HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Commercial purposes from 1/1 to 12/31 amount .25 or 24
 For Commercial purposes from 1/1 to 12/31 amount .5 or
 For Irrigation purposes from 3/15 to 11/15 amount .03 or
 For purposes from to amount or

7. Total quantity claimed (a) 28 (cfs) and/or (b) (acre feet)

8. Total consumptive use claimed is 3 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Commercial, Trailer Park, Store, Cafe, Lawn

10. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4

AUG 12 1992

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

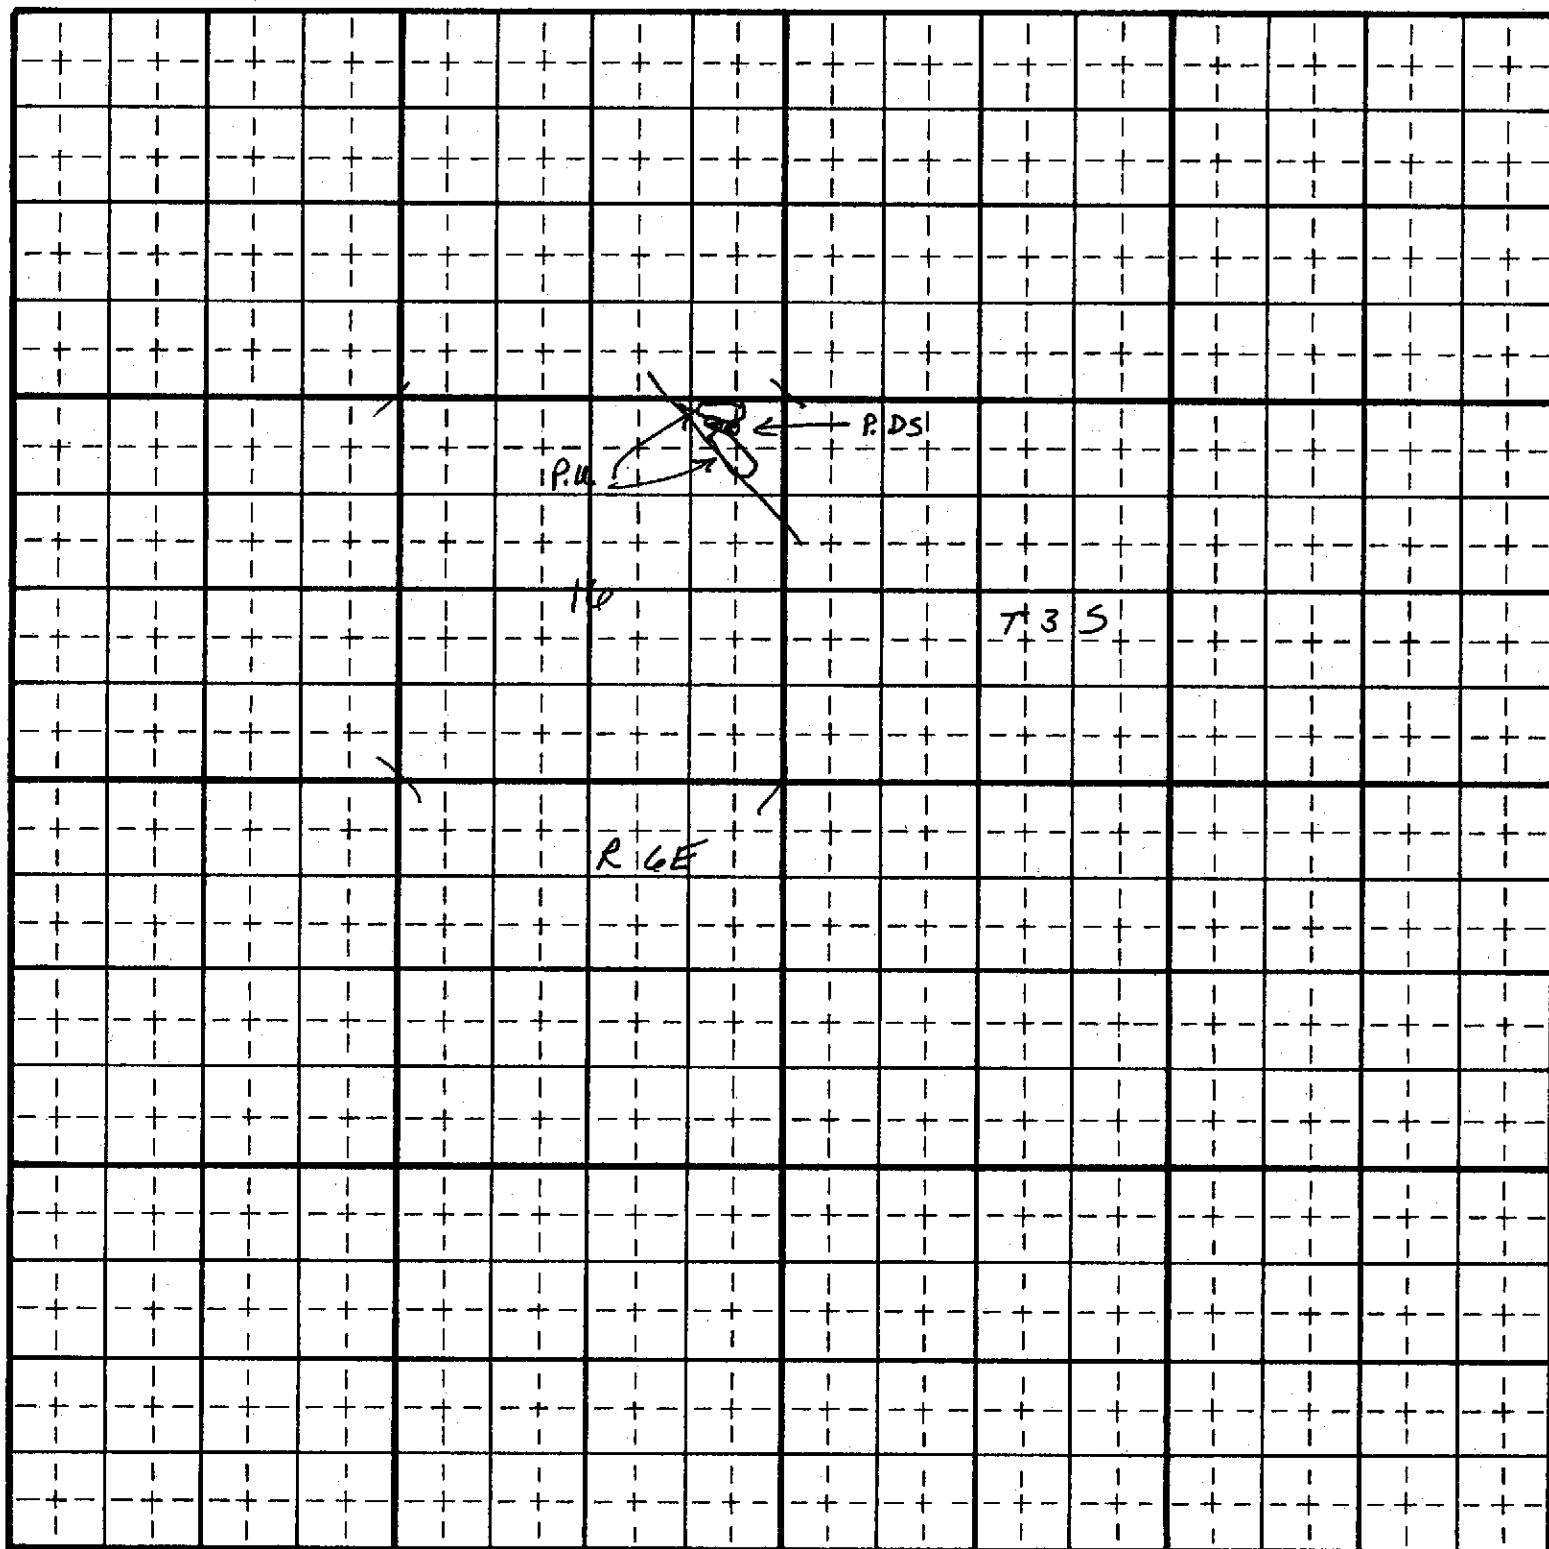

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Map of Project: show clearly the point of diversion, place of use, section number, township, and range number.

Scale: 2 inches equals 1 mile

RE: Notice of Claim to a Water Right No. A61-10470

Westside Development &/or
Ron Hiddleston
Rt. 3, Box 610-D
Mountain Home, ID 83647

Dear Claimants:

This office is presently reviewing the above referenced notice of claim that you submitted during the Snake River Basin Adjudication claims filing in your area. Enclosed, for your convenience, is a profile report of the claim as it was submitted. Due to the information submitted concerning your priority date, we offer the following.

The evidence of priority date submitted to document use of this claim indicates the development of the water use claimed began after the implementation of the mandatory groundwater statute. The groundwater statute was enacted on March 25, 1963, Section 42-229, Idaho Code, requiring that any new use of water from a groundwater source must have an application for permit filed and approved **prior to any diversion** of the water. There are some water uses exempted from this filing requirement, however, the water use you have claimed did require a permit filing and after researching our records, no previously filed permit was found. We will likely recommend this claim to the court for disallowal, based on the groundwater statute and the evidence of the priority date that was submitted.

You may wish to file an application for permit form in order to try to develop a right for your water use in the future. Enclosed is an application for permit form with instructions, for your convenience. Also enclosed is a brochure entitled "Idaho Water Rights - A Primer" which explains Idaho water rights.

