RE: SPLIT CLAIM TO REFLECT LICENSES

Upon initial review of this claim I found that it was not based upon beneficial use and was based upon two licenses with the same date of priority. I talked with the claimant on June 24, 1994, and asked him if these systems had been interconnected and he replied that they were not but that they were very close to each other. He had been advised by an employee of our Department to file on these licenses under one claim. He told me at that time that he would come into the office and sign claim forms identifying the rights as licensed (61-07153 and 61-07154). As of this date I have not heard from Mr. Knox again.

I began preparing a letter to Mr. Knox this morning to request signed claims to separate the rights as licensed. When I got to the end of my letter I searched the "CIM" and Adjudication Memorandums for some leverage to request immediate action on returning these claims. I could not locate any information in the above so I asked Jan what would happen if Mr. Knox did not return the signed claims and additional filing fee. She did not know (since we could not reject the claim under the rejection guidelines) and suggested that I contact Carter for some guidance.

I called Carter and explained what the situation was and he told me to go ahead and split Claim A61-10500 into Claims A61-07153 and A61-07154 without further hassle for the claimant. Since a Dept. representative had assisted in filing the claim it would be inappropriate to make the claimant file new claims and pay an additional filing fee. I agree with this decision since we would have no leverage to require the new claims and fee be submitted.

RE: Notice of Claim to a Water Right No. A61-10500

Harry W. Knox II or
Pamela S. Knox
River Ranch
P.O. Box 16
King Hill, ID 83633

Dear Mr. and Mrs. Knox:

Upon review of the above referenced notice of claim I found that this claim was based upon two licenses issued in 1979. During our phone conversation on June 24, 1994, you stated that the wells under the licenses were not interconnected and you had been advised to file Claim No. A61-10500, based on License Nos. 61-07153 and 61-07154, by a representative of our Department. I had requested that you come into our office and sign new claim forms that would separate the rights as licensed. When I pulled your file yesterday and noticed that we had unfinished business I spoke with my supervisor regarding this matter. It was decided that we could go ahead and split Claim A61-10500, into Claims A61-07153 and A61-07154 without causing you any further inconvenience. Enclosed, for your records, are copies of these claims. All future documentation regarding these rights will reference the new numbers.

If you have any questions regarding your claims, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. Contact Person(s) Harry Knox (208-3166-7484)

Nature of Contact Are wells interconnected or
separate systems? 2 separate
systems - close together, but not connected.

Substance of Communication Need to file on
licenses rather than combined
claim A61-10500 - Mr. Knox
said he had been advised to file
on the wells as he did but
was willing to come into the
office and file separate
claims. Said he would be
in first part of next week.
I told him I would prepare
the claims for his convenience.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
