Dear Mr. Higginson,

The water I filed on in claim A 61-10847 has been used on this farm since it was settled before 1907. The water runs from the spring through this farm in a natural waterway to get to Little Canyon Creek. The water has been diverted from this natural waterway into the fields since this farm was settled near 1900. The diversion and waterway are available for your inspection to confirm this at anytime. I have been unable to find anyone still living who observed this in 1900.

I personally observed the use of this water on this farm in 1945. I bought this farm in 1973 and have used the water from that spring continually since then.

If you need any more information please notify me.

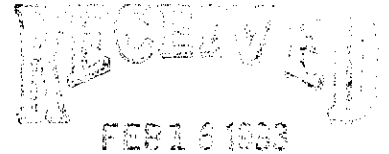

Thank you,

Robert K. Hall

Dear Mr. Higginson,

I lived in Glenns Ferry in 1931. At age 17 I observed Joe DeBaron irrigating his farm (T-05SR09E S35 & 36) with the spring water that comes under the Union Pacific Railroad tracks at the east end of his farm. This water was used on this farm long before 1931.

In 1974 I personally used that water to irrigate my sons farm.

Your truly,

Van T. Hall

Dear Mr. Higginson,

I saw Clarence Simpson irrigating his farm with the spring water that comes under the railroad tracks on the east end of his place in 1960. This water was used on this farm before then.

I rented this farm from Clarence Simpson in 1970 or 1971 and I used this spring water to irrigate the farm.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
