address of the owner of the water right.

2. |X| Source: I respond to the objection concerning the source of water.

11. |X| Remarks: I respond to the objection concerning the "remarks" listed with the water right.

12. |X| Water Right Recommendation: I respond to the objection concerning:

12a. |X| This water right being recommended at all.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 1, 2, 11, 12, and 12a., and all allegations of the objection regarding these items IDWR responds as follows: IDWR is informed and therefore believes that the United States holds an Oregon water right for the storage of water pursuant to Oregon law in the Owyhee Reservoir. IDWR further recognizes that this water is diverted and stored in Oregon, transported by canal into Idaho, injected into and rediverted from Succor Creek and then put to beneficial use in Idaho. The director's report acknowledges the

use of natural channels in Idaho for the conveyance of stored water diverted in other states in general provision 7. The source of this right is Succor Creek. This right is therefore limited to the flow of Succor Creek; the recommendation does not include any right to storage water that is being conveyed in the natural channel of Succor Creek. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

(Over)

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

U.S. Department of Interior

Address: 1150 North Curtis
Boise, Idaho 83706-1234

Briefly describe your interest in this water right:

The claim of the irrigation district may encompass the 30 cfs (more or less) of Reclamation Project water originating from the Owyhee Reservoir, Oregon, which was claimed in the name of the United States in claim number 57-10807. U.S. claim number 57-10807 was not recommended by the Director. That failure to recommend claim number 57-10807 was, we believe, an error by the Director.

2. Owner of the water right:

Name: **Claimant: Gem Irrigation District**

Address: **PO Box 67**

Homedale, Idaho 83628

3. **If this objection is filed by an attorney:**

Attorney Name: K. Jack Haugrud
Daria J. Zane

Attorney Address: U.S. Department of Justice
550 West Fort Street
Box 33
Boise, Idaho 83724

Attorney Phone No.: 202-272-4134
202-272-8351

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

II. STATEMENT OF THE OBJECTION

Please check each "box" which states your objection to the recommendation in the Director's Report.

1. ☒ Name and Address: I object to the name and/or address of the owner of the water right.

2. ☒ Source: I object to the source of water.

3. ☐ Quantity: I object to:

   a. ☐ the total quantity of water used in cubic feet per second; or

   b. ☐ the total quantity of water stored in acre-feet per year; or

   c. ☐ the total quantity of water reserved for each and every purpose, including all present and future uses.

4. ☐ Priority Date: I object to the priority date.

5. ☐ Points of Diversion: I object to the legal description of the point(s) of diversion.

6. ☐ Instream Flow: I object to the legal description of the beginning and ending points of the instream flow.

7. ☐ Purpose(s) of Use: I object to the purpose(s) of use.

8. ☐ Period of Year: I object to the period of year when water is used or is necessary for the purpose stated.

9. ☐ Place of Use: I object to:

   a. ☐ the legal description of the place of use; or

   b. ☐ the number of irrigated acres within each forty (40) acre subdivision.

10. ☐ Consumptive Use: I object to the annual volume of consumptive use.

11. ☒ Remarks: I object to the "remarks" listed with the water right.

(Over)

12. ☒ Water Right Recommendation: I object to:

a. ☒ this water right being recommended at all; or

b. ☐ this water right not being recommended.

13. ☐ Description of Reservation: I object to the legal description of the reservation.

14. ☐ Other: I object to: _____

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 1: The United States may be the appropriate holder of title of all or a portion of this "right" recommended to the irrigation district.

Box 2: The source of a portion of this "right" may be the Owyhee River.

