Payette River

Notice is hereby given, to all whom it may concern, that I, Andrew Rasmusson, a citizen of the United States, over the age of 21 years, have this 30th day of December 1889, located and claimed, and do hereby claim and appropriate under and in accordance with the laws of the United States and of the Territory of Idaho, 200 inches of water of the Payette River, measured under a four inch pressure to be taken out of the said River, in a slough which diverts from said River, at a point about one and one half miles above Falks Store, on the south side of said River, and runs into Seven Miles Slough; and the water is to be diverted from Seven Miles Slough, by means of a ditch ten feet wide on the bottom and 3½ feet deep. The headgate, or point of diversion from said slough being about one half mile East of Falks Store, and the water to be conveyed thence, by means of said ditch in a westerly direction to the lands below Falks Store. Said water is located and claimed and appropriated for mechanical, mining and agricultural purposes.

Said ditch to convey said water, has been mainly constructed for two years.

Dated Dec. 30th 1889.

MEMORANDUM

Aptil 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.

2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.

3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.

4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.

2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.

3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

Notice is hereby given, to all whom it may concern, that I, Andreu Rasmussen, a citizen of the United States, over the age of 21 years, have this 30th day of December 1889, located and claimed, and do hereby claim and appropriate under and in accordance with the laws of the United States and of the Territory of Idaho, 2000 inches of water of the Payette River, measured under a four inch pressure to be taken out of the said River, in a slough which diverts from said River, at a point about one and one half miles above Falks Store, on the south side of said River, and runs into Seven Miles Slough; and the water is to be diverted from Seven Miles Slough, by means of a ditch ten feet wide on the bottom and 3½ feet deep. The headgate or point of diversion from said slough being about one half mile East of Falks Store, and the water to be conveyed thence, by means of said ditch in a westerly direction to the lands below Falks Store. Said water is located and claimed and appropriated for mechanical, mining and agricultural purposes.

Said ditch to convey said water, has been mainly constructed for two years.

Dated Dec. 30th 1889.

Re: Civil Case No. 3667 - Frasier, et al Objection 65-00081

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 10.65 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 16.83 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Donald V. Shaff
Manager, Adjudication Section

Re: Rasmussen 65-00081 12/30/1889 10.65 c.f.s.

Dear Mr. Shaff,

Upon reviewing the flow rate questionnaire with appropriate information and applying the water requirements table furnished by the Soil Conservation Service, Letha Irrigation and Water Co. Inc. objects to the proposed finding of 10.65 c.f.s. listed for this water right.

According to the information supplied, a flow rate of 18.73 c.f.s. is required. Therefore, Letha Irrigation and Water Co. Inc. respectfully requests that the orignal diversion rate of 17.84c.f.s. filed for dated 2/1/1990 be adhered to. We feel that this rate is not excessive and is necessary for the types of soil irrigated.

Sincerely,

Re: Civil Case No. 3667
Frasier, et al Objection 65-00081

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 10.65 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Frasier, et al Objection

Dear Nelda,

I have enclosed several letters addressed to Letha Irrigation and Stewart Ditch Company, each of which shows a different water right with the accompanying cfs amount. The following list should help connect which letter goes to which ditch.

LETHA DITCHES.

Name	Water Right No.	Priority Date	Amount
Anderson	65-00080	05/31/1889	11.26
Kesgard	65-00084	08/21/1886	7.16

	65-00076	07/01/1904	7.36
Woods	65-00078	12/27/1884	3.18

Although I can be of little help with the data solicited by the forms (I only need one form for each ditch), I would be happy to discuss the objectives of the form after you and/or the Board have reviewed them a bit.

Sincerely,

RE: Water District 57-R

Dear Reynolds Creek Basin Water User:

The director of the Department of Water Resources has set a budget and selected a watermaster for Water District 57-R for the 1986 irrigation season. You should have received the director's order dated April 9th that established Water District 57-R to replace water districts 57-A and 57-J.

Kenneth Downing of Homedale has been selected to serve as watermaster with a budget of $5,525 to operate for about 65 days. The budget compensates Mr. Downing at $40 per day plus 20.5 cents per mile. Included in the budget is pay and mileage expenses to hire Connie Brandau as an assistant watermaster if such a position would be advantageous to the water district.

The budget has been sent to the Owyhee County auditor's office for collection through the county offices. If you have questions about the budget or the water district in general, please feel free to call me.

Before the director can instruct the watermaster to begin delivering water, he must receive a letter signed by at least three water users who believe the watermaster's services are required. As that time quickly approaches, I solicit your cooperation and patience in this first year of Water District 57-R.

Regards,

DON SHAFF
Water Rights Supervisor

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?

2. Is the proposed water supply insufficient for the purposes intended?

3. Is the application made in good faith or for delay or speculative purposes?

4. Has the applicant sufficient financial resources with which to complete the project?

If this office can be of further assistance, please contact us.
