A dispatch from Chicago, dated the 19th inst., has a notice of Mr. Virtue, Oregon's commissioner of mines to the New Orleans exposition. Judging from what he is reported to have stated, Oregon will not derive much good from his mission east as far as trade is concerned. Read: "J. W. Virtue, Oregon commissioner of mines, is here en route to the New Orleans exposition with an exhibit of the mining industries of eastern Oregon. As the legislature did not act on the project until January, the exhibit, Mr. Virtue says, is not as full as it otherwise would have been, but as it is he will place over 3000 specimens on exhibition. On his table, scattered promiscuously about, was nearly \$10,000 worth of gold in quartz and nuggets, but the most valuable of the collection had been sent by express. Virtue believes that the trade of eastern Oregon naturally belongs to Chicago and other eastern cities, rather than to towns on the Pacific slope, and his great object in making the best showing at the exposition is to attract the attention of capitalists and business to the resources of his region, which are not generally appreciated. Its heavy gravel mines are but beginning to show their value, and the region of which Baker city is the distributing point. If eastern manufacturers and wholesale houses, he says, would reach out for its trade it would be an easy matter to secure it against San

The Virginia Chronicle says: The young alligator brought from New Orleans by Col. C. C. Thomas is still disporting in the tepid water coming from the tunnel at Surtro, and is said to be growing apace. The quality of the water is said to make no difference to these reptiles if it is not enough. Numbers of them live in the mineral spring near the Mospuito river, in Florida, the water of which is at a boiling point and is strongly impregnated with copper and vitriol. When full grown the alligator inhabiting the waters of the southern states measures from fourteen to fifteen feet, its head forming one seventh of its length, and half as broad at the articulation of the jaws as it is long. It is said to be far more fierce and voracious than the South American species, often seizing and destroying men and large animals, the bodies of which it conceals under the banks of rivers and bayous until they begin to putrify, when it draws them ashore and devours them, for its teeth, unfitted for mastication, cannot cut the flesh in its sound state.

It seems curious, says the Buffalo Truth, that the main reason given for the reduction of wages, the stoppage of workshops and factories, and the consequent distress spread over the land, is the superabundance of created wealth. Too much coal is put out, and so coal operators quit producing and reduce miners and other help to misery. The farmers have grown too much corn and wheat and pork, and so the army of the hungry is increased while the granaries are bursting with breadstuffs and wheat is lower than it has been for twenty years. Because the harvests have been marvelous—such as to astonish the kingdoms of the old world, starvation is rampant in the land. Never were the rich so rich; never were the poor so poor. The land overflows with riches of every kind; the public treasury holds a surplus, beside which the wealth of the Indies pales into insignificance, and yet

WASHINGTON COUNTY!

Rich Agricultural Resources, Magnificent Timber Regions.

The Oregon Short Line besides doing so much in opening up Idaho and Oregon is developing new towns, among which Weiser city is one of the most prominent and probably has as bright future prospects as any place in Idaho. It is situated on the north side of Weiser river, just above where the stream empties into Snake river. The population is nearly 600. The resources of this place are extensive, being in one of the richest agricultural districts in Idaho, with immense timber accessible up Weiser river, extensive stock ranges in every direction, and with minerals in great abundance so near as to make this the center of business for all these industries.

Although Weiser has been a business center for this region for several years, its rapid growth did not begin until the approach of the railway, assuring easy communication and great increase of business. Since then, only a few months ago, the number of new buildings erected is very large, while their character is superior to that of most frontier towns. The citizens have lately donated 100 acres of land to the railway for depot purposes, and in a short time a fine depot and yards are to be provided. In all public matters the people work in such harmony as to accomplish what is attempted, and hence we find the streets in good condition and the town presenting a pleasant appearance, with various public enterprises being pushed forward.

Rev. Dwight Spencer came here last summer and arranged for the erection of a \$5000 Baptist church. Citizens took such interest in the matter that aided by the Missionary society east, the chapel has been built and nicely furnished, and now the same church talks of establishing here a Baptist college. Permanent county buildings will be erected in the near future.

about, was nearly \$10,000 worth of gold in quartz and nuggets, but the most valuable of the collection had been sent by express. Virtue believes that the trade of eastern Oregon naturally belongs to Chicago and other eastern cities, rather than to towns on the Pacific slope, and his great object in making the best showing at the exposition is to attract the attention of capitalists and business to the resources of his region, which are not generally appreciated. Its heavy gravel mines are but beginning to show their value, and the region of which Baker city is the distributing point. If eastern manufacturers and wholesale houses, he says, would reach out for its trade it would be an easy matter to secure it against San Francisco.

Some idea of the pension building where the biggest inaugural ball ever held in this country will take place on March 4th, may be gained from the fact that St. Peter's, at Rome, only holds about 54,000, while the pension building will hold about 59,000. Decorations will be made of the most expensive nature. New York contractors have insured decorations for \$50,000. The balconies will be hung with dark red velvet, spangled with gold; each of the 144 pillars will be hung with silk flags, and beneath the balconies there will be a shield embroidered with the coats of arms of the different states and territories, and hung with silk flags. The president will enter the room by a door draped with crimson silk curtains. The entrances are really carriage-ways: so their size may be imagined. The Sun, which prints the above, adds: President Cleveland will return to the custom of Washington and Jefferson, and stand on a dais during the ceremonies of the ball.

Rossa's paper, United Irishman has the following special from Dublin: "It has been decreed to offer a reward of \$10,000 for the body, dead or alive of Albert Edward Guelph, nicknamed 'Prince of Wales.' England has offered a reward for the assassination of Osman Digna, and we may profit by her example."

Seven hundred barrels of oil were taken from a whale found dead in the Bay of Santa Cruz, Cal., recently.

The annual revenues of the government of Great Britain are \$210,000,000.

press spread over a land, is the superabundance of created wealth. Too much coal is put out, and so coal operators quit producing and reduce miners and other help to misery. The farmers have grown too much corn and wheat and pork, and so the army of the hungry is increased while the granaries are bursting with breadstuffs and wheat is lower than it has been for twenty years. Because the harvests have been marvelous—such as to astonish the kingdoms of the old world, starvation is rampant in the land. Never were the rich so rich; never were the poor so poor. The land overflows with riches of every kind; the public treasury holds a surplus beside which the wealth of the Indies pales into insignificance, and yet thousands of men are in enforced idleness.

The Oregon Short Line made a change their time-card, which went into effect on the 14th inst. They run as follows, odd numbers going west and even numbers east:
No. 1 mail arrives,.....9:30 am
No. 2 mail arrives,.....6:31 pm
No. 11 freight arrives,....4:40 pm
No. 12 freight arrives,....4:20 am

March 4th was fixed upon as inauguration day because it seldom falls on Sundays. Only three times in the history of the United States has this date for inaugurating a president occurred on Sunday, as follows: Second inaugural of James Monroe in 1821; Zachary Taylor, 1849; and Rutherford B. Hayes, 1877.

The expenses of the postal service in all the southern states exceeded the receipts from the post-offices.

The New York Mail and Express offers this cheering intelligence: "Dyspepsia rules the world to-day."

In certain portions of west Africa the natives eat all enemies taken in war.

Between three and four thousand horses die every week in London.

Missouri has a law forbidding the sale of cigarets to children.

Knoxville, Tenn., invested \$1,080,000 in buildings last year.

Ottawa, Illinois, has 42 saloons and collects \$22,000 from them.

The Bank of England now covers three acres of ground.

Finger rings are said to be going out of fashion.

Pendulums of clocks were invented in 1641.

100 acres of land to the railway for depot purposes, and in a short time a fine depot and yards are to be provided. In all public matters the people work in such harmony as to accomplish what is attempted, and hence we find the streets in good condition and the town presenting a pleasant appearance, with various public enterprises being pushed forward.

Rev. Dwight Spencer came here last summer and arranged for the erection of a \$5000 Baptist church. Citizens took such interest in the matter that aided by the Missionary society east, the chapel has been built and nicely furnished, and now the same church talks of establishing here a Baptist college. Permanent county buildings will be erected in the near future. Other church organizations are anticipating the erection of churches, and it will not be long until the social advantages of older towns will be fully enjoyed.

AGRICULTURAL ADVANTAGES.
A study of a map of this region shows that several important streams with their fine valleys are so situated as to make this their natural center and trading point, and Weiser is destined to draw their shipping and other business to it.

Weiser river is a large stream capable of bringing down the wood and logs from the great pineries, and the fall is ample for furnishing almost unlimited water power. This fact with the railway makes this the natural point for saw mills, which are proposed to be established soon. Beginning far up Weiser valley we have as one of its tributaries

COUNCIL VALLEY
ten miles long and an average width of one and a half miles, with a population of 300. Small grain and vegetables of all kinds grow profusely in this valley, which has an elevation of only 3000 feet, and the surrounding foot hills are covered with bunch grass. A saw mill, good schools etc., are provided, and there is room for more people and many times greater operations in farming. Dense forests of fir and tamarack of fine large timber skirts this valley. Jacob Grosdore, G. M. Mason, R. P. White, S. W. Weikler, and Alex Kissler are prominent farmers there, who will heartily welcome new comers in search of homes.

