

MEMORANDUM

Date: August 29, 2005

To: Steve Robischon

Cc: Misty Mount

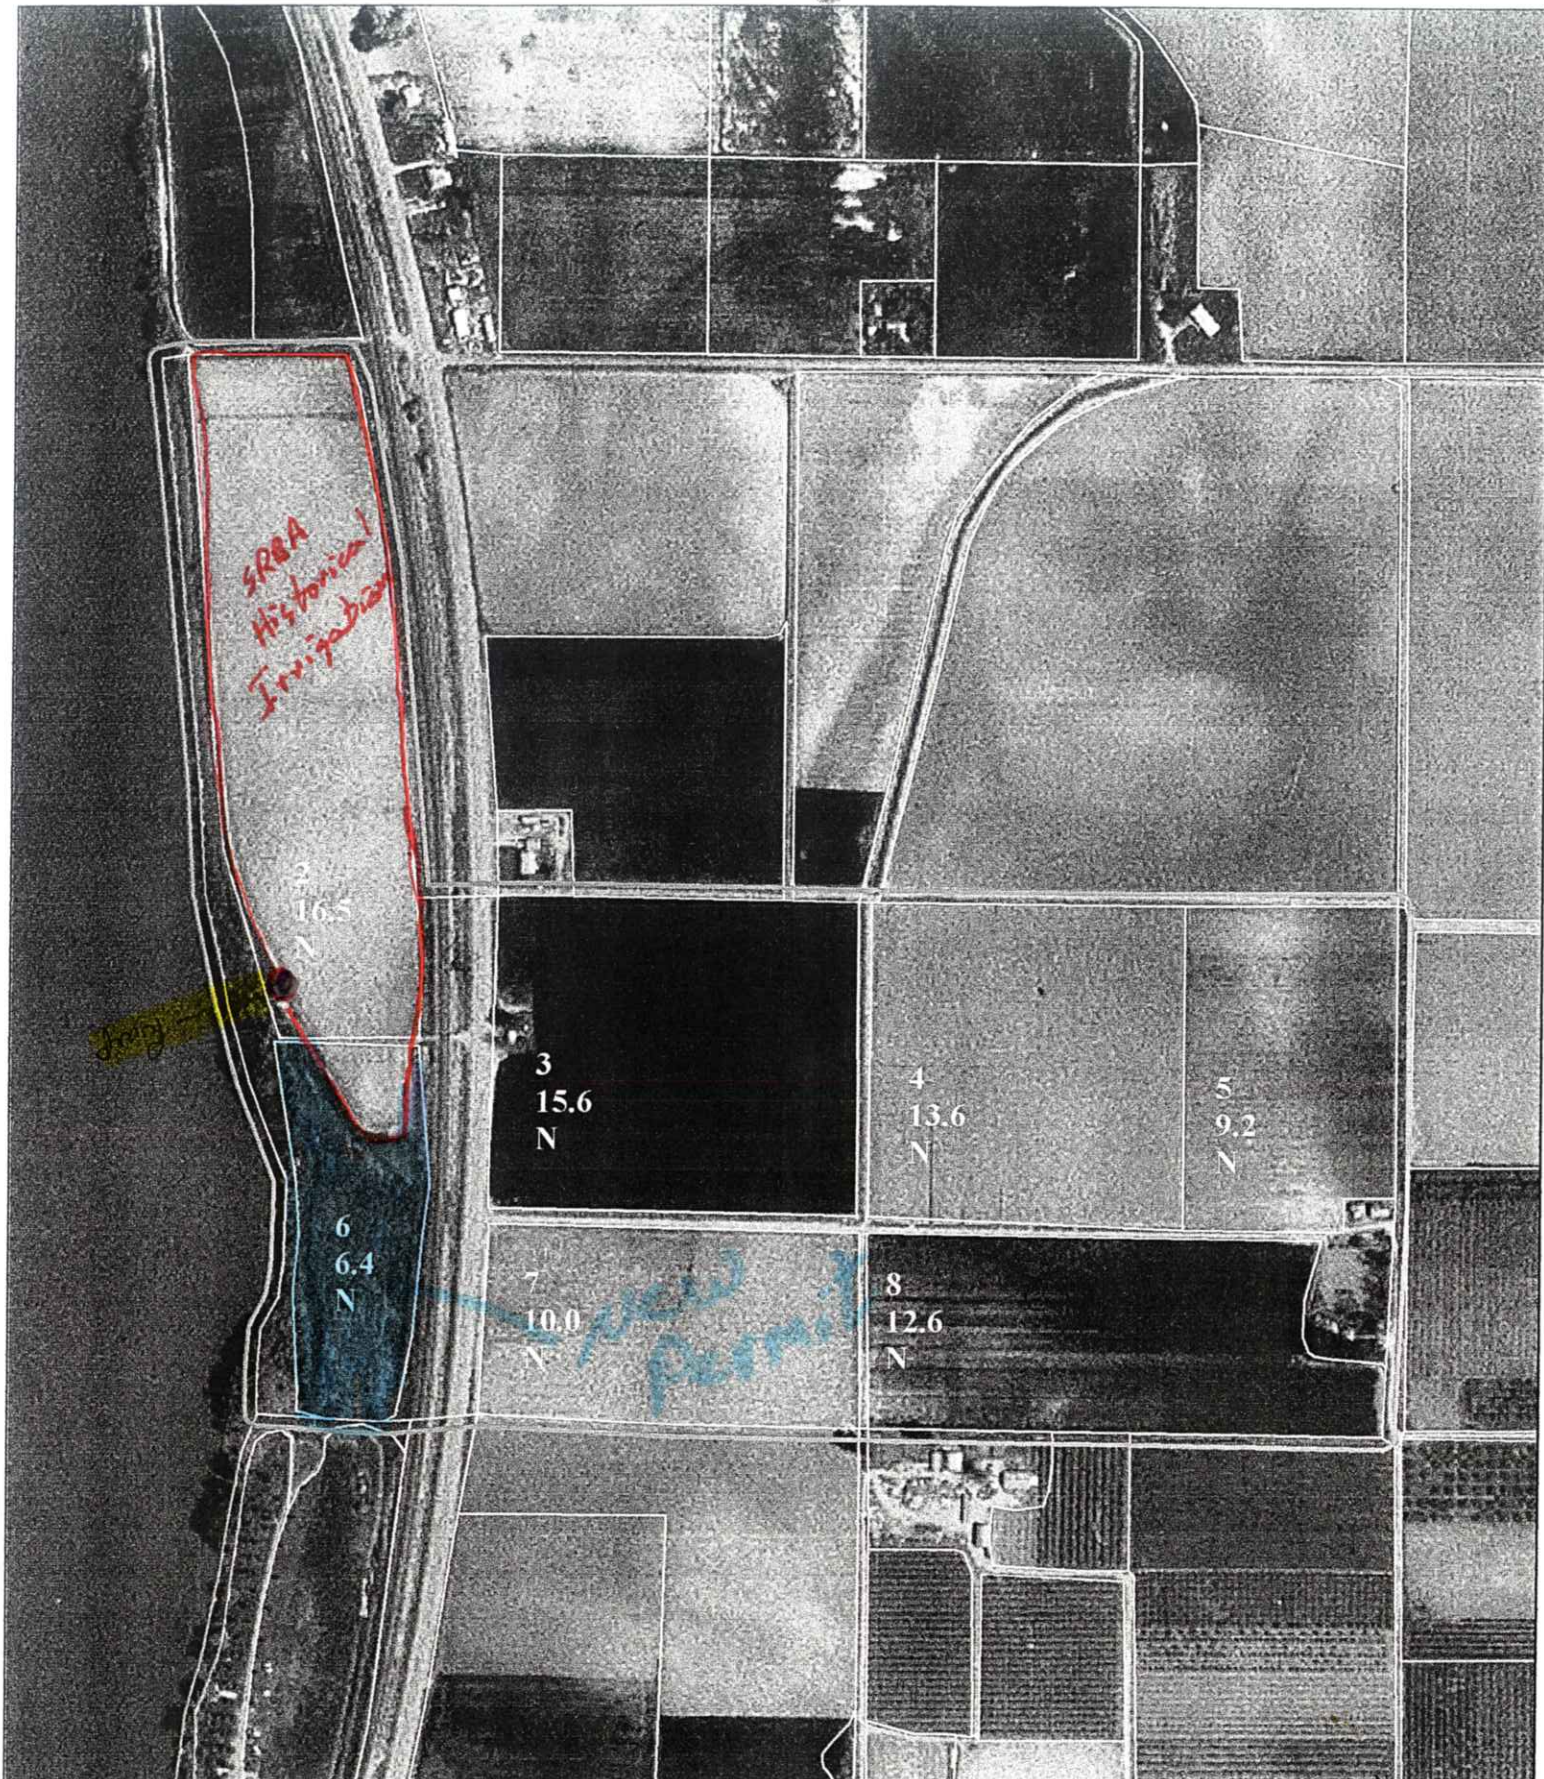

From: Craig L. Saxton

Subject: Meeting with Stan Craven regarding SRBA claim 03-04000

Misty and I met with Stan Craven on Friday August 29, 2005 at about 3:15 pm. He was inquiring about a letter he had received from you.

Misty recognized the letter and he had several questions that we addressed.

- 1) There was a question about the Hubble analysis form you sent him. After explaining what a Hubble analysis was and why he was sent the information, Mr. Craven agreed that he only desired to claim 1 inch per acre. He will not be pursuing more than one inch per acre.
- 2) Ownership. Mr. Cravens mother is listed on the claim and has passed away. We gave him a change of ownership form and told him to send it in with a copy of the death certificate and to note on the c/o form that his intent was to have his mother removed. He will also be changing his address.
- 3) Irrigated POU. The southern 6.4 acres on a ASCS map provided (I will drop you a copy of the map on your desk) will be applied for under an application for permit. We discussed how he now irrigates the lower field, but that took place around 10 years ago when he leveled the land. I explained that he would need to file an application for permit for a new water right. We gave him a blank permit form and he will be filling it out and returning it to the Western regional office. I have drawn in the SRBA irrigated boundary in red, new permit irrigation is highlighted in blue, and the POD location is shown on map as drawn in by the claimant.

Washington Farm 1649
Tract 1786
Corrected 3/21/05