Box 11, 12(a): The United States of America, acting through the Regional Director, PN Region, USBR, objects to this water right recommendation because it may involve some or all of water associated with U.S. claim 57-10807 which was erroneously not recommended. That claim is based upon storage of water pursuant to Oregon law in the Owyhee Reservoir, which water is released and transported via canal over the Idaho state line for discharge into Succor Creek, from which it is subsequently rediverted for district use pursuant to federal contract. The United States should be recognized as retaining title to the waters originating from the Owyhee Reservoir through their rediversion from Succor Creek to the district. The United States requires recognition of its rights to be assured that Owyhee Reservoir water transported through Succor Creek is not decreed or administered as if it were natural flow subject to any sort of adverse appropriation in Idaho. The United States must be recognized as title holder of record to U.S. claim 57-10807 in order to be assured of notice of state activities concerning Owyhee Reservoir waters and to participate in their protection for project purposes. This claim must be reconciled with U.S. claim 57-10807.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The report should explicitly recognize the Unites States' interest in certain waters imported to Idaho from the Owyhee River and the Owyhee Reservoir.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary. _____

REMARKS:
This place of use reflects those acres irrigated since 1906 & prior to Dwyer Res. going in. After Dwyer Res. was built & water was diverted into Succor Creek & re-diverted at Jem's P.O.D.'s for the Patch & McDowell ditches an increase in acres occurred. Therefore, the remaining acres not covered

Slope Data

Basis: High water mark (X) Channel bottom ( ) Land surface ( )

Channel length from cross section: Upstream 99' Downstream 126'

Total channel length used for slope measurement: 225'

Rod reading at engineers level: —

Upstream rod reading 6.99 - High Water Mark(if taken from channel bottom) — = 6.99

Downstream rod reading 7.16 - High Water Mark(if taken from channel bottom) — = 7.16

Note: The downstream rod reading must be higher than the upstream rod reading.

Calculation prepared by: JAN SHURTE
Comments about the measurement:

The results of the calculation are:
The length of the channel measured is 225 feet.
The upstream and downstream rod readings are 6.99 and 7.16 feet.
The channel cross section is 11.64 ft-sq.
The wetted perimeter is 9.95 feet.
The hydraulic radius is 1.17 feet.
The slope is 0.0008
The roughness coefficient is 0.0250
The flow velocity is 1.819 ft/sec.
The rate of flow is 21.18 cfs.

Slope Data

Basis: High water mark (X) Channel bottom ( ) Land surface ( )

Channel length from cross section: Upstream 221' Downstream 288'

Total channel length used for slope measurement: 509'

Rod reading at engineers level: —

Upstream rod reading 9.52' - High Water Mark(if taken from channel bottom) — = 9.52'

Downstream rod reading 9.87' - High Water Mark(if taken from channel bottom) — = 9.87'

Note: The downstream rod reading must be higher than the upstream rod reading.

MANNING EQUATION CHANNEL CAPACITY RESULTS 08-15-1980

File Number: A57-10845
Claimant: GEM IRRIG. DIST.
Channel measured: SUCCOR CREEK
Date of measurement: 11-19-90
Measurement location:
MCDOWELL DITCH
Calculation prepared by: JAN SHURTE
Comments about the measurement:

The results of the calculation are:
The length of the channel measured is 509 feet.
The upstream and downstream rod readings are 9.52 and 9.87 feet.
The channel cross section is 6.17 ft-sq.
The wetted perimeter is 8.24 feet.
The hydraulic radius is 0.75 feet.
The slope is 0.0007
The roughness coefficient is 0.0250
The flow velocity is 1.289 ft/sec.
The rate of flow is 7.96 cfs.

RECOMMEND 10 CFS AS CLAIMED.
HIGH WATER MARK WAS A LITTLE DIFFICULT TO IDENTIFY EXACTLY DUE TO BRUSH + WEEDS IN DITCH. MANNINGS MAY HAVE COME OUT TOO LOW DUE TO THIS INACCURACY. JS

Diversion dam in Succor Creek approx. 12' High and 85' wide concrete structure with two diversion headgates. One headgate is the Patch ditch on the northside of the dam and one headgate is the McDowell ditch on the southside. The Patch ditch headgate is 2-36" headgates gravity flows into ditch. McDowell headgate at the dam is a 24" opening into a cement headbox which has an 18" headgate gravity flows into the McDowell ditch. The Patch ditch gravity flows in a northwesterly direction for 1 mile before draining into the Snake River. It empties into a drain near the stateline & then empties into the river. The McDowell ditch gravity flows in an easterly direction for 2 miles, then turns due south for approx. ¼ mile and ends. Natural (or waterways) divert from both ditches for the acreage shown. Owyhee Reservoir & Snake River water is co-mingled & then injected into Succor Creek and re-diverted thru these two ditches.