INDIAN VALLEY
is ten miles long and two miles

WASHINGTON COUNTY!

Rich Agricultural Resources, Magnificent Timber Regions.

wide, was one of the first settlements made in the county, and contains many well improved farms. The altitude is 2900 feet, and population 350, and the chief industry that of raising sheep, cattle, horses and hogs, at fine profits. The valley has good schools, two stores etc. Fruit raising has been demonstrated to be successful, and there is an abundance of grass and timber on the hills. The chief farmers are T. Lindsey, J. V. Wilkerson, B. Snow, G. W. Patterson.

SALUBRIA OR UPPER VALLEY.

This is the largest, richest, and most populous of any; is twelve miles long and about the same in width. Like the others already mentioned, the chief business is in stock raising. It has an elevation of 2800 feet.

Three schools are well attended from six to ten months each year. Timber in almost inexhaustible quantities covers the surrounding hills. Two companies supply the water for irrigation. The flour and grist mill is owned by John Cuddy, and the mill is crowded with orders for the staff of life. The valley has a population of 500, two stores and saloons, owned by Thos. Carrick and Pat Hickey, who do a profitable business. Among the prosperous farmers are William and David Allison, E. S. Jewell, J. J. Wheeler, Wm. Wilkerson, F. M. Mickey and Jas. Sutton.

MIDDLE VALLEY.

This is about eight miles long by three and a half wide, lies at an elevation of 2,500 feet, and has been settled within the past few years by 500 people. It has two good schools, a large irrigating ditch which when farther completed will reclaim several thousand acres of land, which, although very rich, is now unoccupied. What has been said of the industries of the other valleys, applies to this. Keithley Bros., J. McRoberts, J. H. Reavis and M. Kilbourn are among the prominent farmers.

MANN'S CREEK VALLEY.

This is up Mann's Creek fifteen miles above its confluence with Weiser river and it may well be styled the garden of Washington

County. This feature should make this a great manufacturing town, and establish factories capable of turning out all kinds of wooden wares, etc. The drive of logs next spring will aggregate several million feet of lumber, to be landed here for use and shipment.

DITCHES.

The valley stretching along the Snake, from Payette river in Idaho, to Burnt river in Oregon, a distance of thirty-five miles averaging over four miles wide, is one of the richest in Idaho. Between Payette and Weiser the land is covered by the famous Peter Pence ditch, nearly twenty miles long.

The land has been largely taken up and much of it improved, and it is so rich as in time to become a perfect garden spot.

The Weiser ditch, extending from Weiser river towards Burnt river, covers about 30,000 acres of land which is now open to settlement. Persons with ordinary means can secure some of these lands by communicating with the Washington County Bank here, they have plats and all the requisites. The farmers are prosperous, and the country is destined to grow and become a very rich district. The lands held by the ditch company have never been advertised, and are held at such figures to actual settlers as to offer special inducements to persons seeking homes.

On the opposite side of Snake river, connected by a good ferry with Weiser, there is an extensive farm and grazing country, where are several bands of sheep, besides many cattle and horses. The ferry is one mile below town.

Malheur valley, Oregon, is a splendid country, being rapidly settled up. This being the nearest point for trading, Weiser city is drawing much business thence, and in time it hopes to secure the bulk of the trade of that immense valley, said to be one of the best in Oregon. It has its settlements, among which is Willow creek, a very rich tributary valley. All these valleys and lands offer inducements to new settlers.

Weiser's business men have endeavored to keep pace with the rapid growth of the surrounding country, and the result is that she can boast of as good stores, shops, stables, etc., as any town in the territory, among which we will mention the following:

Heilner, Ottenheimer & co., dealers in general merchandises,
Howard Sebree Co., dealers in general

merchandise, to points in Oregon and down Snake river. Great mining interests are being developed so near that the trade of the districts must come here.

The enterprising citizens of Weiser realizing the importance of the speedy settlement and cultivation of the vast area of vacant lands lying within this county, have for the purpose of encouraging immigration, established what is known as the Washington County Improvement Association. This society is ready and willing at all times to furnish to parties seeking homes among us trustworthy information, concerning all parts of the county, such as price of improved farms, when for sale, where situated, means of irrigation, price of stock, extent of range etc. The secretary of this society should be addressed for any desired information.

Among the special needs of this town and county is a planing mill and sash and door factory. An excellent quality of timber is found here and could easily be manufactured into salable wares. Competent teachers can find employment in our schools at good wages, other than those well qualified for that mission need look in this direction in the hope of finding employment. As an evidence of what can be done in this part of the western wilds, as our eastern friends term it, by even one of the gentler sex when she so wills, we will mention the success of two young ladies, who came west, within the past two years, to seek employment as teachers. Both came to this county, and in a very short time secured a school each and at the same time laid pre-emption claims in the vicinity of their respective boarding places. With six months wages they erected houses on their lands and paid the government price of one dollar and a quarter per acre and received titles to claims to-day worth one thousand dollars each. Nor did one of these enterprising young ladies stop here but in her greed she laid claim to the heart of a young and well to do stock raiser occupying an adjoining claim and what was two ranches is now one, and the home of as happy and prosperous a couple as this county affords. The other we are informed will meet with equal success.

The New York Sun is now in favor of silver as a currency, and in answer to the question, "will the silver dollar sink or swim?"

What has been said of the industries of the other valleys, applies to this. Keithley Bros., J. McRoberts, J. H. Reavis and M. Kilbourn are among the prominent farmers.

MANN'S CREEK VALLEY.

This is up Mann's Creek fifteen miles above its confluence with Weiser river, and it may well be styled the garden of Washington county. The raising of fruit has been met with most satisfactory results. Twelve apples from the orchard of S. M. Taylor weighed thirteen pounds, and they were fine specimens both in appearance and flavor. Grapes and peaches in equal size and flavor to those produced in California are raised here in abundance. Neat dwellings, capacious barns and substantial fences give the settlement a thrifty appearance. Thos. Shannon, E. E. Udley, S. M. Taylor, Wm. Hartley, A. F. Hitt and C. W. Murtley are some of the prominent farmers. The quality of the soil is unexcelled in all of these valleys, and the yields of cereals, vegetables, etc., are very large. Nature appears to have showered her richest blessings on these valleys, in the way of deep, rich soil, fine climate, abundance of water, with timber and grasses on the skirting hills.

Crane's creek, Hornet creek, Paddock valley, Mormon creek and Salmon Meadows are among the smaller settlements where in rich, small valleys people have pleasant homes, and who center with all the others named, at Weiser City for business and a market.

FINE TIMBER COUNTRY.

With its rich agricultural resources for Weiser to draw from, there is another important storehouse of nature which should not be overlooked. We refer to the immense timber regions at the head of the streams mentioned. It is claimed, and we believe justly too, that east of the timber country of Oregon and Washington Territory, there is no finer body of timber than that in the hills east of here, and which can be floated to our doors on the waters of the Weiser river, at a comparatively

easy point for trading. Weiser city is drawing much business thence, and in time it hopes to secure the bulk of the trade of that immense valley, said to be one of the best in Oregon. It has its settlements, among which is Willow creek, a very rich tributary valley. All these valleys and lands offer inducements to new settlers.

Weiser's business men have endeavored to keep pace with the rapid growth of the surrounding country, and the result is that she can boast of as good stores, shops, stables, etc., as any town in the territory, among which we will mention the following:

Heilner, Ottenheimer & co., dealers in general merchandise.
Howard Sebree Co., dealers in general merchandise.
Bamberger & Frank, dealers in general merchandise.
George F. Bell, general merchandise.
Perrault, Watlington & co., hardware, saddlery, harness, etc.
A. L. Simondi, furniture, wall paper, house decorations.
Sidney Dedman, notions, etc.
O. M. Harvey & co., drugs, medicines, paints, oils, etc.
G. R. Weatherford, Weiser Hotel.
J. W. Lemmon, Lemmon House.
Mrs. M. E. Walker, Capitol Restaurant.
J. B. Beardsley, City Restaurant.
Cope & Townley, livery and feed stable.
Charles Walker, feed corral.
G. C. Wing, manufacturer of saddles, harness, etc.
George Ebert, manufacturer of boots and shoes.
A. Engle, lunch house.
J. H. Hanthorn, manufacturer of tinware and dealer in stoves and shelf hardware.
Jeffreys & co., flouring mill and lumber yard.
S. B. Miller, physician and surgeon.
Peder Hunt, physician and surgeon.
Henry Martin, district attorney and counsellor at law.
Adams & Costello, lawyers.
Mitchell & Mitchell, lawyers.
Frank Harris, collection agent, ect.
D. P. Maryatt, attorney at law.
T. P. Maryatt, county surveyor.
A. Sears, carpenter and manufacturer of furniture.
Bain & Wallace, butchers, and proprietors of Weiser Meat Market.
C. T. Williams, postmaster.
The Washington County Bank, capital, \$30,000; M. L. Hoyt, cashier.

