SCANNED

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A65-00066
Date Received: 4/16/1990
Receipt No: X999999
Received By: BAS

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: FARMERS COOPERATIVE IRRIGATION CO. LTD. 208-642-9424
Address: ~~828 CENTER AVENUE~~ 102 N. Main St.
PAYETTE, ID 83661

2. Date of Priority: SEP 12, 1874

3. Source: PAYETTE RIVER Trib. to: SNAKE RIVER

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4	Lot	County
06N	01W	5		1	GEM

5. Description of diverting works:
HEADGATES AND LATERALS

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	03/15	11/15	12.220		

7. Total Quantity Appropriated is:
12.220 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 39849.0 Acre Feet Per Annum.

9. Non-irrigation uses:
STOCKWATER

10. Place of Use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
06N	01W	6	SW	12	IRR	24.0
			SE	11	IRR	9.0
Section Acres						33.0

FARMERS COOP IRRG. CO. INC.
Attn. Roy Whitely, Sec.
Box 206, 109 S. Plymouth Ave.
New Plymouth, ID 83617

Dear Roy,

There is an answer to Mr. Williams problem, and the method you described is essentially the avenue to take. From our end, the administrative method will be for Mr. Williams to file an Application for Transfer which is enclosed and partially completed. Mr. Williams will need to submit with the Application written permission from both companies to make the transfer. The filing fee is \$30.

If this transfer is approved, the diversion that takes care of Mr. Williams' land will be carried down the Farmers Coop Canal. I presume he could then be appropriately assessed by the company for that delivery. This transfer and Coop assessment would not necessarily relieve Mr. Williams to any long-term indebtedness the Last Chance may have assessed to his land.

I suspect the whole matter will transpire with little effort and no snags. If you have questions I did not cover, get back in touch with me again.

Sincerely,

DONALD V. SHAFF

February 17, 1981

Dear Don:

Thank you for the information off the Clair Platts property, their has been no new developments that we have been informed of on this property.

I do have another question on some other property near Emmett belonging to Mr Harold Williams in Sec.26 6N 2W.

Mr Williams has last chance water on about 10 acres below our canal and would like to dispose of his last chance stock and buy the same amount in Farmers Cooperative Irrigation canal.

The reason being he is on the end of the lateral and he pumps water on this 10 acres and would like to put the pump in our canal for his source of supply, and abandon the end of the last chance lateral that he now receives his water from.

This would illiminate two problems for him, the maintenance on the lateral, and an unstable supply that endangers his pump, because this source is very flexible from nothing to more than he can use at times.

My question is it possible to receive credit for the irrigation of this land, if the last chance ditch company no longer claims it.

Sincerly,

Farmers Cooperative Irrigation

New Plymouth, ID 83655

Dear Roy,

After field checking the Clair Platt situation and some intervening matters, I have some information that may be helpful to you. I have outlined the water rights on the SWSE, Section 2, Township 7 North, Range 4 West as the Department recommended them in the Proposed Finding and the way I found the situation on January 23, 1981.

PROPOSED FINDING

<u>Source</u>	<u>Acres Irrigated</u>
Payette River - Noble Ditch	36
Waste Water (1951 Right)	34

JANUARY 23, 1982

Waste Water (1951 Right)	34
Payette River - Farmers Coop	2
Waste Water (1978 Right)	2

I did not talk to the Platts, but I was able to talk to Ole Olson, Howard Platz (an old neighbor of Platts) and some Noble officers. The Noble Ditch secretary said Platt relinquished two or three shares in that company in November, 1978 "because he didn't use them." Platt uses Farmers water on about two acres of high ground around his house through a ditch passing across Olson's place. The lower ground below the house is all irrigated via a pump from the waste ditch that cuts across his land. The waste water is apparently the result of deliveries from Noble Ditch. Cecil Hill believes the forty (just east of Platt's next to the highway) is irrigated by Noble water.

