IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: **A65-00082**
Date Received: 2/ 9/1990
Receipt No: X999999
Received By: _____

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: LETHA IRRIGATION & WATER CO INC 208-343-9438
   Address: 400 COSTON STREET
   BOISE ID 83712-0000

2. Date of Priority: AUG 28, 1901

3. Source: PAYETTE RIVER Trib. to: SNAKE RIVER

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
06N	02W	8		NW	NW		GEM

5. Description of diverting works:
   HEADGATE & CANAL.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
IRRIGATION	03/15	11/15	24.550		

7. Total Quantity Appropriated is:
   24.550 C.F.S. (and/or) A.F.A.

8. Total consumptive use is 2338.0 Acre Feet Per Annum.

9. Non-irrigation uses:

10. Place of Use:

Township	Range	Section	1/4 of	1/4	Lot	Use	Acres
06N	02W	6	SW	NE	6	IRR	11.0
			NE	NW	3	IRR	30.0
			NW	NW	4	IRR	35.0
			SW	NW	5	IRR	33.0
			SE	NW		IRR	36.0

SCANNED
AUG 2 0 2003

10. Place of Use: Continued

Township	Range	Section	1/4 of 1/4		Lot	Use	Acres
06N	02W	6	NE	SW		IRR	5.0

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 65-82

NAME AND ADDRESS: LETHA IRRIGATION & WATER CO INC
400 COSTON STREET
BOISE, ID 83712

SOURCE: PAYETTE RIVER TRIBUTARY: SNAKE RIVER

QUANTITY: 24.55 CFS

USE OF THIS RIGHT WITH RIGHTS LISTED BELOW IS LIMITED TO A TOTAL COMBINED DIVERSION RATE OF 109.38 CFS. COMBINED RIGHT NOS.: 65-00077, 65-00076, 65-00079, 65-00078, 65-00081, 65-00080, 65-00084, 65-00085, 65-02030 & 65-10337

A DIVERSION RATE OF .034 CFS PER ACRE FOR 502 ACRES, .029 CFS PER ACRE FOR 143 ACRES AND .02 CFS PER ACRE FOR 23 ACRES AT THE FIELD HEADGATE IS INCLUDED IN THE RATE OF DIVERSION FOR THIS RIGHT

PRIORITY DATE: 08/28/1901

POINT OF DIVERSION: T06N R02W S8 NWNW Within GEM County

PURPOSE AND PERIOD OF USE:

PURPOSE OF USE	PERIOD OF USE	QUANTITY
IRRIGATION	3-15 11-15	24.55 CFS

PLACE OF USE:

THIS RIGHT IS LIMITED TO THE IRRIGATION OF 668 ACRES WITHIN THE PLACE OF USE BOUNDARY DESCRIBED FOR THE LETHA IRRIGATION AND WATER CO

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

RIGHT NO. 65-00078 IS ALSO DIVERTED THROUGH THE POINT OF DIVERSION DESCRIBED ABOVE

Dear Chaplain Bott:

Pursuant to your request, we contacted Arvid McCombs concerning the water rights for your property at Letha. From the information provided by Mr. McCombs, we have found that there is nothing that you need to file on. The irrigation water for your property conveyed by the Seitz Ditch Company has been filed on by the Seitz Ditch Company.

Thank you for your cooperation.

Sincerely,

Robert G Haynes

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF

THE STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF SURFACE AND GROUNDWATERS OF THE PAYETTE RIVER DRAINAGE BASIN	CIVIL NO. 3667 STIPULATION RESOLVING OBJECTIONS TO WATER RIGHT NOS. 65-00078, 65-00079, 65-00084, 65-00085, 65-00080, 65-00081, 65-00082, 65-00076, 65-02030, 65-10337, 65-00077

The Director of the Idaho Department of Water Resources, R. Keith Higginson, by and through counsel, and Letha Irrigation & Water Co. Inc. stipulate as follows:

1. That water right claim Nos. 65-00078, 65-00079. 65-00085, 65-00080, 65-00084, 65-00081, 65-00082, 65-00076, 65-02030, 65-10337, 65-00077, be accepted and included in the Proposed Finding of Water Rights in the Payette River Drainage as set forth in Exhibit A, attached hereto and incorporated herein by this reference.