Building material here is cheap, brick costing about \$7 per thousand, and while lumber ranges from \$19 to \$28 per thousand. Next season many brick houses are expected to be erected, the brick now being on the ground for some of them. The Weiser irrigating ditch is located high enough on the hills above town to give a fall ample for fire purposes, and it is proposed to put in a system of water works. Stages run from here to the upper val-

lands and paid the government price of one dollar and a quarter per acre and received titles to claims to-day worth one thousand dollars each. Nor did one of these enterprising young ladies stop here but in her greed she laid claim to the heart of a young and well to do stock raiser occupying an adjoining claim and what was two ranches is now one, and the home of as happy and prosperous a couple as this county affords. The other we are informed will meet with equal success.

The New York Sun is now in favor of silver as a currency, and in answer to the question, "will the silver dollar work injustice," it says: It will neither cause a financial crash nor produce stringency, nor injure labor interests. The only serious question is that regarding contracts now existing, made upon express or implied assumption, that they were to be fulfilled in gold. The Sun takes sides with the silver advocates as to the relative value of gold and silver, when gold contracts were made, arguing that silver dollars have not depreciated, but that gold has advanced, and instances the general cheapness of raw materials and the necessities of life compared with their cost seven years ago. Much of the decline, no doubt, is due to increased production and an improved process of manufacturing, but the fact remains that eighty five or eighty three cents in gold will buy more food, clothing and other articles of daily use than \$1 in gold would have bought in 1878. The man who let gold then, and gets it back now, is really getting back more than he parted with. Statistics which show the decrease of gold production and its increased absorption in manufactures, also show that the silver production has remained stationary at about 100,000,000 annually since 1879.

To define a kiss has perplexed the faculties of the most learned, but the following seems to come well nigh the point: A kiss is a paroxysmal contact between the labial appendages attached to the superior and inferior maxillaries, respectively, of a man and woman, or two women. The more fervent the parties are the more paroxysmal will be the paroxysm.

An Ohio man has realized \$150,000 from roller skates.

be charged at the rate of one cent per pound.

Passengers must pay-bill them the evening before starting.

Office - At the Postoffice.

NEW BLACKSMITH SHOP

Having opened a new shop on street, oppo ite Howard Sebree store, I respectfully invite a share public patronage.

WORK AT REDUCED RATES

I go on the principle of live and let live. All work guaranteed.

TO BE FIRST-CLASS

And to give entire satisfaction, doing done on short notice.

WAGON REPAIRING

A specialty. All having work I should call and ascertain prices, do work at fairer rates than ever offered in Weiser.

SIDNEY DE

State of Idaho
License and Certificate of Water Right

Water License No. 17670 Amount 60 Sec. Ft.
Water District No. Priority 4-2-32

THIS IS TO CERTIFY that LAKE RESERVOIR CO.
of Payette, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated April 2, 1932; that Permit No. 17670
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
60 second feet, was issued thereunder on January 9, 1934, showing that said works
were completed on the 19th day of November, 1932; and that on the 19th
day of November, 1932,

LAKE RESERVOIR CO.
of Payette, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of an unnamed stream
, a tributary of Payette River, for the purpose of irrigation and domestic
use, under Use Permit No. 17670 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 3752, on the 12th day of January, 1934;
The right hereby confirmed dates from April 2, 1932;

The Point of Diversion is located
No. 1 SW 1/4 Sec. 7, Tp. 7 N., R. 3 E., B.M. Payette County.
(No. 2 NE 1/4 NW 1/4)

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 60
cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			All lands lying under and being irrigated by Emmett Irrigation District, Letha Irrigation Co., Enterprise Ditch Co., Farmers Cooperative Irrigation Co., Lower Payette Ditch Co., and Payette Heights Irrigation District, embracing approx- imately 68,500 acres.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 12th day of January, 1934.

(SEAL) R. W. FARIS
Commissioner of Reclamation

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 24769
Permit No. 17670
District No.

1. Name of Applicant: Lake Reservoir Co.,

Postoffice address: Payette County: Payette State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation: March 10, 1920, Payette, Idaho

(b) Amount of capital stock: \$150,000

(c) Amount paid in: \$250.00

(d) Names and addresses of directors: Frank Cobb, New Plymouth, Idaho; E.C.S. Brainard, Payette, Idaho; James A. Hesgard, Emmett, Idaho; W. M. Wilson, Emmett, Idaho; E. F. Wells, Emmett, Ida.

II. The financial resources of the applicant are:

(a) Cash on hand:

(c) Bonds to be issued:

(b) Treasury stock

(d) Other resources:

2. Quantity of water claimed: 75 cubic feet per second.

3. Source of water supply: Unnamed Stream which is a tributary of Payette River

4. Location of point of diversion: # 1 -926 ft. N. 42° 30' E. / See Remarks for Diversion # 2
feet distant from the NW

corner of Section 18, T. 7 N., R. 3 W., B. M., and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$

of Section 7, T. 7 N., R. 3 W., B. M., County of Payette

5. Water is to be used for: Irrigation & Domestic

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
T. , R. , B. M., in the of Section , T. , R. , B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B. M., in the
of Section , T. , R. , B. M.

7. Estimated cost of works: \$ 5,000.00

8. Kind of works: Ditch

9. Height of dam 8 feet; length of dam at top 300 feet; length of dam at bottom 300
feet; material used in dam: Concrete Base with wood super structure

10. Size of headgate: Width 16 feet; height 12 feet.

11. Ditch: Width at bottom 20 feet; width at water line 24 feet; depth of water 3
feet; dimensions of flume:

Diameter of pipe inches; length of conduit 1 miles.

Average grade per mile $2\frac{1}{2}$ feet.

12. The time required for the completion of such work is 6 Months years.

13. The time required for the complete application of the water to the proposed use is 1 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

	)	ORDER DISMISSING OBJECTIONS

Trial is currently scheduled in the above listed subcases for November 20, 2003, at the Gem County Courthouse. On July 3, 2003, the objectors, George and Cheryl Colwell filed a *Notice of Voluntary Dismissal of Objections*.

Therefore, based on the filed and record herein, IT IS ORDERED that the Trial set for November 20, 2003, and the corresponding Deadlines are **vacated**. IT IS FURTHER ORDERED that the objections filed by the Colwells are dismissed with prejudice.

Dated July 18, 2003.

THOMAS R. CUSHMAN
Special Master
Snake River Basin Adjudication

CONVERSATION MEMORANDUM

SUBJECT LOWER PAYETTE Ditch CO NOE

TO: COLW with Scott Campbell, Tiffiny

Claim/WR # GARRICK BAXTOR & MYSELF - PER PHONE
1:30 PM

Agent: RON

Date: 6-20-01

• Scott says they agree on most issues now however, still have problem with the total number of acres in the boundaries, they are still determining whether they have more acres than we recommended.

• ON 65-7428 they agree on CFS

• ON 65-7848 they agree on CFS

• They are filing 2 new claims

65-7885 - wasn't required to be filed in SRBA because of late proof... LICENSED

65-12279 - should have been filed in SRBA

NO - ADDITIONAL ACRES WERE ADDED

CHG DN FEES -

(NO LATE FEES AT THIS TIME SINCE OTHER CLAIMS WERE FILED)

65-7885 same acres as (65-7425 receipt # x999999 \$50 because permit was included in PRBA - NO FEES REQUIRED) EXCEPT FLAT FEE

65-12279 - NO ACRES WERE LICENSED ONLY CFS

Thus FEE IS: \$50.00 FLAT FEE

\$100 TOTAL FOR BOTH

May 4, 2001

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

“When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season.”

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

Re: Lower Payette Ditch Company
E&B No.: 6687-9004

Dear Lori:

Enclosed for filing please find the original and one copy of our Notice of Appearance as counsel of record for Lower Payette Ditch Company for water right nos. 65-00165A, 65-00165B, 65-00165C, 65-00165X, 65-07425, 65-07428, 65-07848, 65-07882, and 65-11413. Also enclosed is an additional copy of the Notice of Appearance. Please receive-stamp the copy and return it to this office in the enclosed self-addressed, stamped envelope.

Also enclosed for filing please find the original and one copy of the Notice of Error forms concerning water right nos. 65-00165A, 65-00165B, 65-00165C, 65-00165X, 65-07425, 65-07428, 65-07848, 65-07882, and 65-11413. We have also enclosed an additional copy of each of the Notice of Error forms. Please receive-stamp the additional copies and return them to this office in the enclosed self-addressed, stamped envelope.

Thank you for your assistance in this matter. If you have any questions, please do not hesitate to contact me or Scott Campbell.

Very truly yours,

Reply

Please type or print clearly, fill out this completely and mail.

Return this reply to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: April 13, 2001

Water right number: 65-00165X

LOWER PAYETTE DITCH CO
102 N MAIN
PAYETTE, ID 83661
Telephone Number: (208) 642-9424

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Place of use, point of diversion, quantity

2. Describe the changes you wish to make in the proposed recommendation:

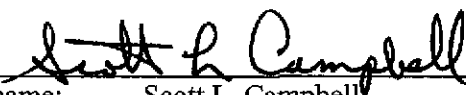

Changes must be provided in personal conference in order to fully explain

3. Give a brief explanation as to why you disagree with these portions:

Because the preliminary recommendations are incorrect

 I AGREE with this proposed recommendation; no changes need to be made.