1/27/82

1/27/82

Page 2
Roy Whiteley
February 17, 1981

I hope this information will allow Farmers Coop to reach a decision on their part and to supply Platt's prospective buyer with the guidance to satisfy his needs. If I can be of more help in the matter, get in touch with me, and I'll do all I can.

Sincerely,

DONALD V. SHAFF
Adjudication Section Supervisor

Notice is hereby given, that we the undersigned, have located and constructed a water ditch for irrigating and milling purposes, and that we do hereby claim the right to raise the banks of said ditch two feet higher than they are at this time for the purpose of carrying a good dipk of water and we claim for said ditch the right to take out and use three thousand inches of water from the Snake River. Said ditch commences at a certain point on the south bank of said river, in Ada County Idaho Territory, known as the West Basin House, said ditch runs up Lots One, Two, Three and Four, in Section Five, and Lots One, Two, Three and Four, in Section Six, and Lot Five, in Section Seven, all in Township number Six North of Range number One West, to what is known as the 1000 ft. water race mill, but now owned by the undersigned. And we also claim the right to extend said ditch from a point near said saw mill, on the highest and most suitable ground, to the place now owned by Abraham Mills, and we claim the right to use and sell the same for milling and irrigating purposes. Continued investigation of the Farmers Coop. ditch loss revised the Department's acceptable rates that could be forwarded to the court. The latest revisions occurred after checking the S.C.S. soil maps for the soil types through which the Farmers canal traverses.

The initial total ditch loss was based on a seepage loss factor of 1.5 feet per day. Roger Drury, engineering, found the permeability of the soil types was about 2.0 feet per day for the upper half of the canal and 1.5 to 2.0 feet per day for the lower half.

Using these seepage losses in detailed calculations, Drury found a ditch loss of about 130.34 cfs. When 2.0 feet per day for the entire canal was used in LOSER, the ditch loss was estimated at 131.46 cfs. For the sake of consistency, the latter figure was chosen as the Department's revision. The total diversion under both rights would then total 397.12 cfs.

The revision and its basis was presented to the Farmers Board of Directors and its counsel at a meeting on October 30, 1979. Their decision on the figure will be forthcoming soon. The method of dividing that 49.5 per cent loss between the two rights was explained at the meeting. The diversion rates for the rights, if acceptable to the Board, would be:

65-0066	12.22 cfs
65-0067	384.90 cfs

SUBJECT: 65-0066 and 65-0067

Following the objection of Farmers, the matter of the canal loss was investigated by the Department and the objectors. Most apparent to the parties was the disparity between the canal length measured by the Department and the objectors' ditch riders.

The Department's figure of 36.86 miles was a measurement of the canal from the headgate to the "Forks" (near Fruitland), then north along that lateral to the Payette River where it ends near the mouth of the Washoe Canal. The 1" = 660' aerial photos and a digitizer were used for the measurement.

The objectors first proposed a distance of 45 miles based on the vehicle mileage of their ditch riders. This distance included both laterals. The objectors contended that the 4.1 miles of west lateral was as long and carried as much water as some ditches of other parties for which a ditch loss was calculated.

Through a series of meetings, the Department conceded the west lateral should be included but hesitated on the total length. In those meetings, it was found that a section of this canal south of Emmett cannot be driven by vehicle (a difference of 0.3 miles) and the distance for the north lateral included the spill to the river past the last tap (a distance of 0.1 miles).

The Department accepted the objectors' mileage with the minor deletions of 44.6 miles of canal. This revises the percentage loss to 36.5 for a total diversion for both rights of 362.75 cfs. The individual rights are subsequently revised to:

65-0066	11.17
65-0067	351.58

Re: 65-0066

Dear Roy,

I have assembled the information you requested and have made some enclosures for part of the answers.

