Dear Roxanne Brown:

As requested in your June 29, 2005 letter, which I received July 25, 2005, I am enclosing documents that provide evidence of my 1887 priority date for my water right numbers 75-10400 and 75-10392. Your letter was marked with a response due date of August 17, 2005. The 1887 priority date in my enclosed documents agrees with the priority date stated on the Adjudication Claim Reports that you enclosed in your letter. The 1887 priority date also agrees with the Notice of Claim for a Water Right listed under my name and water right numbers on your website.

I am enclosing a set of priority documentation for each of the two water rights that I am claiming for Lot 3 Block 2 River Run Estates (water right number 75-10400 and 75-10392) and the water right that Russ Kozacek is claiming for Lot 1 Block 2 River Run Estates (water right number 75-04126). The ditch associated with my water right 75-10400 flows through both of our properties and was the same 1887 Eldridge Homestead. I have much of the documentation and he may not have had copies of all of it when he submitted his documentation to you.

On each document, I indicated with a colored sticky the claim number, the document title/subject, and the document date. On those documents that specifically stated a priority date/beneficial use, I placed a plastic yellow flag marker on the side to assist you. I have also included a list of the supporting documents for each claim.

When I submitted my claim 15 years ago, I used an orthophoto quad map to determine legal description for place of diversion and place of use. I did not have access to a GPS unit for precise location. I contacted Robert Foster and he said not to be concerned about that now. He said these would each be field checked at a later date using more sophisticated equipment for precise locations.

Please note that I have a new address from the one you have on record. My new address is:

Susan Kay Kozacek

Phone number 520-979-9100

Please notify me if you need additional information. Thank you for your assistance.

Re: Evidence of Priority Date

Dear Claimant:

RESPONSE DEADLINE
AUGUST 17, 2005

The Notice of Claim to a Water Right (claim) identified with the number shown above your name has been filed in the Snake River Basin Adjudication (SRBA). The claim indicates your water usage is based on "Beneficial Use" or a "Statutory Claim." Water rights of this type are established by the historic use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed. Proof must be provided by the claimant supporting the priority date claimed and the historic use of the water.

Enclosed you will find a computer printout of your claim and the pamphlet entitled "Evidence of Priority." The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

PLEASE NOTE: If no evidence is submitted, IDWR will recommend the SRBA Court decree the claim be disallowed. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement should be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date and the historic use by the date shown above, referencing all documents with the corresponding claim number. Send the documents in the enclosed envelope to assure it arrives at the correct location. If you have questions not covered by this letter or the enclosed pamphlet, please contact this office. Our toll free number is 1-800-451-4129.

If you no longer own the property to which the claim is appurtenant, please forward this correspondence to the present owner, or return it to Idaho Department of Water Resources (IDWR). If you have received this correspondence from the previous owner of the property, it is recommended that you file a Change of Ownership form with IDWR in order to receive future mailings and to participate in the adjudication.

Sincerely,

Roxanne Brown
Sr. Water Resource Agent

STATEMENT

State of Idaho
County of Lemhi

I, Velma H. Ravndal, residing at 2121 E. Main St., Salmon, Idaho,
do make the following statement regarding the irrigation ditch which is sketched
below:

In the Spring of 1887, David P. and Elizabeth M. Eldridge settled at the mouth of Hughes Creek, and subsequently built a 2-story log house with a 1-story lean-to kitchen. At the time of settlement, domestic, stock and irrigation water was attained by tapping the overflow from a spring on the private property now owned by Harold Hanson, and building the "Spring Ditch", coming across Forest Service property to the said Eldridge property.

A Homestead Claim was applied for on Oct. 9, 1908. A Forest Survey was made Oct. 8-9-10, 1908 and approved Jan. 20, 1909. Homestead Entry No. 06540 was made July 20, 1909. List No. 4-81. Patent was granted May 10, 1913.

By the Spring of 1909, there were 600 bearing fruit trees, a berry patch and large garden, all watered by the said "Spring Ditch". (See attached copies of Hughes Creek Ranger, Ora Cockrell's, annual inspection records (Exhibits A and B) of Eldridge Homestead from 1909 through 1912.)

