Subject: Basin 73 water rights for fish screens

I met with Larry Weeks (Idaho Dept. of Fish & Game, Salmon) on August 11, 2005. Together, we reviewed the files kept by Fish & Game concerning the fish screens in the Pahsimeroi Valley (Basin 73). It was apparent from documents in the files that the priority dates originally claimed were based on the dates the easements for the screens were signed and/or recorded. The evidence of priority submitted by Fish & Game supports the date the screens were actually built. SRBA recommendations of priority date for these screens will be based on the construction date. In addition, five of the claims in the SRBA represent screens that have been removed, due to either consolidation of diversion points, or the conversion from a headgate diversion to a pump. Unless these claims are withdrawn, they will be recommended to be disallowed.

The changes to the Basin 73 fish screen claims are summarized as follows:

<u>Basin</u>	<u>Sequence</u>	<u>Diversion Name</u>	<u>Priority Date Claimed</u>	<u>Priority Date</u>
