HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

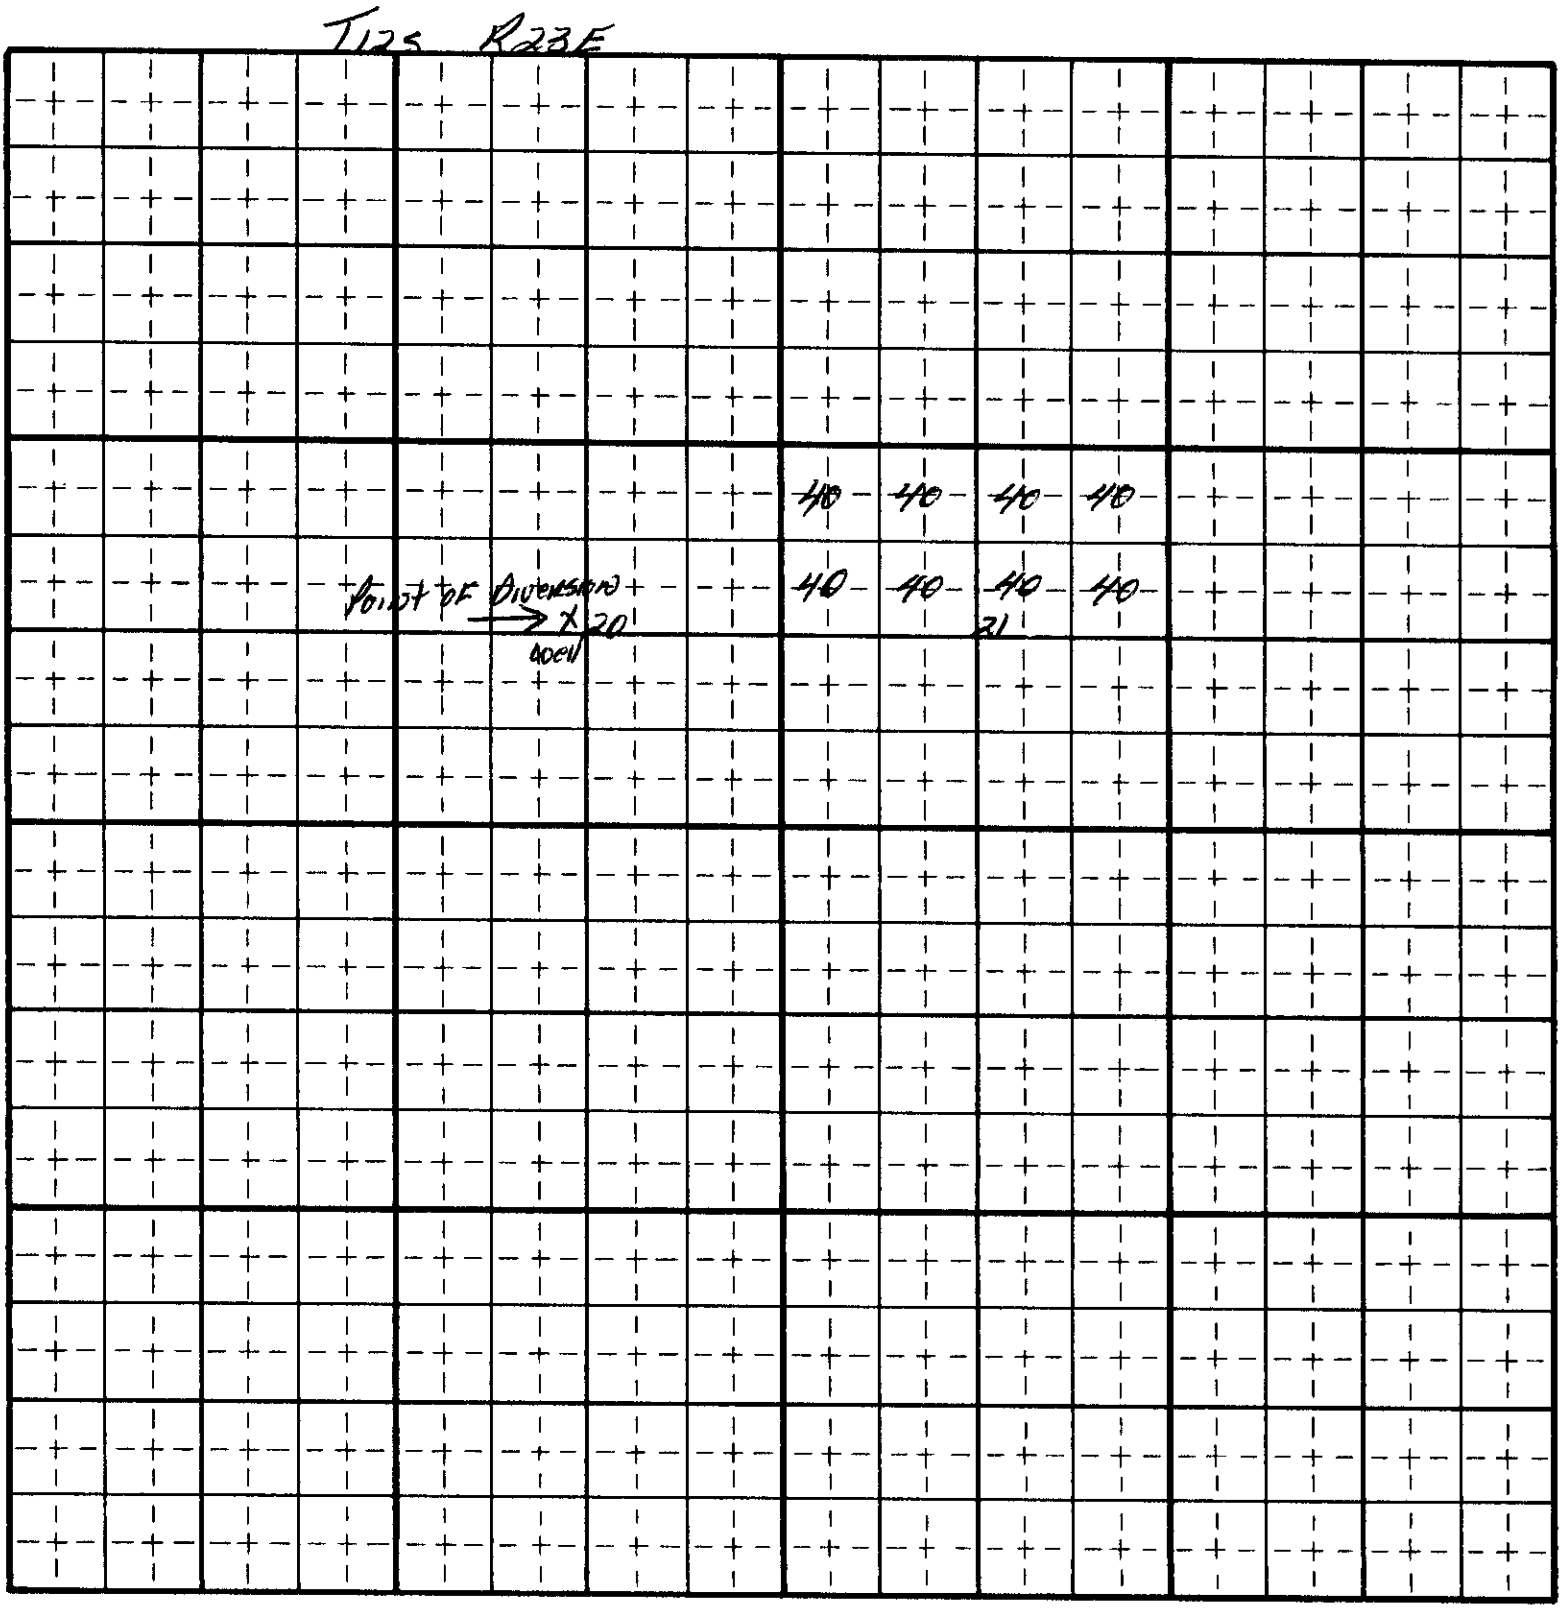

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is $7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Comments:

1. jroberts 5/29/2004 Basis of Recommendation
Comment: Recommended in a 4,983 ac ppu with many licenses, several beneficial use claims, surface water decrees, and an expansion claim of 1,991 acres. This right is limited to 320 acres. There are 12 interconnected wells and the legal descriptions of their locations have been clarified where possible with WMIS points. One of the claimed wells in the SESW of Section 8, T13S, R23E has been moved to the SESENE of Section 5, T13S, R23E per approved transfer #5038 in 1997. These two wells (Sections 5 & 8) and their diversion rates are also shared by Elquist Ranches. The well in Section 17 SWSWSW and two of the wells in Section 20 (SWNWNW and SWSWNW) are shared by Chris Drakos.

RE: Lambert Produce Preliminary Recommendations

Dear Mr. Stone,

I am enclosing preliminary recommendations for you to review for all of the Lambert rights. I doubt if there will be time to fix things during Notice of Error at this point, but at least you can see what the Director's Report will be at this point.

The receipt for the new expansion claim is also enclosed along with a colored map showing the place of use and points of diversion.

Sincerely,

RE: Lambert Produce

Dear Mr. Stone,

Enclosed are copies of claims 45-2520, 45-4000, & 45-4048F, which were purchased from C & T Farms by Lambert in 1998.

