INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

SCHEDULE C

Department of Water Resources

The following lands in Section 3 and Section 10, Township 6 North, Range 2 West, B.M., Gem County, Idaho:

The SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 3;
AND that portion of the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3 and of Government Lot 4 in Section 10 lying East of a line described as follows:

Commencing 54.67 rods East of the NW corner of the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3 and running due South to the bank of the Payette River across the above described parcels of land, and lying East of said boundary;

EXCEPT THE FOLLOWING:

Commencing at the NE corner of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, thence West on the $\frac{1}{4}$ $\frac{1}{4}$ section line, 1744 feet; thence

South 257.6 feet; thence

South 78°30' East, 434.6 feet; thence

South 87°46' East, 369.9 feet; thence

South 76°43' East, 370 feet; thence

South 58°52' East, 314.65 feet; thence

South 71°41' East, 332.6 feet to the north and south centerline of said Section 3; thence

North 710.89 feet to the Point of Beginning.

ALSO, the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ and all of Lot 3 of Section 10, Township 6 North, Range 2 West, B.M.;

AND ALSO, that portion of Lot 2 and of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of said Section 10, lying West of the following described line:

Commencing at the center of a large slough where said slough makes out of the Payette River; thence

following the center of said slough North about 60 rods to a bend in the said slough; thence

Crossing said slough and running thence North across the above described lands to the Section line.

ALSO, a strip of land 16.5 feet wide, being 8.25 feet on each side of the following described centerline:

Commencing at a point S 0°1' E 8.25 feet and N 89°21' W 20 feet from the SE corner of the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, T 6 N, R 2 W, B.M., thence N 89°21' W, 1111.4 feet.

ALSO, a strip of land 30 feet wide, being 15 feet on each side of a centerline described as follows:

Commencing at a point S 0°1' E, 8.25 feet and N 89°21' W 1131.4 feet from the SE corner of the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 3, T 6 N, R 2 W, B.M., thence

S 40°14' W, 146.3 feet; thence

S 6°37' W, 261.3 feet; thence

S 56°15' W, 135.5 feet; thence

S 85°21' W, 184 feet; thence

S 66°48' W, 158 feet; thence

S 44°24' W, 517.4 feet; thence

S 77°56' W, 174.7 feet; thence

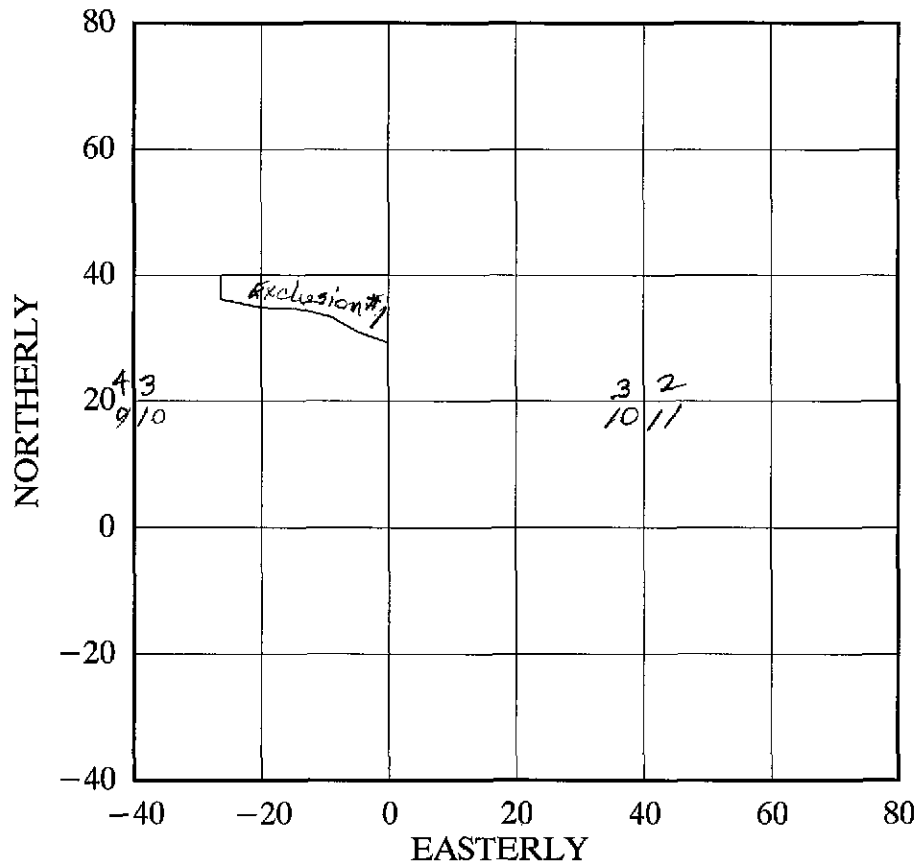

N 69°4' W, 409.4 feet to the North and South centerline of said Section

said point being 426 feet North of the south quarter corner of Section

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. To have a timely filing you must file this claim with IDWR by May 25, 2001. IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.
Adjudication Bureau Chief

hereby approved this _____ day of _____, 1993.