2. That Letha Irrigation & Water Co. Inc. withdraw all pending objections, including those based on the objection filed by Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown in July 1982, in the above captioned matter.

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.

2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.

3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.

4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

****

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.

2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.

3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

RE: Notices of Claim to a Water Right Nos. A65-00082 A65-18420
A65-18421 A65-18422

Dear Mr. and Ms. Paulson:

We have processed the Change of Ownership form for the above-referenced claims. IDWR's actions regarding each claim are summarized below:

A65-00082: This claim was filed by Letha Irrigation and Water Company Inc. ~~The~~ claim was filed for the ditch water which is appurtenant to your property. The ownership of this claim was not changed.

A65-18420: This claim is not appurtenant to the property described in the warranty deed.

A65-18421: The ownership of this claim was changed to reflect the change in ownership of the land and appurtenant water rights to you. A copy for your records is enclosed. Please be advised that the priority date claimed is previous to the Payette River Decree, which decreed all water rights in the Payette River Basin as of October 18, 1977. To establish the priority date claimed you must submit evidence showing that the owner of the water right at the time of the adjudication was not joined as a party in the case, or that the water right was not required to be claimed in the case. Otherwise, the claim may be recommended to the court with a priority date after the date of the decree.

A document was submitted with the original claim which discusses the "Hansen-Wood" Ditch. It is unclear exactly what this ditch is, but no surface water was claimed by the Woods. If you wish to file a claim on this water, please contact our office for more information.

A65-18422: The ownership of this claim has been changed to reflect the change in ownership of the land and appurtenant water rights to you. A copy for your records is enclosed.

Please contact our office if you have any questions or need additional information.

Sincerely,

Maria Minicucci
Water Agent, Adjudication Bureau

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF SURFACE AND GROUNDWATERS OF THE PAYETTE RIVER DRAINAGE BASIN.	CIVIL NO. 3667 ORDER CORRECTING CLERICAL OVERSIGHTS IN PROPOSED FINDING OF WATER RIGHTS

The motion of the Department of Water Resources for an order correcting certain clerical oversights in the proposed finding of water rights having come before the court for hearing, and the court being fully advised in the premises,

IT IS HEREBY ORDERED that the proposed finding of water rights be amended in conformance with Exhibit A which is attached hereto and incorporated herein by reference, provided that Orville Jackson and Floy L. Jackson do not file with the court by or before October 5, 1979, a notice of hearing of the objection filed by them to Water Resources' motion. The objection filed by the Jacksons shall be withdrawn if such notice is not filed by or before October 5, 1979. If the Jacksons file a notice of hearing by or before October 5, 1979, this present order amends the proposed finding of water rights in conformance with Exhibit A except for certain material appearing at page 11 of Exhibit A where clerical amendments are listed for rights

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF THE SURFACE AND GROUND WATERS OF THE PAYETTE RIVER DRAINAGE BASIN

NOTICE OF CLAIM TO A WATER RIGHT

IDENT. NO. 65-0082

MAP NO.

Notice is hereby given that ~~Seitz Ditch Company, Limited~~ - Letha Irrigation & Water Co., Inc.
(Name of Claimant)

Letha, Idaho 83636
(Mailing Address), claims a right to the diversion and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued)
August 28, 1901 Recorded Book 1 Page 456 of Water Rights - Canyon Co.

(2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean)
Payette River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

~~13.36~~ ~~19.64~~ 3006 ~~44.12 AF~~

Use Irrigation, stock 2776 (Domestic, irrigation, stock, etc.) Period of Use From April 15 (Mo., Day) To Oct. 15 (Mo., Day) (Both Dates Inclusive)

Use (Domestic, irrigation, stock, etc.) Period of Use From (Mo., Day) To (Mo., Day) (Both Dates Inclusive)

3533 4
2776 AFA
Use (Domestic, irrigation, stock, etc.) Period of Use From (Mo., Day) To (Mo., Day)

(4) Quantity of water claimed: ~~10.34~~ ~~15.10~~ ~~13.36~~ Cubic Feet Per Second, or 2330 3006 4412 Acre Feet Per Annum, and/or Gals. Per Minute.