The above property was purchased by Eric and Hattie G. Ravndal on June 1, 1918. Gerald B. and Velma H. Ravndal sold said property to Lou and Sybil Gohmes in July, 1957. At that time, the said "Spring Ditch" had been used continuously from 1887 to 1957 for domestic, stock and irrigation water, and for stock and irrigation water from 1957 to the present date, for a total of more than 97 years' continuous use.

N.B. Albert Hull (born March 1881) visited the Ravndal ranch about 1953 and said he was a small boy of six when he accompanied his father, Joseph Hull, who with other neighbors helped "raise" the 2-story part of the Eldridge log house in the fall of 1887.

VOL. XXII. NO. 39

CALLED TO BEYOND!

David P. Eldridge, a Leading
Citizen of North Fork, Called
to His Reward--Much Re-
spected Citizen.

It is the sad duty of The Recorder to again announce the death of a good citizen, a good father, a good husband, and a man with many of those qualities which go far towards making the ideal character. Amid many expressions of sorrow the death of David P. Eldridge was announced Friday morning of last week. Mr. Eldridge had been sick for a week or more, but it was generally understood that he was suffering with an attack of the grip, and with no thought of a fatal termination as a result of his malady.

The deceased was born at Boston, Massachusetts January 13, 1850, and died at the home of his son in this city February 28, 1908, which made him 58 years, 1 month and 15 days of age. When about nine years of age his parents moved to Linn County, Kansas, where he lived until the breaking out of the Civil war. When his country's call came he enlisted in the Seventh Kansas Cavalry, and stayed at the front of battle until the close and he was mustered out.

At the close of the war he moved to Missouril, where he was happily married November 25, 1875 to Miss Elizabeth Geery. To this union six sons and three daughters were born all but one now living. Believing that the great West offered greater opportunities he moved with his family to Montana in 1877. Ten years later, or in 1887 he came to Lemhi county, and took up land on Northfork, which has been the home of the family since their arrival in the valley.

many expressions of sorrow the death of David P. Eldridge was announced Friday morning of last week. Mr. Eldridge had been sick for a week or more, but it was generally understood that he was suffering with an attack of the grip, and with no thought of a fatal termination as a result of his malady.

The deceased was born at Boston, Massachusetts January 13, 1850, and died at the home of his son in this city February 28, 1908, which made him 58 years, 1 month and 15 days of age. When about nine years of age his parents moved to Linn County, Kansas, where he lived until the breaking out of the Civil war. When his country's call came he enlisted in the Seventh Kansas Cavalry, and stayed at the front of battle until the close and he was mustered out.

At the close of the war he moved to Missouril, where he was happily married November 25, 1875 to Miss Elizabeth Geery. To this union six sons and three daughters were born all but one now living. Believing that the great West offered greater opportunities he moved with his family to Montana in 1877. Ten years later, or in 1887 he came to Lemhi county, and took up land on Northfork, which has been the home of the family since their arrival in the valley.

With the exception of one son, Edgar, who lives near Boise, William, Arthur, Ernest, Frank and Homer and the daughters, Mrs. L. R. Cummings, of this city and Lydia, who lives at home they were all able to be at the obsequies, which took place at the Presbyterian church Sunday afternoon, Rev. Waite, the pastor performing the services for the dead.

It is seldom that a larger crowd attends a funeral than was the case Sunday afternoon. Some most beautiful floral offerings spread on the casket was evidence that he was held in most kindly remembrance. The interment took place at the cemetery, southeast of the city.

Mr. Eldridge was an unassuming man, a good neighbor and generally liked by all who knew him. In the common acceptance of the term he made no religious profession, but he was a man who believed in treating those with whom he came in contact as he would wish to be treated. He was a broad minded man and will be missed by a large circle of friends in this place.

It is idle to offer the bereaved family comfort at this time, but it may be a little consolation to them to know that the deep sympathy of the public is with them in the greatest trial and sorrow which can come to the human race.

APPLICATION UNDER ACT OF JUNE 11, 1906.

Gibbonsville, Idaho

Oct 9, 1908.

THE FORESTER,
WASHINGTON, D. C.

