Dear Roxanne,

During our meeting in Salmon on July 15, 2005 you and Bob Foster indicated that it would not be necessary to meet the response deadline of July 29 since you knew that I was working on the material. It is quite an effort to gather the data. Thank you for the extra time.

Enclosed you will find the following documents pertaining to our water claim.

I Water Priority

- A Homestead Entry Survey
- B Homestead Entry Survey Field Notes
- C Homestead Patent
- D Warranty Deeds of each owner to the present
- E Points of Diversion Map

II Beneficial Use

- A County Tax Assessments for Agricultural Use
- B Federal Tax Return Form F filed for use of land & water
- C Larry Webb affidavit: relative of Leo Hagel and long term resident

I hope the enclosed documents are sufficient to establish our claim and continued beneficial use of the water. This property is not large but it produces very well with irrigation. Should you require or suggest more information or documentation please contact me and I will do the best I can.

Please note that a John F Meeker referred to on page 572 never had anything ever to do with water right #75-4488. This must be a mistake in the filing system of Water Resources. Tower Creek is a different tributary of the Salmon River. James Riggans is the only connection as he at one time owned our property and Mr. Meeker's property.

Re: Evidence of Priority Date

Dear Claimant:

The Notice of Claim to a Water Right (claim) identified with the number shown above your name has been filed in the Snake River Basin Adjudication (SRBA). The claim indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed. Proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of your claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: If no evidence is submitted, IDWR will recommend the SRBA Court decree the claim be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. Send the documents in the enclosed envelope to assure it arrives at the correct location. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.

If you no longer own the property to which the claim is appurtenant, please forward this correspondence to the present owner, or return it to Idaho Department of Water Resources (IDWR). If you have received this correspondence from the previous owner of the property, it is recommended that you file a Change of Ownership form with IDWR in order to receive future mailings and to participate in the adjudication.

Sincerely,

Roxanne Brown

Latitude = $45^{\circ} 31' 30''$ N. By account from H. E. S. No. 286, (accepted)
Longitude = $112^{\circ} 50'$ W.

Observation E.

May 10, 1918: At same station at 4 h. 15 m., A. M.,

1 m. t., I begin to observe the Eastern progress of Polaris. When the star begins to recede, I mark the maximum position in azimuth upon the ground by a stake, firmly set, centered by a tack, 5.00 chs. dist. from my station.

May 10, 1918: At same station, at 8 h. 0 m., A. M. 1 m. t., I lay off the azimuth of Polaris $1^{\circ} 37'$ to the West and mark the meridian thus determined by a stake, firmly set, centered by a tack, 5.00 chs. dist. from my station.

I find this meridian agrees within 1 minute of azimuth with the meridian established by me May 9, 1918.

I take the mean of these as the true meridian to which all courses of this survey are referred.

Mean Magnetic Declination = $21^{\circ} 20'$ E.

In regards to the water usage on what was known as the Leo Hagel ranch, at the Confluence of Lick Cr. & the North Fork of the Salmon River.

Leo Hagel was my uncle, and I can remember going and staying with them in the early 30's.

At that time he was ranching the place and taking water out of the North Fork and Lick Cr. North Fork was for hay & pasture. Lick Cr was for house, Stock & hay. He was raising 5 sheep & cows a day.
