Dear Roxanne Brown:

As requested in your June 29, 2005 letter, which I received July 25, 2005, I am enclosing documents that provide evidence of my 1887 priority date for my water right numbers 75-10400 and 75-10392. Your letter was marked with a response due date of August 17, 2005. The 1887 priority date in my enclosed documents agrees with the priority date stated on the Adjudication Claim Reports that you enclosed in your letter. The 1887 priority date also agrees with the Notice of Claim for a Water Right listed under my name and water right numbers on your website.

I am enclosing a set of priority documentation for each of the two water rights that I am claiming for Lot 3 Block 2 River Run Estates (water right number 75-10400 and 75-10392) and the water right that Russ Kozacek is claiming for Lot 1 Block 2 River Run Estates (water right number 75-04126). The ditch associated with my water right 75-10400 flows through both of our properties and was the same 1887 Eldridge Homestead. I have much of the documentation and he may not have had copies of all of it when he submitted his documentation to you.

On each document, I indicated with a colored sticky the claim number, the document title/subject, and the document date. On those documents that specifically stated a priority date/beneficial use, I placed a plastic yellow flag marker on the side to assist you. I have also included a list of the supporting documents for each claim.

When I submitted my claim 15 years ago, I used an orthophoto quad map to determine legal description for place of diversion and place of use. I did not have access to a GPS unit for precise location. I contacted Robert Foster and he said not to be concerned about that now. He said these would each be field checked at a later date using more sophisticated equipment for precise locations.

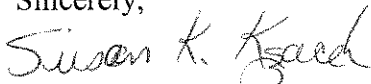

Please note that I have a new address from the one you have on record. My new address is:

Susan Kay Kozacek

Phone number 520-979-9100

Please notify me if you need additional information. Thank you for your assistance.

Sincerely,

Susan Kay Kozacek

Re: Evidence of Priority Date

Dear Claimant:

RESPONSE DEADLINE
AUGUST 17, 2005

The Notice of Claim to a Water Right (claim) identified with the number shown above your name has been filed in the Snake River Basin Adjudication (SRBA). The claim indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed. Proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of your claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: If no evidence is submitted, IDWR will recommend the SRBA Court decree the claim be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. Send the documents in the enclosed envelope to assure it arrives at the correct location. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.

If you no longer own the property to which the claim is appurtenant, please forward this correspondence to the present owner, or return it to Idaho Department of Water Resources (IDWR). If you have received this correspondence from the previous owner of the property, it is recommended that you file a Change of Ownership form with IDWR in order to receive future mailings and to participate in the adjudication.

Sincerely,

Roxanne Brown

STATEMENT

State of Idaho
County of Lemhi

I, Velma H. Ravndal, residing at 2121 E. Main St., Salmon, Idaho, do make the following statement regarding the irrigation ditch which is sketched below:

In the Spring of 1887, David P. and Elizabeth M. Eldridge settled at the mouth of Hughes Creek, and subsequently built a 2-story log house with a 1-story lean-to kitchen. At the time of settlement, domestic, stock and irrigation water was attained by tapping the overflow from a spring on the private property now owned by Harold Hanson, and building the "Spring Ditch", coming across Forest Service property to the said Eldridge property.