I hereby make application for the examination and listing, under the Act of June 11, 1906, of the following-described lands in the Salmon National Forest,

County - five acres, more or less, of unsurveyed land
(If the land is surveyed, give each smallest legal subdivision and the section, township, and range. If the land is unsurveyed, describe it by reference to natural objects, streams, or improvements, with boundary lines sufficiently definite to identify the land, so that the examiner may easily locate it. When convenient, submit sketch of the land on the township plat, last page.)
lying on Hughes & North Fork Creeks about six miles
below Gibbonsville in unsurveyed Twp. 25 N. R. 21 E.

INDEXED

Boise Min.

I am entitled to make entry under the homestead laws and the Act of June 11, 1906. I have actually been upon the land above described and believe it to be chiefly valuable for agriculture, having settled upon it (or examined it) settled in spring of 1887. Log house 18x26'
(Give the date of settlement or the date of the examination, the character of the improvements, if any, and the amount

1 1/2 stables, log & rock cellar 18x20, Blacksmith shop, frame barn 80x20x20'
of cleared land.)
to square, milk house 16x40, 600 tree orchard, about 50 acres cleared
land, and 750 rods fencing, and all the required ditches
for the land.

My present address is

Gibbonsville, Idaho.

Elizabeth M. Eldridge

Applicant.

NOTE.—If the applicant, upon the request of the Forest officer detailed to examine the land, will accompany him, it will usually facilitate the examination.

REPORT ON AGRICULTURAL HOMESTEAD APPLICATIONS

Application No. - 55 - Salmon National Forest.Land District Hailey. October 8-9-10, 1908.
(Date of examination.)1. Name and address of applicant Mrs. Elixabeth M. Eldridge,
(The county should always be given.)
Gibbonsville, Lemhi Co., Idaho.2. Settlement Yes. Alleges settlement in spring of 1887.
(Is applicant living on land? Give date of settlement.)3. Location Approximately seventy-five acres located by metes
(Legal subdivision, or by metes and bounds. Relation to highways, rivers, railroads, etc. Proximity and importance of towns, settlements, etc.)
and bounds, lying at the confluence of Hughes Creek and the
North Fork of Salmon River about six miles below Gibbonsville,
in the unsurveyed T. 25 N. R. 21 E. Boise Mer.4. Area Approximately seventy-five acres (75) more or less..
(Applied for, and recommended.)

9. Claims Aside from the patented placer ground which the claimant
(Conflicting claims to land or existing improvements—by whom and on what grounds. Examiner is not to pass upon claims—merely
is at present occupying and cultivating there are no conflicting
to furnish all available information. Use in the past, and by what means. Existence of mining claims. Give any information available affecting
claims to the land or any of the improvements thereon. Log house,
qualifications of applicant to make a homestead entry. Show what improvements have been made, and their present state of repair.)
rock cellsr, shop, large frame barn, milk house, 600 tree orchard,
berry patches, fencing and ditches comprise the improvements.

10. Economic possibilities Applicant desires to obtain title to the claim
(Reason for application, and opinion as to success of applicants' plans. State fully agricultural possibilities.
as soon as possible so that she will feel more at liberty to
value, if any, to Forest Service for Rangers' Quarters or other administrative purposes. If withdrawal of tract for administrative use is desired.
further the improvement work. The ranch has been successfully

farmed for quite a number of years and it has been demonstrated
that the land is more valuable for agricultural purposes than for
any other. The various markets throughout this end of the county
are easily accessible and in the event of the opening up of the
Bull of the Woods Mine, a few miles up Hughes Creek, this ranch
will have the first opportunity of supplying the camp with farm
products.

11. Recommendations -----
(Specific recommendation for or against listing of land, with summary of reasons for recommendation.)
It is respectfully recommended that the above described tract
of land be listed for settlement for the previously stated reasons.

12. Photographs No photographs.
(Give numbers of negatives which go with this report. Photographs should be made in each case where unfavorable action is recommended.)

13. Personal -----
(Has applicant agreed to the findings of the examiner?)

Supplement to Form 110,

Mrs. E. M. Eldridge, H. E.