Please be advised that your water use is located in an

established groundwater management area (GWMA). The "Mountain Home Groundwater Management Area" was designated on November 9, 1982, and has limited the approval of any new uses of groundwater for irrigation purposes to protect declining water tables. For the Department to approve a new water right application in a GWMA, the applicant must prove that ground water is available and that a new appropriation will not adversely affect existing water rights or contribute to an additional decline in the aquifer. Although anyone may submit the convincing evidence, you may need to hire a qualified expert to conduct a study and submit a report to this office to address the GWMA questions before your application can receive further consideration. You may wish to join forces with other parties in your area who are trying to address this problem. The requirement for information applies to proposed uses and existing uses not protected by a valid water right.

One alternative to a new appropriation involves the use of an existing right. You may be able to buy or lease an existing valid, but unused, ground water right. Considerable amounts of irrigated lands are currently enrolled in the ten year USDA Conservation Reserve Program (CRP), which means that irrigation will not occur for at least ten years. CRP acres are a potential source of water rights that one may buy or lease. The best way to locate such lands is to contact the local ASCS office to identify land owners enrolled in the program. Our office can provide water right information when given legal land descriptions (Township, Range, Section and 40-acre tract description). Purchasing water also involves filing a transfer application with IDWR.

IDWR also manages a Water Supply Bank, which consists of water rights that are temporarily not in use. Obtaining water from this source is subject to water availability on a year-by-year basis.

Although the above referenced claim will likely be disallowed if you cannot submit evidence establishing the use of this water prior to March 25, 1963, the Department cannot deny you the right to file this claim. If you wish to pursue this claim and contest it with the court later, then simply do not respond to this letter. If you wish to withdraw this claim, please complete the enclosed Request for Withdrawal and return it to our office along with a completed application for permit form.

If we do not hear from you within 30 days from the date of this letter, by receiving either supporting evidence of the claimed priority date, or the Request for Withdrawal, we will assume you wish to pursue your claim and it will be processed accordingly.

Please feel free to contact me if you have any questions concerning this letter or completion of the application form.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

**RE: NOTICE OF CLAIM NO. A61-10470 Submitted in the Snake River Basin
Adjudication (SRBA)**

Westside Development
Ron Hiddleston
Rt. 3, Box 160-D
Mountain Home, ID 83647

Dear Claimant:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claim listed above.

This claim was filed based on beneficial use of water dating back to April 28, 1946. On January 28, 1993, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted by March 15, 1993. However, this evidence has not been received in our office and this letter is to remind you of this requirement.

Before the Department can make a recommendation to the Court for decree of this claim, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. **If we do not receive the requested information, this claim will be recommended for disallow due to lack of evidence supporting any priority date.** Your response must be received in our office by the response date shown above.

As soon as I receive the requested information, I need to conduct a field examination of the system under both of your claims. If you should have any questions, or feel that you need help in any way, please feel free to contact me.

Sincerely,

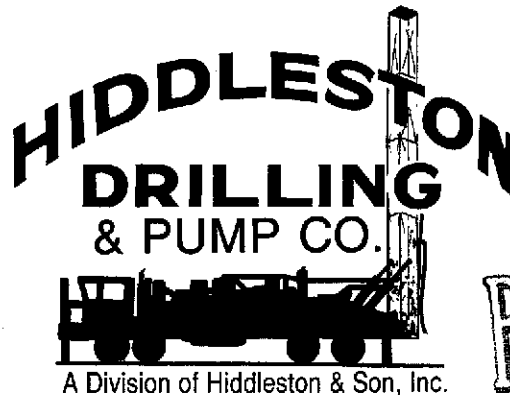

A handwritten signature in cursive script that reads 'Kay Walker'.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.

RE: Notice of Claim to a Water Right No. A61-10470

Westside Development &/or
Ron Hiddleston
Rt. 3, Box 610-D
Mountain Home, ID 83647

Dear Claimants:

This office is presently reviewing the above referenced notice of claim that you submitted during the Snake River Basin Adjudication claims filing in your area. Enclosed, for your convenience, is a profile report of the claim as it was submitted. Due to the information submitted concerning your priority date, we offer the following.

The evidence of priority date submitted to document use of this claim indicates the development of the water use claimed began after the implementation of the mandatory groundwater statute. The groundwater statute was enacted on March 25, 1963, Section 42-229, Idaho Code, requiring that any new use of water from a groundwater source must have an application for permit filed and approved **prior to any diversion** of the water. There are some water uses exempted from this filing requirement, however, the water use you have claimed did require a permit filing and after researching our records, no previously filed permit was found. We will likely recommend this claim to the court for disallowal, based on the groundwater statute and the evidence of the priority date that was submitted.

You may wish to file an application for permit form in order to try to develop a right for your water use in the future. Enclosed is an application for permit form with instructions, for your convenience. Also enclosed is a brochure entitled "Idaho Water Rights - A Primer" which explains Idaho water rights.

Please be advised that your water use is located in an
