Review By IDWR

To speed up the entry of a decree, the parties are encouraged to talk to the Idaho Department of Water Resources (IDWR) about their proposed settlement and have IDWR indicate its concurrence by signing the Standard Form 5.

Where all parties have signed, a Standard Form 5 may be filed with the court without the concurrence of IDWR. However, the parties must certify that they have served IDWR with a copy of Standard Form 5 and that they have made a good faith attempt to resolve the matter with IDWR.

Within 14 days of filing a Standard Form 5 not containing an IDWR concurrence, IDWR shall file a statement of its position with the court.

If IDWR has not concurred by signing below, signing parties certify that they have served a copy of this document on IDWR and have made a good faith attempt to obtain its concurrence, but have failed.

Worked out with Andrew 03/21/97:

- confirmed deletion of two source descriptions:

 - Farrot Ck to Salmon Ck, and

 - Macks Ck, N.F. to Macks Creek.

- confirmed that another source is now singular rather than plural:

 - Unnamed Stream to Babbington Ck.

- all BWI #12 remarks utilized.

- determined that total combined diversion rate remark was unnecessary.

- walked through POD redefinition process as shown on map, so if Fred captured what was on map correctly onto the draft SF-5, then PODs are redefined correctly.

- there were two PODs that Andrew and I could not determine how the deletions affected their counterpart. Need Roxanne to look at them.

De minimis stockwater use.

Review By IDWR

To speed up the entry of a decree, the parties are encouraged to talk to the Idaho Department of Water Resources (IDWR) about their proposed settlement and have IDWR indicate its concurrence by signing the Standard Form 5.

Where all parties have signed, a Standard Form 5 may be filed with the court without the concurrence of IDWR. However, the parties must certify that they have served IDWR with a copy of Standard Form 5 and that they have made a good faith attempt to resolve the matter with IDWR.

Within 14 days of filing a Standard Form 5 not containing an IDWR concurrence, IDWR shall file a statement of its position with the court.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right on public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The Directors report should be changed to recommend disallowance of this claim.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary. _____

Dear Claimant(s):

On June 30, 1992, the Bureau of Land Management (BLM) submitted notices of claim to water rights located on BLM lands within the Department's administrative Basin 57 boundary located in Owyhee County. Your Notice of Claim(s) referenced above was filed for water uses on BLM lands for which BLM has filed a claim(s), on all or part of this right(s). Any rights you may have filed on BLM lands for which no claim was filed by BLM will remain in your name.

Based on information currently available to the Department, the water right(s) for these uses is held by the BLM. Therefore, your claim(s) is being partially or completely disallowed and the uses recommended under the BLM claim(s).

The report for Basin 57 is due to be filed with the court on October 1, 1992, therefore, if you have any questions concerning these recommendations, you may contact us for copies of these rights.
