HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Plaintiffs.

vs

D E C R E E

L.J. Robinson, Sr. and Mary Robinson,

Defendants.

This cause came regularly on for hearing before the Court without a jury on the 18th day of May, 1925, on the complaint of the plaintiff filed herein and the answer and cross complaint of the defendants and the answer of the plaintiffs and cross defendants to the cross complaint of the defendants and cross complainants. The plaintiffs appeared in person and by their attorney, S.T. Lowe, and the defendants appeared in person and by their attorneys, Sweely and Sweely. Thereupon witnesses on behalf of the plaintiffs and cross defendants were duly sworn, examined and cross examined, and documentary evidence introduced and the plaintiffs and cross defendants rested. Witnesses on behalf of the defendants and cross complainants were duly sworn, examined and cross examined and documentary evidence introduced and the defendants and cross complainants then asked leave of court to file an amended cross complaint and were by the Court granted ten days in which to file an amended cross complaint and the defendants having filed in said Cause an amended cross complaint and the plaintiffs having answered the said amended cross complaint, the said cause was thereafter, to-wit; on the 17th day of July, 1925, duly called for further pro-

depositions and thereafter with me on behalf of the defendants and cross complainants were called, sworn, examined and cross examined and documentary evidence introduced and the defendants and cross complainants rested; thereupon witnesses on behalf of the plaintiffs and cross defendants were called, sworn, examined and cross examined and documentary evidence introduced in rebuttal and the plaintiffs and cross defendants rested; witnesses on behalf of the defendants and cross complainants were sworn and examined in sur-rebuttal and the defendants and cross complainants rested, and the evidence being closed the cause was submitted to the Court and counsel for the respective parties given time in which to file written briefs. The Court having fully considered all of the evidence and being fully advised in the premises and having made and filed herein his findings of fact and conclusions of law and concluded that the plaintiffs are entitled to a decree of this Court as prayed for in their complaint.

NOW THEREFORE, by virtue of the law and by reason of the premises, it is hereby ORDERED, ADJUDGED AND DECREED:

I.

That the plaintiff, B.W. Danie, be and he is hereby given and granted the use and the right to use of 3.2 cubic feet per second or 160 miners inches of the flow of the waters of Land Creek with date of priority of April 1, 1890, and the use and the right to the use of 1.6 cubic feet per second or 80 inches of the flow of the waters of Land Creek with date of priority of April 1, 1907, for irrigation, stock and domestic purposes, during the irrigation season from March first to December fifteenth of each year, upon the lands of the said plaintiff, as hereinafter described. Said waters to be diverted from Land Creek near the Southwest corner of the Southeast quarter of the Southwest quarter (SW¹/₄SW¹/₄) of Section four (4), Township thirteen (13) South, Range twenty-three (23) East Boise Meridian.

II.

The lands to which the above described water is hereby decreed and made appurtenant are situated in the County of Cassia, State of Idaho, and particularly described as follows, to-wit: Southwest quarter (SW¹/₄) of Section four (4) in Township thirteen (13) South, Range Twenty-three (23) East Boise Meridian; East half of the Southwest quarter (E¹/₂SW¹/₄) of Section five (5), Township thirteen (13) South, Range Twenty-three (23) East Boise Meridian.

III.

That the plaintiff, Rachael S. Clark be and she is hereby given and granted the use and the right to the use of 3.2 cubic feet per second or 160 inches of the flow of the waters of Land Creek with date of priority of April 1, 1890, and the use and the right to the use of 2.35 cubic feet per second or 117 1/2 inches of the flow of the waters of Land, Warm or Thorn Spring, with date of priority of April 1, 1870, to be used during the irrigation season from March first to December fifteenth of each year, upon the lands hereinafter described, for irrigation, stock and domestic purposes; and the use and the right to the use of one-half of one cubic foot per second or 25 inches of the flow of the waters of Land, Warm or Thorn Spring for stock and domestic purposes during the entire year. That the waters of Land Creek are to be diverted at a point near the Southwest corner of the Northwest quarter of the Northwest quarter (NW¹/₄NW¹/₄) of Section 5, Township 13 South, Range 23 East Boise Meridian, and the waters of Land, Warm or Thorn Spring to be diverted in the Southwest quarter of the Northwest quarter (SW¹/₄NW¹/₄) of Section 6, township 13 South, Range 23 East Boise Meridian.

IV.

