(Wk) (208) 736-2190

Dear Craig,

Thanks again for returning my telephone call this morning to let me know that no further evidence of priority is necessary regarding my Adjudication Claims, 67-11267, 67-11268 and 67-11269. If I correctly understood what you were saying, because these claims are for springs, stock water and storage, the letter which IDWR sent me dated August 30, 2005 should not have been sent after all.

According to the letter, I was required to respond by September 16, 2005. Although I believe that no written reply is necessary, I am sending you this correspondence to confirm our conversation of this morning. If I am mistaken and I am required to submit any further documentation of any kind, please let me know. I certainly want to do everything possible to insure my water rights are preserved.

Once again, thanks for taking the time to call me to let me know what was going on. I was trying to decide if I needed to drive to Weiser and to see if I could get Bob Whiteman, the former owner, to draft and sign an affidavit. Your call saved me a lot of trouble.

Sincerely,

Steve VanZandt
