Herbert Montierth et al**

Dear Ms. Bock:

For reference purposes, please find enclosed herewith copies of the following documents and/or correspondence:

1. Mortgage dated August 31, 1988 granted by Herb R. Montierth et al to Connecticut General Life Insurance Company secured by certain real property located in Elmore and Ada County, Idaho.
2. Assignment of Mortgage in connection therewith from Connecticut General Life Insurance Company to Western Mortgage & Realty Company dated October 28, 1996.
3. Satisfaction of Mortgage documents (2) executed by Western Mortgage & Realty Company.
4. Copy of correspondence from Connecticut General Life Insurance Company dated February 25, 1999 advising that they no longer have any security interest in the above described Water Rights.
5. Special Warranty Deed from Connecticut General Life Insurance Company to Herbert R. Montierth et al.

The above water rights were originally pledged to Connecticut General for security purposes in connection with a mortgage loan granted by Connecticut General to the Montierth's when the Montierth's repurchased the real property from Connecticut General. The beneficial interest in connection therewith was subsequently assigned to Western Mortgage. Said mortgage and the related promissory note have been fully satisfied and therefore, Connecticut General and Western Mortgage claim no further interest in and to these water rights.

Please transfer the above water rights to Mr. Herbert R. Montierth and Golda Darlene Montierth, husband and wife, Edward Ray Montierth and Susan Montierth, husband and wife, and Rodney K. Montierth, a single man. If you should have any questions with this request, please advise at your earliest convenience.

Sincerely,

Tim M. Tippet

Beneficial Use

Domestic use under 61-07195 is for one mobile home. An additional domestic use under 61-07274 was not found.

****Important Note:** 160 acres in SE Section 30, T02S R05E do not appear in the database overlap review under 61-07195 where they were permitted. From microfiche, these acres appear on the approved application, every amendment, and the proof statement. There is no indication they have been moved or deleted from the permit. Even the database rate of flow reflects a higher acreage count. My recommendation analysis includes these acres...**

At the time of field exam, all previously irrigated acres under 61-07195 and 61-07210 were enrolled in the CRP set-aside program effective 1989. All CRP enrollment was verified at the Elmore County ASCS (CFAS) office in Mountain Home. Pre-CRP irrigation patterns were also verified at same office using yearly compliance photography for the years 1983 through 1988. By identifying pre-CRP irrigation patterns during the last 5 years of operation, it was possible to determine the most recent extent of beneficial use under this system. CRP enrollment does not always reflect recent irrigation, so CRP acres do not always equal recommended acres. Any beneficial use forfeited in the 5 years before CRP enrollment cannot be recommended for licensing.

Acreage patterns under this system show a decline in total irrigated acres between 1984 and 1988, the 5 irrigation years immediately preceeding CRP enrollment for these lands. In addition, a land rotation pattern emerged, which utilized all acres initially developed but which did not show the irrigation of all acres in any single season. From information obtained from permit holder and operator, the switch to land rotation was due primarily to the conversion to potato cropping. Land rotation is necessary to maintain soil fertility; decreased acres allowed for increased application rates. For licensing of these two permits, permissible place of use equals all acres initially cultivated and subsequently enrolled in CRP, but seasonal use under each permit is limited to the maximum number of acres found irrigated within a single season during the forfeiture period (see attached Development Timeline and Schedule of Acres Irrigated). System rate of flow per acre equals system capacity divided by maximum season acres.

Irrigation occurred under 61-07274 until 1986. No irrigation is evident for 1987 and 1988 in compliance photography. These acres were not owned by the permit holder during the early 1980's and were not enrolled in the CRP program. At the time of the field exam in 1992, no recent cultivation was apparent. This right has likely forfeited and is recommended for cancellation (see field report form).

Amendments

61-07195

P/D amendment to correct well location in Section 30.
P/U amendment to correct location of domestic use to SWSW Sec 29.
P/U amendment to add irrigation use in SWSW Section 29.

