IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: **A65-00034X**
Date Received: 12/13/1989
Receipt No: X999999
Received By: _____

AMENDED **NOTICE OF CLAIM TO A WATER RIGHT ACQUIRED UNDER STATE LAW** **AMENDED**

1. Name: BILBREY DITCH CO LTD
   Address: C/O GAIL SPRINGER
   2551 TOMS CABIN RD
   EMMETT ID 83617

2. Date of Priority: FEB 5, 1894

3. Source: PAYETTE RIVER Trib. to: SNAKE RIVER

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4	Lot	County
06N	02W	11	NW SW	5	GEM

5. Description of diverting works:

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	03/15	11/15	19.210		

7. Total Quantity Appropriated is:
   19.210 C.F.S. (and/or) A.F.A.

8. Total consumptive use is Acre Feet Per Annum.

9. Non-irrigation uses:

10. Place of Use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
06N	02W	4	SE SW		IRR	6.0
			SW SE		IRR	1.0

SCANNED
AUG 2 6 2003
MICROFILMED
OCT 1 8 1996

10. Place of Use: Continued

Township	Range	Section	1/4 of 1/4		Lot	Use	Acres
				Section Acres			7.0

10. Place of Use: Continued

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
					Section Acres	78.0
					Total Acres	721.0

11. Place of use in counties: GEM

12. Do you own the property listed above as place of use? YES

13. Other Water Rights Used:

14. Remarks:
USE OF THIS RIGHT WITH RIGHT NO. 65-00034A IS LIMITED TO A TOTAL COMBINED DIVERSION RATE OF 19.73 CFS, A TOTAL COMBINED ANNUAL CONSUMPTIVE USE VOLUME OF 2523.5 AF, AND TO THE IRRIGATION OF A COMBINED TOTAL OF 721 ACRES IN A SINGLE IRRIGATION SEASON.
2.96 CFS OF THIS RIGHT IS LIMITED TO USE FOR CONVEYANCE LOSSES IN DELIVERY OF THIS RIGHT.
FOR RIGHT NOS. 65-00034A & 65-00034X A DIVERSION RATE OF .034 CFS PER ACRE FOR 40 ACRES, .029 CFS PER ACRE FOR 230 ACRES & .02 CFS PER ACRE FOR 437 ACRES AT THE FIELD HEADGATE IS INCLUDED IN THE RATE OF DIVERSION FOR THE PLACE OF USE DESCRIBED ABOVE.
RIGHTS LISTED BELOW ARE ALSO DIVERTED THROUGH POINT OF DIVERSION DESCRIBED ABOVE, AND THE TOTAL COMBINED RATE OF DIVERSION OF THESE RIGHTS IS LIMITED TO 20.01 CFS.
OTHER RIGHT NOS.: 65-00034A, 65-11320 & 65-11344.
CLAIM AMENDED PER STIPULATION FROM PRBA. RDH 3-29-96.

15. Basis of Claim: BENEFICIAL USE

16. Signature(s)

(a.) By signing below, I/We acknowledge that I/We have received, read and understand the form entitled "How you will receive notice in the Snake River Basin Adjudication." (b.) I/We do ____ do not ____ wish to receive and pay a small annual fee for monthly copies of the docket sheet.

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 65-34X

NAME AND ADDRESS: BILBREY DITCH CO LTD
C/O GAIL SPRINGER
2551 TOMS CABIN RD
EMMETT, ID 83617

SOURCE: PAYETTE RIVER TRIBUTARY: SNAKE RIVER

QUANTITY: 19.21 CFS

USE OF THIS RIGHT WITH RIGHT NO. 65-00034A IS LIMITED TO A TOTAL COMBINED DIVERSION RATE OF 19.73 CFS.

USE OF THIS RIGHT WITH RIGHTS LISTED BELOW IS LIMITED TO A TOTAL COMBINED DIVERSION RATE OF 20.01 CFS. COMBINED RIGHT NOS.: 65-00034A, 65-11320 & 65-11344.

RIGHT NOS. 65-00034A & 65-00034X A DIVERSION RATE OF .034 CFS PER ACRE FOR 40 ACRES, .029 CFS PER ACRE FOR 230 ACRES & .02 CFS PER ACRE FOR 437 ACRES AT THE FIELD HEADGATE IS INCLUDED IN THE RATE OF DIVERSION FOR THE PLACE OF USE DESCRIBED ABOVE.

2.96 CFS OF THIS RIGHT IS LIMITED TO USE FOR CONVEYANCE LOSSES IN DELIVERY OF THIS RIGHT.

PRIORITY DATE: 02/05/1894

POINT OF DIVERSION: T06N R02W S11 LOT 5 NWSW Within GEM County

PURPOSE AND PERIOD OF USE:

PURPOSE OF USE	PERIOD OF USE	QUANTITY
IRRIGATION	03-15 11-15	19.21 CFS

PLACE OF USE:

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 721 ACRES WHEN COMBINED WITH ALL OTHER RIGHTS OF THE BILBREY DITCH COMPANY LTD AND USED WITHIN THE PLACE OF USE DITCH COMPANY'S BOUNDARIES IN A SINGLE IRRIGATION SEASON.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.

2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.

3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.

4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

****

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.

2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.

3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

Re: Civil Case No. 3667 - Frasier, et al Objection 65-00034X

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 15.45 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 19.21 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

RE: Amended Notices of Claim to a Water Right in the Snake River Basin Adjudication No. A65-00034A & A65-00034X - Gem County

Dear Ms. Springer:

Enclosed are amended computer-generated copies of the above-referenced claims. The acreage has been corrected to include the lands that were decreed as part of these water rights, but had been omitted on the computer-generated copies of the claims submitted December 13, 1989.

Please review the claims for accuracy. If the claims are now correct, please sign the claims, have your signature notarized, and return the claims to this office within 30 days.

If you have any questions, please contact this office.

Sincerely

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF

THE STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF SURFACE AND GROUNDWATERS OF THE PAYETTE RIVER DRAINAGE BASIN	CIVIL NO. 3667 STIPULATION RESOLVING OBJECTIONS TO WATER RIGHT NOS. 65-00034X, 65-00034A

The Director of the Idaho Department of Water Resources, R. Keith Higginson, by and through counsel, and Bilbrey Ditch Co. Ltd. stipulate as follows:

1. That water right claim Nos. 65-00034X, 65-00034A, be accepted and included in the Proposed Finding of Water Rights in the Payette River Drainage as set forth in Exhibit A, attached hereto and incorporated herein by this reference.

2. That Bilbrey Ditch Co. Ltd. withdraws all pending objections, including those based on the objection filed by Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown in July 1982, in the above captioned matter.

The following are members who responded with a signed letter stating that they did not wish to apply for additional water.

Chuck Colley
Joseph S. Walker
Paul A Springer
Norman B. Alicia

The remainder of our members did not respond, and we are assuming they are not interested in applying for this extra water. They are listed as follows:

Carl Abercrombie
Reed and Carol Anderson
Gary Bigelow
Clyde E. or Jackie Crosby
Don Gribble
Orville Haight
Everrett D. or Bonnie J. Hill
Steve Harris
Don Heckman
Edna Magnuson
John N. McCreary
Louis Proctor
Don Pitman
Joe Rushin
Barrie Von Smith
Bill or Donna Tippets
Steven Ray Wade
Cliff A. Warner

Thankyou for your help and patience.