I have also researched right 45-166 and found that it was originally **decreed incorrectly** to part of **Section 19**, T12S, R23E to Thomas Poulton for ¼ of the flow of Willow Creek. In 1983, Robert and Ruth Moncur filed transfer #2852 to correct this apparent error and changed the place of use to **Section 9**. The quitclaim from the Batemans to First Security Bank, which Lambert used as the basis for its claim, was probably for land in Section 19, although it doesn't say, and was dated 1985. I believe this right is now correctly claimed and recommended to parts A & B for lands in Section 9 and that Lambert's claim should be disallowed.

As I mentioned in my letter of April 12, 2004, an expansion claim for 1,992 acres is needed to cover acres not irrigated by 1962. These acres are basically located in the SWNE and the SE ¼ of Section 15, the NE ¼ and East ½ of the NW ¼ of Section 22, the NE ¼ of Section 20, the South ½ of Section 21, the North ½ of Section 28, and the entire Section 29, all in T12S, R23E. (I usually file these types of claims as covering the entire place of use, in this case 4,984 acres, and limit the expansion to the 1,992 acres within.) Of these 1,992 acres there are 304 acres, which I found irrigated but not previously claimed. These acres are 40 in the SWNE of Section 15, 64 in the East ½ of the NE ¼ of Section 22, and 200 in the NE ¼ of the SENW of Section 28, all T 12S, R23E. The fee for the expansion claim is $50.00 filing fee plus $304.00 acre fee or $354.00.

My deadline for completing recommendations for the Director's Report is fast approaching, so if you wish all of the irrigated acres to be recommended, I must have this claim by May 14, 2004, sooner if possible. Please call for another appointment if necessary or send the claim to my attention.

Sincerely,

RE: Lambert Produce

Dear Mr. Stone,

I have completed my initial review of the Lambert Produce Adjudication Claims and have drawn some conclusions. There are 4,984 irrigated acres, of which 1,996 are covered by licenses and another 996 acres recognized as beneficial use acres, leaving 1,992 expansion acres. (There were 304 acres that were not previously claimed.) An expansion claim will be needed with a $50.00 filing fee plus $304.00 for the unclaimed acres.

Groundwater rights:

Licenses				
45-2254A	4/12/1948	2.6 cfs	880 AF	220 acres
45-2520	3/28/1956	5.92 cfs	1920 Af	480 acres
45-2526	10/15/1956	4.55 cfs	1280 AF	320 acres
45-2579	5/20/1958	2.58 cfs	1148 AF	287 acres
45-2630	10/7/1960	2.4 cfs	1280 AF	320 acres
45-2657	6/14/1961	2.96 cfs	1476 AF	369 acres
	Totals:	**21.01 cfs**	**7984 AF**	**1996 acres**

Beneficial Use:				
45-4009A	5/9/1953	3.16 cfs	2554 AF	636 acres
45-4011A	4/14/1953	1 cfs	---------	(same as –4009A)
45-4013A	4/10/1948	2.92 cfs	---------	(same as –2630)
45-4048F	9/1/1959	0	1440 AF	360 acres
	Totals:	**7.08 cfs**	**3984 AF**	**996 acres**

A grand total of groundwater diversion rates will be limited to 28.09 cfs and a total combined volume of 11, 968 AF.

I am not recognizing any additional diversion rate for 45-4048D and F because the wells of the original statutory claim (45-4048) were field examined for licenses in 1957 and 1962. Any additional diversion rate for these wells would need proof that system upgrades were completed before the area was closed in January of 1962. (I will allow volume of 1440 AF for the 360 acres irrigated by 1962 under part F.)

Besides the rights we discussed previously regarding disallowal (45-166C, 45-2066, 45-2109, and 45-4256), I also intend to disallow the wastewater claims 45-4000, 45-4007, 45-4008, and 45-4014. More information would be needed as to whether these rights are still used and if wastewater is still available.

45-4258A will need to be reduced to reflect the Quitclaim of .6 cfs of 45-4258 for Land Creek to Robert and Fredona Schenk executed in 1986 and now claimed as 45-4258B.

Please give me a call as soon as possible so we can schedule another meeting to file the expansion claim and I can proceed with the recommendations for the rest of the claims.

Sincerely,

Jeanie Robertson

ACTION OF STATE RECLAMATION ENGINEER AND CERTIFICATE OF TRANSFER

This is to certify that I have examined Application for Transfer of Water Rights No. 1849/ 45-2519, 45-2526, 45-2520, 45-2653 and said application is hereby APPROVED.

Approval of said application is subject to the following limitations and conditions:

(1) That totalizing measuring devices of a type approved by the Department be maintained at each point of diversion.