61-07210

P/D amendment to add Section 30 well and correct well locations within Section 36.

Overlaps

P/D overlaps as noted. Permit 61-07204 was also developed, beginning in 1989, using the Section 30 well and a separate well in SESW Sec 20, after lands were placed into CRP. See 61-07204 file for more info.

Conditions

Recommend that the following conditions appear upon the referenced licenses:

61-07195:

Irrigation under this right is limited to 589 acres within the listed place of use in a single irrigation season.

61-07210:

Irrigation under this right is limited to 290 acres within the listed place of use in a single irrigation season.

All rights:

Total combined diversions under 61-07195, 61-07204 and 61-07210 shall not exceed 18.65 cfs, 4400 AFA, or the irrigation of 1120 acres in a single irrigation season.

SYSTEM DESCRIPTION AND NARRATIVE
RIGHT NOS. 61-07195, 61-07210, 61-07274

General Comments

Permits 61-07195 and 61-07210 are appurtenant to agricultural lands currently enrolled in the CRP federal set-aside program. Pursuant to Idaho Code 42-222, all water rights on set-aside lands are protected from forfeiture for the duration of the enrollment. Water right permits with proofs filed have been determined to be protected only to the extent to which they have been developed. For this reason it is imperative that an assessment be made of this system which will quantify and document pre-CRP development. It is also important to note any ongoing activity under other rights. Because of the pending SRBA review in this area, the water right license(s) should be issued prior to the distribution of the Basin 61 Director's Report and before the termination of CRP enrollment so that additional development is not encouraged under the outstanding permit.

Diversion System/System Capacity

Three wells drilled in 1975 and 1976 were found integrated into a common system serving lands under the above permits. Well pumps with booster pumps at sites 1, 2, and 3 discharge into 18-24" buried main with valves to 9 center pivots. An in-line booster (100 HP?) is also present on the mainline midway between wells 1-2 and well 3 (see system map). A fourth well, construction date unknown, is used for domestic purposes under 61-07195. It is unclear if well #4 is or is not also connected to the irrigation mainline, but it would not be realistic to expect the domestic well to be used for large-scale irrigation; hence this point of diversion should be shown separately for domestic use only. Other wells (under separate permits) in Section 20, T02S R05E, were drilled and connected to this system in approximately 1981 via a mainline extension, however, proof was filed on the above permits in 1978. The newer wells could not have been used during the development period and do not qualify ~~as listed~~ as points of diversion, nor were they used to determine system capacity.

Because of the inactive status of the system, theoretical calculations were used to determine system capacity. Pumping plants at all three well sites were essentially intact as operated during development, with the exception of one booster motor which had been removed with the pump left in the well. All pump information was collected at these sites. Pumping level was estimated from well logs. An estimated wellhead pressure of 70 psi was obtained from permit holder. See attached pump schedule and calculation page.

Re: Snake River Basin Adjudication (SRBA)
AR #C000037

Dear Mr. Montierth:

By your failure to pay the late fees as requested in my January 17, 1992, letter to you, the adjudication staff will continue processing only four of the claims (A63-07427A, A63-07427B, A63-07753, A63-07982). All the others listed below will go in a rejected status until such time as the late fees are paid.

A61-07195	A61-07207A	A61-07207B
A61-07210	A61-07265	A61-07274

A63-03196B	A63-03198	A63-03311
A63-07425		

The staff is beginning the early phases of investigating claims in Basin 61 where a bulk of your claims subject to the late fees are located. Of course, no recommendation of the rejected claims can be made in the reports for Basin 61 that are scheduled for release later this year and early next year. Such timing requires investigating claims for irrigation use in Basin 61 during the coming growing season.

I believe you can appreciate the urgency to complete the filing process. Upon receipt of your payment of \$942.00, the subject claims can be investigated. Thank you for attending to this matter as quickly as possible.

If your payment is in the mail, we apologize for this letter.

Donald V. Shaff