DATE: April 12, 2001

SIGNATURE: 

Please print your name: Scott L. Campbell

LOWER PAYETTE DITCH COMPANY RIGHTS

ACRE ANALYSIS BY: RON HOWERTON

DATE: 12/14/00

The total SRBA recommendations for acres within the Lower Payette Ditch Company Rights boundary are:
 $11,008 + 633 + 122 + 107 = \underline{11,870}$

New licensed right 65-07885 was not filed or included in the SRBA because of late proof and date of ^{FILED 6-27-01} priority was advanced. The acres are accounted for and are the same acres as 65-07425. (Per remarks found in 65-07425)

Licensed right 65-12279 was not filed in the SRBA. Should be filed. No additional acres were added.

Licensed right 65-12756 was withdrawn per the request of secretary per decision of the board of directors 17 April 1990.

* Amended total acres by stipulation dated 21 April 1987.

** Acres within the boundaries of the Lower Payette Ditch Company

*** Post PRBA licensed rights

Total acres & CFS of the Lower Payette Ditch Company Rights is as follows:

WATER RIGHT	SOURCE	ACRES	COMMENTS	Payette River CFS	Graveyard CFS
65-00165A *	Payette River	11,008	Per stipulation	63.32	
65-00165B *	Payette River	11,008	Per stipulation	37.63	
65-00165C *	Payette River	11,008	Per stipulation	59.23

RECEIVED

MAR 28 1990

Department of Water Resources
Western Regional Office

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT
OF THE STATE OF IDAHO, IN AND FOR GEM COUNTY

IN THE MATTER OF THE GENERAL	)	Civil No. 3667
DETERMINATION OF THE RIGHTS TO	)	
THE USE OF SURFACE AND GROUND	)	STIPULATION RESOLVING
WATER OF THE PAYETTE RIVER	)	OBJECTION OF LOWER PAYETTE
DRAINAGE.	)	DITCH COMPANY
	)	

A. Kenneth Dunn, Director of the Idaho Department of Water Resources (Director), the Lower Payette Ditch Company and Lake Reservoir Company stipulate to the inclusion in the Payette Adjudication of a water right (65-11413) not previously listed for the Lower Payette Ditch Company and the uncontested clerical correction of three other rights held by the Lower Payette Ditch Company (65-0165A, 65-0165B, 65-0165C) and one right held by Lake Reservoir Company (65-2376).

Those changes appear as follows:

1. 65-11413:

OWNER: Lower Payette Ditch Company
114 N. Eighth
Payette, Idaho 83661

NOT RECORDED

SEP 15 1992

SOURCE: Graveyard Gulch Wasteway tributary to Main Drain,
District Number 1

POINT OF DIVERSION: SESW S7 T7N R3W

PLACE OF USE: Same as 65-0165X (^{11,008 actually}~~11,088~~ acres)

PERIOD OF USE: 3/15 to 11/15

DIVERSION RATE: 60 cfs

PRIORITY DATE: 5/7/1945

OTHER RIGHTS: 65-0165X, 65-0165A, 65-0165B, 65-0165C, and
65-2376

BASIS OF RIGHT: Beneficial use

REMARKS: Pt. of injection into Payette River: Lot 7 (NESW),
S7, T7N, R3W

Pt. of redirection from Payette River: Lot 3
(SENE), S7, T7N, R3W

Pt. of injection into Big Willow Creek: SESE, S26,
T8N, R4W

Pt. of redirection from Big Willow Creek: SENE,
S21, T8N, R4W

This right when combined with Right No. 65-2376
shall not exceed 60 cfs.

2. 65-2376:

Under remarks, the following language is to be added:
"Point of injection into Big Willow Creek: SESE, S26 T8N
R4W. Point of redirection is SENE, S21 T8N R4W."

An additional point of diversion is listed as the NESE S19
T7N R3W.

Source is changed from Graveyard Gulch Wasteway tributary
to Payette River to unnamed stream tributary to Payette
River and Main Drain, District Number One, tributary to
Payette River.

3. 65-0165A: The place of use for this right is the same as
65-0165X. However, although 65-0165X shows ~~11,088~~ acres for the
^{11,008}

place of use, 65-0165A erroneously listed 10,980 acres. That figure should be changed to ^{11,008}~~11,000~~ acres.

4. 65-0165B: Same as 65-0165A regarding change in the total irrigated acreage.

5. 65-0165C: Same as 65-0165A and B regarding listing of irrigated acreage as ^{11,008}~~11,000~~ rather than 10,980.

Water right numbers 65-0165A, 65-0165B, and 65-0165C were determined by the Partial Decree (decree) signed by this court December 20, 1985. The decree incorporated by reference the description of these water rights as set forth in the Proposed Finding of Water Rights in the Payette River Drainage Basin (report) filed by the Director April 26, 1979.

As explained above, the report incorrectly lists the total of irrigated acreage for water right numbers 65-0165A, 65-0165B, and 65-0165C. The report and the decree should be amended to show the correct total of irrigated acreage.

This stipulation resolves the objection of the Lower Payette Ditch Company which was allowed to be filed in the Payette Adjudication by order of the court in July 1985.

DATED this 21st day of April, 1987.

JIM JONES
Attorney General

January 31, 1979

Mr. Jim Bevins, Chairman
Lower Payette Ditch Company
114 N. 8th Street
Payette, ID 83661

Dear Jim,

Thank you for inviting me to your board meeting on January 24, 1979. I appreciated the opportunity to discuss our mutual interest of your water rights in the Payette Drainage with the board.

Attached is a memorandum that I have prepared which outlines the revised dates of your water rights. This information will be reflected in our presentation to the court which will be ready by late February.

Feel free to contact me if you have any additional comments.

Sincerely,

DAVID R. TUTHILL, JR.
Payette Adjudication Supervisor

Enclosure

MEMORANDUM

TO: 65-0165X
FROM: Dave Tuthill
RE: Dates of Priority on Split Portions of 65-0165
DATE: January 25, 1979

This memorandum updates one dated September 20, 1978.

The dates of priority on these rights have been the subject of much research and analysis. Data from books, newspapers and deeds have been assembled in this file. Additional documentation, not found in the file, is located in the old book of minutes of the Lower Payette Ditch Company. Analysis of this data has revealed cause for the following changes:

65-0165X. The date of priority for this portion has been advanced from March 22, 1884, (date of posted notice) to June 1, 1882. This is based on a newspaper article in the Weiser Leader dated March 31, 1883, which refers to an existing ditch. The minutes of the Lower Payette Ditch Company, although of questionable value, verify this.

65-0165A. The date of priority for this portion has been advanced from November 26, 1895, (date of incorporation) to March 22, 1884, (date of posted notice). From the aforementioned newspaper article, and the activity of Peter Pence, it can be inferred that the plan in 1883 was to extend the ditch to "Crystal Bottom" (just south of Buttermilk Slough). If this extension began at the end of what was termed in an 1887 deed as the Lower Payette Company Ditch, the ditch would closely approximate what is now known as "First Extension". It is reasonable to assume that the 1884 posted notice was to provide water for the extension of the Lower Payette Company Ditch to Weiser.

65-0165B. Some evidence has been produced to substantiate the existence of the Pence Ditch in the area of the Second Extension prior to 1896. However, rather than to advance this date of priority to some earlier date, this portion of the water right will be used to represent the continuing development and expansion of the ditches after the 1880's. Some lands under the Second Extension have, therefore, been included under the 1884 priority, and some lands in the First Extension have been included under the 1896 priority.

65-0165C. No change.

Ende

Boise, Idaho 83705

Department of Water Resources
Western Regional Office

Dear Dave,

I am writing in response to your letter of December 29, 1978 addressed to Jim Bivens, in which you advise that more information is needed before an advancement of priority dates for the Extension and Second Extension Ditch companies can be considered. Since I initiated the request for a change of priority dates, Jim has asked me to follow up on this matter.

You mention in your letter that you were able to verify the existence of the newspaper article, but were unable to verify the existence of the ditch. We feel that the newspaper article itself is concrete evidence that it did exist, and was in use at least as early as 1884. You will recall that at an earlier meeting with our board you stated that a newspaper account would be acceptable evidence in considering priority dates. However I do have some supportive evidence that the Pence ditch did exist. I am enclosing with this letter a copy of a deed that is on file in the records office in the courthouse at Weiser. Also a copy of page 128 from a book written by Nellie Ireton Mills, daughter of one of the early pioneer families of Payette. The title of the book is "All Along The River", and is about the Payette river and it's pioneers. There can be no doubt that the Pence Ditch did exist, and operate for many years before it was purchased by the landowners, who then formed the two ditch companies.

On the basis of the information contained in the newspaper article, and the supportive evidence enclosed, we are renewing our request that the priority dates for the Extension Ditch Co., and the Second Extension Ditch Co. be established as 1884.

Although it does not have any direct bearing on the date we are requesting, I am enclosing a copy of an article taken from the "History of Idaho" concerning the Bivens family. I have underlined a part of this article that tells of the start of the Bivens and Pence ditch in 1876 that was to later become the Lower Payette Ditch. I enclose this to show that irrigation was being undertaken many years previous to the dates we are asking you to accept.

