INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

From: Sue Bock

RE: Adjudication Splits

Hi, Karilynn.

Some time ago we submitted a director's report in B61. We recommended right 61-00270A. While waiting for a partial decree to be issued, we received a split ownership change. An NCAP was filed with the court, but ended up crossing paths in the mail. So, the court issued a partial decree on 61-00270A, in the mean time, adj. had split the right into 61-11930, 61-11931 & 61-11932. We now have received a change of ownership on 61-11930 that we will process on our end.

I am providing you with this information so that the WR database will show these three rights, which in essence have been partially decreed.

Thanks.

Re: Original Notice of Claim to a Water Right No. 61-00270A

Renumbered to Notice of Claim to a Water Right No. 61-11930

Dear Claimant:

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by adding alpha suffixes to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new water right for your records. Please refer to your new claim number when corresponding with our office. I have also enclosed a copy of the original claim for your reference.

Also enclosed is a copy of the Notice of Completed Administrative Proceedings, which has been sent to the Snake River Basin Court as notification of the change.

If you have any questions concerning this ownership change, or the enclosed information, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Denise Buffington".

Memo to File: 65-270A, 65-11930, 65-11931, 65-11932.

November 3, 2000

Sue Bock

Claim 65-270A was filed on by HP Honeycutt Jr. During the Notice of Error period, he submitted his form disagreeing with the recommendation for irrigated land, 12/10/98. I conducted a field exam on 12/28/98, (1st exam conducted by Maria). I agreed with Mr. Honeycutt, and added additional acres. On 12/30/98, I sent Mr. Honeycutt a letter and maps showing the acres I was recommending. No further correspondence occurred and this right was not objected to.

Since that time, IDWR has received a change of ownership from Kinney and Richens from lands irrigated by 65-270A. Kinney (65-11931) was told they would get water for 6 acres, however the irrigated land came to 5 acres. Richens (65-11932), was told they would get 3 acres of irrigation, however their lands fall totally within the irrigated area, so I recommended 6.3

Honeycutt called on Nov 3, 2000, to say that the split was wrong. I informed him of how we split water rights and that he would need to file a transfer to change irrigated lands. Since the split has already occurred, Richens would need to agree to the transfer also. He said that all parties involved would come in to file a transfer.
