EXPLANATION

References in left hand margin show book and page where document is recorded, also date of filing same.
In the caption of the document the grantors' names are given as they appear in the heading (as regards spelling, etc). If there is any discrepancy in these names in the three vital parts of the document (signature, body of instrument and acknowledgment) the discrepancy will be shown in explanation appended at the end of document, and the same will be indicated in the caption by a reference mark corresponding to the one below.
When acknowledgment shows no discrepancy, only the date of the same is given. If discrepant, such discrepancy is noted, as are also any discrepancies of a miscellaneous nature.

A hand-drawn sketch of a hillside. A line represents the ground surface. Below the line, on the left, is the text 'well for livestock'. An arrow points from this well up the slope to a 'Lift Pump' located near the top of the hill. The pump is labeled 'older well has' and 'Parma Lift Pump'. Next to the pump, the text 'to 25-30\'' indicates a distance or depth. Below the pump, the text 'not covered to trough' is written, followed by '2 HP motor' and 'model 5KC224H2'. At the very top of the hill, there is a small structure labeled 'both' and 'not inter-connected'. The word 'L' is written at the top left of the page.

SYSTEM DESCRIPTION:

There are 3 wells on property. The wells are not inter-connected.

One well used for livestock has Parma Lift Pump - 2 HP motor - Model 5KC224H2 - approx. 25-30' deep - pumped to trough.

New well (88-89) drilled for irrig. and domestic purposes. Pump at 400'. 5 HP Jacuzzi or Berkley pump - submersed so could not view. Flood irrigation.

3rd well is shallow - 30' deep. Well is in pump house and had "stuff" piled on top so did not see it.

Mr. Corbus has another old well inside a shed where pressure tank for new, deep well is located. There was stuff piled on top of well so could not view it at all. He stated that it was covered with boards. This well would be below located land surface - described same as well ~~above~~ in remarks above. This well can still be utilized if needed.

MEMORANDUM

DATE: 04-Aug-1994 11:48

TO: DAVE TUTHILL

FROM: KAY WALKER *Kay*

RE: POSSIBLE ILLEGAL USE OF WATER IN MOUNTAIN HOME

While out conducting a field exam yesterday for Bud Corbus, he asked if I could check into water rights of his neighbor. The neighbor, Marian or Roy Bowman, had a deep well drilled close to the claimants deep well in 1988, (after Hiddleston had finished at the claimant's place, he then drilled at the Bowman's, according to claimant). Mr. Bowman then proceeded to hook up 4 trailers and 2 homes, plus irrigate the adjoining lots from the well. The trailers and homes are located in SENW, Sec. 23, Twp. 3S, RGe. 6E, as shown on the attached ASCS photo. This property is also located within the groundwater management area.

After returning to the office I searched our records for the Bowman's water rights, drilling permit, or well log. I could not find any record of a well being drilled or any water rights for him in the location in question. I did find one well log for a well he had drilled in 1988 but it was located in Sec. 22, Twp. 3S, Rge. 6E.

My question is this: Can I submit this complaint or should I tell Mr. Corbus he has to submit a written statement in order for us to investigate this further? Mr. Corbus is concerned that the additional use of groundwater in his area will cause further decline of the aquifer and his pump is already 400' below land surface.

RE: Claims filed in the Snake River Basin Adjudication

Bud or Edie Corbus
Rt. 2, Box 460
Mountain Home, ID 83647

Dear Claimants:

We are now conducting water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree. Information on your claims which may need to be verified include source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which must be completed this summer, please contact me at (208)334-2190 to make an appointment at a time that is convenient for you. Although it is not mandatory that you accompany me, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany me it would be appreciated.

If you have any questions in regard to the exam verification, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
