I. FINDINGS OF FACT

A notice of claim was filed for the above listed water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights.

On June 9, 2000, the United States of America, Bureau of Reclamation filed a *Motion to File Late Objections* in multiple subcases. The Motion was granted on July 28, 2000. The objections were filed to "General Provisions Basin 65 Irrigation & Other Part II (3) Separate Streams Administration." A Show Cause Hearing was set for January 29, 2004. The claimant did not appear at the hearing. The United States Bureau of Reclamation Motioned, on record, to add General Provision separate streams language to the "other provisions necessary". The Motion was granted on record.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein, and pursuant to the Motion, IT IS RECOMMENDED that the above water rights be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

III.

**RECOMMENDATION FOR PLACE OF USE DESCRIPTION USING
DIGITAL BOUNDARY**

Effective July 1, 2002, the Idaho Legislature approved the use of a Geographic Information system (GIS) for describing the place of use (digital boundary) for water rights meeting certain

criteria. See I.C. §§ 42-219(2) and 42-1411(2)(h). The GIS mapping technology allows the geographic area encompassing the place of use for a water right to be particularly identified and visually displayed in a map overlay format through the aid of computer technology.

Digital Boundary mapping is appropriate for water rights that are for an irrigation purpose of use and also meet one of the following criteria: (1) used in conjunction with an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more; (2) the place of use for the water rights is located within an irrigation district organized pursuant to the laws of the state of Idaho; or (3) the water rights are for an irrigation project developed by an association, company, corporation or the United States to divert and deliver or distribute surface water under any annual charge or rental for beneficial use by more than five (5) water users in an area less than twenty-five thousand (25,000) acres.

The above water rights meet one of the above-stated criteria.¹ Therefore IT IS FURTHER RECOMMENDED that the above water rights be decreed using a digital boundary with the partial decree containing the following additional language as set forth in the attached Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b):

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. §42-202B(2)(2003) and authorized pursuant to I.C. § 42-1411(2)(h)(2003). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

DATED April 13, 2004.

THOMAS R. CUSHMAN
Special Master
Snake River Basin Adjudication

¹ In incorporating a digital boundary into a partial decree, the electronic or digital data is what is actually decreed as opposed to the visually displayed map ultimately generated from the data. The data is stored on a CD-ROM. The data on the CD-ROM is incorporated by reference into the partial decree. Duplicate originals of the CD-ROM will be issued. The SRBA District Court retains an original together with the original partial decree, and the Idaho Department of Water Resources (IDWR) retains the other original. Upon request, the claimant can obtain a copy of the CD-ROM from IDWR at no cost, although GIS software will still be required to access the data. Subsequent administrative changes to the place of use will also be stored in a digital format and kept on file and maintained by IDWR. IDWR will maintain all computer software and/or hardware necessary for reducing the data to a usable format that is accessible to the general public, including access through the IDWR Internet website (www.idwr.state.id.us) or its successor Uniform Resource Locator (URL).

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

David R. Tuthill, Jr., P.E.