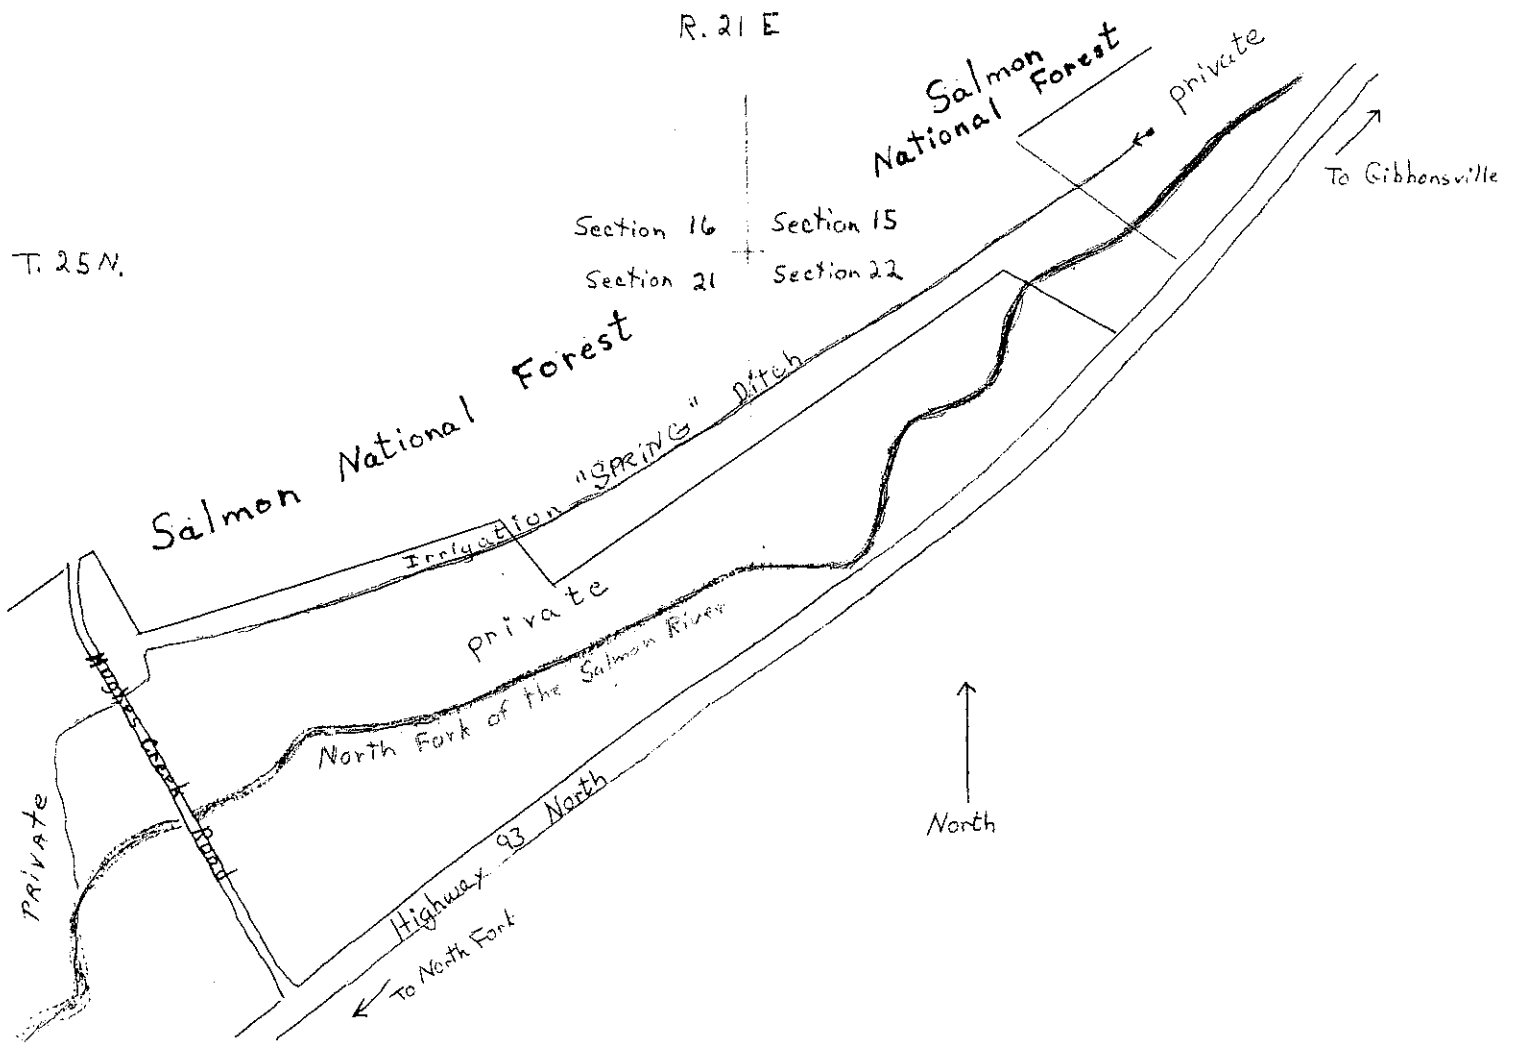

A Homestead Claim was applied for on Oct. 9, 1908. A Forest Survey was made Oct. 8-9-10, 1908 and approved Jan. 20, 1909. Homestead Entry No. 06540 was made July 20, 1909. List No. 4-81. Patent was granted May 10, 1913.

By the Spring of 1909, there were 600 bearing fruit trees, a berry patch and large garden, all watered by the said "Spring Ditch". (See attached copies of Hughes Creek Ranger, Ora Cockrell's, annual inspection records (Exhibits A and B) of Eldridge Homestead from 1909 through 1912.)

The above property was purchased by Eric and Hattie G. Ravndal on June 1, 1918. Gerald B. and Velma H. Ravndal sold said property to Lou and Sybil Gohmes in July, 1957. At that time, the said "Spring Ditch" had been used continuously from 1887 to 1957 for domestic, stock and irrigation water, and for stock and irrigation water from 1957 to the present date, for a total of more than 97 years' continuous use.

N.B. Albert Hull (born March 1881) visited the Ravndal ranch about 1953 and said he was a small boy of six when he accompanied his father, Joseph Hull, who with other neighbors helped "raise" the 2-story part of the Eldridge log house in the fall of 1887.

CALLED TO BEYOND!

David P. Eldridge, a Leading
Citizen of North Fork, Called
to His Reward--Much Re-
spected Citizen.

It is the sad duty of The Recorder to again announce the death of a good citizen, a good father, a good husband, and a man with many of those qualities which go far towards making the ideal character. Amid many expressions of sorrow the death of David P. Eldridge was announced Friday morning of last week. Mr. Eldridge had been sick for a week or more, but it was generally understood that he was suffering with an attack of the grip, and with no thought of a fatal termination as a result of his malady.