That the lands to which the waters herein given and granted to the plaintiff, Rachael S. Clark, and to which the same are hereby made appurtenant are situated in the County of Cassia, State of Idaho, and particularly described as follows, to-wit: Beginning at the Southeast corner of Section thirty-six (36) Township twelve (12) South, Range twenty-two (22) East Boise Meridian, running thence West 374.46 feet, thence North 14 degrees 40 minutes East 1041.96 feet, thence West 5169.41 feet, thence North 1632 feet, thence East one mile thence South one-half mile to the place of beginning; also a further tract of land described as follows, beginning at the Southeast corner of Lot One (1), Section One (1), Township thirteen (13) South, Range twenty-two (22) East Boise Meridian, thence West 660 feet, thence North 229 feet, thence North 14 degrees 40 minutes East 1127.74 feet, thence East 374.46 feet, thence South one-quarter of a mile to the place of beginning; also Lots three (3), Four (4) and Five (5) in Section six (6), and Lots One (1) and Two (2) in Section seven (7), all in Township thirteen (13) South, Range twenty-three (23) East Boise Meridian.

V.

That the plaintiff, Alpha Eliquist be and she is hereby given and granted the use and the right to the use of 1.00 cubic feet per second or 53 1/3 inches of the flow of the waters of Land Creek with date of priority of April 1, 1890, and the use and the right to the use of .763 cubic feet or 39 1/6 inches of the flow of the waters of Land, Warm or Thorn Spring with date of priority of April 1, 1870, to be used during the irrigation season from March first to December fifteenth of each year upon the lands hereinafter described, for irrigation, stock and domestic purposes; and the use and the right to the use of one-half of one cubic foot per second or 25 inches of the flow of the waters of Land, Warm or Thorn Spring, for stock and domestic purposes during the entire year. That the waters of Land Creek are to be diverted at a point near the Southwest corner of the Northwest quarter of the Northwest quarter (NW¹/₄NW¹/₄) of Section 5, Township 13 South, Range 23 East Boise Meridian, and the waters of Land, Warm or Thorn Spring to be diverted in the Southwest quarter of the Northwest quarter (SW¹/₄NW¹/₄) of Section 6, Township 13 South, Range 23 East Boise Meridian.

VI.

XIII.

That any water that shall be flowing from Land, Warm or Thorn Spring, during the period of the year from the Fifteenth day of December and the first day of March of each year, not herein specifically decreed for stock and domestic purposes shall be turned into the old channel of said Spring and permitted to flow down the same without any interruption by any of the plaintiffs, their successors or assigns.

XIV.

That the plaintiffs have and recover from the defendants, all their costs and disbursements of suit, to be taxed at the sum of \$_____, together with interest thereon from the date of this judgment until paid at the rate of seven per cent per annum, and that they have execution for the collection of such costs.

DATED this 3rd day of March, 1926.

T. Bailey Lee
District Judge.

SUBJECT: Claims A45-00698B, 00701, 10407, 12444

These claims are all on Land Ranch Spring. This spring comes out at the base of a rock bluff in the SW/SW/NW Sec. 8 T. 13S R. 23E. It then runs westerly for about 1/4 mile before being entirely diverted into a concrete ditch that runs NNW about a mile into Sec. 6. There is a 6' broad-crested weir in the NW/SE Sec. 6. Water flowing over the weir is then divided between Elquist Ranches and Lambert Produce, with Elquist entitled to 7/12 and Lambert 5/12. This water is used for irrigation when needed, and for stockwater in the winter. Any unused water disappears into the air or the ground. Although these claims show that this spring is tributary to Land Creek, the quad map clearly shows that this is not the case. While the diverted waters could comeingle further downstream, the natural channels are about 1 1/2 miles apart and flowing parallel to each other.

The decreed rights on this spring were given as portions of the flow, with no actual flow rates established. On 2-18-97, I measured a head of 0.34' and 0.36' on each end of the weir. Based on the table for a contracted rectangular weir, this equals 4.09 cfs. According to the two owners of the spring, it flows pretty constant for most of the year. So the Elquist portion of the flow, 58.3%, would come to 2.39 cfs. This leaves 1.7 cfs for Lambert Produce. These amounts are much less than is claimed.

Although there is a small pool where the spring comes out of the ground, I did not observe any storage in this system. There may be small ponds further down the respective systems where groundwater and surface water comeingle for use in pressurized sprinklers.

The Schenk feedlot mentioned in A45-00701 is no longer in business, although Lambert may eventually put some of their stock there.

I don't know anything about the Ray Bedke claim except that the p/d is wrong. It should be the SE/NE Sec. 7 T. 13S R. 23 E. as in the other claims on this source.

Comments:

1. jroberts 5/29/2004 Basis of Recommendation

Comment: Recommended in a 4,983 ac ppu with many licenses, several beneficial use claims, surface water decrees, and an expansion claim of 1,991 acres. This right is limited to 80 acres. Removed stockwater use cause claim states that portion is leased to Schenk and removed storage components cause they were not part of original decree.

RE: Lambert Produce Preliminary Recommendations

Dear Mr. Stone,

I am enclosing preliminary recommendations for you to review for all of the Lambert rights. I doubt if there will be time to fix things during Notice of Error at this point, but at least you can see what the Director's Report will be at this point.