Sincerely,

Gail E. Springer, sec./treas.
Leonard Arbuckle, pres.

Leonard Arbuckle
Gail E. Springer

AUG 29 2000

AN ANALYSIS OF IRRIGATION REQUIREMENTS ON RIVER BOTTOM SOILS ALONG THE PAYETTE RIVER

AUG 23 1963

The Soil Conservation Service was requested by Richard Frazier to study his irrigation system to determine possible efficiency improvements and to suggest as amount of water that would be needed to adequately irrigate his farm. Mr. Frazier's farm is located NW of Emmett along the Payette River - S½ and NE¼ of the NE¼, Sec. 5, T6N, R2W.

The soils in the fields evaluated are Moulton fine sandy loam. This soil is underlain by gravel at a depth of 20-55 inches. A seasonal water table occurs in this gravel layer if drainage has not been applied. This is the dominant soil of the Payette River flood plain.

Our irrigation trials on corn showed an in-field irrigation efficiency of 27%. The field had 1200 foot lengths of runs with a furrow intake rate of 1.1 gallons per minute per 100 feet. This data though not official corrulates well with other studies done in Payette and Canyon County on similar soils, showing an efficiency range of 25-30% on better managed systems.

Mr. Frazier has 81 acres of this soil type with a cropping rotation of corn, grain and pasture. An evaluation of this rotation's weighted consumptive use requirements (.25"/day) and the water holding capacity of the fine sandy loamsoil (1.5@ 50% field capacity) shows an irrigation return time of 6 days is necessary during July. The net water to be replaced during each irrigation would be about 1.5 inches. Figuring an overall system requirement for the 81 acres using the in-field efficiency factor of 27% calculates out to 170 miner's inches or 2.1 miner's inches per acre. (See attached ID-ENG-40) Though

delivery system losses were not measured, I would estimate a 35% loss is incurred where open ditch systems are used.

There are some management practices that can be done both in-field and in the delivery system to minimize water losses. Concrete ditches, pipelines and gated pipes will cut delivery losses. Cutting irrigation lengths of runs, closer adjustment of water and length of time per irrigation set can cut field loss. Installation of sprinkler systems improve irrigation efficiencies dramatically. These are all realistic possibilities and any one of these could possibly be used to gain some water use efficiency. Of course, the limiting factor is capital investment and/or additional labor time. The in-field efficiencies we found on Mr. Frazier's and Mr. Jay Sisler's places were probably above average for these soil conditions.

On farm delivery system losses could be reduced to 15%. In-field irrigation efficiencies in this case do not appear possible to improve upon without conversion to a sprinkler systemor by drastic reorganization of irrigation methods which would require a high labor input, (i.e., 400 foot runs and 4 hours set time). An on-farm delivery of 2.5 miner's inches per acre would appear adequate to irrigate this type of soil, and still leave the burden of improvement of on-farm delivery systems to the landowners.

This analysis does not consider the economics of making these suggested improvements on any operator's farm. These figures are based upon the SCS's Idaho Irrigation Guide, our field office staff's experience and

SCANNED
AUG 28 2003

knowledge of local soils, crops, current farm operation and management methods.

This soil and closely associated soil types occur on about 4500 acres adjacent to the Payette River in Gem County. This analysis could reasonably be extended to include them.

The Bilbrey Ditch Co. Ltd. requests a 15 day extension on the deadline given to us for a reply concerning the suit against the Department of Water Resourses for extra water for reasons of evaporation, sandy soil, etc. Civil Case No. 3667 pertaining to permit numbers 65-00034A and 65-00034X.

This extension was requested by our president, Mr. Leonard Arbuckle in a phone conversation with you, Mr. Shaff on 7-18-91. With the added 15 days, our extension would make the new deadline July 15, 1991.

This letter fulfills the requirement made by you to Mr. Arbuckle on the telephone that we put our request in writing. Thankyou for the extension as given on the telephone.

Sincerely,
Gail Springer - Sec. Treas.

Re: Civil Case No. 3667
Frasier, et al Objection 65-00034X

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 15.45 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff
Manager, Adjudication Section

RE: Water District 57-R

Dear Reynolds Creek Basin Water User:

The director of the Department of Water Resources has set a budget and selected a watermaster for Water District 57-R for the 1986 irrigation season. You should have received the director's order dated April 9th that established Water District 57-R to replace water districts 57-A and 57-J.

Kenneth Downing of Homedale has been selected to serve as watermaster with a budget of $5,525 to operate for about 65 days. The budget compensates Mr. Downing at $40 per day plus 20.5 cents per mile. Included in the budget is pay and mileage expenses to hire Connie Brandau as an assistant watermaster if such a position would be advantageous to the water district.

The budget has been sent to the Owyhee County auditor's office for collection through the county offices. If you have questions about the budget or the water district in general, please feel free to call me.

Before the director can instruct the watermaster to begin delivering water, he must receive a letter signed by at least three water users who believe the watermaster's services are required. As that time quickly approaches, I solicit your cooperation and patience in this first year of Water District 57-R.

Regards,

DON SHAFF
Water Rights Supervisor

RE: Claim No. 65-0034

Thomas L. Green, President
Bilbrey Ditch Co., Ltd.
Route 1
Emmett, ID 83617

Dear Mr. Green:

Per your request, please find enclosed the aerial photographs you provided with the acreages (marked in red) under the ditch that we have initially found as of October 5, 1977. You will note, that even as I transferred the acreages from our maps to yours, I found some minor errors that were obvious and have been noted on our working copy of your claim.

By working together, we may arrive at a more accurate accounting of what the Bilbrey's original right is. Notes have been made on the maps showing boundary lines, lands covered by what we think is other water or zeros (Ø) indicating we found those quarter-quarters not irrigated by your water in 1961. The blue numbers in parenthesis are for acres within a quarter-quarter.

I think it is only fair to tell you we are suspicious of all the 679 acres having a priority of February 5, 1894. The posted notice on which the claim is based described only "a part of Section 10 and the S½ Section 9, T. 6N, and also NE¼, Section 17." It may be fruitful, therefore, to research for records now noting the expansion of the ditch beyond these lands

We are returning the claim filed on August 12, 1977, since the land claimed is already described on 65-0034 and the date of priority claimed is 1976 which in all likelihood is incorrect. If this was intended as an Application for Permit, we will have to use another procedure as I think you already know is necessary to develop a new water right.

One of the Bilbrey directors who was in our office on October 17, 1977, may have delivered the message to you about the headgate specification requirements.

RECEIVED

OCT 25 1977

After some checking we and the U. S. Bureau of Reclamation are not aware of such requirements. If you will send us a copy of the letter you received, we will be happy to investigate it further and get a definite answer.

In figuring the amount of water you will apply for later, you should take into account the loss factor and explain such extra appropriation in the remarks. A water right cannot be licensed under the permit process for any more water than what was originally on the application.

After reviewing the maps and other materials, you find further errors in our initial review, please contact John Noyes who is more familiar with the field condition surrounding your claim. If, however, he is not available, I would be glad to work with you on the first claim or in filing additional claims or applications.

