WATER RESOURCES

IDWR

August 10, 2004

Pocatello, Idaho

To whom it may concern

I grew up on Harry's place who was my father. He irrigated this place for some fifty years. At times I would irrigate for my father when he was gone for short periods of time.

I changed water on The Alhand's place in SENW, little in NESW, little in SWNE all in section 32 T16N and R25E.

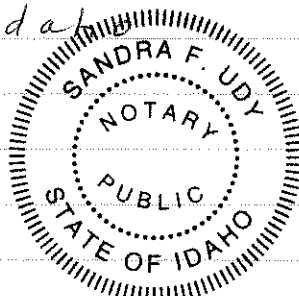

The water rights on the two ranches are 74-338B, 74-349, 74-1105, 74-~~1105~~³⁶⁹, 74,1136, 74,157 were used on either property's, except on the ground above the Peterson ditch on the east side of the hill which could only be irrigated with eight mile water.

This has been going on since May 1 of 1955.

Signed