For our conveyance loss calculations, the only factors considered for every canal were: the soil type, delivery flow in cubic-feet per second (1 inch/acre), length of ditch without any taps, and length of the delivery stretch. In every case, the soil-type was pervious soil (sandy loam). The delivery flow was calculated from the total number of irrigated acres multiplied by .02 CFS. In every case, only the main canal was used for the length figure. Where the canal split, the longest leg was selected for the continuation of the main canal. The lateral ditches were not measured and considered for the length of delivery canal.

The Moritz Formula was used for our loss calculations:

$$\text{Seepage Loss (s)} = 0.2C \sqrt{\frac{Q}{V}}$$

Where C = Depth of Water lost per day in feet

Q = Discharge of canal in cfs

V = Mean velocity of flow in feet per second

In the loss calculations, 1.5 feet/day was selected as the depth of water lost through pervious soil. The calculations also assume a minimum water velocity of 121 feet/second.

The assumptions and figures that led up to the computer program used for all the calculations were based on research efforts of agricultural engineers studying loss factors. (Moritz, Claiborne, Warnick and Worstell to name a few).

The table that is enclosed should fill the bill for information about other companies and individuals who have large or fairly large diversions from the Payette River below Black Canyon Dam. Where NA appears in the Canal Loss column, the water right for that user is represented by a license, and the diversion rate was fixed at the time of the examination for issuance of the license. Where the figure

FARMERS' COOPERATIVE IRRIGATION CO., LTD.

Re: 65-0066

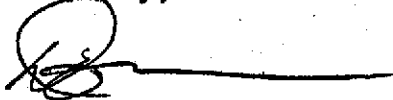

June, 28, 1979

" < (less than) 10" appears, the diversion rate was set at .02 CFS/Acre because the ditch is less than one mile in length or the loss was calculated to be less than 10 per cent, and therefore, not a measurable amount due to the margin or error in any measurement.

The second enclosure is the printout for Farmers' Cooperative loss calculation. "Q Diverted" in CFS is the percentage loss multiplied by "Q Delivered" in CFS, which is the total acres irrigated multiplied by .02 CFS/Acre. The "Q Delivered" was divided equally among each mile of the delivery section while the amount used (delivery + loss) was subtracted before advancing to the next mile. At the end of the delivery section you will see no water is left.

I hope this information has supplied the information the board needs to evaluate its position. If you need more, just let me know.

Sincerely,

DONALD V. SHAFF

Adjudication Section Supervisor

: PAYETTE RIVER ADJUDICATION :

Gentlemen:

As we have filed an objection to "Proposed Findings of Water Rights" on the Payette River, we would like to have the figures on how the formula for the water loss in our canal was figured.

*Payette River (2.0)
-has file*

Also we would like some figures on other lands that are irrigated by the other canal companies below the Black Canyon Dam.

Total Acres

Are any of these loss's figured to include the lateral loss in delivering the water from the canal thru the lateral to the land?

Department of Water Resources
Western Regional Office

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT
OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL
DETERMINATION OF THE RIGHT TO THE USE
OF SURFACE AND GROUNDWATERS OF THE
PAYETTE RIVER DRAINAGE BASIN.

OBJECTIONS TO FINDINGS,
PROPOSED AND OTHERWISE,
IN SAID MATTER.

CIVIL NO. 3667

COMES NOW Farmers' Irrigation Company of New Plymouth, Idaho, and files
its protest and objection to "Proposed Findings of Water Rights" and "Findings
of Facts and Conclusions of Law" in regard the above-entitled matter.

I

Farmers' Irrigation Company objects to the Proposed Findings of Fact and
law as related to the volume and amount of Payette River water Farmers' Irrigation
Company is entitled to at various priority dates. To protect the record, this
objection is also to proposed priority dates of Farmers' Irrigation Company,
after September 12, 1874. No objection is made to priority date of 1874, but
objection is made to the proposed volume and amount of water related to said
priority date.

