MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:

Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

I Katherine Hansen being first duly sworn in oath disposes and says that to my best knowledge the ditch that has been known through the years as Hansen-Wood Ditch was dug and used in 1917.

This ditch has never been recorded in any of the records of either Canyon or Gem Counties. It originates in NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 8 Township 6 N Range 2 W of B.M. It runs in a north westerly direction North of the Seven Mile Slough and by paralleling the Seven Mile Slough for $\frac{2}{3}$ of a mile.

It irrigates land in south western part of Section 6 - 6 N 2 W and in Section 1 - 6 N 3 W of B.M.

It has been used continually for irrigation and beneficial use since 1917.

Re: Civil Case No. 3667 - Frasier, et al Objection 65-00078

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

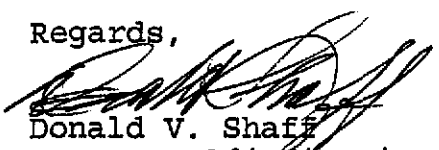

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 3.18 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 4.92 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

Re: Woods 65-00078 12/27/1884 3.18 c.f.s.

Dear Mr. Shaff,

Upon reviewing the flow rate questionnaire with appropriate information and applying the water requirements table furnished by the Soil Conservation Service, Letha Irrigation and Water Co. Inc. objects to the proposed finding of 3.18 c.f.s. listed for this water right.

According to the information supplied, a flow rate of 5.41 c.f.s. is required. Therefore, Letha Irrigation and Water Co. Inc. respectfully requests that the original diversion rate of 4.92 c.f.s. filed for dated 2/1/1990 be adhered to. We feel that this rate is not excessive and is necessary for the types of soil irrigated.

Sincerely,

Re: Civil Case No. 3667
Frasier, et al Objection 65-00078

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 3.18 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

RE: Civil Case No. 3667
Frasier, et al Objection

Dear Nelda,

I have enclosed several letters addressed to Letha Irrigation and Stewart Ditch Company, each of which shows a different water right with the accompanying cfs amount. The following list should help connect which letter goes to which ditch.

LETHA DITCHES.

<u>Name</u>	<u>Water Right No.</u>	<u>Priority Date</u>	<u>Amount</u>
Anderson	65-00080	05/31/1889	11.26
Kesgard	65-00084	08/21/1886	7.16
Nichols	65-00079	03/30/1881	8.32
Riggs	65-02030	06/12/1905	3.20
	65-10337	04/01/1913	1.47
Rasmussen	65-00081	12/30/1889	10.65
O'Turley	65-00085	10/27/1884	9.80
Seitz	65-00082	08/28/1901	15.93
Pulley	65-00077	04/01/1927	1.44
	65-00076	07/01/1904	7.36
Woods	65-00078	12/27/1884	3.18

Although I can be of little help with the data solicited by the forms (I only need one form for each ditch), I would be happy to discuss the objectives of the form after you and/or the Board have reviewed them a bit.

Sincerely,

Gentlemen:

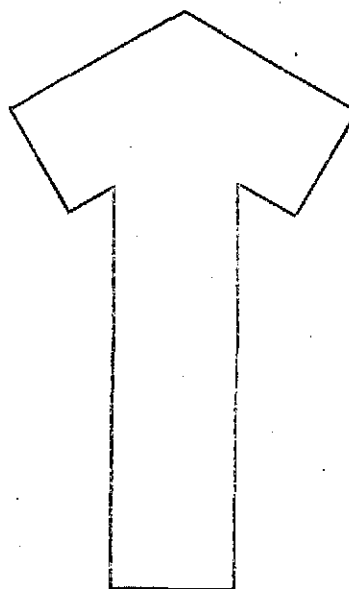

Could you please explain how and where the figure of 4.5 Acre Feet Annually was obtained?

We protest that this is insufficient AFA to irrigate the gravely ground with the sandy overlay that predominates in this Irrigation District.

Sincerely yours,

Harold Platy
President

MR. J. H. Woods (JACK) came in today and indicated that the date of priority for the construction of his ditch was in fact 1917. However, the lands irrigated by the ditch were previously irrigated by the O'Turley (Maxfield) ditch. He claims that the remains of this ditch are still on the land irrigated by the Jack Woods Ditch. That ^(Jack Woods) ditch was installed because the land, being on the end of the O'Turley ditch, sometimes did not receive enough water.

MR. Woods' explanation seems completely plausible — so I have recommended a date of priority identical to that of the O'Turley Ditch — Oct 27, 1884