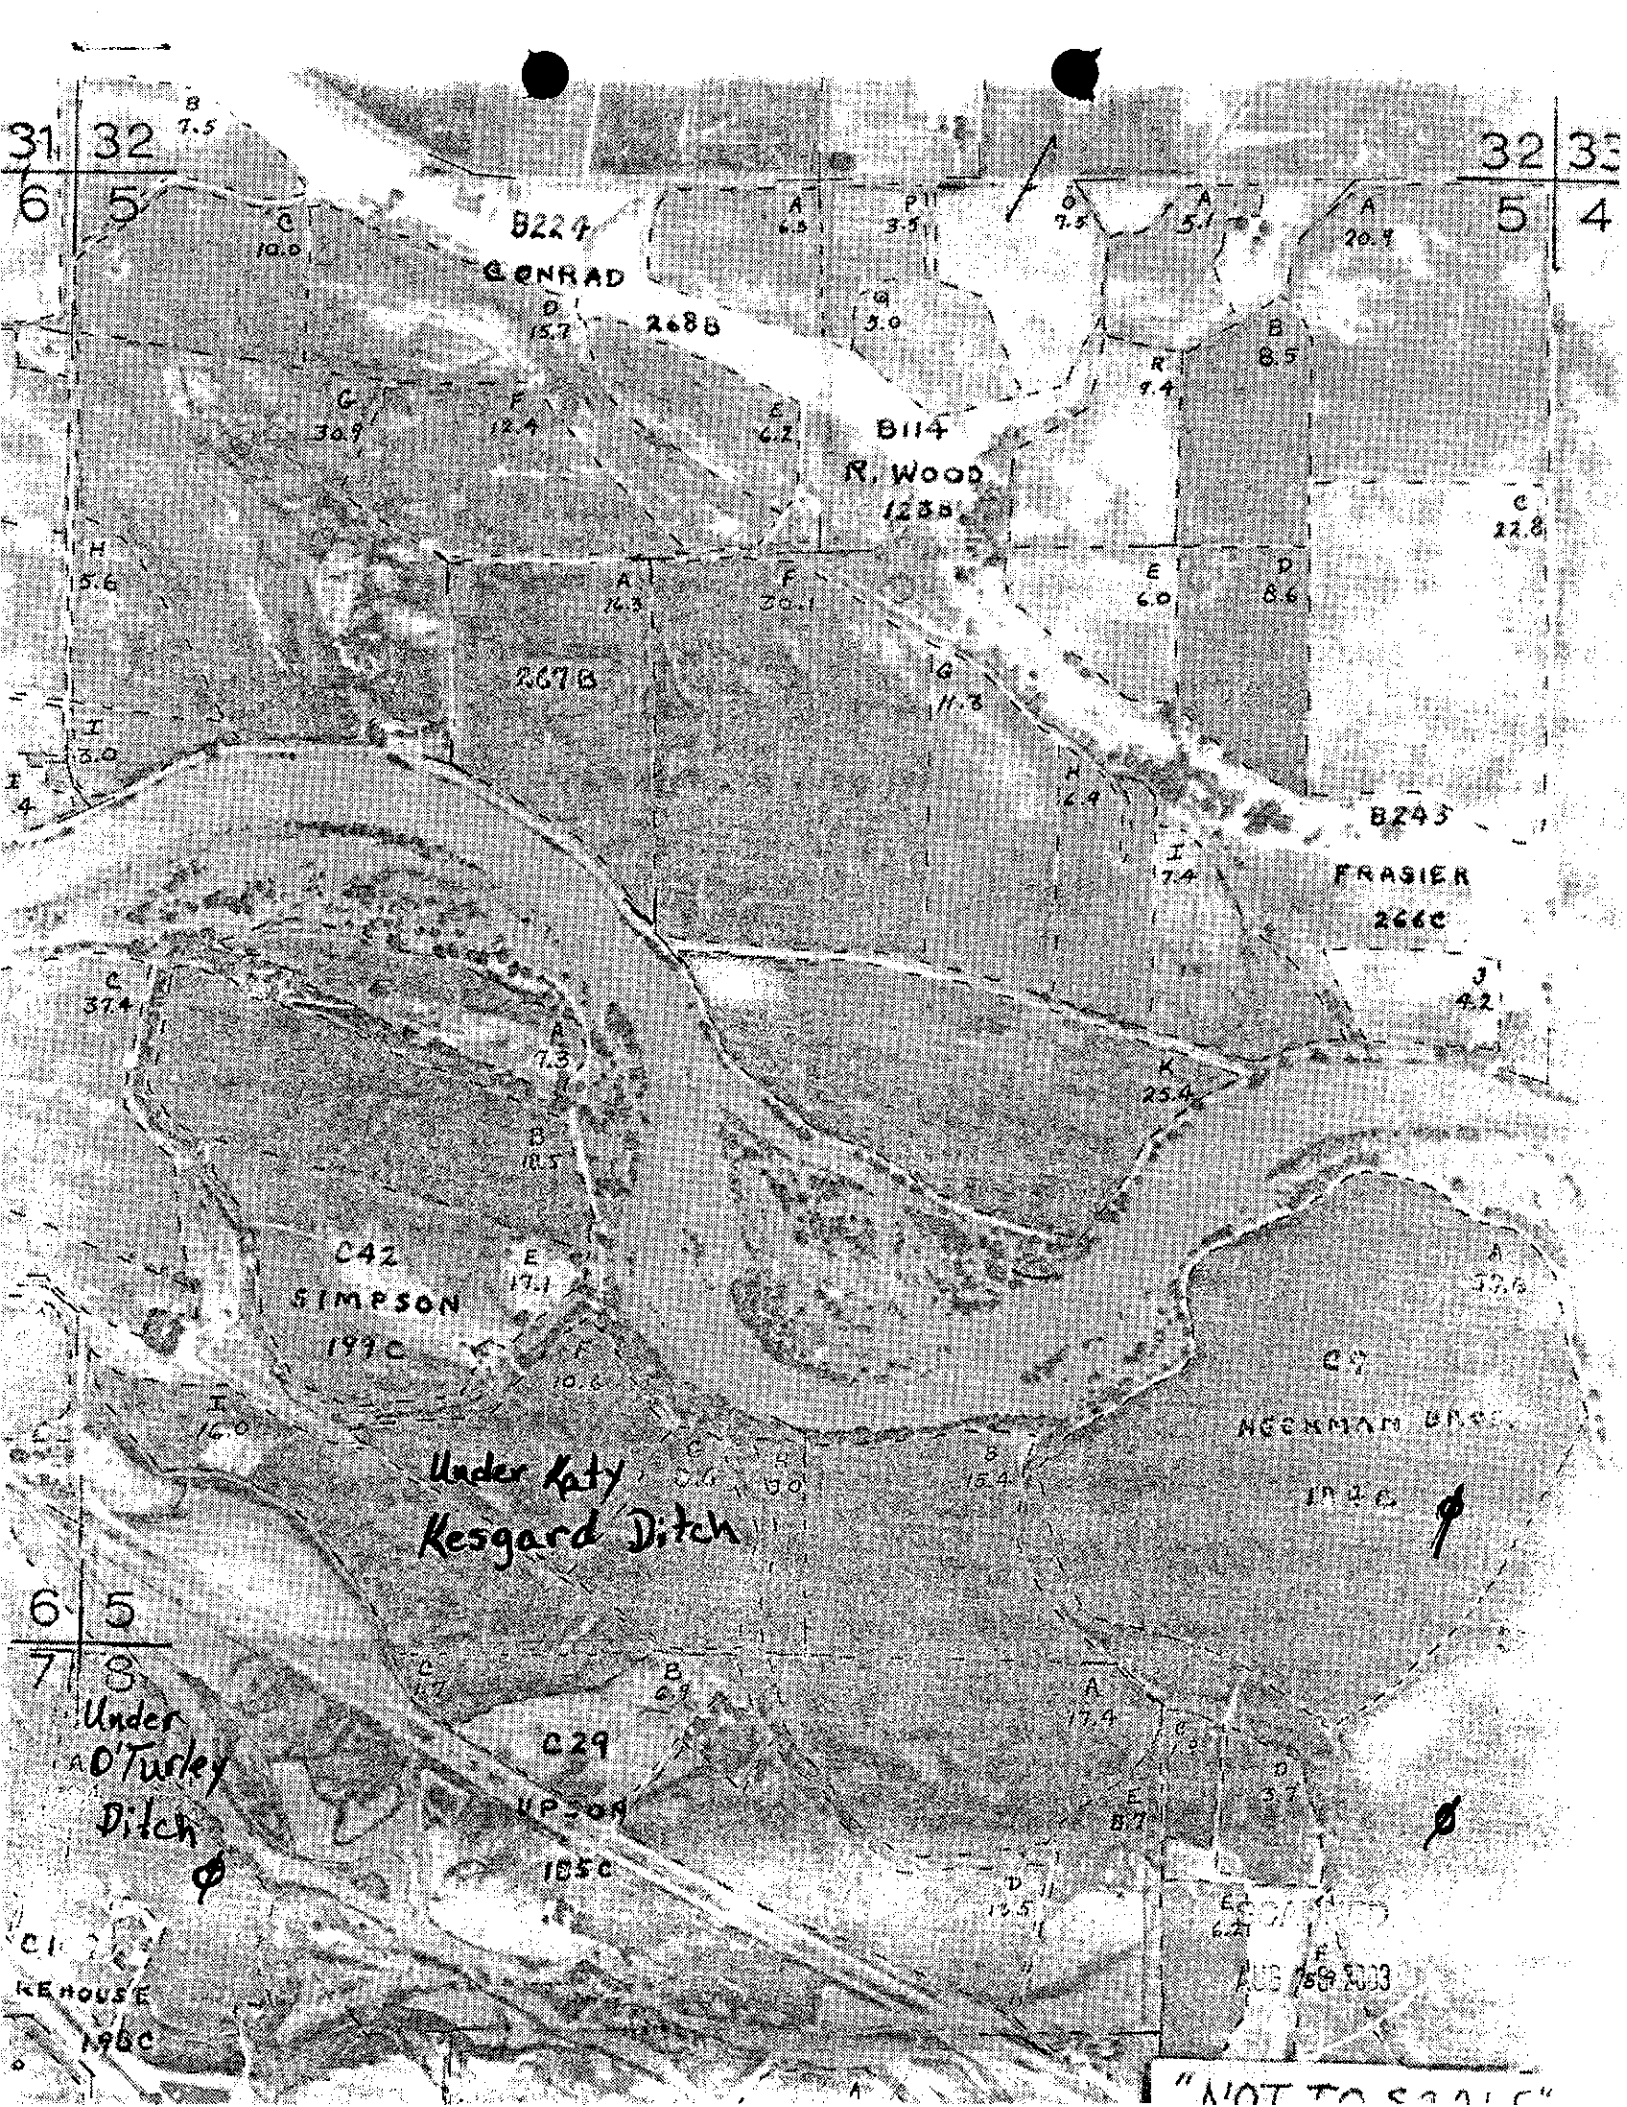

The board member should also have delivered my apology for this delay. Had I had any idea how overwhelmed we would be with claimants filing their water rights before October 18, I would have never committed myself to complete your request by that date. Please excuse my poor foresight.