II

Further objection is made to the method and manner the State of Idaho
Department of Water Resources and its representatives and agents compiled and
computed evaporation and conveyance losses for various water users in the
Payette Basin. The computations and allocations could and should be compiled
on a more equitable basis taking into consideration distance and locations of
ditches, canals, water tables, return flows, "waste water," soils and like
geographical and geological conditions. Re-evaluations, taking into consideration
said factors, shall result in more equitable findings of water needs and
equitable determination of water rights and use, particularly in reference to

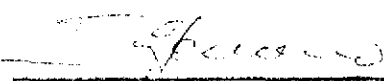

Farmers' Irrigation Company.

III

Farmers' Irrigation Company reserves the right and privilege to support these objections with oral, written and real evidence of facts and circumstances connected therewith. Farmers' Irrigation Company and Farmers' Co-Operative Irrigation Co., Ltd. are one and the same, for the purposes of this document.

DATED this 20th day of June, 1979.

Respectfully Submitted,

L. Corrono, Attorney for Farmers'
Irrigation Company

I hereby certify that a true and correct copy of the foregoing Objections to Findings, Proposed and Otherwise, in said Matter, was mailed to the Director of the Department of Water Resources, Department of Water Resources, Western Region, 92 South Cole Road, Boise, Idaho 83705, on this 20th day of June, 1979, postage prepaid.

Re: 65-0066

Roy Whiteley, Secretary
Farmers Cooperative Irrigation Co., Ltd.
P. O. Box 206
New Plymouth, Idaho 83655

Dear Roy,

Following a review of the corrections to our preliminary findings you supplied to us on November 8, the additions have been made except for one parcel. By your letter, this is Bob Smith's pump for 40 acres.

Our 1977 photo showed this land was not improved or irrigated and was in the same condition as in 1961. The development of this water right, will apparently require an application for permit. As a result, this land and the Farmers water for it will not be recommended to the district court for decree of rights prior to October 18, 1977.

I have prepared the application if the Board decides to file for the water soon. This amount of water is less than one per cent of Farmers total recommended right, and the Board may wish to delay any action.

Thanks for your help, and please extend my gratitude to the Board.

Sincerely,

DONALD V. SHAFF
Water Resource Agent

WESTERN REGION, 92 South Cole Road, Boise, Idaho 83705

JOHN V. EVANS
Governor

C. STEPHEN ALLRED
Director

(Office at the corner of
Franklin and Cole Roads)

(208) 384-2190

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to your Application No. _____. The Department suggests you contact the protestant(s) directly in an effort to determine the nature of the protest(s) and to attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor

Mills, Nellie Iretton. 1963. All Along the River.

smithing was hard but profitable work in early days, with the rough roads jolting the wagons to pieces and so many oxen and horse teams to be shod, as well as saddle horses. Day after day, Alex Womack's anvil rang early and late, while his good wife cared for their large family - sixteen children in all.

Many descendants still live in and around Emmett. One of the younger sons, Will, whose beautiful singing voice has brought much pleasure to many, recently returned from California to again make his home in Emmett.

DEGENS

David Bayse sold the old Gill-Flurnoy stage station and farm to Mr. and Mrs. Joseph Degen, from Germany, in 1877. Born in Lorch, Germany, October 4, 1831, young Degen came to America first in 1864, but returned to his home country and town in three or four years, probably lured back by the memories of one of Lorch's attractive young women. In 1869, just before leaving for America again, Degen married Miss Louise Huba and brought her with him to the new country. Their first home was in Missouri, but in 1877 they decided to come to Idaho, where Mr. Degen's sister was living. Her husband, Conrad Grab, met the family, consisting now of the father, mother, a son and three daughters, in Kelton, Utah, and drove them to his home in Weiser.

Soon Mr. Degen bought the 160-acre place in Emmett and filed on additional land. Another son, Lewis, was born in Emmett on May 1, 1879. Well trained on his father's farm in Germany, the thrifty young gardner lost no time in setting out trees and plants and developing his place into a fine farm. It was watered from Jim Wardwell's sawmill ditch.

