February 20, 1970

Nesbit-McFarland Cooperative Ditch Company:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Shoshone County Court House - Emmett, Idaho on March 18, 1970, at 1:00 pm o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued) NOVEMBER 27, 1889

(2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) Payette River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Use Irrigation Period of Use From April 1 To Oct 31/15
(Domestic, irrigation, stock, etc.) (Mo., Day) (Both Dates Inclusive)

Use 5.32 cfs Period of Use From April 1 To Oct 31/15
(Domestic, irrigation, stock, etc.) (Mo., Day) (Both Dates Inclusive)

Use 6.09 cfs Period of Use From April 1 To Oct 31/15
(Domestic, irrigation, stock, etc.) (Mo., Day) (Both Dates Inclusive)

(4) Quantity of water claimed: 10.2 Cubic Feet Per Second, or 1147.5 Acre Feet Per Annum, and/or 5.10 Gals. Per Minute.

(5) A) Point of Diversion: Give location of point where water is diverted from its source LOT 4 NW 1/4 SW 1/4 Sec. 8 Twp. 7N Rge. 3W B.M.; additional points: NW SW SE

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Headgate and gravity ditch with a capacity of over 27 cfs.

(6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE 1/4	SE 1/4	SW 1/4	NW 1/4	SE 1/4	SW 1/4	SE 1/4	SW 1/4	SE 1/4	SW 1/4	SE 1/4	TOTAL
7N	3W	6			2.0									109.2
8N	4W	36			2.5									145.0
					2									145
8N	4W	36			2									145

Total No. of acres 255

B) If water is used for other than irrigation, fully describe that use, being as specific as possible: N/A

(7) Effluent, sewage waste, or return water from this use is discharged into Spillways to Lower Payette Slough NW 1/4 SE 1/4 Sec. 6, T7N, R3W and NE 1/4 SW 1/4, Sec 36, T8N, R4W and to Payette River NW 1/4 SE 1/4 Sec 7, T7N, R3W B.M.

(8) If you are claiming water as a member of an organization, list name of organization: Nesbitt-McFarland Cooperative Ditch Company

(9) Remarks: claimed by virtue of Pooled Notice by J.F. Nesbitt and A.J. McFarland, Dated Nov. 27, 1889 (Exhibit A attached). We request water in excess of 14 acrc because of very gravelly and sandy river bottom land and excessive conveyance losses for over 3 miles of mainditch

(10) Basis of claim (Check one) ☒ A) Right based on diversion and beneficial use.
☐ B) Right decreed by court, cite title of case
☐ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No.:

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

The purpose of this letter is to ask for your assistance in helping IDWR identify the boundaries and/or the service area of your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to draw outlines of the boundary and service on some form of a chart or map.

Please submit your service area boundary information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest
Sr. Water Resources Agent
Adjudication Technical Bureau

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

Enclosed please find the boundary and/or service area IDWR has on file for your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any additional information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to modify the outlines of the boundary and/or service area we have enclosed, and return a copy to us.

Please return your modified boundary and/or service area information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest
Sr. Water Resources Agent

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:

Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

~~INTER-DEPARTMENT~~ MEMO

TO: Ms SHIRLEY FISCHER

SUBJECT: CLAIMS & COPIES

FROM: FORREST LUTHY

DATE: 3/14/91

DEAR MS. FISCHER:

ENCLOSED ARE COPIES OF THE VARIOUS CLAIMS THAT I THOUGHT MIGHT BE OF HELP. I FOUND NO EVIDENCE OF ANY CLAIMS IN THE PRESENT ADJUDICATION MADE FOR IRRIGATION BY JENSEN OR WHITE AS INDIVIDUALS. THE ONLY POSSIBILITY, AS I RELATED BY PHONE, OTHERWISE, WOULD BE IF THEY HAD FILED UNDER SOME OTHER ENTITY FOR A NAME. IT MAY BE THAT THE ACRES ARE FILED UNDER THE LOWER PAYETTE DITCH CO. RIGHTS, ONLY. IF YOU HAVE FURTHER QUESTIONS & I AM NOT AVAILABLE, CALL JAN SHURTE AT THE WESTERN REGION, PH: 334-2190. SHE'S A GREAT HELP.

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF THE SURFACE AND GROUND WATERS OF THE PAYETTE RIVER DRAINAGE BASIN

NOTICE OF CLAIM

IDENT. NO.

MAP NO.

