

original - water right subcase #
81-11977

To whom it may concern;

Since 1965, my family's property on the middlefork of the Clearwater River has been irrigated each year with river water. When my father became unable to set and maintain the pump each summer, other members of the family would do it. (It was imperative that the irrigation be set up each year so that the neighbors could cut the hay in our lower pasture.)