Realizing the value of the Basin market for poultry, vegetables, and fruit, at a set tim, regularly as clock work, Mr. Degen took a load of produce in a covered wagon to the Basin towns. Housewives, knowing they could depend on him and his produce, watched for the cheerful little German peddler, but smiled when he answered their protests about the smallness of his eggs with: "How can you heckspect

Since the right for claim 65-0066 had a

(File Date: 9/12/1874)

maximum diversion of 60 cfs, the land under the canal water for this right was ~~that~~ that land ~~from~~ as reviewed from the beginning of the canal up to T 6N, R 2N, Sec 18, except Sec 7 and the NWNE of Sec 18 of T 6N, R 2N.

This land had 1295 acres of irrigated land. Calculations for this right:

Rate of diversion:
 $1295 \text{ Ac} \times .02 \text{ cfs/Ac} = 2590 \text{ cfs}$
 $+ 1000 \text{ of } 288 \text{ cfs/mi} \times 12.82 \text{ mi} = 3590 \text{ cfs}$
 6180 cfs

Duty:

$1295 \text{ Ac} \times 45 \text{ AF/A/y} = 5827.5 \text{ AF/y}$
 $+ 1000 = 3590 \text{ cfs} \times 1.98 \times 245 \text{ days/y} = 17172.5 \text{ AF/y}$
~~23,000 AF/y~~

The right for 65-0067 would on a second posted notice dated Aug. 23, 1885, containing the remainder of the recommended right for

Farmer's Corp. Div. Co. The lands for this right include NWNE, Sec 18, and those portions of Sec. 7 left in T 6N, R 2N, plus all those from those lands to the end of the canal as surveyed.

Calculations:

Rate of diversion:
 $12,003 \text{ Ac} \times .02 \text{ cfs/Ac} =$
 $+ 1000 = 288 \text{ cfs/mi} \times 20.77 \text{ mi} =$
 24006 cfs
~~29,018.7 AF/y~~
~~29988 cfs~~
~~54013.5 AF/y~~
~~83,032.2 AF/y~~

Duty:

$12,003 \text{ Ac} \times 45 \text{ AF/A/y} =$
 $+ 1000 = 5982 \text{ cfs} \times 1.98 \times 245 \text{ days/y} =$

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO:

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this _____ day of _____, 1970.

Clerk

Total rate for 65-00666 - 0067:

$$\begin{array}{r}
 61 \cancel{94} \\
 300 \cancel{92} \\
 \hline
 361 \cancel{83} \text{ cfs} \\
 299 \cancel{88} \\
 \hline
 361.10 \text{ cfs}
 \end{array}$$

Total duty:

$$\begin{array}{r}
 23,296 \cancel{7} \text{ AF/yr.} \\
 183,891 \cancel{7} \\
 \hline
 106,832 \cancel{7} \text{ AF/yr.} \\
 23,000 \text{ AF/yr} \\
 83,032 \cancel{2} \\
 \hline
 106,032 \cancel{2} \text{ AF/yr.}
 \end{array}$$

The amt for 65-0066 was slightly higher than 60 cfs due to the separating of the areas. To arrive at an acreage figure that would have required the 60 cfs it would have been necessary to split a 6th cor rather than use all the irrigated acres within any one 6th. cor.

The figures used for the loss calculations were derived from the Winstell equation used in a Canal Leakage Analysis conducted by the Department. Since the average loss (2.00 cfs/mi) is for the entire length of the canal, the upper & lower reaches losses are inherently combined, i.e., part of the loss for the upper reach is included in the lower reach loss.

The changes in calculations resulted from the correction of the ^{ave.} loss error from 2.93 to 2.00.

