INCLUDING THE ANALYSIS OF THE EVIDENCE.

H. IS THE STAGE OF THE CLAIM CODED CORRECTLY? Y() N(☒)

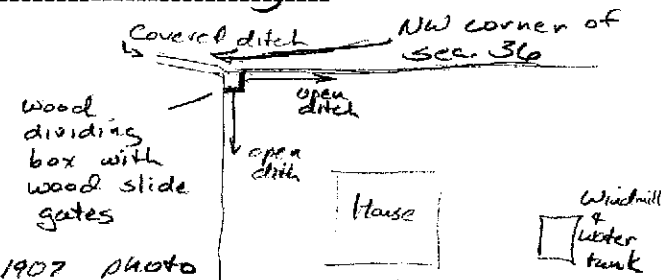

NOTES: Mr. Caldwell showed us two photographs, one from 1906 and the other from 1907. The 1907 photo shows a windmill and water tank. It also shows trees and what appears to be an irrigation ditch coming onto the property at the NW corner of the lawn around the house. A wood division box appears to be in the north west corner of the lawn and ditches appear to run south and east. Even if the well was supplemented with surface water, ground water appears to have been in use in 1907. Recommended priority date is the start of the 1907 irrigation season.

RECOMMENDED PRIORITY DATE:

1 - 1 - 1907

Re: Claim Number A61-04121

This is an affidavit letter in response to your request of January 28, 1993 to validate the priority date of the above claim. My great-grandfather, George Coulthard, purchased Lot 6, T3S, R6E, Sec 36, B.M. in 1904 or 1905 as a gift to my grandmother, Ella Coulthard Caldwell. She and her husband, John W. Caldwell, relocated from Omeemee, N.D. and built a house on the NW corner of the lot. I have pictures of the house dated 1906 & 1907, but they were not taken to show the windmill. This lot was the SW corner of the Village of Mountain Home, and when a city water line was installed around 1920 along the eastern side of the lot, domestic water was no longer drawn from the well. Originally, this well on the north-western side of the lot was used domestically, for stock water and for irrigation of the garden. Another well on the eastern edge of the lot was used for irrigation of the orchard. John was a charter member of the irrigation company and a main ditch was run on the eastern side of the lot. The second well was abandon and ditch water used for orchard and pasture irrigation.

I was born in 1926 and one of my earliest memories (1929) was strict warning not to fall in the well, which was a two-compartment, 4 x 8, dug well used for cooling milk, watermelons, etc. until the mid-thirties when a refrigerator was purchased. During the 20's the windmill was replaced by a Parma water-lifter pump with 2" discharge. I replaced this with a 2 hp centrifugal pump in 1966 when I purchased the property from my Aunt and installed a buried solid-set irrigation system. The State condemned slices of the lot for highway use over time. My Uncle, Spencer Caldwell, placed 55-gallon drums welded together in the well then filled around them with course gravel in 1965 immediately before his death. He was born in the house in 1907, which is my reason for using 1907 as the priority date. My grandfather John told me that he augured several wells when he built the house and finally hired a "witch" who found plentiful water and then the well was hand-dug. This was within a short time after the house was built.

No one is left alive, to my knowledge, who has first-hand knowledge of the accurate priority date. For almost 90 years, stock has been kept on the property, and the water used for stock and garden irrigation. The last stock was a horse which was pastured in 1991.

Re: Claim Number A61-04121

After writing the attached affidavit letter, I called Boise for confirmation that it was satisfactory. I was told to have my signature notarized and submit it. Unfortunately, I have been living in Feather-ville the last two months and there is no Notary here in the valley. I missed taking care of this when I did go down to Mountain Home, but will do so tomorrow. A call to your Boise office today suggested this note explaining why this was late, if it in fact is. Thank you.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