TO A
WATER RIGHT

65 0003

Dept. of Reclamation

Notice is hereby given that

NESBITT-MCFARLAND COOPERATIVE DITCH COMPANY 90

(Name of Claimant)

Clarence S. Nesbitt, Rte 2, New Plymouth, IDAHO, 83655

(Mailing Address)

claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to beneficial use, or date that permit was issued) NOVEMBER 27, 1889

(2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) Payette River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Use Irrigation Period of Use From 3/15 To Oct 31/15
(Domestic, irrigation, stock, etc.) (Both Dates Inclusive) (Mo., Day) (Mo., Day)

Use 6-69 cfs Period of Use From 6-69 To 5.10
(Domestic, irrigation, stock, etc.) (Both Dates Inclusive) (Mo., Day) (Mo., Day)

Use 1147.5 AFA Period of Use From 1147.5 AFA To 1147.5 AFA
(Domestic, irrigation, stock, etc.) (Both Dates Inclusive) (Mo., Day) (Mo., Day)

(4) Quantity of water claimed: 10.2 Cubic Feet Per Second, or 1147.5 AFA Acre Feet Per Annum, and/or 10.2 Gals. Per Minute.

(5) A) Point of Diversion: Give location of point where water is diverted from its source Lot 4 NW 1/4 SW 1/4 Sec. 8, Twp. 7N, Rge. 3W, B.M.; additional points: NW 1/4 SW 1/4

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Headgate and gravity ditch with a capacity of over 27 cfs.

(6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Re: Civil Case No. 3667 - Frasier, et al Objection 65-00003

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 7.41 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 11.07 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection 65-00003

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 7.41 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff

Dear Mr. Roberts,

Per our telephone conversation of May 12, 1977, please find enclosed a copy of the claim filed by the Nesbit-McFarland Cooperative Ditch Co. I hope this information will be of assistance to Mr. Jensen and/or yourself.

As stated at that time, the Proposed Finding of Water Rights in the Payette River Basin has not been published and will not be in the near future.

An interim schedule of water rights has been approved by court order of the Idaho Third Judicial District for the 1977 water year only. As to the claim under consideration, the interim schedule shows a right of 6.09 cubic-feet per second (cfs) for the irrigation of 253 acres. This right is from natural flows of the Payette River and will not be satisfied, according to the interim schedule, until 1405.01 cfs in superior rights are fulfilled, if all water users are taking 100 per cent of their rights.

If you have further questions, please feel free to contact me.

Sincerely,

Don Shaff
Water Resource Agent

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO:

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

1. Priority based on Posted Notice J. F. Nesbitt, dated November 27, 1889. Recorded Water Rights Book #2, Page 76, Ada County.

2. The quantity of water 6.05 c.f.s. is calculated by allowing 1 c.f.s. of water per 50 acres irrigated land, which is the maximum allowed without justification under Idaho Law 42-202, Volume 8 of the Idaho Code. The loss was calculated to .97 c.f.s. by using Moritz Formula $S(c.f.s./mile) = 0.2\sqrt{\frac{Q}{V}}$.

3. The acre foot irrigation requirement amounting to 1360.0 is based on $4.5 \times 254. = 1,143.0 \times 19\%$ (seepage loss) $217.1 = 1,360.0$.

The 4.5 acre ft. per acre is based on the University of Idaho Research Study intituled Consumptive Irrigation Requirement for Crops of Idaho.

4. The acres irrigated was tabulated from maps prepared by the Department of Water Administration.

5. The source was found to be from Payette River by the survey and mapping crew.

6. By field investigation, the purpose was found to be for irrigation.

UNITED STATES DEPARTMENT OF AGRICULTURE

SOIL CONSERVATION SERVICE

Payette, Idaho 83661

RECEIVED

Department of Water Administration
December 1971

Idaho Department of Water Administration
State House
Boise, Idaho 83707

Gentlemen:

Mr. Clarence Nesbitt, Route 2, New Plymouth, Idaho, has requested that I provide soils information to your office relative to his filing for water rights on his ranch which consists of nearly 1100 acres.

The soils are droughty with sandy or gravelly textures. This includes Letha fine sandy loam, Moulton fine sandy loam, Falk fine sandy loam and the Notus coarse sandy loam. Other soils occurring in minor amounts are the Chance and Baldock loams.

The characteristic of these soils is the shallowness to underlying sands or gravels. The principal crops are hay, pasture and small grains. Irrigation is by flooding, and with the absence of slope in most areas large heads of water are needed to adequately irrigate the fields in a reasonable time. And since the soils, for the most part, have low water-holding capacities the frequency of water application is greater than with soils of higher water-holding capacities. The result, of course, is the need for additional water to meet the requirements of these river bottom soils.

I don't have any information tabulated at the present time in which to base a recommended amount of water on, but Mr. Nesbitt feels that he should have about 1500 miners inches which is based on his past water use on the ranch. This seems to be a close estimate of need as I have been on his ranch several times and some specifically to help with his irrigation program. His water always appears to be well managed and properly utilized.

If I can be of further help by providing information regarding Mr. Nesbitt's application I will be glad to do so.

Sincerely yours,

R. L. Kane

February 20, 1970

Nesbit-McFarland Cooperative Ditch Company:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Idaho County Courthouse - Emmett, on March 18, 1970, at 1:00 p.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

Very truly yours,

R. KEITH HIGGINSON

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO: Nesbit-McFarland Cooperative Ditch
Company

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim, with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this 17th day of February, 1970

Donald H. Warner
Clerk