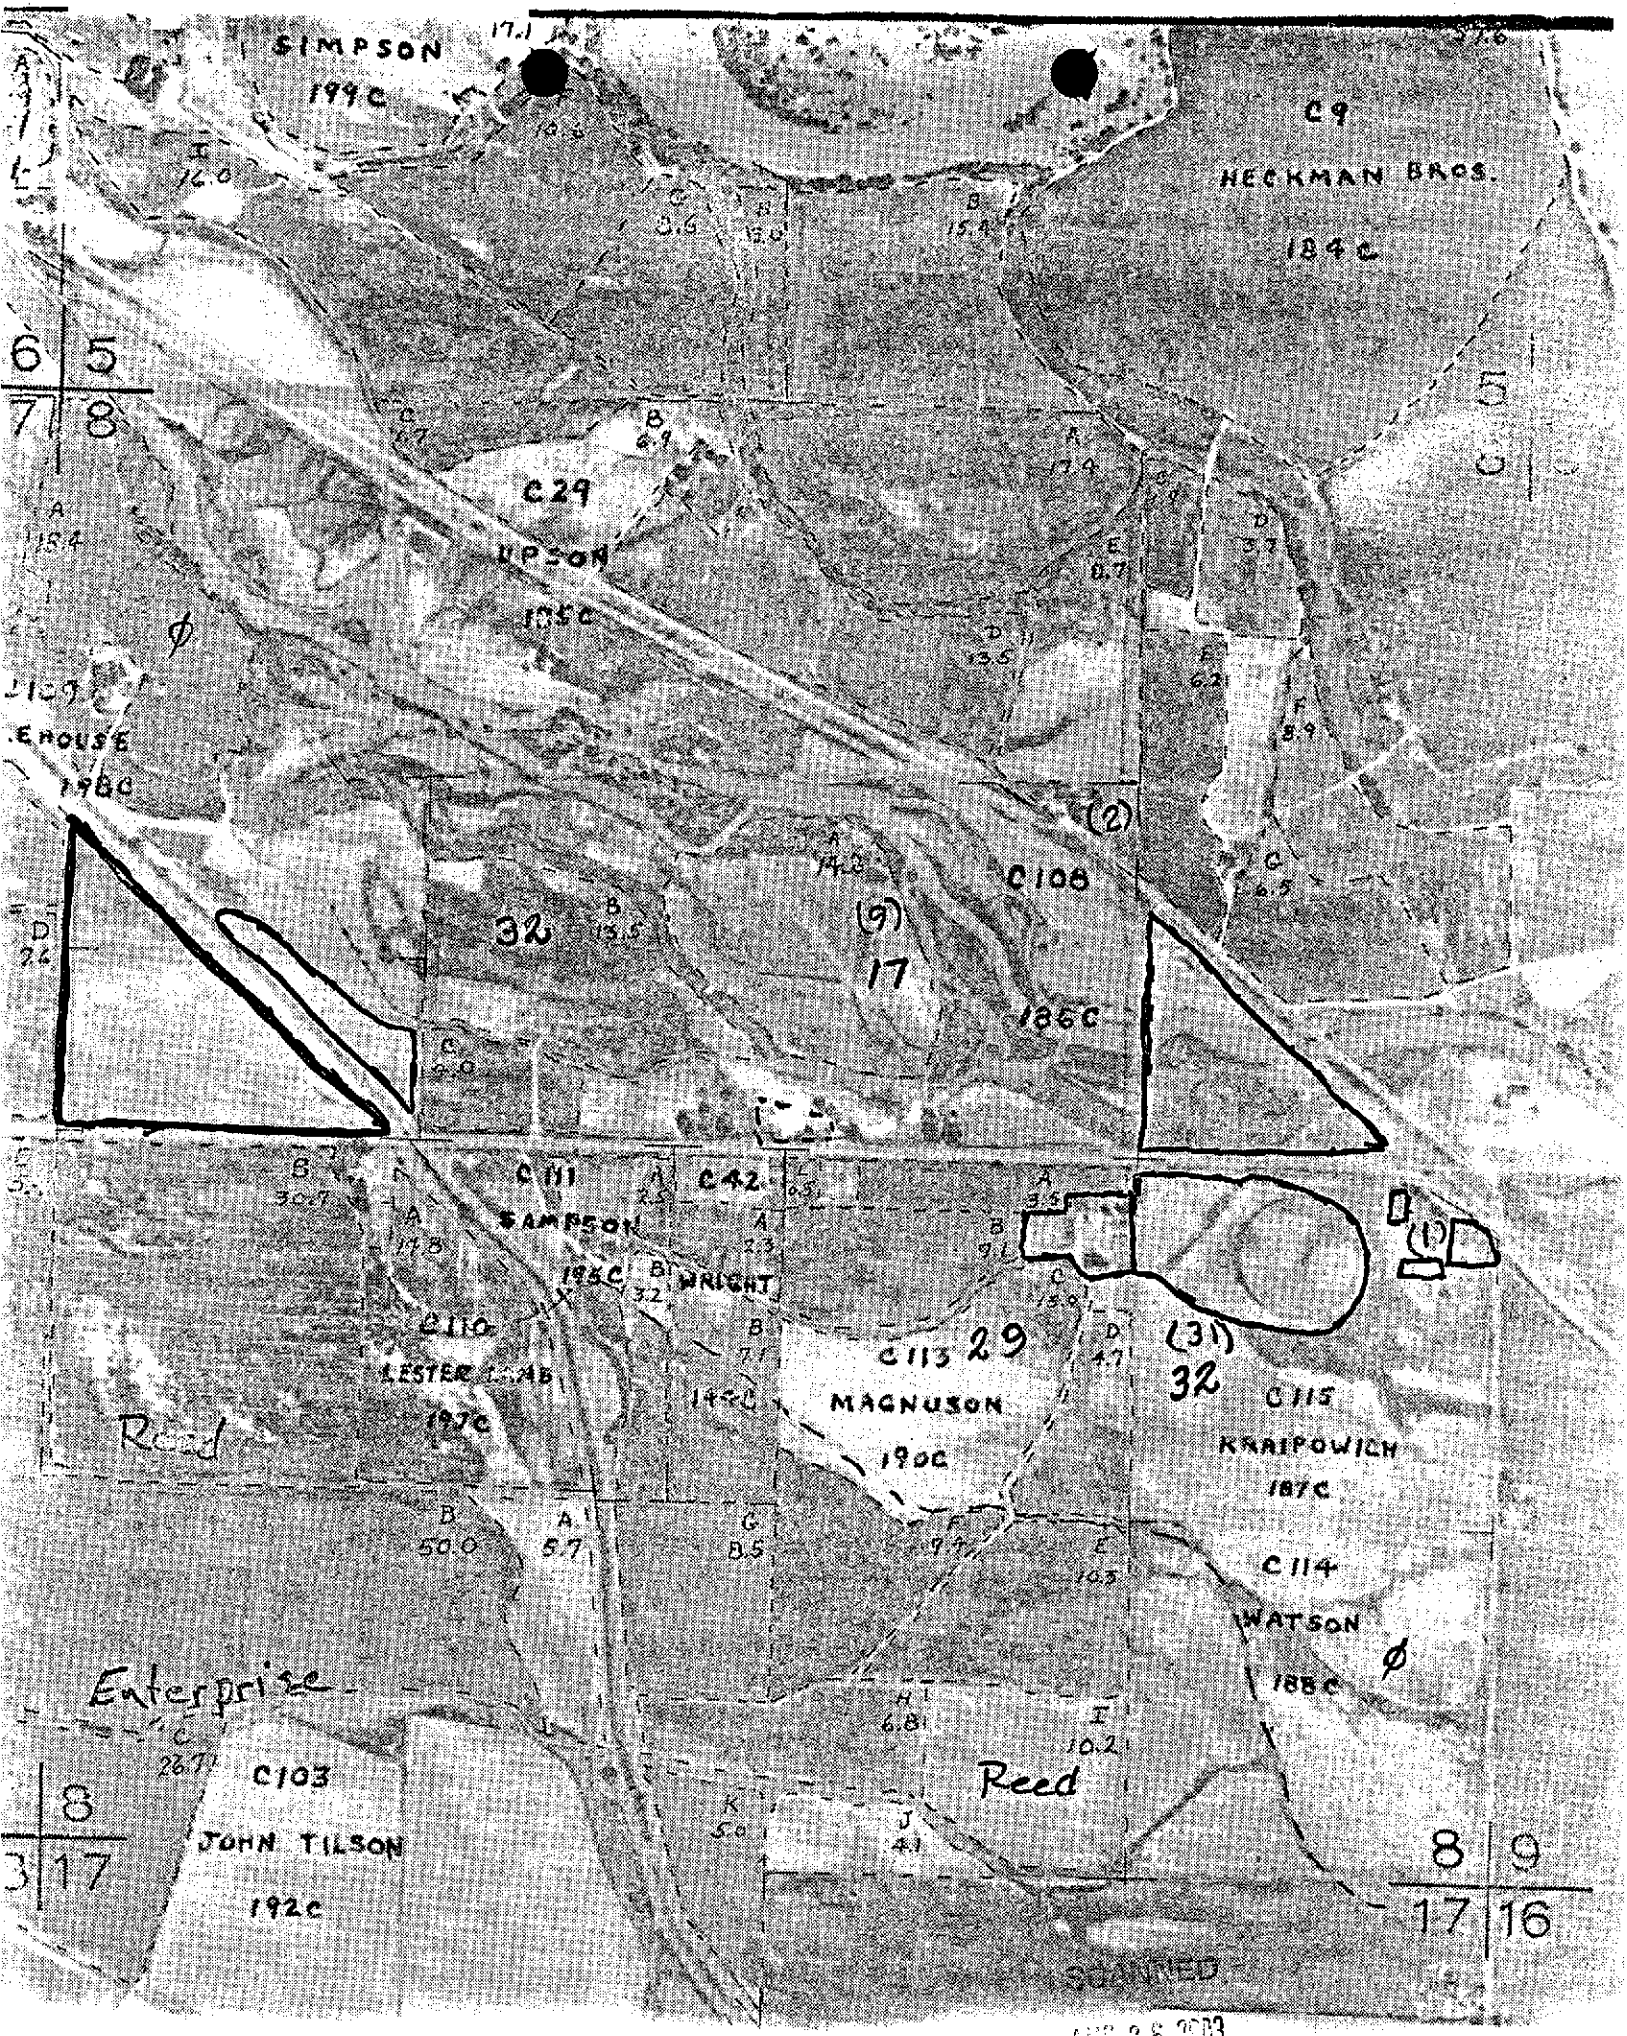

Sincerely,

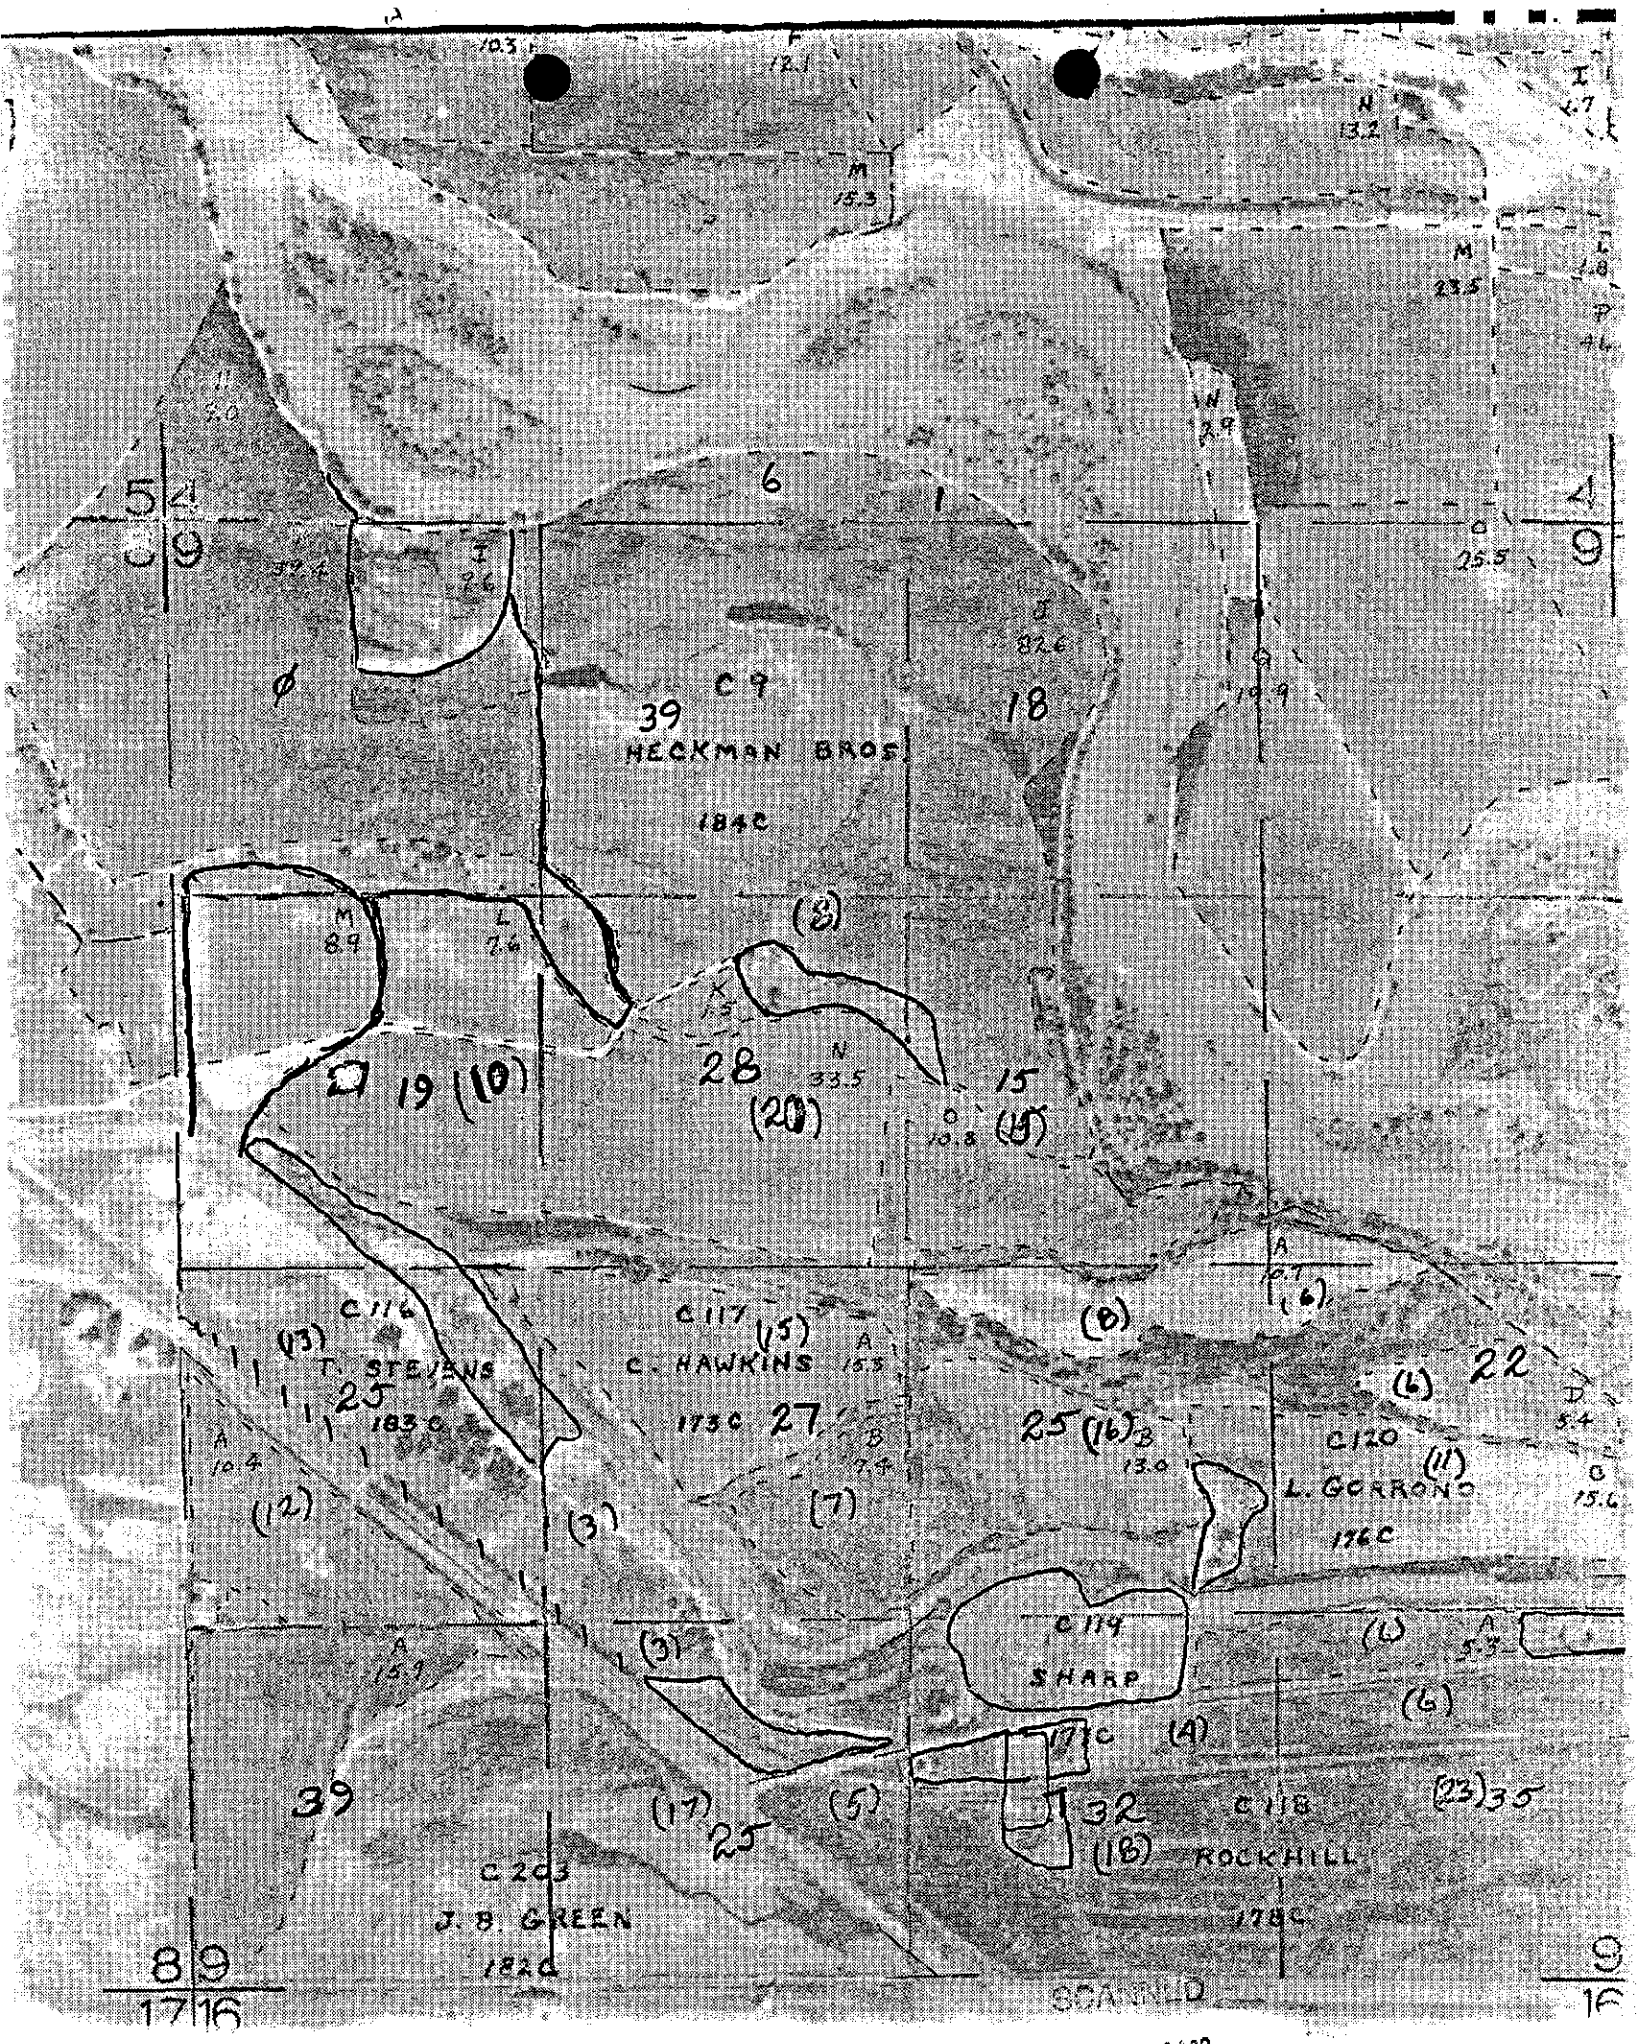

Donald V. Shaff
Water Resource Agent

Dear Mr. Green:

In reviewing your claim to a water right at the ASCS Office on April 8, we arrived at the following acreage on the claim enclosed. This acreage is somewhat larger than the previous claim, however, to cover your entire ditch company area you should file an additional claim on land that has been taken in since the 1894 priority date.

According to the 1961 aerial photographs, there is land in the NE¼NE¼ and the NW¼NE¼ that is not irrigated. By reviewing the claim enclosed, you should be able to determine the acreages for the new claim. If everything is in order, would you please sign the claim and have it notarized before returning it to this office.

If you have any questions or need any assistance, please feel free to contact me.

Sincerely,

JOHN K. NOYES
Water Resource Agent

Claim No. 65-0034

	Priority		Rate of Diversion		Quantity per Year		Acres Irrigated
1.	2/5/1894	2.	16.60	3.	3,722.3	4.	701.0

5. Source: Payette River

6. Purpose: Irrigation

7. Period of Use: April 1 through October 31

8. Type & Point of Diversion: NW¼SW¼, Section 11, Twp. 6N, Rge. 2W,B.M.