The applicant and deceased husband settled on this claim in the spring of 1887, after practically all of the land along the Hughes Creek bottom, from the mouth of the creek up the stream for a distance of about five miles, had been located for placer purposes. Later on a portion of the land upon which applicant settled was patented as placer ground. That portion of the ground along the creek which divides the applicants claim into two noncontiguous tracts, it is held, never exhibited any paying values and was simply patented in order to hold this lower creek bottom as a dumping ground for the placer workings higher up the creek. Furthermore, said applicant has always held and improved a large portion of the patented placer ground, such as is shown on the accompanying map, and at no time has she been requested to discontinue the occupancy of the land. Also the fact that aside from that portion of the Eagleson claim which lies adjacent to this noncontiguous tract on the south, there is absolutely no agricultural land whatever on the southwest, appears to add to the claimants priority of right to the tract, of eighteen acres in area, which is separated from the main ranch by the patented placer claims.

I take this means of putting before the Service the fact that the present applicant has a preference right to the two noncontiguous tracts of land for which she is making application.

Geo. L. Thompson

5. Topography The claim covers bench and bottom land in Hughes Creek
(Topography of tract applied for, and relation to surrounding territory. Topography should be considered particularly in
and North Fork canyons, with a southeastern aspect. The altitude

(its bearing on agricultural possibilities, altitude, slope, aspect, etc.)

is approx. 4,100 feet. On all sides of the claim except up and
down the creeks the mountains are very precipitous and rise in
elevation to about 6,000 feet. All of the bench and bottom land
is under ditch from North Fork and Hughes Creek.

6. Formation The soil consists of a sandy loam from one to two feet

(Nature and extent of soil, rock, etc., paying particular attention to their influence on agricultural possibilities. Presence of

deep under which is a formation of coarse wash gravel. There

water for irrigation and domestic use. Possibilities for developing water.)

are no possibilities for developing water but, there is an abundance
of water in both the North Fork and Hughes Creek easily
obtainable for irrigation.

7. Climate The climate is moderate in winter and in summer it affords

(Precipitation, temperature, occurrence of killing frosts.)

a growing season of about fourteen to sixteen weeks from latter
part of May. The occurrence of killing frosts is seldom before
the latter part of September.

8. Cover Aside from a narrow strip of willows and brush along the west

(Nature and extent of cover, with estimate of amount and value. Accessibility and distance to market. Is cover needed for pro-

side of North Fork all of the land outside of that contained in the

ective or seeding purposes?)

survey for Placer Patent is more or less cleared off. None of the
growth contained on the applicants claim is of any value to the
Forest..

Thence N.46°07'E.

6.75 To $\frac{H}{5}$, a boulder 2 1/2 x 4 feet 14" above ground, identical with Corner No.5 of Survey No.1498. Whence B.T. of mineral survey, bears N.36°30'E. 1.31 chains.

Thence N.34°33'W.

Following 5-1 course of Mineral Survey No.1498.

8.56 To North Fork Creek.

10.40 To $\frac{H}{6}$, identical with Corner No.1 of Mineral Survey No.1498, a cottonwood tree 10" in diameter, in clump of brush on the west bank of North Fork.

Thence N.55°53'E.

Following 1-2 course of Survey No.1498.

12.16 To $\frac{H}{7}$, a birch tree 7" in diameter, in clump of brush on the east side of North Fork, identical with Corner No.8 of the Hughes Creek Ranger Station. No available witnesses.

Thence N.38°30'W.

Line is identical with 7-8 course of said Ranger Station.

4.81 To $\frac{H}{8}$ a 2x4" post 4' long set in mound of rock, identical with $\frac{R}{7}$,. A cottonwood tree on ditch bank, marked W/H/8, bears SE, 1.39 ch- no other near by objects suitable for witnesses.

Thence S.71°45'E.

Chains, Line follows general course of fence along hill side.
20.30 To ^H9, a wash boulder 6"x8"x3' long set in a mound of rock. Whence gable end of Eldridge house bears S.2°W. The NW corner of stable bears N.56°30'W. 1.90 chains. The NW corner of cellar bears N.71°W. 12 feet.

