Dear Sirs:

Attached is a notarized copy of a letter from W. Paul Lindsay who has lived adjacent to the Moreland 1,4,5 Wards where the well for permit A35-04168 was drilled at the time the ward was built and the November 1941 date seems correct.

Also attached is some information regarding the construction of the ward and the drilling of well #A35-04190.

The Real Estate Department of the Church was not organized until the middle 1960's and therefore most information regarding construction of buildings and drilling of wells is not as complete as it should be.

I hope that these documents, along with the letter you received from President Larry J. Clements, will be sufficient to show when the wells were drilled. They have been the source of water for these wards since that time.

Thanks for your patience and help.

Sincerely,

Ronald C. Johnson
Water Analyst

L. Clifford Olsen
Presiding Bishopric Office
Salt Lake City, Utah

Aug 12, 1952

Dear Brother Olsen:

We are in receipt of a letter from the Presiding Bishopric under the date of June 6, 1952 advising us of the church approval on our application for the construction of a curb and walks and for landscape planting of our meeting house grounds at a cost of \$1724.00. Their letter also states that, "this application will now be referred to the Landscaping Department and no commitments for construction or for the purchase of materials should be made until you hear from them". The building supervisor of our meeting house will be free to come back and complete the work around the church house grounds, starting the first of August. Unless there is some reason for not giving approval to finish this work, would you send us a letter of approval as soon as possible?

We were in your office the first of March and talked to you about plans for landscaping. At this time we mentioned that there were ten large trees that had to be removed so as to construct a parking lot. We also discussed at that time how we were going to water the grounds. I don't believe either of these items were mentioned in the request for approval of funds for landscaping. Could you give us information whether the church will participate on these with us? We have a member in our ward who is able to secure sprinkling heads for us at wholesale cost and we would like to have these installed before the lawn is planted. It would be appreciated if we could get information on these as soon as possible.

Do we order the materials from your office when we are ready to plant? We can use the lawn grass seed this fall, but the pasture grass and the trees around the property line will probably have to wait until spring since there is considerable leveling and etc. to do before planting.

Very sincerely yours,
Riverside Ward Bishopric

by Bp. Darrell A. Wilson

RE: **Evidence of Priority**
NO.'S A35-04190, A35-04229, A35-04227, & A35-04168

Dear Claimant:

The Notices of Claim identified with the numbers shown at the end of this letter have been filed in the Snake River Basin Adjudication (SRBA). The Notices indicate the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notices and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notices have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notices be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority dates by JULY 15, 1991, referencing all documents with the corresponding Notice numbers. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

NO.'S A35-04190, A35-04229, A35-04227, & A35-04168
page 2

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. Every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,

Eric Verner
Senior Water Agent