A57-04104

Dear Jan:

This letter is to clarify as was discussed in our telephone conversation of 10/16/90 that the "Priority Date" on the two above referenced claims in the Snake River Basin Adjudication were based on the 1906 priority date taken from the old Permits #94, 922, and 925 (now 57-2001, 57-2002 and 57-2003). Gem Irrigation District acquired all water rights and licenses of the Patch Co-Op Canal Co., Ltd. and the Succor Creek Irrigation District. The rights are also claimed by the Gem Irrigation District as successors to J. G. Tracy, J. W. McDowell, and B. F. McDowell and their successors, by permit #2879 posted November 5, 1902.

The waters of the Succor Creek #57-04103 and Sage Creek #57-04104 are co-mingled and service the same lands.

If you have any questions or need further clarification on these two claims, please call us at 337-3760.

Sincerely,

Joyce Cuddeback

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

Dear Jan:

Please find enclosed copies of the data entries of our claims A57-04103, A57-04104, A02-00064, and A02-00065. They have been signed and notarized.

On claims A57-04103 and A57-04104, I had made a calculation error and the correct total should be the 2,909.8 as shown on your print-out. On claims A02-00064 and A02-00065, I inadvertently added in the City of Homedale for 343.75 acres and City of Marsing for 212.66 acres for a total of 556.41 acres which was actually a double entry as they had already been entered in the quarter/quarter descriptions as place of use. The total for these two claims should be 23,173.8 as shown on your print-out.

In Item #14 "Remarks" I have drawn a line through the remarks pertaining to the city acreages. You may want to make that deletion from your data entry in the computer.

With the correctd acreage totals, our filing fees should have been $23,174 ($1.00 per acre) plus $300 (six filings at $50 each) for a total of $23,474. Our original adjudication fee paid was $24,031, which would result in a $557 overpayment.

I do apologize for the inconvenience my errors have made for you. We would like to request the $557 refund, and would like to extend a "Thank you" for your assistance and patience with us in this matter.

Sincerely,

Dear Mr. Hulton;

Please find attached receipt #W003966 for $24,031.00 for the above listed Adjudication Claims. Also attached are the carbon copies of your original submittals, copies of the data entries of the claims, and copies of the lands listed you submitted with the claims.

During the review process, we have found discrepancies between the lands lists submitted and the total number of acres noted on the four of the claims. Your lands lists indicate 2,909.8, 2,909.8, 23,173.8, 23,173.8 acres for claims A57-04103, A57-04104, A02-00064, and A02-00065, respectively. However, the Total Acres Claimed on the claims are 3,025.4, 3,025.4, 23,730.21 and 23,730.21 acres for A57-04103, A57-04104, A02-00064 and A02-00065 respectively. Because of the size of the discrepancies, we would like your organization to review the lands lists and let us know if there was a calculation error on your part or that not all of the acres on the lands list were properly highlighted for the submittals.

These discrepancies would also indicate a sizable refund may be in order.

Please review the materials and respond promptly as we have begun the claims verification process in Owyhee County and must process your claims for the Fifth District Court this season.

Dear Mr. Flinders and Mr. Burleigh:

This is to confirm our conversation Thursday regarding the Bureau of Reclamation's objections in the above-references subcases. As we discussed, based on the letter received from IDWR, a copy of which is enclosed, the Bureau of Reclamation intends to withdraw its objection to its own water right claim 57-10807. The Bureau agrees that in the future, pursuant to 42-801, IDWR shall be notified if and when Succor Creek is to be used to transport stored water. The Bureau will make an appropriate arrangement with GEM Irrigation District regarding this.