Thence N.41°13'W.

5.30 To ^H10, identical with Corner No.1 of Hughes Creek Placer Survey No.1480, a stone 8x12x18 inches. Whence a pine tree 20" diameter, bears S.64°21'W. 40.4 feet. A fir tree 36" diameter bears N.41°42'E. 62.45 feet. Whence U.S.L.M. No.8 bears N.61°36'E. 277.85 feet.

Thence S.2°25'E.

3.97 To point where patented line strikes Eldridge's stable.
15.80 To North Fork.
21.11 To ^H11, identical with patent corner #2 of Survey No.1480 (Hughes Creek Claim)

Thence N.70°15'W.

0.74 To ^H12, identical with Corner No.2 of Stein Claim, Survey No.1480.

Thence S.22°52'W.

Following 2-3 course of Stein Placer Claim, Surv'y No.1480.
27.30 To ^H13, identical with ^H2 of Eagleson claim, a 4"x4" post 8" above ground, set 3' north of Eaglesons stable. No other available witnesses.

Thence S.81°E.

Chains.
1.68

To $\frac{H}{1}$, place of beginning.

The tract contains approximately fifty-seven (57) acres, more or less.

Thence continuing with successive numbering of corners. Beginning at $\frac{H}{14}$, identical with Corner No.1 of the Stein Placer Claim, Survey No.1480, a cottonwood post 5" diameter 3' long, set in mound of rock in alfalfa patch. From whence U.S.L.M.No.8, bears N.27°40'E. 1511.64 feet.

Thence N.70°15'W.

Following 2-3 course of Hughes Creek Placer Claim.
2.27 To $\frac{H}{15}$, identical with Corner No.3 of Hughes Creek Placer, a cottonwood stake 3" in diameter 2' long set in alfalfa patch. No available witnesses.

Thence N.2°25'W.

Following 3-4 course of Hughes Creek Placer.
9.67 To $\frac{H}{16}$, a pine stump 2' high 5" in diameter. Whence a pine tree 4" in diameter, marked W/H/16, bears S.72°E. 11 links. A pine tree 5" in diameter, marked W/H/16, bears S.56°30'W. 10 links.

Thence S.20°W.

Along foot of steep hill side.

9.46 To $\frac{H}{17}$, a boulder 3'x14"x6" above ground. Whence a pine tree 5" diameter, marked W/H/17, bears N.18°W. 73 links.

Chains. A pine tree 36 inches in diameter, marked W/H/17,
bears N.87°W. 1.09 chains.

Thence S.35°W.

Along general course of fence.

19.12 To ^H18 identical with ^H6 of Eagleson claim, an aspen
stake 3" in diameter 3' long set in a mound of rock
at the butt of a fir tree 4' in diameter, marked
W/H/6-18 respectively.

Thence S.50°E.

Line divides Eldridge and Eagleson claims.

6.00 To creek or waste ditch.

10.40 To ^H19, identical with ^H5 of Eagleson's claim, a
cottonwood post 5" in diameter 3' long set in willow
bottom. No available witnesses.

Thence N.22°32'E.

Line is identical with 4-1 course of Stein Placer.

22.57 To ^H14, place of beginning, identical with Corner NO 1
of Stein Placer, Survey No.1480, as above stated.

The tract contains approximately eighteen (18)
acres, more or less.

The combined area of the two noncontiguous
tracts is approximately seventy-five (75) acres,
more or less, and is all good agricultural land.

QUESTION 6. State by subdivisions the number of acres cultivated, kind of crop planted, and amount harvested, each year. How many acres of the claim are now cleared, or broken, and under cultivation? If used for grazing only, state number and kind of stock grazed each year and by whom owned.

ANSWER. about 40 acres of the land under cultivation, being all of tract B and about 20 or 21 acres of tract A, Timothy, clover and alfalfa and fruit and vegetables planted,
Harvested each year since 1893 about 60 tons of timothy, clover and alfalfa hay,
Harvested each year since 1904 about 75 bu. of apples, and other small fruit,
harvested each year since 1892 about 200 bu potatoes, and all kinds of small vegetables, about 40 acres of the claim cleared, broken and under cultivation.