Sincerely,

Cecil Shurtleff
Secretary

Extension Ditch Co.
Rt. 1 Box 286
Payette, Idaho 83661

SEPT 20, 1887

This Indenture, Made the twentieth day of September
 in the year of our Lord One thousand eight hundred and eighty seven
 Between Peter Pence and his wife Anna Pence of Payette,
 Ada County, Idaho Territory, parties of the first part, and
 Virius M. Cole of Kaiser Washington County, Idaho Territory,
 party of the second part, Witnesseth, That the said parties of the
 first part, for and in consideration of the sum of One Hundred
 and 50 Dollars, Legal Tender of the United States of America, to them
 in hand paid by the said party of the second part, the receipt whereof
 is hereby acknowledged, do by these presents grant, bargain, sell,
 Convey and Confirm unto the said party of the second part, and
 to his heirs, and assigns forever, The Perpetual right to Convey one
share, of forty inches, more or less of Water, through, and to Ferry
point in that ditch, known as the "Pence Ditch," (Beginning at this
 point, which is the fourth written line, it, with the fifth and the sixth, to the word "said," were crossed out before being signed on the 14th)
 said ditch beginning at the terminus of the lower Payette Company
 Ditch, or on or about the North line, that bounds The South East 1/4,
 of the North East 1/4, of Section 27, Town (9) Nine, North of Range (5)
 Five West of Boise Meridian.

Together with all, and singular the tenements, hereditaments and
 appurtenances thereto belonging, or in anywise appertaining, and
 the rent, issues and profits thereof;

To Have and to hold, all and singular the above Mentioned
 and described Right of way, together with the appurtenances,
 unto the said party of the second part, and to his heirs and assigns,
 forever. And the said parties of the first part, and their heirs, the
 said right of way in the quiet and peaceable possession of the said
 party of the second part, and his heirs and assigns, against the
 said parties of the first part, and their heirs, and against all and
 every person and persons whomsoever, lawfully claiming or to
 the same, shall and will Warrant, and by these presents forever defend.
 In Witness Whereof, the said parties of the first part have
 hereunto set their hands and seals the day and year first above
 written.

married Dr. Hamilton of Silver City and Will became the
husband of his schoolmate, Alta Stroup, a daughter of the
Stroups of Washoe.

IRRIGATION "ALL ALONG THE RIVER"
by
Nellie Ireton Mills

The coming of the railroad gave an impetus to farming and emphasized the need of bigger and better ditches to bring water to the acres of sagebrush land. When Peter Pence made his big cattle sale to Ballantyne, he took over and enlarged the cooperative ditch on the north side of the river to get more water for his ranch and extended it so that farmers in the Weiser section could irrigate their places. Basin gold was responsible for a development on the south side. In 1883, E. A. Stevenson, who had placer-mined in Boise Basin with W. B. (Doc) Noble, was living on a ranch adjoining the pioneer Kennedy place. Delighted with an experimental 90-acre alfalfa field that he had developed, he saw great possibilities in the dry land, once it was irrigated, and interested his former Basin mining partner, W. B. Noble, in a reclamation project. Incidentally, the first alfalfa in the valley was grown by Grandmother Bivens (Mrs. David) in her garden. Attracted by the advertisement of a new legume in a garden seed catalogue, she sent for seed and tried it with good success.

Mr. Stevenson, a man of great ability, had gone from New York to California at a very early date. There he was active in business and political affairs, and served four terms in the Legislature, one term as Speaker. Unnerved by a tragic experience in which his wife and children were

were paid in land and stood up through ev How well 'Doc' Noble only as good as his Noble irrigation project Stevenson was appointed Governor of Idaho, served with distinction Stevenson never returned "along the river" the and much of his money W. B. Noble never in Valley. However, by trees, in the mid remembered. Business as well as the family Noble, a former teacher serve in the Idaho Legislature in the House of Representatives and two sons Nobles moved to Boise Miss Mary Noble, a 1955. Citizens of the remember that it was pioneer miners that the Overland Road, When the railway to iron horse outran the comfortable in cars days were over on the

By 1890 and State ing rapidly. Emma

progress and is now one of the prosperous business men of Canyon county. He deserves much credit for what he has accomplished, as he started out in business life empty-handed when a young man. From that time forward he has been dependent entirely upon his own resources and labors, and his progressiveness and energy have enabled him to wrest fortune from the hands of fate and win a place among the leading farmers and stock raisers of the section in which he has chosen to make his home.

JOHN BIVENS.

John Bivens, a farmer of Fruitland, was born in Pike county, Missouri, May 27, 1854, his parents being David M. and Honor (Reyley) Bivens, the former a native of Tennessee and the latter of Illinois. However, the mother went with her parents to Missouri and was married there. David M. Bivens was a farmer and stock raiser, devoting his entire life to that occupation. In 1862 he came to Idaho, crossing the plains with the Atchison train, of which he was a lieutenant. They passed through Idaho the same year and went to Oregon, laying out the site for the town of Union, located between Baker City and La Grande. In the fall of 1863 they returned to Idaho and settled near Falk, in Payette county. They had but one encounter with the Indians in crossing the plains, one of their company being killed, but the Indians paid a heavy score for the life they took. With the return of the Bivens family to Idaho the father established a stage station at Weiser and also one at Falk, where later the family made their home. In 1864 the William Stuart family also located in the same locality and the Stuart and Bivens families established the first school in southern Idaho. Both families were connected with the cattle business on an extensive scale and as the ranges were open they had thousands of head. Each spring saw them on the road east to the nearest railroad station in Nebraska with hundreds of head of cattle which they had prepared for the market. In 1876 David M. Bivens made a trip to Mexico and brought back with him some alfalfa seed, thereby introducing the crop into this state. To raise that product it was necessary to have water, so accordingly his son, John Bivens, began the building of an irrigation canal, which at that time was called the Bivens and Pence ditch, but is now known as the Lower Payette ditch. They built about sixteen miles of ditch and the system has since been extended until the ditch is now thirty-four miles in length and serves more than two hundred farmers. At one time in the early days the family received a great scare about the Indians. A man was seen lying in the sagebrush apparently dead and it was reported to the settlers that Ben Bivens was out there dead, with the addition that no doubt he was killed by the Indians. The settlers went out in fear to hunt for the body but upon reaching the spot found the man alive and beside his camp fire. He had been drunk and was sleeping off his intoxication. Ben Bivens was found at his camp in good health. The day before the outbreak of the Bannock war John Bivens was carrying the mail from Payette to Indian valley and while stopping at Sand Hollow to eat his lunch an Indian overtook him and pulled a gun on him, but Mr. Bivens managed to get his horse between himself and the Indian and get out his own gun, whereupon the Indian decided to engage in conversation. He then rode along with Mr. Bivens to the Indian valley. Mr. Bivens, however, was convinced by the actions of the Indian that trouble was brewing and advised the settlers to that effect. During the Bannock war the Indians stole a large number of horses, many of which belonged to Mr. Bivens, who was one of a party of ten who pursued them through the Indian valley to Council valley, at which place five of the party started on the return trip, while the other five followed the Indians into the Weiser canyon. One of these men was William White, who was captain of the party, and all were killed but a Mr. Keetley, who was badly wounded and was without ammunition. He saw there was nothing for him to do but roll over the rocks and down the river bank into the river, and, swimming up the stream instead of down, he thus saved his life. The Indians made a close search for him but he managed to evade them. He remained in hiding until after dark and then worked down the stream in the water, never touching the bank, for a distance of twenty-five miles and extending over a period of three days. Although severely wounded he immediately went to the fort and reported the trouble with the In-

December 29, 1978

Mr. Jim Bivens, Chairman
Lower Payette Ditch Co.
114-8th Street
Payette, ID 83661

Dear Mr. Bivens:

We are in receipt of two letters from your organization. The first is dated October 26, 1978 and refers to a newspaper article from the WEISER LEADER of February 28, 1985. In the letter Mr. Cecil Shurtleff indicates that this article may provide evidence as to an earlier priority date for your water rights from the Payette River.

I have verified the existence of the newspaper article and have attempted to verify the existence of the ditch. I spoke with Mr. Thomas Pence of Payette, grandson of Peter Pence mentioned in the article. Mr. Pence was not aware of any further information supporting the date, but indicated that a predecessor of the Morrison-Knudsen Firm was involved in the construction of the ditch. A call to Morrison-Knudsen revealed that prior to 1900 no projects were constructed by either of the parties. I am aware of no other supporting evidence for the newspaper article.

A contact with the office of the Secretary of State revealed that no further information is available in their files to clarify the background behind the Articles of Incorporation. However, the evidence provided by the articles seems to be more concrete than the newspaper article. In speaking with others within the Department involved with adjudication, I have determined that more information is needed before we can consider advancing your dates of priority.

The second letter dated December 14, 1978 indicates that you are also concerned about the acre foot limitation provided in the preliminary findings of your water rights. I am sure that by now you have learned from Ed Parsons that the Department will change this limitation to an amount more representative of the consumptive use by crops in your area.

I would encourage your organization to seek additional information on earlier dates of priority based on concrete evidence and information, if you believe that your actual dates of priority precede those indicated in our preliminary findings. Please keep us posted of any additional discoveries.