In addition, as stated at the status conference, the Bureau also plans to withdraw its other objections. The sole reason the United States has not to date moved to withdraw these is to allow time for GEM and IDWR to visit the district and verify the flow measurements. It had been anticipated this would occur last week. However, I understand that due to weather, it has not been possible to check the flows.

Given the Bureau desires to avoid any further litigation expenses and because a settlement conference is set for next

Monday, April 8, 1996, the Bureau would like to withdraw its objections now. As mentioned in our conversation, the Bureau would like GEM to stipulate to this withdrawal.

As we discussed, even if the Bureau withdraws its objection and it is determined that the original recommendation on flows is incorrect, the matter can be resolved. IDWR would simply file a supplemental report as provided for by statute. Further, should the Bureau's objection be dismissed and IDWR and GEM Irrigation District are unable to resolve the flows issue, GEM would be able to file a motion for late objection. IDWR has stated that they would not oppose such a motion.

A draft stipulation is enclosed. Please review the stipulation and let me know by COB Wednesday, April 3, 1996, if this is acceptable. If not acceptable, please call immediately so we can discuss this matter. We may be in a position of filing a motion to dismiss over objection. Before doing this, however, we want to discuss this matter and try to reach an amicable resolution while at the same time avoiding future litigation expenses.

Your cooperation and prompt attention is appreciated. Please call me should you have any questions, 202/305-0471.

STIPULATION TO DISMISS OBJECTION AND
DISMISS THE UNITED STATES AS A PARTY

The parties, GEM Irrigation District, and the United States, submit this stipulation resolving the objections filed by the United States. As support for this stipulation, the parties state that:

1. GEM Irrigation District filed claims in the following subcases: 57-02118, 57-02177, 57-04104, 57-10854, 57 10912 and 57-10913. The purpose of use of the rights are irrigation.

2. Subsequently, the claims were recommended by IDWR in its Director's Report.

3. The United States, on behalf of the Bureau of Reclamation, filed objections to these claims.

4. The United States also filed a claim in 57-10807. IDWR recommended that this claim be disallowed.

5. Subsequently, this subcase was consolidated with the following subcases: 57-02177, 57-04104, 57-10807, 57-10854, 57-10912 and 57-10913.

6. The parties have discussed this matter and agreed that the United States' objections in each of these subcases are no longer necessary.

7. The United States counsel has discussed this matter with the Idaho Department of Water Resources and it has no objection to the withdrawal of the United States' objections and the dismissal of the United States as a party to these subcases.

WHEREFORE, for the foregoing reasons, the parties stipulate to and request that the Court dismiss the objections filed by the United States and dismiss the United States as a party to these subcases.

Respectfully submitted.

Dear Mr. Flinders, Ms. Krogh and Mr. Burleigh:

This is to confirm our agreement on how to proceed in the above-referenced subcases pursuant to our discussion after the scheduling conference on March 5, 1996. The United States is prepared to dismiss its objections to GEM's claims, subcases 57-02118, 57-02177, 57-04104, 57-10854, 57-10912 and 57-10913.

At the same time, the issue was raised as to whether the quantities recommended for each of these claims is accurate. To resolve all issues relating to these claims, it was agreed that Mr. Hutton and Ms. Shurte from IDWR would visit these points of diversion during the first few days of April to determine the correct quantities.