QUESTION 7. Describe fully and in detail the amount and kind of improvements on each subdivision. State total value of improvements on the claim.

ANSWER.

Subdivision.	Character of improvements.
On Tract A	One log house, about 18 x 24, 5 rooms, One frame barn about 24 x 80 2 story, One log chicken house, about 12 x 16 One frame milk house about 12 x 36 The entire tract fenced, partly with leaning fence, posts and jacks and partly 5 poles nailed thereon, and partly with what is known as a worm fence, about 7 poles, with stakes, total value of all improvements, \$3500.00 the entire tract covered three main ditches, from North Fork and Hughes Creek.

QUESTION 8. Are there any indications of coal, salines, or minerals of any kind on the land? If so, describe what they are.

ANSWER. none to my knowledge.

QUESTION 9. Have you any knowledge or information that claimant has sold or contracted to sell, optioned, mortgaged, or agreed to option or mortgage this land? If so, give full details as to whom, for what purpose, and in what amount.

ANSWER. I have no knowledge that claimant has sold, contracted, to sell, optioned, mortgaged, or agreed to option or mortgage any portion of this land, I don't think that she has.

QUESTION 10. (a) Have you personal knowledge, from your own observation, that claimant and his family (if any) actually resided upon and cultivated this land each year in accordance with your above testimony?

ANSWER. yes I have personal knowledge from my own observation that claimant has actually resided upon and cultivated this land each year since 1892,

(b) How many times each year have you seen this land, and the claimant and his family residing thereon; and what other personal knowledge have you upon which your answers are based?

ANSWER. I have seen the land and the claimant residing thereon every few days since 1892, I base my answer upon the fact that I have lived within 1 1/2 miles from this land the past 15 years, and have been at claimant's home many times in the last 20 years.

QUESTION 11. Are you interested in this claim, or related to the claimant? If so, how?

ANSWER. I am in no way interested in this land, and not related to claimant.

Dear Mr. Westman:

The Department of Water Resources has completed the processing of your claims to a water right and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claims will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claims does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claims.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim files, you may have that information or evidence added at any time. Please refer to your claim numbers when corresponding with this office.

We are enclosing for your records, copies of your claims. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Dear Bob:

Enclosed is a copy of the notarized statement by Velma Ravndal concerning the ditch used by the O H Ditch Association. This statement dates the beginning of continuous use of the ditch as 1887.

Could you please inform our Association by a letter of our different options at this point. Send this letter to me, and I will forward it to the other members.

If you have any questions, please contact me.

Sincerely,

Sue Kozacek

10a. Describe other reasonable alternative proposals considered.

There are no reasonable alternatives.

10b. Give explanation of why it is necessary to utilize Federal lands and why the alternatives in item 10a were not selected.

Water ditch has existed since 1880's. It's present location is adequate and appropriate. Ditch line crosses Federal land while connecting several private land tracts.

11. Provide statement of need for proposed use, including the economic feasibility and items such as: (a) cost of proposal (construction, operation, and maintenance); (b) estimated cost of next best alternative; and (c) expected public benefits. (If extra space is needed, use page 3, REMARKS).

Ditch must be cleaned to provide adequate waterflow,
Cost is reasonable for members involved,
Cost of new ditch is prohibitive.

12. Describe probable effects on the area population, including social and economic aspects, and rural lifestyles.

No adverse affects.

13. Describe likely environmental effects that the proposed use will have on: (a) air quality; (b) visual impact; (c) surface and ground water quality and quantity; (d) control or structural change on any stream or other body of water; (e) existing noise levels; (f) land surface, including vegetation, permafrost, soil and soil stability; and (g) populations of fish, plant, wildlife and marine life, including threatened and endangered species. (If extra space is needed, use page 3, REMARKS).

Some minor tree removal and brush clearing around ditch. Ditch cleaning may result in a very slight, short term sediment increase in area around ditch outlets.

No major long term negative effects.

14. Describe what actions will be taken to protect the environment from the effects of the proposed use.

Clean ditch when dry. Keep ditch repaired.

