Sir:

My neighbor, Dang Faut, from Middleburg, Virginia, whose property lays east of my property along Sandare Road, requested me, by long distance telephone conversation to inform you about his water right on the Bear Creek Community Ditch.

His water right dates back to 1901 Decree date, also a secondary ditch from the original ditch, took 1910 Decree was established on his property on Sec. 24-25.

I hope my remarks and this information will help him with his water right decree history. His property was purchased from Mr Bert Warner whose water right also dates back to 1901.
