ESTIMATING CONVEYANCE LOSS

Formula:

$$S = (W)(i)(0.0667)$$

where:

S is loss in cfs per mile
W is the top width of the high water mark in feet
i is the loss rate in feet per day (see Table)
0.0667 is a factor used to convert to cfs per mile

Table:

Type of soil	Loss rate i (ft/day)
medium clay loam	0.5 to 1.5
impervious clay	0.5
<u>medium soils</u>	1.0
somewhat pervious soils	1.5 to 2.0
gravel	2.5 to 5.0

Worksheet:

$$S = (2.6 \text{ ft})(1.0 \text{ ft/day})(0.0667)$$

$$S = 0.17 \text{ cfs/mi}$$

$$\text{Conveyance loss} = (S)(\text{length of ditch in miles})$$

$$\text{Conveyance loss} = (0.17 \text{ cfs/mi})(1.89 \text{ mi})$$

$$\text{Conveyance loss} = 0.32 \text{ cfs}$$

NOTES:

Seems I recall Mr. Walker told me the POD's had been there for quite some time. However, remarks on claim indicate POD change occurred pre-1987. I guess this can be construed as being there a long time. By a long time I mean as long as his owned property & that's been as long as its been in family. He was raised on an adjacent ranch & his family has owned this ranch for a long time. At this time I don't feel proof of change in POD is necessary.

ESTIMATING CONVEYANCE LOSS

Formula: $S = (W)(i)(0.0667)$ where: S is loss in cfs per mile
W is the top width of the high water mark in feet
i is the loss rate in feet per day (see Table)
0.0667 is a factor used to convert to cfs per mile

Table:

Type of soil	Loss rate i (ft/day)
medium clay loam	0.5 to 1.5
impervious clay	0.5
<u>medium soils</u>	1.0
somewhat pervious soils	1.5 to 2.0
gravel	2.5 to 5.0

Worksheet: $S = (26 \text{ ft})(10 \text{ ft/day})(0.0667)$
 $S = 0.17 \text{ cfs/mi}$
Conveyance loss = (S)(length of ditch in miles)
Conveyance loss = (0.17 cfs/mi)(1.89 mi)
Conveyance loss = 0.32 cfs

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