Sincerely,

DAVID R. TUTHILL, JR.
Payette Adjudication Supervisor

DRT:aje

LOWER PAYETTE DITCH CO.
114 N. 8th St.
Payette, Idaho 83661

December 14, 1978

Mr. Dave Tuthill
Dept. of Water Resources
S. W. Idaho Office
92 South Cole Road
Boise, Idaho 83705

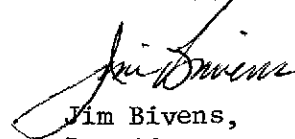

Dear Dave:

The Lower Payette Ditch Co. is not totally satisfied with the amount of water allocated in acre-feet to supply our water needs. We are officially filing our letter of protest and asking for a meeting in the immediate future with you to review the figures and arrive at an acre-foot allocation that is realistic for our canal system.

We also are not willing to accept the priority dates of the Extension and 2nd Extension Ditch Co. as issued. As you know your office has received information submitted by Board Member, Cecil Shurtleff, that will substantiate an earlier priority date.

We will be awaiting information from you for an opportunity to meet and get these matters resolved.

Sincerely,

Jim Bivens,
President
Lower Payette Ditch Co.

JB:ba

October 26, 1978

David R. Tuthill Jr.
Dept. of Water Resources
Western Region
92 South Cole Road
Boise, Idaho 83705

Dear Dave,

You will recall my mentioning that the Extension Ditch Co., and the Second Extension Ditch Co. were formed from what was originally the "Pence Ditch", which was built and operated for several years by Peter Pence. The canal was then purchased by the irrigators, and the two ditch companies took over the control and operation of the system.

As a result of a search for some documentary evidence to substantiate this we have located an item from an early day newspaper, the "Weiser Leader", which does give an account of the existence of the ditch. I am enclosing a photo-copy of the article made for us by the Idaho State Library in Boise taken from their microfilm records. I have underlined the part pertaining to the Pence ditch. This issue of the Weiser Leader was dated February 28, 1885, which we feel indicates that the ditch was operating at least as early as the previous season of 1884. Verbal accounts by descendants of the early settlers give 1882 as the year the canal was put into operation, but to date we have not been able to document this. However, on the basis of the information contained in this newspaper article, we are requesting that the priority dates for the Extension Ditch Co., and the Second Extension Ditch Co. be established as 1884.

Sincerely,

Cecil Shurtleff, Secretary

THE

0005

The Virginia Chronicle

The young alligator brought from New Orleans by Col. C. C. Thomas is still departing on the same route, and is said to be growing at a rapid rate. The quality of the water is said to make no difference in these reptiles if it is fit to eat. A number of them live in the river spring near the Mosquito river, in a swampy point and is strongly impregnated with copper and nitrox. They feed on the alligator mussels, the waters of the southern swamps measures from four feet to fifteen feet, the head forming one seventh of the length and half an inch at the articulation of the jaws as it is long. It is said to be far more fierce and voracious than the South American species, often seizing and destroying men and large animals, the bodies of which it conceals under the banks of rivers and bayous, until they begin to putrify, when it draws them ashore and devours them for its food, mutilated for mastication cannot cut the flesh in its scaly plate.

Total number of acres irrigated 47

9/19/78

M E M O R A N D U M

DATE: September 20, 1978

TO: 65-0165X

FROM: David R. Tuthill, Jr.

SUBJECT: Priority Determinations for Lower Payette Ditch Company

Four dates of priority have been determined based on (1) Initial ditch, (2) First Extension, (3) Second extension, and (4) Pumped rights. The date of priority for the first three categories is substantiated by a water location notice, articles of incorporation, and by-laws, respectively.

The dates of priority of the fourth category are probably many and varied due to the emplacement of many different pumps on the canal. These dates would be extremely difficult to determine individually. A good common date in which to group these rights is the date of first use of one of the older pumped systems, the Payette Heights System. Per a 1935 letter, this date is 1917. It has been selected because according to the letter some 22 CFS were pumped at that time, making it a major right. Many of the lands irrigated at that time by this system now are irrigated by groundwater rights. Therefore, other pumped rights from the Lower Payette Ditch can be assumed to be transferred from this right.

Some rights that were at one time irrigated by gravity flow below the ditch are no longer irrigated. We will assume that the rights from these lands were transferred to lands above the ditch in Township 8N, Range 5W. This amounts to about 300 acres which, although they receive pumped water, will be attributed an old priority date.

Due to the high amount of sale and exchange of water rights within the Lower Payette Canal Company through the years, it would be impossible to assign exact priorities to certain lands as of today. Therefore, all rights will be pooled for all lands for purposes of a decreed land list. However, to determine how many lands were initially developed under each priority, the lands have been categorized as per the four attached land lists.

MEMORANDUM

TO: 65-0165

FROM: Dave R. Tuthill *DRT*

DATE: June 8, 1978

RE: A. Source
B. Split of the Right

A. Of concern in determining the source for the Lower Payette Ditch right is the fact that the Lower Payette Ditch travels for a substantial distance and receives much return-flow water between its diversion from the Payette River and its place of use. A discussion with Don Shaff on this date yielded a method of describing the source for the right that appears to be equitable.

The source will be called only "Payette River", rather than to include such additional sources as Big Willow Creek, since the term Payette River implies that all tributaries are included. Additionally, a remark of point of injection into Big Willow Creek and point of rediversion from Big Willow Creek will be included in the description of the Lower Payette Ditch Company (LPDC). This will allow the watermaster to make a measurement of the flow at the point of rediversion from Big Willow Creek. At this point most of the additional tributaries have reached the LPDC right and will be included in the measured rediversion. In this manner the LPDC will not need to divert their entire right from the Payette River at all times, but will rather be able to supplement their diversion with flow from other tributaries.

Worthy of mention is the decision to not include Big Willow Creek as one of the sources for the LPDC right. Since the date of priority of this right is pre 1890, to include Big Willow Creek as a source would allow the company to "put a call" on Big Willow Creek water. This would not be consistent with historical practice since rights on Big Willow Creek have probably adversed any LPDC rights. To include Big Willow Creek as one of the LPDC sources would complicate water delivery needlessly.

In looking at future aspects of water delivery from the Payette River system, it appears that this method of describing the right would provide flexibility to the watermaster, and protection and proper limitation of the water developed by LPDC.

65-0165
Page 2
June 8, 1978

B. The LPDC has been advised numerous times by Don Shaff of the need to claim separate dates of priority for the water rights based on extensions of development of their canal. Additionally, he sent on June 24, 1977, claims which split the dates of priority of the right to Ed Parsons, president of the LPDC. The department has received no response as to possible dates of priority from representatives of the company on this important claim.

Since we have information concerning the articles of incorporation of first and second extensions of the LPDC, we have approximate dates in mind for the sequence of claims that describes the LPDC right. Therefore, I have broken the right into four portions, labeled 65-0165X, 65-0165A, 65-0165B, and 65-0165C. No signature is necessary on the claims describing these rights since we can assume that they were all initially claimed in the original document filed by Ed Parsons.

We will be receptive of any future date of priority clarification by the LPDC as to appropriate dates of priority for their rights. However, if this information is not received, we will continue to regard the four-way split in their claim as a proper description of their right.

Lower Payette claims

February 11, 1936

Re: Permits Nos. 7308, 14689 & 17670

MR. B. P. SHAWHAN
Payette,
Idaho

Dear Sir:

We have your letter dated February 5th advising us that you have been asked by the Federal Government to furnish full information as to permits and decrees affecting water rights in the Payette Heights Irrigation District.

An examination of the records reveals that Permit No. 7308, issued for 40 second feet of the waters of Payette River, was assigned by the Payette Heights Irrigation Co., Ltd., to the Payette Heights Irrigation District. The district offered proof of completion of works and obtained a certificate of completion of works for the 40 second feet. Final proof was due May 6, 1918, but to date has not been made. We were recently advised by Mr. Williams that the district had conveyed all of its interest in this right to the Payette Heights Water Company but there is no record of any such conveyance in this office.

There is nothing else in the name of the Payette Heights Irrigation District but I happen to be somewhat familiar with the rights held by the Lake Reservoir Company and upon examination I find Water License No. 14689, issued to the reservoir company for 200 second feet of the waters of Big Payette Lake Reservoir, includes the lands lying under the Payette Heights Irrigation District. As you probably know, the Lake Reservoir Company is what might be properly termed a holding company which delivers water to a number of ditch companies for an agreed consideration. The total lands to which the 200 second feet of water is appurtenant comprise 68,000 acres and the Payette Heights Irrigation District would, of course, be entitled to its proportionate share of the water.

Permit No. 17670, issued to the same company for 60 second feet of the waters of an unnamed stream, also includes the Payette Heights Irrigation District. Both proofs have been made and a license issued under this right.

I know of no other rights which would affect the district, nor to the best of my knowledge are there any decrees, since the waters of Payette River have not been adjudicated.

It might be well to contact Mr. E. S. C. Brainard, Secretary of the Lake Reservoir Company, who resides at Payette, for information relative to the basis on which the water is delivered, the cost, etc. and, further, whether or not other permits held by the company likewise apply to the district.