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO:

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

Re: Payette River Adjudication Claim No. 65-0066

Farmers Cooperative Irrigation Co. Ltd.
Box 206, 109 So. Plymouth Ave.
New Plymouth, ID 83655

Gentlemen:

We have reviewed your claims to a water right filed in connection with the Payette River adjudication suit. It appears that you have claimed irrigation water for all lands under your system. It has been our policy to exclude roadways, ditch right-of-ways, Rail Roads, etc. we have not excluded farm ditches. Your claim totals 14,907 acres while our tabulation shows 13,637.0. There were some areas where we may have failed to include the acres you actually irrigate, but I don't think that by adding these areas we will arrive at the same acreage you show.

The policy of not including rights-of-ways and farmsteads is one that we have followed in our review of lands irrigated by all companies and irrigation districts. We do make allowances for ditch loss we have not made a determination of the amount of water to be diverted by your company. That will be done once we determine the acreage irrigated by your ditch company.

We would be happy to meet with you to review the lands irrigated by your company and see if we can't correct any discrepancies we may have on our maps. Please advise us if you want a meeting arranged and if so suggest a time and place to us.

Sincerely,

ROBERT W. HAMILTON
Supervisor of Water Distribution

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued)
1900 Miners Ditch September 12, 1874 and 250,000 Miners Ditch August 23, 1885
- (2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean)

- (3) *Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
(Both Dates Inclusive)

Use IRRIGATION Period of Use From April 1st To October 31st
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
(Both Dates Inclusive)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

- (4) Quantity of water claimed: 5000 Cubic Feet Per Second, or _____ Acre Feet Per Annum,
and/or _____ Gals. Per Minute.

- (5) A) Point of Diversion: Give location of point where water is diverted from its source. SE 1/4 1/4
Sec. 5, Twp. 6, Rge. 1, B.M.; additional points:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)

Give sizes and capacities; be as specific as possible. Diverted direct from Fayette River into canal thru an automatic headgate, a small diversion dam is used during low water months, into approximately 14 miles of main canal.... Storage 1211 Mgar. Lake Reservoir & 18,700 AF Storage Canals.

- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres.

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

~~TRANSITION~~

- (7) Effluent, sewage waste, or return water from this use is discharged into Payette River thru Russell Mills in Gay County Patton Point Cabb Waste & Sand Hollow Waste in Payette County

- (8) If you are claiming water as a member of an organization, list name of organization.

PLANNED CO-OPERATIVE IRRIGATION CO. LTD.

- (9) Remarks: 3000 Miners Inches by Virtue of posted notice Jonathan H Smith & Co Sept 12, 1871. Recorded Book 1 Page 27 of water rights Ada County. 250,000 Miners inches by E J Curtis Joseph Tardner, John A O'Farrell P J Kinney in Bk 1 NE Page 116 August 19, 1885

- (10) Basis of claim (Check one) ☐ A) Right based on diversion and beneficial use.

- ☐ B) Right decreed by court, cite title of case.

- ☐ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No.:

Roy Whiteley
P. O. Box 206
New Plymouth, Idaho 83655

Dear Mr. Whiteley:

On March 27, 1970, we were requested to perform some calculations on the ditch loss for Farmers Co-Op canal. Based on one inch per acre, the quantity needed at the headgate would be 257.4 c.f.s plus an estimated loss on your ditch assuming the type of soil as sandy loams. We estimate the approximate loss would be 80.20 c.f.s. giving a total quantity needed of 337.6 c.f.s.

We would caution you that these are very rough calculations. We supply them only to give you some guidelines or directions in figuring what your needs for irrigation would be. This is not necessarily the quantity which we would recommend in our proposed findings as the quantity needed for irrigation.

Please remember that in completing your claim, you should claim what you feel are the irrigated acres and the quantity of water which you feel you have diverted to irrigate those lands.