(5) A) Point of Diversion: Give location of point where water is diverted from its source S.E. NW ¼ of N. E. NW ¼, Sec. 6, Twp. 6N, Rge. 2W, B.M.; additional points:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. 1000 feet from headgate to lower head of Seven Mile Slough, about 1½ miles through said Seven Mile Slough to second headgate and about 1½ miles to end of ditch being in all about 3 miles and 1000 feet in length

(6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

Notice Of Water Right Location

Notice of Water Location
By
Jacob Seitz

To Whom It May Concern:

Notice is hereby Given, That Jacob Seitz of Emmett, County of Canyon, State of Idaho, has, this ...., day of August 1901, appropriated and hereby claim the use of the waters of the Payette River to the extent of twenty-five cubic Feet per second, flowing at the point of diversion, which said point of diversion is particularly described as follows, to-wit:

From the South side of the Payette river 15 feet South-east of the South West corner of S. E. 4 of N. E. 4, of Section 9 Tp. 6, N. Range 2 W.

That the special purpose or purposes for which said water is claimed is for irrigation, domestic and power purposes;

The place of intended use is upon Lots 3-4 and 6 Sec. 6 Tp. 6 Range 2 w Lots 10 Sec. 36, Tp. 7 n Range 3 West, Lot 1 Sec. 1 Tp. 6 n Range 3 w, Lot 6 Sec. 31 Tp. 7 n Range 2 W and 60 acres located in N. E. corner of S. E. 4 Sec. 35, Tp. 7 n R. 3 w

That the general course of the canal or conduit is in North Westerly direction from diversion through seven mile slough and on through Sections eight, five and six of Tp. 6 n R. 2 w B. M, The length of the canal or conduit is is about 1000 feet from headgate to lower head of Seven Mile Slough, about ~~xxx~~ 1 1/2 miles through ~~xxd~~ said Seven Mile Slough to second head-gate and about 1 1/2 miles to end of ditch being in all about 3 miles and 1000 feet in length;

That the works for the diversion and use of said water as aforesaid is completed ;

A copy of this notice was duly posted at or near the point of intended diversion on the 27 day of August 1901.

W I T N E S S, my hand at Caldwell County of Canyon, State of Idaho, this 28 day of August 1901.

Appropriator and Claimant (Jacob Seitz

State of Idaho,)ss
County of Canyon.)

Jacob Seitz being first duly sworn, deposes and says that he is of lawful age and the appropriator and claimant of the water right described in the within and foregoing notice and whose name is subscribed thereto. That the statements in said notice are true, and that the original notice, of which the foregoing is a true copy, was posted in a conspicuous place at or near the point of intended diversion at 7 o'clock P. M., the 27 day of August 1901.

Jacob Seitz

Subscribed and sworn to before me, this 28 day of August 1901.

H. E. Wallace
Notary Public

(SEAL)

State of Idaho,)ss
County of Canyon.)

I hereby certify that the foregoing instrument was filed for record at request of Jacob Seitz at 20 minutes past 2 o'clock P. M., this 28th day of August 1901.

Re: Seitz 65-00082 8/28/1901 15.93 c.f.s.

Dear Mr. Shaff,

Upon reviewing the flow rate questionnaire with appropriate information and applying the water requirements table furnished by the Soil Conservation Service, Letha Irrigation and Water Co. Inc. objects to the proposed finding of 15.93c.f.s. listed for this water right.

According to the information supplied, a flow rate of 28.82 c.f.s. is required. Therefore, Letha Irrigation and Water Co. Inc. respectfully requests that the orignal diversion rate of 26.72c.f.s. filed for dated 2/1/1990 be adhered to. We feel that this rate is not excessive and is necessary for the types of soil irrigated.

Sincerely,
Board of Directors
Letha Irrigation and Water Co. Inc.

Re: Civil Case No. 3667
Frasier, et al Objection 65-00082

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 15.93 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff
Manager, Adjudication Section

AN ANALYSIS OF IRRIGATION REQUIREMENTS ON RIVER BOTTOM SOILS ALONG THE PAYETTE RIVER

The Soil Conservation Service was requested by Richard Frazier to study his irrigation system to determine possible efficiency improvements and to suggest as amount of water that would be needed to adequately irrigate his farm. Mr. Frazier's farm is located NW of Emmett along the Payette River - S½ and NE¼ of the NE¼, Sec. 5, T6N, R2W.