(2) That no water shall be diverted directly or indirectly from the wells and used for any purpose or to irrigate other lands for which no water right exists for the use of these wells.

Witness my hand this 18 day of August, 1975.

Subject: RE: 45-4168 and [redacted].

Hi Jeanie,

I've had a chance to review the file and talk with Candice. Because of doctrine of administrative finality, IDWR should not now rescind a transfer issued so long ago. I'm going to suggest that we recommend the water right as transferred. And unless the Mathews can show that the diversion rate and volume of groundwater [illegible] not increase after the additional land started to be irrigated (very unlikely), we cannot recommend an expan[illegible] use under 42-1416B and we should disallow the statutory claim.

You can let the Mathews know that if they do not agree, they can and should object to both the their recommendation and the recommendation for 45-2526. While IDWR's hands are tied as to how [illegible] this issue, the Mathews will be able to raise the issue to the SRBA court. The court will be able to d[illegible] whether the transfer is void or voidable.

Subject: 45-4168 and 45-2526...

Hi Garrick,

I have been reviewing statutory claim 45-4168 and on the original statutory claim filed by Matthews Brothers in 1983, it says **well was developed under license 45-2526 but right was mistakenly removed from lands in Section 15 via a transfer in 1969. Water continued to be used in Sec. 15 after the transfer.** The transfer in question is #1585.

45-2526 was licensed to Mabel Matthews on November 18, 1968. In May of 1968, she filed transfer #1585 to change the point of diversion and place of use. It was approved January 27, 1969.

When I told the current owners of the property about the situation and explained that license 45-2526, as transferred, is now fully claimed on the new place of use and that the statutory claim is essentially an illegal use that began in 1969, when the right was transferred off yet continued to be used. At best, it could be considered an expansion claim in this critical groundwater area. They did some searching in the Cassia County courthouse records and found paperwork that shows that Matthews Bros. Inc. filed as a corporation with the State of Idaho on March 27, 1968. The list of incorporators was Clara Matthews, E.B. Matthews, Hal Matthews, Maurice Matthews, and V'Laine Matthews. (There was no Mabel Matthews listed. I believe Mabel was the wife of E. B. [Ennis] Matthews.) Maurice, a brother of Ennis, was the one who filed the statutory claim in '83 saying the water was transferred off by mistake. They also found a deed from March 30, 1968, where Matthews Bros. partnership, which lists all of the principals from the corporation, plus others including Ennis B and Mabel Matthews, conveyed to Matthew Bros. Inc. a bunch of property. The legal description of the lands conveyed include those lands under license 45-2526.

They contend this transfer never should have happened since Mabel wasn't listed on Matthews Bros. Inc, who owned the property at the time of the transfer. They say that Maurice tried to right the mistake when he filed the Statutory claim in 1983. What do you think? Is there something fowl here? Can a transfer approved so long ago be rescinded at this late date? What else can I look at? I have copies of all this stuff I could send or fax to you if need be. I believe most of the original Matthews Bros. Inc. members are now deceased...

Thanks for any help you can give here...Jeanie

RE: Amended claims and new expansion claim 45-13571

Dear Mr. & Mrs. Critchfield,

I have enclosed some possible amendments for the claims in Sections 15, 22, & 27 and created a new expansion claim to pick up the extra acres included under your groundwater system but not covered by the previous transfer (#4200), which tied the four wells together in 1993. The total place of use is now 966 acres, (this includes the 67.5 acres owned by Stanger), 453 licensed acres, 55 beneficial use acres (45-4100), leaving 458 as expansion acres.

Keep in mind that the expansion claim really gives you no additional diversion rate, even though it says 3.1 cfs. Your total diversion rate will be 6.54 cfs, or 327 inches, or about 2,950 gpm from the four wells.

You will still need to file a transfer to change the place of use for Section 27 to show the two pivots because these changes were made in 1996, after the other transfer. You may wish to consider tying all of your wells together at the same time, to allow you more flexibility with pumping your rights from all of your wells.

I still intend to recommend right 45-4168 as disallowed, recognizing that Matthews transferred it off in 1969. I encourage you to object to that recommendation and that of 45-2526. If you prevail, the 196 acres under 45-4168 could reduce the expansion acres accordingly and increase your total diversion rate.

Feel free to sign and return the claims, along with one $50.00 filing fee (45-13571) or bring them in as we did with the others. Please call if you have any questions.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent

Claim No. 45-4168

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, **Idaho Code**, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), **Idaho Code**. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Matthews Bros. Inc. (Name of Claimant)

Route #1, Oakley, ID 83346 (Mailing Address) (Zip Code) Telephone No. 862-3209

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) 1955

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Groundwater tributary to

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
