RE: Snake River Basin Adjudication (SRBA) Claim No. A61-10318

Dear Claimant:

I have reviewed the Notice of Error Reply for the SRBA claim referenced above. The reason the Preliminary Recommendation of Water Rights Acquired under State Law for this claim is for domestic use in 1 home is because that is what was described by the evidence that was submitted to support the priority date claimed. The priority date of a water right is not necessarily the date the well was dug or drilled, but the date the water was put to beneficial use for the purposes claimed. Therefore, for this claim, the evidence needed to support the priority date claimed needs to include the date in which the trailer park was constructed and occupied.

If you can obtain additional information that will describe when the use of water in the trailer park commenced, please send it to me at this office. In order to have enough time to make changes to the recommendation prior to the filing of the Director's Report for Basin 61, I will need this information by January 29, 1999. Please contact me if you have any questions.

Sincerely,

Carter Fritschle
Water Rights Supervisor

NOTES: Notarized statement from Charles Whipple states he interviewed
two couples that remember ground water being used for a
home on the property back to 1951 and before.
However, the statements tend to support a domestic
use (one home) and nothing more. There is no reference
to a mobile home park or irrigation of 1 acre.

Re: property and wells at 150 W. 12 South
Mountain Home, Idaho 83647

Dear Mr. Jones:

This week I talked to four people that are very familiar with the referenced property and wells.

Wilford and Jane Barton of 185 W. 12 South, which is across the street from said property, moved to their present address in 1951. At that time Frank Markham lived on said property. The present small wood frame house and wells were in use. The Bartons helped Markham construct the add on bedroom.

Mr and Mrs. Bob Mendiola of 860 North 6 East in Mountain Home are also very familiar with referenced property. His folks bought the acreage just to the east on March 15, 1949. This is according to an old property title. In 1944 his folks bought the adjoining property and house to the north, which is at 1110 South 3 West A. Bob Mendiola lived in this house as a young man and clearly remembers the referenced old house and wells being in existance in 1944.

In 1943 the property belonged to Charles Montrose and became tax number 18 in Lot 26 Sec 36, T3S R6E.

Sincerely,

Charles F. Whipple

STATE OF IDAHO

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