The soils in the fields evaluated are Moulton fine sandy loam. This soil is underlain by gravel at a depth of 20-55 inches. A seasonal water table occurs in this gravel layer if drainage has not been applied. This is the dominant soil of the Payette River flood plain.

Our irrigation trials on corn showed an in-field irrigation efficiency of 27%. The field had 1200 foot lengths of runs with a furrow intake rate of 1.1 gallons per minute per 100 feet. This data though not official corrulates well with other studies done in Payette and Canyon County on similar soils, showing an efficiency range of 25-30% on better managed systems.

Mr. Frazier has 81 acres of this soil type with a cropping rotation of corn, grain and pasture. An evaluation of this rotation's weighted consumptive use requirements (.25"/day) and the water holding capacity of the fine sandy loamsoil (1.5@ 50% field capacity) shows an irrigation return time of 6 days is necessary during July. The net water to be replaced during each irrigation would be about 1.5 inches. Figuring an overall system requirement for the 81 acres using the in-field efficiency factor of 27% calculates out to 170 miner's inches or 2.1 miner's inches per acre. (See attached ID-ENG-40) Though

delivery system losses were not measured, I would estimate a 35% loss is incurred where open ditch systems are used.

There are some management practices that can be done both in-field and in the delivery system to minimize water losses. Concrete ditches, pipelines and gated pipes will cut delivery losses. Cutting irrigation lengths of runs, closer adjustment of water and length of time per irrigation set can cut field loss. Installation of sprinkler systems improve irrigation efficiencies dramatically. These are all realistic possibilities and any one of these could possibly be used to gain some water use efficiency. Of course, the limiting factor is capital investment and/or additional labor time. The in-field efficiencies we found on Mr. Frazier's and Mr. Jay Sisler's places were probably above average for these soil conditions.

On farm delivery system losses could be reduced to 15%. In-field irrigation efficiencies in this case do not appear possible to improve upon without conversion to a sprinkler systemor by drastic reorganization of irrigation methods which would require a high labor input, (i.e., 400 foot runs and 4 hours set time). An on-farm delivery of 2.5 miner's inches per acre would appear adequate to irrigate this type of soil, and still leave the burden of improvement of on-farm delivery systems to the landowners.

This analysis does not consider the economics of making these suggested improvements on any operator's farm. These figures are based upon the SCS's Idaho Irrigation Guide, our field office staff's experience and

knowledge of local soils, crops, current farm operation and management methods.

This soil and closely associated soil types occur on about 4500 acres adjacent to the Payette River in Gem County. This analysis could reasonably be extended to include them.

Re: Civil Case No. 3667
Frasier, et al Objection 65-00082

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 15.93 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff
Manager, Adjudication Section

RE: Water District 57-R

Dear Reynolds Creek Basin Water User:

The director of the Department of Water Resources has set a budget and selected a watermaster for Water District 57-R for the 1986 irrigation season. You should have received the director's order dated April 9th that established Water District 57-R to replace water districts 57-A and 57-J.

Kenneth Downing of Homedale has been selected to serve as watermaster with a budget of $5,525 to operate for about 65 days. The budget compensates Mr. Downing at $40 per day plus 20.5 cents per mile. Included in the budget is pay and mileage expenses to hire Connie Brandau as an assistant watermaster if such a position would be advantageous to the water district.

The budget has been sent to the Owyhee County auditor's office for collection through the county offices. If you have questions about the budget or the water district in general, please feel free to call me.

Before the director can instruct the watermaster to begin delivering water, he must receive a letter signed by at least three water users who believe the watermaster's services are required. As that time quickly approaches, I solicit your cooperation and patience in this first year of Water District 57-R.

Regards,

DON SHAFF
Water Rights Supervisor

PLEASE FORWARD

DESCRIPTIONS
OF
COLUMN HEADINGS AND ABBREVIATIONS
FOR THE

LISTING OF WATER RIGHTS

CLAIM NUMBER
One number is assigned to each right. This number should be referenced in any communication since it is our most effective means of cataloging and identifying your right.

NAME AND ADDRESS
Please notify us of any changes or errors. Note that any remarks or conditions pertinent to the right are described here.

