IN THE MATTER OF)
NOTICE OF CLAIM TO)
A WATER RIGHT NO. (S))

AFFIDAVIT

Department of Water Resources
Western Regional Office

State of Idaho)
County of Elmore)

John Hiler being first duly sworn,

deposes and says:

In 1972 I purchased
the Clay Professor Place, a 160@ farm
South of Mtn Home. At the time of my
purchase waste water from the BBKY
farm east of U.S. 30 + (BBKY) brought
to the farm via a ditch (gravity) system.
Upon purchase I built a reservoir +
installed a sprinkler system. At this same
time we changed the BBKY Ditch system
to transfer the water into Dawson Pond.
This was done because the BBKY water
would not gravity into my new Reservoir.

RE: Snake River Basin Adjudication (SRBA)
Amended Notice of Claim #A61-10247 - Elmore County

Dear Mr. Olson:

Following our recent meeting, I have enclosed Amended Notice of Claim A61-10247 with the additional acres you requested.

Please sign the claim in front of a Notary Public and return it to this office within 10 days with the additional filing fee of \$49.00 (\$1.00/acre for 49 acres). You might want to make a photocopy of your claim prior to returning it to me. We will also need evidence as to when the additional acres were first irrigated with waste water. I have enclosed an Evidence of Priority pamphlet which you may find helpful.

Please call me at 1/800-451-4129 if you have any questions.

Sincerely,

Erik Norquest
Water Resource Agent

NOTES: 1/11/99 Claimant wished to claim more acres under this water user Right. I did not feel he needed additional EOP as the ponds were generically described in the affidavit on file. This added an additional 49 acres ON 1/28/99 David Olson read in the office to sign the amended placing form. He said about changing the POW of his MHID water. In the 2nd Office I explained to him that WR considered the MHID water & the GWS. He said he understood, but intended to do it anyway.

AFFIDAVIT: John Hilor 3-17-93

SUMMARY by EN

1972 John Hilor purchased the CLAY GROESMA 160 acre farm, waste water from BBKY property East of Hiway 30 & UPRR, was conveyed to Hilor place via a ditch.

After purchase Hilor built a reservoir and installed a sprinkler system. He also changed the BBKY wastewater source ditch to discharge into the DAUEN POND because the wastewater would not gravity flow into his reservoir.

AFFIDAVIT: RALPH GROESMA 2-22-93

SUMMARY by EN

Prior to 1969 Ralph Groesma built a ditch ⁽¹⁹⁶⁸⁾ coming from the railroad culvert along a creek bed to his property (T4S RTE Sec 20 SW 1/4 and W 1/2 of SE 1/4) to catch water from land owned by his brother Harvog, N 1/2 E of the UPRR. The ditch carried wastewater from Harvog's land to Ralph's land and into the reservoir Ralph had built in the creek bed on his land. The water was used for stock water & irrigation.

In 1972 I purchased
the Clay Professor Place, a 1600 farm
South of Mtn Home. At the time of my
purchase waste water from the BBKY
farm east of U.S. 30 + (BBKY farm) went
to the farm via a ditch (gravity) system.
Upon purchase I built a reservoir +
installed a sprinkler system. At this same
time we changed the BBKY Ditch system
to transfer the water into Dawson Pond.
This was done because the BBKY water
would not gravity into my new Reservoir.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
