| <u>Stock water</u> | <u>0.76/137.8</u> | <u>7.2 hr/da</u> | <u>1/1 to 12/31</u> |

- Quantity and quality of return flows and location of discharge: There will be no discharge to other waters.
- Describe effects on other water uses resulting from the proposed change: The change will extend the diversion of ground water, at a reduced daily rate, from the irrigation season to year around. Annual diversion volume from the aquifer will be reduced since only the consumptive use portion of the right is being transferred.

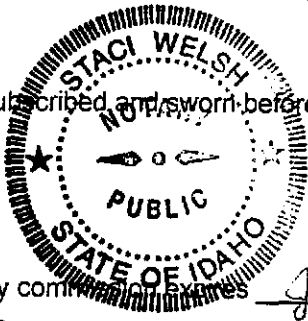

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.

Subscribed and sworn before me this 8th day of June, 2000.

Lori -

Could you check around the office and see if you have paperwork pertaining to a Change of Ownership on this water right claim, please???? I know the property is in the process of being sold (that is not what I need - sale is still pending). What I am looking for is per the attorney, Julie Fischer, the property was deeded from Gertrude Cunningham to "Cunningham Family Limited Partnership". Julie said she sent all documents and Change of Ownership form to the department. If you find it, please fax it to me - we are preparing a revised recommendation to attach to the SF 5 and we need to know the correct name to put on the SF 5.

Thanks!

RE: Water Rights in Reporting Area 6, Basin 61
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right(s) in basin 61 (largely the area of Elmore County south of the Bennett Mountains) a part of Reporting Area 6. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note you have 120 days in which to review the water rights of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Mountain Home and Boise and at all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed later this year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher

Dear Water Right Claimant(s):

The Idaho Department of Water Resources (IDWR) has completed its initial investigation of your water right claim(s) in the Snake River Basin Adjudication (SRBA). We have enclosed a print-out showing our preliminary recommendation regarding how your water right should be reported to the SRBA District Court.

Please review the preliminary recommendation carefully. If there is any information on the print-out you believe is inaccurate, please fill out the enclosed reply indicating what changes you believe should be made. Further instructions to assist you with the review are enclosed. For water rights with an irrigation water use, a Geographic Information System (GIS) computerized image of the place of use for your water right is also enclosed.

You may return this reply in person to us at a public meeting IDWR will be conducting in your area. **The meeting will be held on Thursday, November 10th at 7:00 p.m. in the Auxiliary Gymnasium at Mountain Home High School.** Please come to the public meeting, where you will have an opportunity to find out more about the SRBA process and speak with a department staff member should you have questions regarding your water right. Please bring any and all information you have which will help the Department understand your water rights and describe them accurately.

This process is intended to ensure IDWR recommends your water right accurately to the SRBA District Court. This is the easiest and least costly means for you to identify corrections you believe should be made to our recommendation. Completion of this process is an important step toward the overall success of the adjudication in Idaho. Your participation is necessary so that accurate information is provided to the SRBA District Court.

We look forward to hearing from you.

It is not filed with the court, but is provided to you to help correct errors or resolve any disagreement you may have over its content. This document has been prepared following IDWR's investigation and may be different than the claim(s) you filed.

Please review this preliminary recommendation carefully to find any errors or disagreements you have with IDWR's findings.

2. **Error Correction/Settlement Process.** This is a special service provided to you by IDWR to help you correct errors and resolve any other disagreement you have before the recommendations are filed with the court.

A description of how to work with IDWR is included. Our experience in the SRBA shows that by working in cooperation with IDWR most errors and differences can be addressed before coming into court. It's well worth your time to take full advantage of IDWR's helpful service. If your disagreement cannot be resolved, you will be able to file an objection to IDWR's recommendation when it is filed in court and have the final decision made by the Presiding Judge.

This error correction service is an important opportunity for you to work together with IDWR to make sure your water right claim(s) are decreed accurately. There is no cost to you other than your time reviewing the preliminary recommendation and talking to IDWR about any problem you see.

The goal of the SRBA is to see that your water right(s) are decreed by the court as accurately and fairly as possible. It is important to me that this is done efficiently in order to reduce your costs and present you with your decree.

I strongly encourage you to take full advantage of this opportunity to use the fine and courteous service provided by IDWR.

Sincerely yours,

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

allow 4.58 cfs for system capacity

2. Alternate Method for Checking Purposes:

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (140)(4.5) = 630$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (2.27)(246)(1.9835) = 1107.6$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 630$

2. Volume Calculations for Other Uses:

Flow worksheet: Pw-rate cfs/ac under total system at .0162

$(.0162)(140) = 2.268 = 2.27$

(140 acres entitled to up to 2.80 cfs)