   Acres Irrigated: 701.0 acres

SEE attached listing for land descriptions.

1. Priority based on Posted Notice of T. F. Wilson, et al for 3,000 Miners Inches (60.0 cubic feet per second). Filed in Water Rights Book 1, Page 289, Canyon County. Dated February 5, 1894

2. The quantity of water 14.04 c.f.s. is derived by allowing 1 c.f.s per 50 acres of irrigated land, which is the maximum allowable without justification under Idaho Law 42-202, Volume 8 of the Idaho Code. The loss was calculated to be 2.56 cubic feet per second by using Moritz Formula $S(c.f.s./mi.) = 0.2\sqrt{\frac{R}{V}}$. The total diversion rate being 16.60.

3. The acre foot irrigation requirement amounting to 3,722.3 was based on 4.5 X 701.= 3,154.5 + (18%) 2.56 = 3,722.3.

The 4.5 acre foot per acre was based on the University of Idaho Research Study intitled Consumptive Irrigation Requirements for Crops of Idaho.

4.

5. The source was found to be from the Payette River by the field survey and mapping crew.

6. By field examination, the purpose was found to be for irrigation.

7. The period of use has been determined by using the report Spring and Fall Freezing Temperatures in Idaho, published by the University of Idaho, Bulletin 494. The irrigation season for the area is 174 days in which the temperature does not drop below 28°F. The temperatures were recorded at the weather station outside of Emmett, Idaho.

8. The point of diversion was located by using U.S.G.S. quad maps and the B.L.M. survey.

Re: Adj. Claim No. 65-0034

Bilbrey Ditch Co.
Helen Abercrombie
Rt. 1
Emmett, ID 83617

Dear Ms. Abercrombie:

In reviewing the claim filed by your ditch company, we note that land in Section 11, T. 6 N, R. 2 W is shown as being irrigated. Section 10 of that township and range is not listed. Our maps indicate that 28.4 acres in the SE¼SW¼ and 32.4 acres in the SW¼SW¼, Sec. 10, T. 6 N, R. 2 W is being irrigated. These acreages correspond with what you have shown in Section 11. Will you please check and see if this should be ammended on your claim.

Your claim shows your use of water including loss, as 22 c.f.s. or 1.6 inches per acre. We are recommending 1 inch per acre, plus ditch loss which would be a total of 16.6 c.f.s. or 1.2 inches per acre.

The acreage claimed agrees with our maps except for the land in Section 11.

If you feel you would want to discuss our findings on your claim, we will be willing to meet with you.