Very truly yours,

Gary L. Page

Dear Mr. Whiteley:

Please find enclosed two copies of map 8N 4W F that you requested. Also enclosed are township plats of Emmett and New Plymouth upon which the lots irrigated under Farmers Co-Op Irrigation Company should be marked and returned to us.

To determine the irrigated acreage within the city limits, multiply the number of lots that are supplied by Farmers Co-Op by the average acreage per lot.

There is a \$1.00 charge for each print of 8N 4W, making a total of \$2.00 for you to submit. There will be no charge for the township plats since they will be returned to us.

If you have any questions regarding this matter or need any further assistance, please feel free to contact us at any time.

Very truly yours,

Paul M. Castelin

Farmers Co-Op Irrigation Company, Ltd:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Gem County Courthouse - Emmett on March 18, 1970, at 9:00 a.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

5-11-05 2068
1-21-73

Farmers Co-Op Irrigation Company, Ltd.

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

Very truly yours,

R. KEITH HIGGINSON

STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL)
DETERMINATION OF THE RIGHT TO)
THE USE OF SURFACE AND GROUND)
WATERS OF THE PAYETTE RIVER)
DRAINAGE BASIN.)

Civil No. 3667

S U M M O N S

THE STATE OF IDAHO SENDS GREETINGS TO: Farmers Co-Op Irrigation Company, Ltd.

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this 17th day of February, 1970.

COMMUNICATION DOCUMENTATION

WATER RESOURCES
WESTERN REGION

Claim No. A65-00066

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent S.W. Keen Date 8-8-94

Contact Person(s) A.W. Cole

Nature of Contact Mr. Cole came in to the office seeking information on "free rights" delivered through the Farmers' Co-op canal system near Emmett.

Substance of Communication Mr. Cole said his property is located at T6N, R2W, S12, NW $\frac{1}{4}$ SE $\frac{1}{4}$. I supplied Mr. Cole with printouts showing all rights on WR and on AJ for that location. Mr. Cole saw that Farmers' Coop right 65-00066 appeared to match his "free right", which he says resulted from an agreement in which Farmers Co-op got use of an existing canal easement in exchange for free water delivery forever.

Mr. Cole took 25 Notice of Claim forms to distribute among his neighbors so they can each claim a portion of 65-00066. Farmers Co-op has said it will not claim or defend their free-rights unless they pay annual maintenance assessments. Mr. Cole wants to avoid the charges.

OF THE STATE OF IDAHO, IN AND FOR GEM COUNTY

IN THE MATTER OF THE GENERAL	)	Civil Case No. 3667
DETERMINATION OF THE RIGHTS TO	)	
THE USE OF SURFACE AND GROUND	)	STIPULATION RESOLVING
WATER OF THE PAYETTE RIVER	)	OBJECTIONS OF FARMERS
DRAINAGE.	)	COOPERATIVE IRRIGATION
	)	CO.

COMES NOW the Idaho Department of Water Resources and Farmers Cooperative Irrigation Co., through their undersigned counsel, and stipulate as follows:

1. THAT the following changes be made in the proposed finding of water rights, because of more accurate calculations of ditch losses:

- a. Claim No. 65-0066: the rate of diversion be changed from 10.65 cfs to 12.22 cfs.
- b. Claim No. 65-0067: the rate of diversion be changed from 335.41 cfs to 384.90 cfs.

These changes are incorporated into Exhibit A, attached hereto, and these parties stipulate that No. 65-0067 and No. 65-0066 be amended to conform to Exhibit A.

conformed copy - original
w/ signatures on file

1 2. THAT the above-described changes and this stipulation
2 resolve the objections filed by Farmers Cooperative Irrigation
3 Co. dated June 20, 1979, and that the objections are hereby
4 withdrawn.

5
6 DATED this 28th day of January, 1987.

May 4, 2001

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

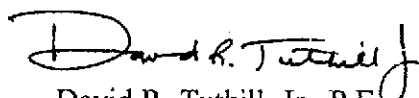

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

Danvers Coop
