ADJUDICATION MEMORANDUM

CLAIM NO: AL-07247CSUBJECT: CHANGED/CORRECTED
REMARKSEMPLOYEE: JAN THURTEDATE: 11-9-93

I corrected the remarks concerning which original number this right was split from. The existing right is for 61-07247A that the 172 acres claimed under this right were taken off of. The 61-07247B is for 60 acres & has been claimed by the same owner(s) shown on the existing pt. Therefore, I changed remark to show the split of 61-07247A rather than B.

Dear Property Owners:

Enclosed is a copy of the above referenced water right which reflects the change in ownership of the land and appurtenant water rights covered under the original filing. Also enclosed is a copy of the Notice of Completed Administrative Proceedings which has been sent to the Snake River Basin Court as notification of the change.

Thank you for your patience and cooperation. If you have any questions concerning the enclosed water rights, please feel free to contact this office.

Sincerely,

From: RON HOWERTON IDWR - WEST
RE: LICENSE 61-07247c PLEASE

In preparation for recommendation in the SRBA it appears that 61-07247c could be licensed for the following reasons:

1. It appears to me that the issue of forfeiture is of the "d" portion related to WR license 61-07203b, not 61-07247c.
2. Permit 61-07247d probably doesn't need to be licensed since 61-07203b covered it. The interesting part is that 61-07203b was licensed for an area that appeared forfeited during the Field Exam Steve conducted.
3. Attached is a copy of Steve Lester's field exam for 61-07247a. The "c" portion found acres are 143.1. The "d" portion found acres are 8.
4. My GIS map that I prepared for your reference shows 144 acres for 61-07247c.
5. The "d" portion of 61-07247a was not claimed in the SRBA, probably because 61-07203b covers the acres of the "d" portion of 8 acres found by Steve Lester's field exam.
6. The forfeiture issue is with 61-07203b, not 61-07247c, thus, I believe you could License 61-07247c.

The existing system found in 1985 for 61-07242 has been modified to also cover new acres in 61-07247A. The capacity has not increased. A booster pump was added to increase pressure to run two pivots at once if necessary. When only one pivot operates, booster is not used. System "upgrade" info per talker with Terry Webb of Logue Pump in Nampa (466-7376). The 16", 380' well with a 12" line to north pivot and 10" line to south pivot produces ~~280~~⁴⁶⁴ yds for ~~295~~^{284.1} acres total. Corners around pivots are not irrigated. Other land remaining in permit is not served by this well (see remarks @ SRBA). ☒ See Remarks on page 4 for continuation

H. REMARKS AND OVERLAP REVIEW ANALYSIS

SRBA claim filed as AG-07247C for 172 acres in NW 1/4 S. 1.
Remainder of land in permit 61-07247A is not irrigated (rest of NW 1/4 S. 1.
and not enrolled in CRP or other set-aside programs (SENE Lot 5). The
non-irrigated portion is owned by Harget Farms but appears to be abandoned land.
(info per field observation & telcons with ASGS on 2/20/92).

* Capacity limitation of 2.60 cfs when combined with 61-07202. Add condition
to spread water evenly over system area. Volume in the permit might be
607 cfs under new map limitation.

RE: 6/27/89 memo by GS re overlap review: no relation of this
well & land to 61-07263, 61-07247B, or 61-07264.

* Capacity limitation is 4.64 cfs when combined with 61-07202.

MEMORANDUM

TO: FILE

FROM: STEVE LESTER 

DATE: APRIL 27, 1994

RE: TRANSFER NO. 4328 FOR 61-07203B (HICKEY)

This is a memo of explanation. The applicant seeks to provide irrigation water for 100 acres pending resolution of the validity of a portion of a permit on the 100 acres in question.

The application will change right 61-07203 from a permissible place of use practice to a "normal right" whereby irrigation of 169 acres in a 329 acre base becomes irrigation of 169 acres only. Note that licensing of 61-07203 incorporated acres under 61-07399 (a permit for SW 1/4 S01). Permit 61-07399 has been relinquished. Therefore, it appears that the owner intends to abandon any irrigation in SW 1/4 S01 by limiting irrigation to NE 1/4 S02 via 61-07203A and Lots 2 & 5, S01 via 61-07203B. Also see application remarks.

61-07203A will remain for use on 69 acres in NE 1/4 S02 (39 ac. continued irrigation & 30 ac. in CRP) while 61-07203B will be moved from the other 100 acres in CRP in S02 to irrigate 100 acres in Lots 2 & 5 in S01. Page 8 of the application is an ASCS photo showing the 130 acres in CRP in S02, and this should suffice for verification of such enrollment. See Attachment D for my map portraying the situation.

Since 61-07203 was examined in 1991, no additional verification of use is needed. No change will occur in the rate of flow or volume per acre. Actual irrigation in S01 lots per gov't. lot plat is 99.54 acres. Rounding this up to 100 acres is acceptable.

