RE: Water Rights in Reporting Area 6, Basin 61
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in basin 61 (largely the area of Elmore County south of the Bennett Mountains) a part of Reporting Area 6. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Mountain Home and Boise and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher

Director

Water Right No. A61-04034

Resident
Rt 2 Box 498
Mountain Home, ID 83647

Resident:

Recently a mailing was sent out showing the recommendation we are making for the above referenced claim. The envelope addressed to Theodore Wolford was returned marked, deceased. Mr. Wolford had filed for water rights on his property. We have no way of determining who the current owner is; therefore, we can not change the name on the water right. If you have purchased the property Mr. Wolford owned, this water right should reflect the new ownership.

Before we can modify our records to reflect your new ownership of the water right referenced above, we need Form 42-248/42-1409(6) completed. This form is enclosed for your use. Please return the form and a copy of your warranty deed to this office by December 31, 1998.

Please call me if you have any questions.

Sincerely,

Susan Bock
Sr. Water Resources Agent

Dear Water Right Claimant(s):

The letter you received with the Idaho Department of Water Resources (IDWR) report of its preliminary recommendation of your water right claim(s) in the Snake River Basin Adjudication (SRBA) had the wrong month shown for the meeting in Mountain Home

The meeting will be held on Thursday, December 10th at 7:00 p.m. in the Auxiliary Gymnasium at Mountain Home High School.

I apologize for the error I made and any confusion the letter created.

Sincerely,

Donald V. Shaff
Adjudication Section Manager

P.O. Box 2618
Boise, ID 83701

Dear Ms. Millward:

I have to conduct an examination on the above referenced notice of claim to water right before October 31, 1994. In order to conduct this verification as efficiently as possible, I ask that you contact me before October 17th, 1994, to schedule a day and time convenient for you, if you wish to accompany me. Although you are not required to be present it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany me it would be appreciated.

If I do not hear from you by October 17th, I will assume that you do not wish to accompany me, and I will conduct the verification based on information contained in our records. If you have any questions in regard to the system verification, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

A F F I D A V I T

IN THE MATTER OF NOTICE OF CLAIM
TO A WATER RIGHT, NO. A61-04034
OF THEODORE S. WOLFORD.

STATE OF IDAHO,)
) ss
COUNTY OF ELMORE,)

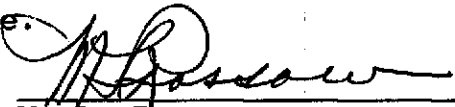

M. L. ROSSOW, being first duly sworn, deposes and says that he is a citizen of the United States of America, of the age of 67 years and that he purchased real property on the Canyon Creed Road in Elmore County, Idaho, in the year 1957. He has resided upon said property ever since that time.

Affiant purchased his real property from Tony Veira and approximately 3 years later affiant made his purchase, Theodore S. Wolford purchased some real property from the same person, which real property is located across the Canyon Creed Road from affiant's property.

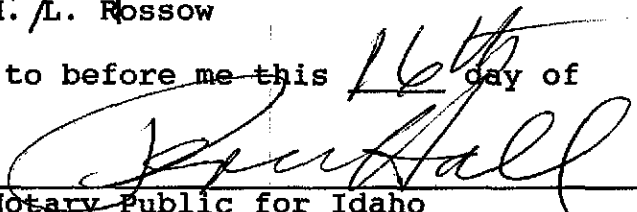

During the early 1960's, Wolford moved a house upon his property and developed two shallow wells which he used for irrigation and domestic purposes. He has irrigated approximately 5 acres located in the Southwest Quarter of the Southeast Quarter of Section Fourteen, Township Three South, Range Six East, Boise Meridian, using approximately 5 inches of water for irrigation, and he has also used approximately 2 inches of water for domestic purposes, including watering livestock. The water was diverted from the wells by means of pumps and motors.

Wolford has continued to use water from said wells for said purposes every year since he purchased his real property and until his death which occurred upon the 4th day of June, 1994.

Affiant makes this affidavit on his own personal knowledge and in support of Wolford's claim to a water right, as indicated above.

M. L. ROSSOW

SUBSCRIBED AND SWORN to before me this 16th day of September, 1994.

RE: NOTICE OF CLAIM NO. A61-04034 Submitted in the Snake River Basin
Adjudication (SRBA)

Theodore S. Wolford
Rt. 2, Box 498
Mountain Home, ID 83647

Dear Claimant:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claim listed above.