PRIORITY DATE
This date is very important since it provides the basis for regulating rights in times of shortage. The date should indicate when the water was first used beneficially, or in the case of a permit or license, the date of filing.

USE
"Domestic" includes water for a single household culinary use, household stock, and irrigation of up to one half (½) acre.

USE PERIOD FROM . . . . . TO
Dates are inclusive.

MAX AMOUNT MAX RATE
Two entries are in this column: (1) AFA-volume in acre feet per year and (2) CFS-flow in cubic feet per second. Note that 1.2 AFA is about 1,000 gallons per day and .04 CFS is about 18 gallons per minute.

DIVERSION POINT
This is the location of the well. All unnecessary symbols are omitted. For example, SESE S 3 T 7N R 2W means SE¼SE¼, Section 3, Township 7 North, Range 2 West.

PLACE OF USE
Same as diversion point in most cases.

BASIS FOR CLAIM
The claim may be based on Beneficial Use, Decree, License or Permit.

TURN THE PAGE
FOR YOUR WATER RIGHT DESCRIPTION

IN THE DISTRICT COURT OF THE THIRD JUDICIAL DISTRICT OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF GEM.

IN THE MATTER OF THE GENERAL DETERMINATION OF THE RIGHT TO THE USE OF SURFACE AND GROUNDWATERS OF THE PAYETTE RIVER DRAINAGE BASIN.

CIVIL NO. 3667

If you do not agree with these findings you should follow the procedure set forth in Section 42-1410, Idaho Code, which states in part that "Any claimant who desires to object to the report shall file his objections with the Court (Third Judicial District) within 60 days of the date of mailing of such report by the Director of the Department of Water Resources and shall also send a copy of such objections to the Director of the Department of Water Resources." Since this mailing constitutes your portion of the report, the 60 day period began with the date of postmark.

Copies of the entire Proposed Finding, including Findings of Fact and Conclusions of Law, are on file for your review at: the County Courthouses in Payette, Emmett, Cascade and Idaho City; the ASCS Offices in Payette, Emmett, and Donnelly; the U.S. Post Offices in New Plymouth, Garden Valley, and McCall; the schools in Horseshoe Bend and Sweet; various irrigation company offices; and at the Western Region Office of the Department of Water Resources. If you do not have access to these copies, and would like to review the report, please contact this office.

If a change in ownership has occurred, just give this form to the new owner since the water right remains with the land.

If you have no objections, there is nothing more you need to do to confirm your water right unless the court receives an objection to it from another person. Simply save this mailing as evidence of your right. You will be notified if any future actions change your water right.

Sincerely,

DAVID B. SHAW
WESTERN REGION SUPERVISOR

Boise, Idaho 83705

Gentlemen:

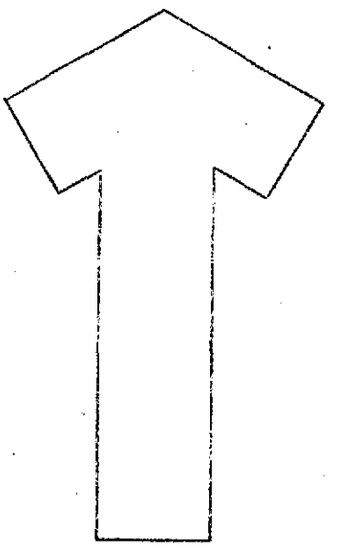
Could you please explain how and where the figure of 4.5 Acre Feet Annually was obtained?

We protest that this is insufficient AFA to irrigate the gravely ground with the sandy overlay that predominates in this Irrigation District.

Sincerely yours,

Harvard Platz
President
Letha Irrigation & Water Co.

INSERT
THIS
EDGE



Using Horstall equation:

1.56 x .066 x 10 = 1.0 per mile

1.0 x 6.25 = 6.25 cfs loss

.066 constant

i = 1.56 seepage based on 8a fm.

w - Top width 10 ft

Length 6.25 miles

AF loss = $\frac{\text{loss cfs}}{.02} \times 225$ constant

13.36 based on .02 cfs per acre
+ 6.25 canal loss
19.61 total cfs

~~13.36~~ 6.25 x 225 = 1406 AF loss

3006 AF based 4.5 AF/A
+ 1406 AF loss
4412 total AF
