I. FINDINGS OF FACT

Claims were filed for these water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained recommendations for the elements of these water rights.

No objections were filed for water rights 29-13591, 29-13597, 29-13603, 29-13609, and 29-13615. However, these water rights are used in combination with water right 29-13584 which was the subject of an *Objection*. The *Objection* was resolved on April 22, 2005 with the filing of the *Portneuf River Settlement Agreement*. In addition, a quantity remark that was inadvertently omitted from the *Director's Report* was included in the quantity element. See, *Idaho Department of Water Resources Letter* (June 14, 2004)

III. CONCLUSIONS OF LAW

Based on the file and record herein, IT IS RECOMMENDED that this water right be decreed with the elements set forth in the attached *Special Master's Recommendation for Partial Decree*.
