INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Re: Notice of Error to water right No. 61-04127:

Dear Mr. and Mrs. Lester:

I have received your notice of error reply to water right claim 61-04127. While this claim was originally filed on for 6 mobile homes, evidence of priority was only submitted for one mobile home.

Enclosed is a copy of a letter sent to you on March 3, 1995, requesting an application for permit for any trailers added after March 25, 1963. I am enclosing another application for permit form for you to fill out to add the additional 5 trailers. Our records indicate that as of 1977, when Mr. Allred purchased the property, there were only 4 trailers.

The diversion rate of 0.04 cfs reflects the capacity of the system as measured on September 8, 1994. If you have made upgrades to the system and feel this amount no longer reflects the system capacity, you should note this on the application for permit.

Please give me a call if you have any questions.

Sincerely,

Susan Bock
Sr. Water Resources Agent

Enclosures: Application for permit, letter from March 3, 1995.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

WE OWN A TRAILER COURT WITH 6 TRAILERS ON IT.
YOU HAVE US LISTED AS 1 HOME. IT SEEMS WE WOULD
NEED 6 TIMES THAT AMOUNT FOR THE EQUIVELANT OF
6 HOMES.

2. Describe the changes you wish to make in the proposed recommendation:

QUANTITY OF .04 CFS INCREASED TO 6 TIMES
THAT AMOUNT FOR 6 HOMES ON THE PROPERTY.

3. Give a brief explanation as to why you disagree with these portions:

.04 CFS FOR 1 HOME WILL NOT BE ENOUGH FOR
6 MOBILE HOMES.

 I AGREE with this proposed recommendation; no changes need to be made.

RE: Notice of Claim to a Water Right No. A61-04127

Dear Mr. and Ms. Lester:

An affidavit has been submitted by the original claimant as evidence of the priority date claimed for the above-referenced claim (copy enclosed). The affidavit indicates that water was used for one trailer home in the early 1960's.

On March 25, 1963, the mandatory permit statute for groundwater was enacted by the Idaho legislature under Idaho code, Volume 8, Section 42-229. This statute requires that any new use of water from a groundwater source must have an application for permit filed and approved prior to any diversion of water.

Since the water use is now for six trailers, an application for permit is required for any trailers added after March 25, 1963. Absent additional information, it appears that five trailers were added after this date.

Enclosed is an "Application for Permit" form. It has been partially completed for internal use at five trailer homes. (If you wish to develop irrigation please contact this office before returning the form.) Please review the application carefully and complete the highlighted areas. Initial any changes, add your signature(s), and return it to this office with the \$50.00 application fee. The application will not be accepted without the fee.

If you have any questions or need additional information, please do not hesitate to contact this office.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Maria Minicucci'.

I Linda Cantrell Tveidt was a tenant at Sum Day Subdivision, at lot 11 section 2 in Mtn. Home, Idaho.

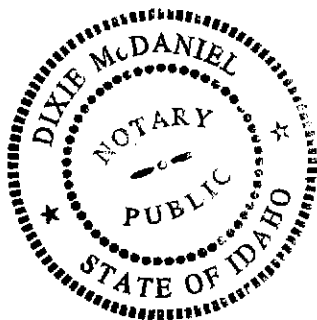

We lived there in the early sixties with my two children. My parents the Cantrell,s lived in the house next door to us, between our trailer and the end of the street.

There was a well on the property where we lived for our domestic use.

I swear this statement to be true to the best of my knowledge.

RE: Notice of Claim to a Water Right No. A61-04127

Dear Mr. and Ms. Lester:

Enclosed is a copy of the above referenced claim which reflects the change in ownership of the land and appurtenant water rights to you.

The claim was filed in the Snake River Basin Adjudication (SRBA) and is based on a "Statutory Claim". Water rights of this type are established by the historical use of the water for a beneficial purpose, dating back to the time the water was first used. The date of first use is called the 'Priority Date'; this date is listed as Item 2. on the claim. Please see the enclosed pamphlet "Idaho Water Rights - A Primer" for more information on different types of water rights.

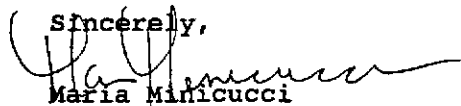

Since the water right has never been confirmed by IDWR, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority. Enclosed is a pamphlet entitled "Evidence of Priority". This pamphlet describes why evidence of the priority date is required, and gives examples of types of evidence that will fulfill this requirement.

The original claimant had not yet submitted any evidence of the priority date, but did contact us several times to update the IDWR of his efforts. During our last contact he indicated that he would contact the Cantrell family of Mountain Home, as they had lived next door when the land was first subdivided. As the current owner of the water right, it is now up to you to provide evidence of the claimed priority date.

If no evidence is submitted by the Response Date at the top of this letter, your water right may not be recommended to the court for decree. This could jeopardize your water use under this right.

If you have any questions regarding this letter or need additional information, please contact this office.

Sincerely,

Maria Minicucci

Nature of Contact Evidence of priority

Substance of Communication Mr. Allred stopped by the office to discuss his search for evidence. He went to the title company and to the recorder's office but the documents do not mention the trailers. He knows, through his family, a woman who's parents lived next door (Cantrell family). He will contact her for a statement regarding the development of that property.

- I was unable to find any information on the property at the county courthouse, but Mrs. Becker at the recorder's office suggested power company records and/or the title company. I passed this information on to Mr. Allred and he indicated he would follow up & send any evidence to this office.
