Dear Lina:

I have finished reviewing your claims based on information obtained on 11/9/1998. I am sending two amended claims, 61-04016 (unnamed stream) and 61-04021 (Latty Hot Springs) for you to sign, have notarized, and return to me. The amended claims are needed as I am recommending more acreage than was originally claimed. When you receive a copy of my recommendation, next month, you will notice the diversion amounts will be less than what appears on the claim. This does not mean that you will get less water than you have in the past, rather it is an accurate representation of the system capacity.

Your licensed rights 61-02202, 61-02124 for groundwater and 61-02029 for Alkali Creek are being recommended essentially the same as they were licensed.

Please return the notarized claim forms to me by November 20, 1998. If you have any questions please call me.

Thank you,

RE: Snake River Basin Adjudication (SRBA)
Claim No(s): A61-04016, A61-04021, A61-10020
Elmore County

Dear Ms. Dillingham,

We have completed our initial review of your water right claims in the SRBA. There are additional questions concerning the priority dates for these rights. Specifically:

A61-04016 The claimed priority date is June 1, 1955; the affidavits submitted in support of this date document use back to 1971 only. Please submit more specific information concerning the construction of diversion works and the application of water to the land claimed. We need a more precise date, or at least some reference to the time of year the work was completed.

A61-04021 The claimed date of priority (April 17, 1882) is roughly supported for irrigation by a copy of a notice found in Book 13, Page 11 of Water Rights filed in Mountain Home, Idaho. However, this notice does not support use of water from the hot springs for domestic and heating purposes. An additional claim may be required to represent these uses with a more appropriate priority date. The priority date for domestic and heating uses would be the date water was first used for these purposes. Please either provide evidence that water from the hot springs was used for domestic and heating purposes back to the claimed priority date (1882) or consider filing an additional claim or application for permit.

A61-10020 We have not received evidence in support of use from the spring shown on this claim. Please provide documentation of this use.

Please contact me in Boise at (208)327-7925 if I can be of any help.

Sincerely,

Roxanne McCarthy

Dear Claimant,

The Department of Water Resources will be conducting adjudication claim verification examinations in your area in August and September, 1994. After these examinations are complete, your water rights will be recommended for decree by Judge Hurlbutt in the Snake River Basin Adjudication. The recommendations will be based on our findings in the field.

Information on your claims that may need to be verified includes: the source of water used, water uses and amounts of use, legal descriptions of the point of diversion and place of water use, etc..

It is not mandatory that you accompany the field agent during the examination. However, it would be very helpful if you, or a knowledgeable representative, could be available should questions arise.

I will be contacting you to schedule the examination. If you have questions, or are ready to schedule the examination now, please call me at (208)327-7925 in Boise. I would be glad to work with your representative in Idaho.

Sincerely,

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