The deceased was born at Boston, Massachusetts January 13, 1850, and died at the home of his son in this city February 28, 1908, which made him 58 years, 1 month and 15 days of age. When about nine years of age his parents moved to Linn County, Kansas, where he lived until the breaking out of the Civil war. When his country's call came he enlisted in the Seventh Kansas Cavalry, and stayed at the front of battle until the close and he was mustered out.

At the close of the war he moved to Missouril, where he was happily married November 25, 1875 to Miss Elizabeth Geery. To this union six sons and three daughters were born all but one now living. Believing that the great West offered greater opportunities he moved with his family to Montana in 1877. Ten years later, or in 1887 he came to Lemhi county, and took up land on Northfork, which has been the home of the family since their arrival in the valley.

During the last connection. Amid many expressions of sorrow the death of David P. Eldridge was announced Friday morning of last week. Mr. Eldridge had been sick for a week or more, but it was generally understood that he was suffering with an attack of the grip, and with no thought of a fatal termination as a result of his malady.

The deceased was born at Boston, Massachusetts January 13, 1850, and died at the home of his son in this city February 28, 1908, which made him 58 years, 1 month and 15 days of age. When about nine years of age his parents moved to Linn County, Kansas, where he lived until the breaking out of the Civil war. When his country's call came he enlisted in the Seventh Kansas Cavalry, and stayed at the front of battle until the close and he was mustered out.

At the close of the war he moved to Missouril, where he was happily married November 25, 1875 to Miss Elizabeth Geery. To this union six sons and three daughters were born all but one now living. Believing that the great West offered greater opportunities he moved with his family to Montana in 1877. Ten years later, or in 1887 he came to Lemhi county, and took up land on Northfork, which has been the home of the family since their arrival in the valley.