15. Name all Federal, State, County or other department(s)/agency(ies) where an application for this is being filed. Attach appropriate license, building permit, certificate or other approval document.

(If extra space is needed, use Page 3, REMARKS).

- (a) This application is for a permanent water system easement for a ditch irrigating approximately six acres of agricultural private land. This ditch was constructed shortly before 1890, the 1912 survey has the ditch reported on the Homestead Application, and the ditch has been in continuous use.
- (b) Headgate on private land collects water from spring. Water then flows in the ditch across Forest Service land and then onto private land. Sidegates in ditch are used to repair/clean ditch.
- (c) This is an earthen ditch. Width of the prism of the ditch is 15 feet each side of the existing ditch centerline. Length of ditch on the Forest Service is 2,400 feet following the existing ditch centerline.
- (d) Permanently.
- (e) April 1 - November 1 for irrigation. January 1 - December 31 for stockwater.
- (f) Already constructed.

 Attached.

9. Give statement of your technical and financial capability to construct, operate, and terminate the use for which authorization is requested, including the protection and restoration of Federal lands. (If extra space is needed, use page 3, REMARKS).

Use is permanent and ditch is already constructed, so no financial obligations are anticipated. Regular maintenance includes cleaning debris and weeds out of the waterway and attending to any leaks which may occur. Most of this will be done by hand. Occasionally there may be a need for a backhoe or cat to do major repair work. However, this is not anticipated to occur more than once every 5 years and only if the ditch is in some way threatened. requirements and desirability for restoring disturbed land, environmental concerns, insuring the integrity of the area, and maintaining the ditch for it's multiple use values.

FS-2700-3 (10/96)

10a. Describe other reasonable alternative proposals considered.

Where the ditch now lies is where it has been located since its construction shortly before 1890. Field checks have shown that this is the only possible location for this ditch to transport water from the source to the point of use.

10b. Give explanation of why it is necessary to utilize Federal lands and why the alternatives in item 10a were not selected.

Federal lands have been utilized because this is the only land that lies between the water source and the point of use.

11. Provide statement of need for proposed use, including the economic feasibility and items such as: (a) cost of proposal (construction, operation, and maintenance); (b) estimated cost of next best alternative; and (c) expected public benefits. (If extra space is needed, use page 3, REMARKS).

This is an actual use and is needed to continue to provide irrigation to six acres of pasture and stockwater. I provide maintenance through working with an adjacent landowner. There is no reasonable alternative. The existing water system benefits me by providing necessary irrigation water to maintain my agricultural land and water livestock.

12. Describe probable effects on the area population, including social and economic aspects, and rural lifestyles.

The effect has been beneficial, providing an agricultural lifestyle that is traditional in the area. The ditch also provides water for wildlife in the area and allows the existence of a riparian area that would not be there without the ditch.

13. Describe likely environmental effects that the proposed use will have on: (a) air quality; (b) visual impact; (c) surface and ground water quality and quantity; (d) control or structural change on any stream or other body of water; (e) existing noise levels; (f) land surface, including vegetation, permafrost, soil and soil stability; and (g) populations of fish, plant, wildlife and marine life, including threatened and endangered species. (If extra space is needed, use page 3, REMARKS).

The ditch has been in actual use for over 100 years. Permit issuance will have no negative environmental effects. There will be no effect on air quality or existing noise levels. Visuals are enhanced by the continued existence of the ditch since it maintains a riparian area. The ditch follows the contour of a hill. From the waterway to approximately 200 feet below, the ditch supports a thick stand of vegetation composed of a variety of grasses, forbs, shrubs and trees. This provides excellent wildlife habitat. This area is maintained by the ditch since small seeps have been formed along the length of the waterway. Without the ditch, this riparian area adjacent to and below the ditch would not exist.

14. Describe what actions will be taken to protect the environment from the effects of the proposed use.

N/A since this is an existing use. The regular maintenance of the ditch will insure the integrity of the ditch and associated riparian areas.

15. Name all Federal, State, County or other department(s)/agency(ies) where an application for this is being filed. Attach appropriate license, building permit, certificate or other approval document.

State of Idaho, Department of Water Administration Claim to a Water Right attached.