This claim was filed based on beneficial use of water dating back to January 1, 1960. On January 28, 1993, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted by March 15, 1993. However, this evidence has not been received in our office as of this date.

Before the Department can make a recommendation to the Court for decree of this claim, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. If we do not receive the requested information, this claim will be recommended for disallow due to lack of evidence supporting any priority date. Your response must be received in our office by the response date shown above.

As soon as I receive the requested information, I need to conduct a field examination of the system under this claim and will be contacting you to set up this exam. If you should have any questions, or feel that you need help in any way, please feel free to contact me.

Sincerely,

KAY WALKER

Re: Claim No(s). Ala1-04034

CECIL D. ANDRUS
GOVERNOR

R. KEITH HIGGINSON
DIRECTOR

THEODORE S WOLFORD
RT 2 BOX 498
MT HOME ID 83647

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.

PHILIP E. BATT
GOVERNOR

KARL J. DREHER
DIRECTOR

November 20, 1998

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Thursday, November 10th at 7:00 p.m. in the Auxiliary Gymnasium at Mountain Home High School.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

Sincerely,

Karl J. Dreher
Director

SRBA CHAMBERS
P.O. BOX 2707
TWIN FALLS, IDAHO 83303-2707

Dear Water Right Claimant,

To help you with your water right claim(s) in the Snake River Basin Adjudication, this information is sent to you by the Idaho Department of Water Resources (IDWR). Included are the following important documents which I ask you to please read carefully because they give you the opportunity to save a great deal of time and money:

1. **Preliminary Recommendation.** This is IDWR's *initial* conclusion about your water right and how it should be reported to the SRBA Court. It is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you filed.

Please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the recommendations are filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

Daniel C. Hurlbutt, Jr.
Presiding Judge
Snake River Basin Adjudication

EXPLANATION OF ELEMENTS OF A WATER RIGHT

To assist you in reviewing the preliminary recommendation of your claim are the following explanations:

Water right number: This number is assigned by IDWR to identify your claim. The first two digits indicate the sub-basin of the Snake River Basin where your claim is located.

Name and address of claimant: This is the name and address shown on the notice of claim form, or on the most recent *Notice of Change of Water Right Ownership* (see enclosed form if you need to change this information) that was filed with IDWR as required by statute.

Source: The source is the natural water body to which the claimant has a right. For surface water sources, the natural water body to which the source is tributary is also shown.

Priority Date: This is the calendar date which is used to determine the relative priority of the right in relation to other rights from the same source, and is determined based on the method of appropriation (see basis of right, below). When there is insufficient water available to satisfy all existing rights, the water right holders with the oldest priorities are entitled to have their water rights satisfied before right holders with newer priorities are entitled to water.

Purpose of Use: Purpose of use indicates the general type of use made on the water, such as irrigation, domestic, or stockwater.

Period of Use: The period of use is the portion of the calendar year when water may be used for a particular purpose.

Quantity: The quantity of the right is the rate of diversion in cubic feet per second (CFS), the volume of water diverted in acre feet per calendar year (AFY), and/or the volume of water stored in AFY. The quantity for each purpose of use is shown, as well as the total quantity.

Non-irrigation Uses: If your preliminary recommendation includes purposes of use other than irrigation, then this element further describes the other purposes of use.

Point of Diversion: The point of diversion is the point at which water is diverted from the source, and is generally described by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot within which the point of diversion is located. In some instances the point of diversion is described by a legal description of the 10 acre tract (1/4 1/4 section or 1/64 section) within which the point of diversion is located.

"B" and "E" suffixes indicate the beginning and ending points of an instream flow right. "I" and "R" suffixes indicate points of injection and rediversion. Points of injection and rediversion are indicated where water is diverted from one source, injected into another source, and then rediverted, or where water from one source is exchanged with water from another source.

Place of Use: The place of use is the location where water is used, which is indicated by a legal description of the 40 acre tract (1/4 1/4 section or 1/16 section) or government lot where the water is used. For irrigation rights, the number of irrigated acres in each 40 acre tract or government lot is listed.

Remarks: Remarks, if any, further describe the particular right. PLEASE REVIEW THE REMARKS CAREFULLY.

Basis of Right: The basis of right may be a decree (where the water right was previously determined by a court); posted notice (an historical method of appropriation that is no longer available); beneficial use (another historical method of appropriation that is available today only in very limited circumstances); permit (where IDWR has granted an application seeking approval of a proposed appropriation); or license (where an appropriation has been completed pursuant to permit).