176 70

#2 Mr. B. P. Shawhan, Payette, Idaho

2/11/38

You failed to give any specific information as to the source from which the water for this district is diverted. Therefore, it may be that there are other rights appurtenant to the lands lying within the boundaries of this district, and if you are of that opinion, I shall be glad to examine the records more fully if you can furnish some additional information.

Very truly yours,

R. W. PARIS
Commissioner of Reclamation

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE

REPORT OF ENGINEER

PERMIT NO. 17670

REPORT ON PROOF OF COMP. WORKS & BEN. USE

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 17670

This proof is for COMP WORKS & BEN USE

In Water District No.

1. Name of applicant Lake Reservoir Company

2. Source of water supply Unnamed stream

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 7

T. 7. N., R. 3. W. B. M. County of Payette

4. Describe works as they exist, giving dimensions and capacities of same: Diversion works

in drainage canal 1. 16' long, 14' wide, 5' high with con-
crete base and wooden superstructure; Thence by 16 ft.
canal 1 mile to Payette River. Thence down river about
7 miles to the head of the Lower Payette Canal where div-
ersion is made by concrete dam 300 ft long, 8 ft. high and
10 ft top width with "A" frame and flashboard superstructure.

5. Water is used for: Irrigation and domestic

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation): 68, 586 acres, particularly described as follows:

Emmett, Irrigation District, Enterprise Ditch Co., Letha

Irrigation Company, Farmers' Cooperative Irrigation Company,

Lower Payette Ditch Company &c

(Submit map on attached plat, showing location and details of above description.)

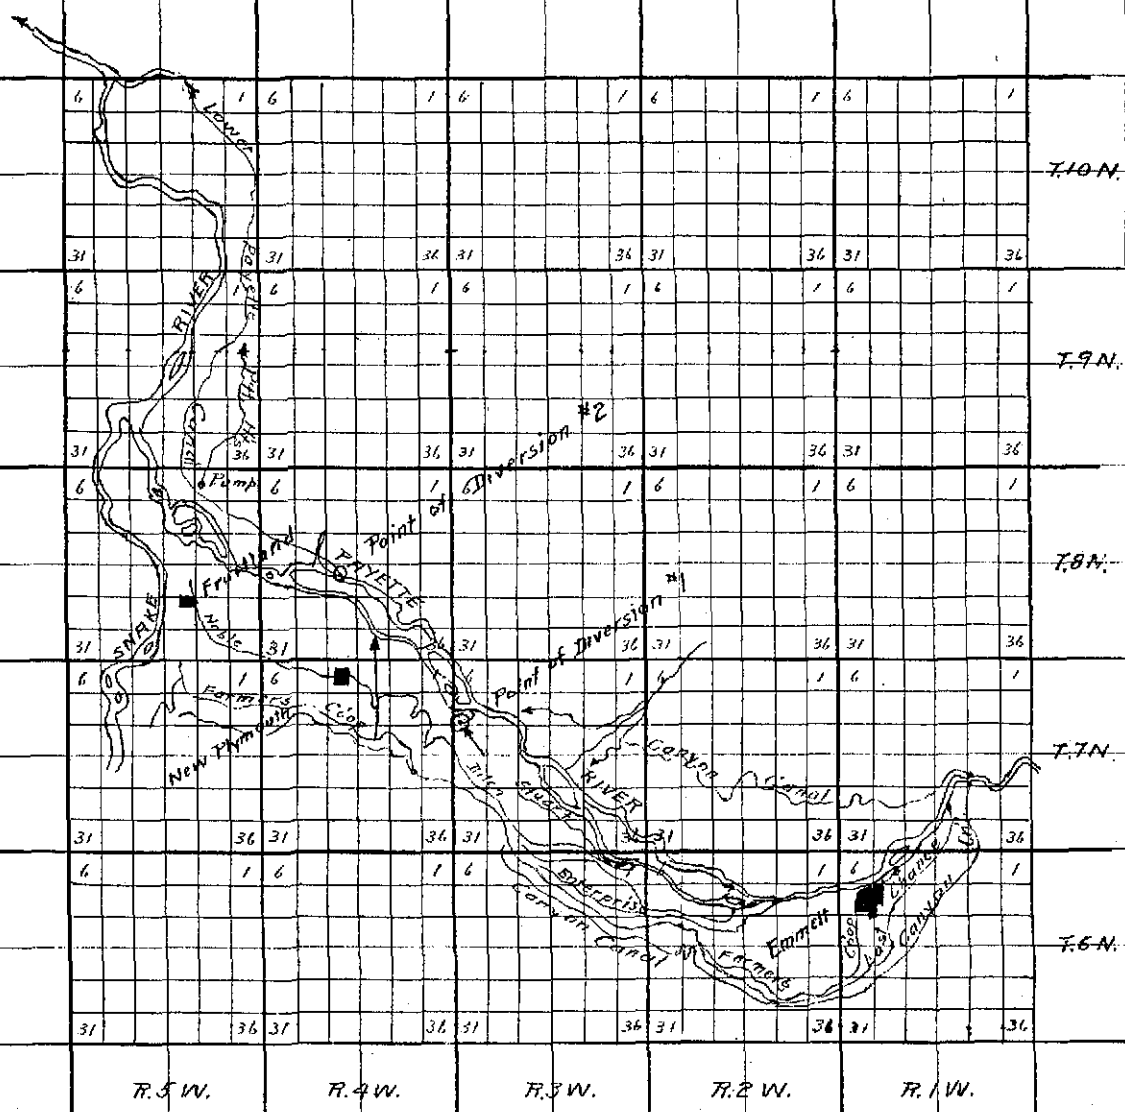

8. What large stream would the water here appropriated finally reach? Payette River

Remarks: This water is used to supplement
other water rights of the L.R. Co.
No water was being diverted at time of
inspection. Mr George Knowler stated that 60
second feet had been carried in the above
mentioned canal leading from the point of diversion
to the Payette river

This examination was made on the 25th day of Nov, 1932

(Signed)

Frank A. Dolman

Examination for.....COMP WORKS & BEN USE.....

County.....Payette.....

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make a plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

State of Idaho
License and Certificate of Water Right

Water License No. 17670 Amount 60 Sec. Ft.
Water District No. Priority 4-2-32

THIS IS TO CERTIFY that LAKE RESERVOIR CO.
of Payette, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated April 2, 1932; that Permit No. 17670
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
60 second feet, was issued thereunder on January 9, 1934, showing that said works
were completed on the 19th day of November, 1932; and that on the 19th
day of November, 1932,

LAKE RESERVOIR CO.
of Payette, State of Idaho, made proof to the satisfaction of the
Commissioner of Reclamation of Idaho, of the right to use the waters of an unnamed stream
, a tributary of Payette River, for the purpose of irrigation and domestic
use, under Use Permit No. 17670 of the Commissioner of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 7
of Licenses, at page 3752, on the 12th day of January, 1934;
The right hereby confirmed dates from April 2, 1932;

The Point of Diversion is located
No. 1 SW 1/4 Sec. 7, Tp. 7 N., R. 3 E., E. 1/2, Payette County.
(No. 2 NE 1/4 NW 1/4)

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 60
cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
			All lands lying under and being irrigated by Emmett Irrigation District, Letha Irrigation Co., Enterprise Ditch Co., Farmers Cooperative Irrigation Co., Lower Payette Ditch Co., and Payette Heights Irrigation District, embracing approx- imately 68,500 acres.		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the Commissioner of Reclamation, affixed at Boise, Idaho,
this 12th day of January, 1934.

(SEAL) R. W. FARIS
Commissioner of Reclamation

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 24769
Permit No. 17670
District No.

1. Name of Applicant: Lake Reservoir Co.,

Postoffice address: Payette

County: Payette

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation: March 10, 1920, Payette, Idaho

(b) Amount of capital stock: \$150,000

(c) Amount paid in: \$250.00

(d) Names and addresses of directors: Frank Cobb, New Plymouth, Idaho; E.C.S. Brainard, Payette, Idaho; James A. Hesgard, Emmett, Idaho; W. M. Wilson, Emmett, Idaho; E. F. Wells, Emmett, Ida.

II. The financial resources of the applicant are:

(b) Treasury stock

(d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: 75 cubic feet per second.

3. Source of water supply: Unnamed Stream which is a tributary of Payette River

4. Location of point of diversion: # 1 -926 ft. N. 42° 30' E./ feet distant from the NW corner of Section 18, T. 7 N., R. 3 W., B. M., and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 7, T. 7 N., R. 3 W., B. M., County of Payette

See Remarks for Diversion # 2

5. Water is to be used for: Irrigation & Domestic

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water:

feet distant from

corner of Section

T. , R. , B. M., in the

of Section

T. ,

R. ,

B. M.

(b) Amount of power generated:

H. P., under

feet head.

(c) Water is to be returned to

at a point

feet

distant from the

corner of Section

T. ,

R. ,

B. M., in the

of Section

T. ,

R. ,

B. M.

7. Estimated cost of works: \$ 5,000.00

8. Kind of works: Ditch

9. Height of dam 8 feet; length of dam at top 300 feet; length of dam at bottom 300 feet; material used in dam: Concrete Base with wood super structure

10. Size of headgate: Width 16 feet; height 12 feet.

11. Ditch: Width at bottom 20 feet; width at water line 24 feet; depth of water 3 feet; dimensions of flume:

Diameter of pipe

inches; length of conduit 1

miles.