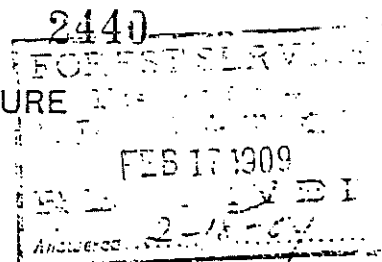

With the exception of one son, Edgar, who lives near Boise, William, Arthur, Ernest, Frank and Homer and the daughters, Mrs. L. R. Cummings, of this city and Lydia, who lives at home they were all able to be at the obsequies, which took place at the Presbyterian church Sunday afternoon, Rev. Waite, the pastor performing the services for the dead.

It is seldom that a larger crowd attends a funeral than was the case Sunday afternoon. Some most beautiful floral offerings spread on the casket was evidence that he was held in most kindly remembrance. The interment took place at the cemetery, southeast of the city.

Mr. Eldridge was an unassuming man, a good neighbor and generally liked by all who knew him. In the common acceptance of the term he made no religious profession, but he was a man who believed in treating these with whom he came in contact as he would wish to be treated. He was a broad minded man and will be missed by a large circle of friends in this place.

It is idle to offer the bereaved family comfort at this time, but it may be a little consolation to them to know that the deep sympathy of the public is with them in the greatest trial and sorrow which can come to the human race.

that the land is more valuable for agricultural purposes than for
any other. The various markets throughout this end of the county

will have the first opportunity of supplying the camp with farm

Supplement to Form 110,

Mrs. E. M. Eldridge, H. E.

The applicant and deceased husband settled on this claim in the spring of 1887, after practically all of the land along the Hughes Creek bottom, from the mouth of the creek up the stream for a distance of about five miles, had been located for placer purposes. Later on a portion of the land upon which applicant settled was patented as placer ground. That portion of the ground along the creek which divides the applicants claim into two noncontiguous tracts, it is held, never exhibited any paying values and was simply patented in order to hold this lower creek bottom as a dumping ground for the placer workings higher up the creek. Furthermore, said applicant has always held and improved a large portion of the patented placer ground, such as is shown on the accompanying map, and at no time has she been requested to discontinue the occupancy of the land. Also the fact that aside from that portion of the Eagleson claim which lies adjacent to this noncontiguous tract on the south, there is absolutely no agricultural land whatever on the southwest, appears to add to the claimants priority of right to the tract, of eighteen acres in area, which is separated from the main ~~branch~~ by the patented placer claims.

I take this means of putting before the Service the fact that the present applicant has a preference right to the two noncontiguous tracts of land for which she is making application.

Geo L. Thompson

5. Topography The claim covers bench and bottom land in Hughes Creek
(Topography of tract applied for, and relation to surrounding territory. Topography should be considered particularly in
and North Fork canyons, with a southeastern aspect. The altitude

(its bearing on agricultural possibilities, altitude, slope, aspect, etc.)

is approx. 4,100 feet. On all sides of the claim except up and
down the creeks the mountains are very precipitous and rise in
elevation to about 6,000 feet. All of the bench and bottom land
is under ditch from North Fork and Hughes Creek.

6. Formation The soil consists of a sandy loam from one to two feet

(Nature and extent of soil, rock, etc., paying particular attention to their influence on agricultural possibilities. Presence of

deep under which is a formation of coarse wash gravel. There

water for irrigation and domestic use. Possibilities for developing water.)

are no possibilities for developing water but, there is an abundance
of water in both the North Fork and Hughes Creek easily
obtainable for irrigation.

7. Climate The climate is moderate in winter and in summer it affords

(Precipitation, temperature, occurrence of killing frosts.)

a growing season of about fourteen to sixteen weeks from latter
part of May. The occurrence of killing frosts is seldom before
the latter part of September.

8. Cover Aside from a narrow strip of willows and brush along the west

(Nature and extent of cover, with estimate of amount and value. Accessibility and distance to market. Is cover needed for pro-

tection or seeding purposes?)

survey for Placer Patent is more or less cleared off. None of the
growth contained on the applicants claim is of any value to the
Forest..