The receipt for the new expansion claim is also enclosed along with a colored map showing the place of use and points of diversion.

Sincerely,

RE: Lambert Produce

Dear Mr. Stone,

Enclosed are copies of claims 45-2520, 45-4000, & 45-4048F, which were purchased from C & T Farms by Lambert in 1998.

I have also researched right 45-166 and found that it was originally **decreed incorrectly** to part of **Section 19**, T12S, R23E to Thomas Poulton for $\frac{1}{4}$ of the flow of Willow Creek. In 1983, Robert and Ruth Moncur filed transfer #2852 to correct this apparent error and changed the place of use to **Section 9**. The quitclaim from the Batemans to First Security Bank, which Lambert used as the basis for its claim, was probably for land in Section 19, although it doesn't say, and was dated 1985. I believe this right is now correctly claimed and recommended to parts A & B for lands in Section 9 and that Lambert's claim should be disallowed.

As I mentioned in my letter of April 12, 2004, an expansion claim for 1,992 acres is needed to cover acres not irrigated by 1962. These acres are basically located in the SWNE and the SE $\frac{1}{4}$ of Section 15, the NE $\frac{1}{4}$ and East $\frac{1}{2}$ of the NW $\frac{1}{4}$ of Section 22, the NE $\frac{1}{4}$ of Section 20, the South $\frac{1}{2}$ of Section 21, the North $\frac{1}{2}$ of Section 28, and the entire Section 29, all in T12S, R23E. (I usually file these types of claims as covering the entire place of use, in this case 4,984 acres, and limit the expansion to the 1,992 acres within.) Of these 1,992 acres there are 304 acres, which I found irrigated but not previously claimed. These acres are 40 in the SWNE of Section 15, 64 in the East $\frac{1}{2}$ of the NE $\frac{1}{4}$ of Section 22, and 200 in the NE $\frac{1}{4}$ of the SENW of Section 28, all T 12S, R23E. The fee for the expansion claim is \$50.00 filing fee plus \$304.00 acre fee or \$354.00.

My deadline for completing recommendations for the Director's Report is fast approaching, so if you wish all of the irrigated acres to be recommended, I must have this claim by May 14, 2004, sooner if possible. Please call for another appointment if necessary or send the claim to my attention.

Sincerely,

RE: Lambert Produce

Dear Mr. Stone,

I have completed my initial review of the Lambert Produce Adjudication Claims and have drawn some conclusions. There are 4,984 irrigated acres, of which 1,996 are covered by licenses and another 996 acres recognized as beneficial use acres, leaving 1,992 expansion acres. (There were 304 acres that were not previously claimed.) An expansion claim will be needed with a \$50.00 filing fee plus \$304.00 for the unclaimed acres.

Groundwater rights:

Licenses

45-2254A	4/12/1948	2.6 cfs	880 AF	220 acres
45-2520	3/28/1956	5.92 cfs	1920 AF	480 acres
45-2526	10/15/1956	4.55 cfs	1280 AF	320 acres
45-2579	5/20/1958	2.58 cfs	1148 AF	287 acres
45-2630	10/7/1960	2.4 cfs	1280 AF	320 acres
45-2657	6/14/1961	2.96 cfs	1476 AF	369 acres

Totals: 21.01 cfs 7984 AF 1996 acres

Beneficial Use:

45-4009A	5/9/1953	3.16 cfs	2554 AF	636 acres
45-4011A	4/14/1953	1 cfs	-----	(same as -4009A)
45-4013A	4/10/1948	2.92 cfs	-----	(same as -2630)
45-4048F	9/1/1959	0	1440 AF	360 acres

Totals: 7.08 cfs 3984 AF 996 acres

A grand total of groundwater diversion rates will be limited to 28.09 cfs and a total combined volume of 11, 968 AF.

I am not recognizing any additional diversion rate for 45-4048D and F because the wells of the original statutory claim (45-4048) were field examined for licenses in 1957 and 1962. Any additional diversion rate for these wells would need proof that system upgrades were completed before the area was closed in January of 1962. (I will allow volume of 1440 AF for the 360 acres irrigated by 1962 under part F.)

Besides the rights we discussed previously regarding disallowal (45-166C, 45-2066, 45-2109, and 45-4256), I also intend to disallow the wastewater claims 45-4000, 45-4007, 45-4008, and 45-4014. More information would be needed as to whether these rights are still used and if wastewater is still available.

45-4258A will need to be reduced to reflect the Quitclaim of .6 cfs of 45-4258 for Land Creek to Robert and Fredona Schenk executed in 1986 and now claimed as 45-4258B.

Please give me a call as soon as possible so we can schedule another meeting to file the expansion claim and I can proceed with the recommendations for the rest of the claims.

Sincerely,

Jeanie Robertson