If there are no changes to the quantities as recommended, the parties will execute a stipulation to dismiss these objections. If there are changes to be made, IDWR will make these changes to its recommendation and draft an SF5 that reflects these changes. It is agreed that the SF5s for the Succor Creek rights will include the language that is currently contained in remarks that states

use of natural channels in Idaho for the conveyance of stored water diverted in other states in general provision 7. The source of this right is Succor Creek. This right is therefore limited to the flow of Succor Creek; the recommendation does not include any right to storage water that is being conveyed in the natural channel of Succor Creek. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

I. GENERAL INFORMATION

Please fill in the following information:

1. Person objecting:

Name: United States of America
Bureau of Reclamation
U.S. Department of Interior
Address: 1150 North Curtis
Boise, Idaho 83706-1234

Briefly describe your interest in this water right:

The claim of the irrigation district may encompass the 30 cfs (more or less) of Reclamation Project water originating from the Owyhee Reservoir, Oregon, which was claimed in the name of the United States in claim number 57-10807. U.S. claim number 57-10807 was not recommended by the Director. That failure to recommend claim number 57-10807 was, we believe, an error by the Director.

2. Owner of the water right:

Name: **Claimant: Gem Irrigation District**

Address: **PO Box 67**

Homedale, Idaho 83628

3. **If this objection is filed by an attorney:**

Attorney Name: K. Jack Haugrud
Daria J. Zane

Attorney Address: U.S. Department of Justice
550 West Fort Street
Box 33
Boise, Idaho 83724

Attorney Phone No.: 202-272-4134
202-272-8351

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

II. STATEMENT OF THE OBJECTION

Please check each "box" which states your objection to the recommendation in the Director's Report.

1. ☒ Name and Address: I object to the name and/or address of the owner of the water right.

2. ☒ Source: I object to the source of water.

3. ☐ Quantity: I object to:

   a. ☐ the total quantity of water used in cubic feet per second; or

   b. ☐ the total quantity of water stored in acre-feet per year; or

   c. ☐ the total quantity of water reserved for each and every purpose, including all present and future uses.

4. ☐ Priority Date: I object to the priority date.

5. ☐ Points of Diversion: I object to the legal description of the point(s) of diversion.

6. ☐ Instream Flow: I object to the legal description of the beginning and ending points of the instream flow.

7. ☐ Purpose(s) of Use: I object to the purpose(s) of use.

8. ☐ Period of Year: I object to the period of year when water is used or is necessary for the purpose stated.

9. ☐ Place of Use: I object to:

   a. ☐ the legal description of the place of use; or

   b. ☐ the number of irrigated acres within each forty (40) acre subdivision.

10. ☐ Consumptive Use: I object to the annual volume of consumptive use.

11. ☒ Remarks: I object to the "remarks" listed with the water right.

(Over)

MICROFILMED
JUL 2 1 1994

12. ☒ Water Right Recommendation: I object to:

a. ☒ this water right being recommended at all; or

b. ☐ this water right not being recommended.

13. ☐ Description of Reservation: I object to the legal description of the reservation.

14. ☐ Other: I object to: _____

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 1: The United States may be the appropriate holder of title of all or a portion of this "right" recommended to the irrigation district.

Box 2: The source of a portion of this "right" may be the Owyhee River.

Box 11, 12(a): The United States of America, acting through the Regional Director, PN Region, USBR, objects to this water right recommendation because it may involve some or all of water associated with U.S. claim 57-10807 which was erroneously not recommended. That claim is based upon storage of water pursuant to Oregon law in the Owyhee Reservoir, which water is released and transported via canal over the Idaho state line for discharge into Succor Creek, from which it is subsequently rediverted for district use pursuant to federal contract. The United States should be recognized as retaining title to the waters originating from the Owyhee Reservoir through their rediversion from Succor Creek to the district. The United States requires recognition of its rights to be assured that Owyhee Reservoir water transported through Succor Creek is not decreed or administered as if it were natural flow subject to any sort of adverse appropriation in Idaho. The United States must be recognized as title holder of record to U.S. claim 57-10807 in order to be assured of notice of state activities concerning Owyhee Reservoir waters and to participate in their protection for project purposes. This claim must be reconciled with U.S. claim 57-10807.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The report should explicitly recognize the Unites States' interest in certain waters imported to Idaho from the Owyhee River and the Owyhee Reservoir.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary. _____
