Idaho Department of Water Resources,

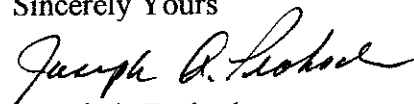

Subject: Evidence of Priority and beneficial use

WATER RIGHT NUMBER: 75-4431

Dear Sir or Madam:

The above water right #75-4431 is in the names of J Malcomb Asplund, Pat Asplund, and Joseph A. Proksch, Hallie H. Proksch. The Proksch's have purchased the Asplund's 50% of the property. Do we need to file a change of name application? I understand that Jesse Creek or water district 75-A has been adjudicated and there is no specific water right for this property, except maybe high water or waste water. I remember irrigating this property in the early 1960's with waste water from the Oliver/Jolley ranch when they flood irrigated. Because of subdivisions and sprinkler irrigation there hasn't been any surplus water to irrigate with the last few years. Is there anyway I can get some kind of water right for watering of livestock and high water right for irrigation? I think this property originally was part of the ranch above and was irrigated from the same water right.

Sincerely Yours

Joseph A. Proksch