Average grade per mile

$2\frac{1}{2}$

feet.

12. The time required for the completion of such work is 6 Months years.

13. The time required for the complete application of the water to the proposed use is 1 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

Grand Total number of acres to be irrigated 68586

PERMIT NO. 17670

CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that Lake Reservoir Co. of Payette, County of Payette, and State of Idaho, the holder of Permit No. 17670, issued upon Application No. 24769 bearing date of priority of April 2, 1932, authorizing the diversion of 60 second feet of the waters of an unnamed stream, tributary of Payette River, County of Payette, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 60 second feet of the waters of an unnamed stream, that the points of diversion of said waters are: No. 1-926 feet North 42°30' E. feet distant from the NW corner of Section 18, T. 7 N., R. 3 W., B. M. and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 7, T. 7 N., R. 3 W., B. M. No. 2-1320 feet East of the West $\frac{1}{2}$ corner of Section 7, Twp. 7 N., R. 3 W., B. M., at the SW corner of the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 7, Twp. 7 N., R. 3 W., B. M., and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: All lands lying under and being irrigated by Emmett Irrigation District, Letha Irrigation Co., Enterprise Ditch Co., Farmers Cooperative Irrigation Co., Lower Payette Ditch Co., and Payette Heights Irrigation District, embracing approximately 68,500 acres.

Witness my hand this 9th day of January, A. D. 1934.

R. W. FARIS
Commissioner of Reclamation.

Proof of Completion of Works made November 19, 1932.

Approved by the Board of Reclamation, U. S. Department of the Interior, at Washington, D. C., January 9, 1934.

LICENSE NO. 17670 FOR 60 SEC. FT.

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO:

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this _____ day of _____, 1970.

Date: May 16, 1978

Subject: Stockholders List

To: Department of water Resources

Western Region

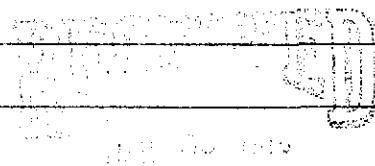

92 South Cole Road
Boise, Idaho

This list of Lower Payette Stockholders are the ones I used for the assessmnet
for 1978. I hope this is what you are needing. And please note that we have a different
president . Jim Bivens is now Lower Payette Ditch Co President. Replacing Ed Parsons.
If I can be of further help , notify me.

Sincerely Yours

Marie Swisher Swisher

RE: 65-0165

O Ed Parsons, President
Lower Payette Ditch Co.
114 North 8th St.
Payette, ID 83661

P Dear Mr. Parsons:

P I have found the list of shareholders very helpful in reviewing the water rights claims of the various ditch companies throughout the valley. Would you please send me the latest list of shareholders in Lower Payette? The latest list we have is from 1966.

After I complete this review we can sit down and go over the rights before the findings are entered in the computer. Clearing this matter out of the way will also allow the pending applications for permits to move ahead.

Y Thanks for your help.

See you soon,

Donald V. Shaff
Water Resource Agent

DVS:alw

November 22, 1977

RE: 65-7882

J. D. Bivens, Vice President
Lower Payette Ditch Company
Star Route
Payette, ID 83661

Dear Mr. Bivens:

Before we can proceed with the processing of your Application for Permit No. 65-7882, we must know the full extent of your present water rights.

This information is needed to understand what land is fully irrigated already and to evaluate what additional water, if any, is needed. On June 24, 1977 Mr. Parsons was sent a letter requesting additional claims that would provide this information. We have not received the claims or a reply from him.

I would suggest a meeting in the near future to file the outstanding claims and discuss the current application. Please contact me as to a date and time that is convenient for your.

Sincerely,

Donald V. Shaff
Water Resource Agent

DVS:alw

cc: 65-0165, 65-7882, 65-7882 permit

June 24, 1977

Re: #65-0165

Ed Parsons, President
Lower Payette Ditch Company
114 North 8th Street
Payette, Idaho 83661

Dear Mr. Parsons:

Please find enclosed partially completed water right claim forms for the Payette River Adjudication that we have discussed in the past. Each of these with separate dates of priority is an expansion of the original right and, therefore, need to be claimed separately.

For purposes of clearer understanding, each claim has been labeled in the upper right-hand corner. In this manner, this letter may not come out a lot of mumbo-jumbo.

Claim "A" is for lands east of Payette below the High Line Canal. At the time of our meeting last winter, you stated the date of priority for this right would be when the High Line Canal was constructed. I am uncertain about the relationships of defunct irrigation companies and/or districts, but records from our files show the Payette Heights Irrigation District was formed on May 23, 1912. Whether this is or is not of any value for this claim, I do not know; however, I thought I would pass it along.

Claim "B" is for lands that were brought under the Company system as a result of the Lower or First Extension. I understand a problem exists in establishing a date of priority for this right, but I am sure the Company minutes or records give some indication of the approximate date this construction began or was completed.

Claim "C" is for the lands under the Second Extension and the golf course, which you said has the same priority date as the Second Extension. Finding the date of priority for this right is likely to involve the same investigation as for Claim "B".

Ed Parsons
Page 2
June 24, 1977

Each of these claims is solicited from the Company based on evidence we have that makes it appear these water rights are independent of one another and the original claim posted in 1884. Unless these claims are filed or the questions surrounding them are resolved to the satisfaction of all concerned parties, it will be very difficult to recommend an accurate accounting of the Company's water rights to the district court.

Before returning the enclosed claims to this office, please review them carefully, make any necessary corrections or additions, and sign them before a notary public.

Thank you for your cooperation in this matter. If you are in need of further assistance, please feel free to contact me.

Sincerely,

DONALD V. SHAFF
Water Resource Agent

DVS:lp

July 29, 1974

Annebelle Anderson, Secretary
Lower Payette Ditch Company
Payette, Idaho 83661

Dear Annebelle:

I have completed my tabulation of the lands served by the ditch company except that I have not included the Barker, Woolsey, Burt, Gilioth or Daniels land. These names were marked on the boundary of the maps. We have no photo coverage of areas involved so if we had the property description we could include these other lands.

We are amending our maps to show the lands as we now have them and when they are completed, we will see that you are supplied a complete copy.

I checked the Pence and Nesbitt rights and all they have filed is domestic and stock water rights.

Sincerely,

ROBERT W. HAMILTON
Supervisor of Water Distribution

Annabel Anderson
114 North 8th
Payette, Idaho 83661

Dear Mrs. Anderson:

Our office was requested to perform some calculations on ditch loss. Based on one inch per acre, the quantity needed at the headgate would be 185.4 c.f.s. plus an estimated loss assuming the type of soil as sandy loams for Lower Payette Ditch. We estimate that the approximate loss would be about 54. c.f.s., making the total quantity needed to be 239.4 c.f.s. *29% loss*

We would caution you that these are very rough calculations. We supply them only to give you some guidelines or directions in figuring what your needs for irrigation would be.

Very truly yours,

Gary L. Page
Survey Examiner

STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO:

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this _____ day of _____, 1970.

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF THE SURFACE AND GROUND WATERS OF THE PAYETTE RIVER DRAINAGE BASIN

MAP NO.

WATER RIGHT

65-0165X

Lower Payette Ditch Company

114 N 8th St Payette, Idaho

(Mailing Address)

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued)
MARCH 22 1884 PER CALL TO COUNTY COURTHOUSE 6-1-1882 (SEE MEMO (1-25-79))
- (2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean)
Payette River
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
 Use Irrigation Period of Use From 3-15 (Both Dates Inclusive) April 1st To 11-15 October 31st
 (Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
 Use Period of Use From To
 (Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
 Use Period of Use From To
 (Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
- (4) Quantity of water claimed: 94.96 Cubic Feet Per Second, or 21366 Acre Feet Per Annum,
 and/or Gals. Per Minute.
- (5) A) Point of Diversion: Give location of point where water is diverted from its source
 Sec. 3 Twp. 1 N Rge. 3 W, B.M.; additional points: Gov Lot 3
SE 1/4 NW 1/4 Sec 27
- B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)
Diverted direct from Payette River in to canal
through manual headgate. Diversion dam is used in case of low water, there is
approximately 36 miles of main canals. Diversion dam and canals.
- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for
 irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres 13,212.9

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:
- (7) Effluent, sewage waste, or return water from this use is discharged into
- (8) If you are claiming water as a member of an organization, list name of organization. Lower Payette Ditch Co
~~We are claiming 13,212.9 acres or more using water within our boundary, we have checked~~
this carefully, we have 1/3 less on account of evaporation and seepage.
- (9) Remarks 25,000 inches of water was filed on in 1884 recorded in county of Ada on page
(Book 1) 177 of waters rights. (Point of injection in Big Willow Creek in SESE, Sec 26, 1,
T8N, R4W; Point of re-division,
in SWNW, sec 21, T8N, R4W)
- (10) Basis of claim (Check one) ☒ A) Right based on diversion and beneficial use.
☐ B) Right decreed by court, cite title of case.
☐ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No.:

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.