Sincerely,

Robert W. Hamilton

Dear Mrs. Abercrombie:

We are sending you the figures on ditch losses which we have roughly calculated. It appears the loss is approximately 36.5%. This is based on the quantity needed for irrigation rate of one inch per acre. The quantity for your lands would be 14.04 c.f.s + 5.10 c.f.s. loss totaling 19.14 c.f.s.

If you can show a closer ditch loss by measurements of the ditch, it would be well to use those figures. If you feel this is the quantity you divert, you could use this figure as your quantity of water to be claimed.

I must remind you that this is your claim and we may , in our proposed findings, recommend a different quantity of water according to evidence submitted.

If we can be of further service, feel free to contact our office.

Very truly yours,

Gary L. Page

Bilbrey Ditch Company, Ltd:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at GEM COUNTY COURTHOUSE, EMMETT, on MARCH 11, 1970, at 9:00 a.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

SCANNED

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

Very truly yours,

R. KEITH HIGGINSON
State Reclamation Engineer

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF THE

STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF SURFACE AND GROUND WATERS OF THE PAYETTE RIVER DRAINAGE BASIN.	Civil No. 3667 SUMMONS

THE STATE OF IDAHO SENDS GREETINGS TO: Bilbrey Ditch Company, Ltd.

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim, with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

Helen Abercrombie, Sec'y.

Information about the Bilbrey Ditch.

This ditch is not affiliated with any other ditch.
At this time the ditch carries water to 33 stockholders and waters 1,108 and 39/100 acres of land.
The ditch is maintained by the users of the ditch, it is strictly a non-profited co.
This information is an approximate estimation, correct information can be obtained from the users and at a special meeting with them.
Listed below are the names of the users of the ditch.

Robert Burns.

ARTICLES OF INCORPORATION OF THE BILBREY DITCH COMPANY, LIMITED.

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned, have this day voluntarily associated ourselves together for the purpose of forming a Corporation, under the laws of the State of Idaho.

And we hereby certify: First. That the name of said corporation is The Bilbrey Ditch Company-Limited.

Second. That the purposes for which said Corporation is formed are the purchase of the Bilbrey Ditch, and water-right appurtenant thereto, and maintenance of the same for the purpose of irrigation, manufacturing and agricultural, which said ditch diverts water of the Payette River at a point near where the East line of Lot Five in Township Six North of Range Two West of the Boise Meridian crosses the South Channel of the said Payette River.

Third. That the place where its principal business is to be transacted shall be at the residence of P. B. Wright, situated upon the South West one fourth of the South East one fourth of Section Nine inTownship Six, North of Range Two West of the Boise Meridian, and about three and one half miles West of the town of Emmett, Idaho.

Fourth. That the term for which it is to exist is Fifty Years from and after the date of its incorporation.

Fifth. That the number of its Directors shall be five, and the names and residences of those who are ap pointed for the first year are:

Names		Residences.			
P. B. Wright	President	Emmett,	Canyon	County,	Idaho
T. J. Everhart		"	"	"	"
J. H. Bilbrey		"	"	"	"
Henry Boyer		"	"	"	"
J. M. Wagner		"	"	"	"

Sixth. That the amount of the capital stock of this corporation shall be Two Thousand Seven Hundred ($2700.00) Dollars, divided into twenty seven shares of one hundred ($100.00) dollars, par value each.

Seventh. That the amount of said capital stock which has been actually subscribed is Two Thousand Seven Hundred ($2700.00) Dollars, and the following are the names of the persons by whom the same has been subscribed, to wit:-

Names of Subscribers	No. of Shares	Amount.
P. B. Wright	5	$500.00
T. J. Everhart	5	500.00
J. H. Bilbrey	5	500.00
Henry Boyer	5	500.00
J. M. Wagner	5	500.00

Conda Wilson	3	30 .00
P. B. Moore	3	300.00
Albert Wilson	6	600.00

In witness whereof, we have hereunto set our hands and seals this 31st day of January, A. D. 1903.

Henry Boyer	SEAL

CORPORATION REINSTATEMENT CERTIFICATE

I, GEO. H. CURTIS, Secretary of State of the State of Idaho, and legal custodian of the corporation records of the State and collector of the annual corporation tax, do hereby certify that THE BILBREY DITCH COMPANY, LIMITED, a corporation organized and existing under and by virtue of the laws of the State of Idaho, as evidenced by its articles of incorporation duly filed in the office of the Secretary of State on the 1st day of December, 1919, with its principal place of business in Idaho located at Rupert, Idaho, forfeited on the 1st day of December, 19 21, its charter or authority to do business in the State of Idaho, because of failure to pay the annual license tax and penalty due the State of Idaho for the fiscal year ending June 30th, 19 22, as provided by Section 29-607, Idaho Code, Annotated.

AND I FURTHER CERTIFY, That the said corporation has subsequently and on the 26th day of July, 19 44, paid the annual license tax and penalty assessed against it and the said THE BILBREY DITCH COMPANY, LIMITED is therefore reinstated on the records of this office, and all the corporate rights which it enjoyed under the Constitution and Laws of the State of Idaho prior to the date of said forfeiture, are hereby restored.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the Great Seal of the State, Done at Boise City, the Capital of Idaho, this 26th day of July, in the year of our Lord one thousand nine hundred forty-four, and of the Independence of the United States of America the One Hundred Sixty-ninth.

RECEIVED

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF THE SURFACE AND GROUND WATERS OF THE PAYETTE RIVER DRAINAGE BASIN

NOTICE OF CLAIM TO A WATER RIGHT

IDENT. NO. 65-0034 Department of Reclamation

MAP NO.

Notice is hereby given that **Bilbrey Ditch Company, Ltd.** (Name of Claimant)

c/o Helen Abercrombie, Route #1, Emmett, Idaho 83617 (Mailing Address), claims a right to the diversion and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued) 2/5/1894

(2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) **Payette River**

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Use **Irrigation** 17.62 38.4 AF Period of Use From April 1 (Mo., Day) To October 31 (Mo., Day) (Both Dates Inclusive) 3/15 11/15

Use 16.88 17.70 39.82 AF Period of Use From ____ (Mo., Day) To ____ (Mo., Day) (Both Dates Inclusive)

Use ____ (Domestic, irrigation, stock, etc.) Period of Use From ____ (Mo., Day) To ____ (Mo., Day) (Both Dates Inclusive)

(4) Quantity of water claimed: 17.62 Cubic Feet Per Second, or 3064 3039 Acre Feet Per Annum, and/or ____ Gals. Per Minute. 645

(5) A) Point of Diversion: Give location of point where water is diverted from its source NW¼ SW¼, Sec. 11, Twp. 6N, Rge. 2W, B.M.; additional points: ____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. **Gravity and weir**

(6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

5. Description of diverting works:

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	03/15	11/15	16.060		

7. Total Quantity Appropriated is:
   16.060 C.F.S. (and/or) A.F.A.

8. Total consumptive use is Acre Feet Per Annum.

9. Non-irrigation uses:

10. Place of Use:

Township	Range	Section	1/4 of 1/4		Lot	Use	Acres
06N	02W	4	SE	SW		IRR	6.0
			SW	SE		IRR	1.0
					Section Acres		7.0

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

May 4, 2001

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

> "When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001**. IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief
