Desert Land Act

From Wikipedia, the free encyclopedia.

The **Desert Land Act** was passed by the United States Congress on 3 March 1877 to encourage and promote the economic development of the arid and semiarid public lands of the Western United States. Through the Act, individuals may apply for a desert-land entry to reclaim, irrigate, and cultivate arid and semiarid public lands.

The act offered 640 acres (2.6 km²) of land to anyone who would pay 25 cents an acre (\$61.78/km²) and promise to irrigate the land within 3 years. Individuals taking advantage of the act were required to submit proof of their efforts to irrigate the land within three years, but as water was relatively scarce, a great number of fraudulent "proofs" of irrigation (estimated as high as 95% for early claims) were provided.
