OBJECTION

RECEIVED

MAR 0 1 1993

Department of Water Resources
Adjudication Bureau

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

(Over)

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

I. GENERAL INFORMATION

Please fill in the following information:

1. Person objecting:

Name: United States of America
Bureau of Reclamation
U.S. Department of Interior
Address: 1150 North Curtis
Boise, Idaho 83706-1234

Briefly describe your interest in this water right:

The claim of the irrigation district may encompass the 30 cfs (more or less) of Reclamation Project water originating from the Owyhee Reservoir, Oregon, which was claimed in the name of the United States in claim number 57-10807. U.S. claim number 57-10807 was not recommended by the Director. That failure to recommend claim number 57-10807 was, we believe, an error by the Director.

2. Owner of the water right:

Name: Claimant: Gen Irrigation District
Address: PO Box 67
Homedale, Idaho 83628

3. If this objection is filed by an attorney:

Attorney Name: K. Jack Haugrud
Daria J. Zane
Attorney Address: U.S. Department of Justice
550 West Fort Street
Box 33
Boise, Idaho 83724
Attorney Phone No.: 202-272-4134
202-272-8351

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 1: The United States may be the appropriate holder of title of all or a portion of this "right" recommended to the irrigation district.

Box 2: The source of a portion of this "right" may be the Owyhee River.

Box 11, 12(a): The United States of America, acting through the Regional Director, PN Region, USBR, objects to this water right recommendation because it may involve some or all of water associated with U.S. claim 57-10807 which was erroneously not recommended. That claim is based upon storage of water pursuant to Oregon law in the Owyhee Reservoir, which water is released and transported via canal over the Idaho state line for discharge into Succor Creek, from which it is subsequently rediverted for district use pursuant to federal contract. The United States should be recognized as retaining title to the waters originating from the Owyhee Reservoir through their rediversion from Succor Creek to the district. The United States requires recognition of its rights to be assured that Owyhee Reservoir water transported through Succor Creek is not decreed or administered as if it were natural flow subject to any sort of adverse appropriation in Idaho. The United States must be recognized as title holder of record to U.S. claim 57-10807 in order to be assured of notice of state activities concerning Owyhee Reservoir waters and to participate in their protection for project purposes. This claim must be reconciled with U.S. claim 57-10807.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The report should explicitly recognize the United States' interest in certain waters imported to Idaho from the Owyhee River and the Owyhee Reservoir.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 1, 2, 11, 12, and 12a., and all allegations of the objection regarding these items, IDWR responds as follows: IDWR is informed and therefore believes that the United States holds an Oregon water right for the storage of water pursuant to Oregon law in the Owyhee Reservoir. IDWR further recognizes that this water is diverted and stored in Oregon, transported by canal into Idaho, injected into and rediverted from Succor Creek and then put to beneficial use in Idaho. FINDINGS OF FACT

A notice of claim was filed for this water right to pursuant to I.C. § 42-1409(1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 2 (Basin 57), which includes portions of Owyhee County. The Director of the Idaho Department of Water Resources then filed a *Director's Report for Reporting Area 57 (Director's Report)* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-10913 was filed on February 26, 1993, by the United States Bureau of Reclamation. A response to the objection was filed on July 1, 1993 by the State of Idaho Department of Water Resources.

On February 16, 1996, the United States and GEM Irrigation District filed *Parties' Stipulation to Consolidate Subcases*. An *Order Consolidating Subcases (Order)* was issued February 21, 1996, the *Order* consolidated subcases 57-02118, 57-02177, 57-04104, 57-10854, 57-10912, 57-10913 and 57-10807.

PRELIMINARY MASTERS REPORT
AND RECOMMENDATION
9/3/96

On April 3, 1996, the parties, the United States Bureau of Reclamation, and GEM Irrigation District filed a *Stipulation to Dismiss Objection and Dismiss the United States as a Party (Stipulation)*, which stated in part: "[t]he parties further agree that the water right filed by the United States on behalf of the Bureau of Reclamation, Subcase No. 57-10913, should be decreed as recommended." *Stipulation*, ¶ 7. Subsequently, the United States' objection was dismissed. *Order Dismissing Objections*, Apr. 8, 1996. On April 10, 1996, the United States' and GEM Irrigation filed *Parties' Stipulation to Amend Prior Stipulation to Dismiss Objection and Dismiss the United States as a Party*, which further clarified the parties' intent that water right 57-10913 should be decreed.

CONCLUSIONS OF LAW

Under *SRBA Administrative Order 1*, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be recommended for each subcase.

Under I.R.C.P. 41, an action may be dismissed with prejudice by stipulation or court order. The record on file for this subcase, particularly the *Stipulation to Dismiss Objection and Dismiss United States as a Party*, clearly establishes the intent of the parties that this subcase be decreed as recommended.

Therefore, based on the file and record herein, IT IS RECOMMENDED that subcase 57-10913 be decreed as recommended in the *Preliminary Special Master's Report*.

IT IS SO RECOMMENDED.

REMARKS:

The place of use for this right & 57-10912 reflects the additional acres irrigated after Doyle Res. began injecting water into Succor Ch & supplement the Succor Ch irrigation. More accessible & longer irrig. season caused mor acres to go in however, diversion rate remained the same because the ditches were not enlarged at this time. (DIV. DITCH FROM SAGE ON SUCCOR)

REMARKS:

This WR was written based on recommendations of 2-12-92 and after the prop. recommended rights were sent & Gen had some changes as a result of the notice of error procedure. This procedure allowed them to add acres they left off which use Gen water but don't get assessed for it. acres are within the dist. boundaries & will now be assessed.

SYSTEM DESCRIPTION ATTACHMENT TO CLAIM VERIFICATION REPORT

CLAIM NO. 57-04104 & 57-10913 - JAGE CREEK.

Diversion from Jage Creek consists of a Cement & wood diversion dam in Jage Creek approx. 75' ~~below~~ ^{below} diversion ditch. Water is dammed up and forced thru ~~the~~ a 30" headgate located on the westside of the creek, then thru a 30" pipeline underground for a short distance (under road by creek) & into an open ditch which flows northeast towards Tuccon Creek. Approx. $\frac{1}{4}$ mile after the diversion this ditch splits into 2 ditches. One is a 24" underground pipeline which takes a straight north direction and empties directly into the Patch Canal - note - this pipeline crosses over the McDowell ditch. The 2nd ditch ^{WITH AN 18" CONCRETE PIPE,} splits off in a northerly direction & empties into the McDowell ditch within a $\frac{1}{4}$ mile from the split. Therefore, Jage Creek water can supply both the Patch & McDowell ditches which divert Tuccon Creek water under 57-10854 & 57-10912.

57-04104 ¹⁹⁰⁶ & 57-10854 are Jage Cr & Tuccon Cr rights for the same land and ~~57-10912~~ ^{MICROFILMED} 57-10912 are also for Jage Cr & Tuccon Cr added lands in 1937 & are for the same lands. Irrigation thru the Patch - McDowell via delivery by Gen. Inig.