The land to which water will be moved is now covered by questionable right 61-07247D as a result of a recent split documented at the S.O. (contact Jim Johnson if need info). Some background will be helpful.

I conducted the B.U. exam for 61-07247A in 1991. This was for land irrigated by Sabin (Hergert Farms) in the NW 1/4 and a few bordering acres just to the east in NE 1/4 S01 (center pivot). It was difficult to be exact about the extent of use via the center pivot for the few acres in NE 1/4, but it definitely appeared that the pivot reached into NE 1/4 per topo & ASCS photo while doing the exam.

Mr. Sabin told me that he did not own the non-irrigated acres in Lots 2 & 5 in S01. He was not sure who owned those acres. It appeared at the time of the exam that Lots 2 & 5 were forfeited land (incorrectly labelled as "abandoned" in exam report - forfeited is probably a better term). Subsequent research did not yield any data to show that those acres were irrigated in the five years prior to the exam (ASCS and NAPP information). However, I did not determine who owned the land and thus inadvertently deprived the owner of involvement in settling the forfeiture issue.

T. 4328
April 27, 1994
Page 2

This oversight is being corrected by the recent split of 61-07247A into C (Hergert Farms/Sabin) and D (Hickey). Mr. Hickey is working with Jim Johnson on the issue of forfeiture for D, and I suspect that licensing of C will be delayed pending resolution of the question.

It appears that Mr. Hickey wants to be able to irrigate Lots 2 & 5 while the issue is settled, thus the transfer application was filed.

RE: Field Exam Scheduling Letter for the following Adjudication Claims:

A61-07202, A61-07247C & A61-07271

Dear Leland and Marthana,

The Adjudication Staff of the Department of Water Resources will be conducting Snake River Basin Adjudication Claim Examinations for Elmore County from July through November 1994.

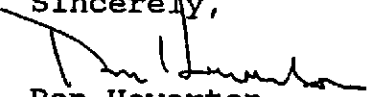

Information on your claim that may need to be verified includes, source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication.

Although it is not mandatory that you accompany me, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available during the field exam. This will help in the accuracy of collecting specific information about your water right and speed up our findings.

I would appreciate your call **ASAP** to set-up a field exam date. I may also be calling to help speed up the scheduling due to the short field season this year.

If you have other questions prior to scheduling a date or about the field examination, feel free to call me on that too. **Please call today to set-up your exam!**

Sincerely,

Ron Howerton

Shelley,

I checked with first Sharla first to see if this permit was going to be licensed in time for our B61 Director's report.

She thought that you or Jim might still have it.

If it's not ready yet for licensing I will have to show it, as a permit in the B61 report.

The owners, can file an objection during the objection period and still have it decreed as a license if it gets licensed during the objection period.

Can you tell me the status of this permit?

Thanks,

Ron Howerton

Ron, I am so sorry I didn't reply right away - the day has been long but somehow time has gotten away from me anyway. I finished my review, sent it to Shelley, who then sent it to Jim (I assume with some question) and the file has been there ever since. I would suggest that you contact Shelley or Jim directly so that they can pull the file and give you an answer as to why it's not licensed yet (I say this because if I were to pull the file, I wouldn't make any bets on whether I could see why in the world it got routed the way it did and scrutinized the way it did - know what I mean?)

I believe that the amendment never even went out yet. If you are unsuccessful in contacting Shelley, let me know and I will scrounge around for the file and give it to him to follow up with you.

Again I apologize for not sending ya' a message sooner.

Subject: Address Change Permit 61-07247C

Sharla,

I went to our public meeting in Mountain home yesterday and visited with the Sabin's, Marthana and Leland.

The Sabin's have a new postal address change from RT 1 BOX 1360 to 425 W 700 N for the above permit.

I will fax you a copy of the notice, so you can change it prior to issuing the license...?

Mrs. Sabin also asked me how the licensing was going, I gave her your name with the General SO's phone number, so she may call you about it.

I'll check back with you prior to the director's report and see if you issued the license, so I can match up our recommendations...

Also on the address change form it lists WR 61-07255 license, it needs to have the address change done to it too. (This one did not require an adjudication claim since proof was submitted after the commencement) so I won't be doing anything to it, as its in your WR area only...

Thanks,

Limiting the total diversion sounds fine to me I'll follow suit.

Thanks,

Ron

Ron, I've finished wrapping up the license review for this one and am ready to send to Shelley to solicit the licensing amendment. One difference between your claim recommendation and the license remains. The other right diverted from the same p/d (61-07202) was licensed for an inch/acre and our standard practice on our end with these situations is to issue this license for an inch/acre also, with a remark limiting the total diversion rate under the two rights to 4.64 cfs (capacity determined by Steve).

Is this acceptable to you? Let me know what you think - I'm out of the office this afternoon so you can just zip a message back to me or whatever.

Thanks Ron.

Sharla,

Have you had a chance to to license 61-07247c?

Our basin 61 report is tentatively scheduled to go out on the 23rd of this month.

Thanks,

Ron