JAMES R. DOOLITTLE
District Judge

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

May 23, 1995

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued) January 1, 1865

- (2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) - Payette River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Use 2.06 Irrigation 463 AF Period of Use From April 1 To October 31
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)
(Both Dates Inclusive)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

- (4) Quantity of water claimed: 2.074 ^{2.0} Cubic Feet Per Second, or 463 Acre Feet Per Annum,
and/or _____ Gals. Per Minute.

- (5) A) Point of Diversion: Give location of point where water is diverted from its source SW $\frac{1}{4}$ SW $\frac{1}{4}$,
Sec. 1, Twp. 6 N, Rge. 2 W, B.M.; additional points:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.)
Give sizes and capacities; be as specific as possible. headgate

- (6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres: 103.7 103

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

- (7) Effluent, sewage waste, or return water from this use is discharged into:

- (8) If you are claiming water as a member of an organization, list name of organization.

- (9) Remarks

- (10) Basis of claim (Check one) ☒ A) Right based on diversion and beneficial use.

- ☐ B) Right decreed by court, cite title of case.

- ☐ C) Right based on application, license, or claim filed with State Reclamation Engineer. Office No.:

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.

Re: Payette Adjudication - (Gem Co. Civil No. 3667)
Stipulation Resolving Objections to Water Right.

Dear Claimant:

For your information, in July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown filed an Objection to the Findings in the Payette River Basin Adjudication on behalf of themselves and others in the same class. The parties maintained that the diversion rate recommended for the "bottom lands" was not correct.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties and had solicited Mr. Lankford's comments on its new proposal. To date, we have received no objections and now hope to resolve this matter in the simplest way possible.

Enclosed please find a proposed stipulation for your review. Exhibit "A" reflects the new description for the contested water right. If the stipulation is satisfactory please sign it and return it to me in the enclosed envelope by February 26, 1993. Once the stipulation is approved, we will submit a partial decree to the court and provide the appropriate notice to all parties. If you do not intend to sign the stipulation by the above date, please call me at (208)327-5446. Your response in one form or another can speed the process for you and the other parties. The other water rights on the property were decreed in January 1986.

Also enclosed are the water right claims filed initailly by Oather Lankford changed to your names following the receipt of the change in ownership. Any difference between the claim and the description in Exhibit A will be resolved by the stipulation. Thank you for your cooperation in resolving this matter. Please feel free to contact me if you have any questions.

Very truly yours,

DANIEL L. STECKEL
Deputy Attorney General
Department of Water Resources

Re: Civil Case No. 3667 - Frasier, et al Objection 65-00805

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

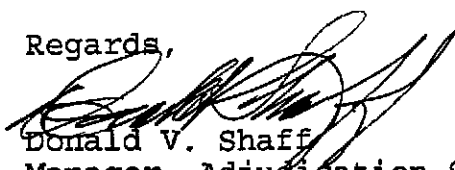

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication. Most of the water rights were decreed on January 21, 1986 and in subsequent partial decrees.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 3.05 cubic feet per second (cfs). Having reviewed the data submitted by the parties and data and evidence obtained by the Department, the Department recommends a diversion rate of 4.87 cfs. If the amount of water is not proposed to change, data and/or evidence indicated a change was not justified.

The Department has made an effort to determine a fair and accurate diversion rate for each of the parties. If you disagree with the proposal above, please contact us by May 15, 1992. We hope to resolve any disputes that may exist before going to the court asking for a decree of your water right through a Motion for Summary Judgment.

A summary judgment allows the judge to make a decision without the time or expense of a trial when the facts are not disputed. Notice of this motion and the accompanying hearing will be provided to you 28 days before the hearing.

Regards,

Donald V. Shaff
Manager, Adjudication Section

Re: Civil Case No. 3667
Frasier, et al Objection 65-00805

Department of Water Resources

Dear Payette River Water User,

In July 1982, Richard Frasier, William Conrad, Don Craig, Jay Sisler and Stan Brown on behalf of themselves and others in the same class filed an Objection to the Proposed Findings with the Third Judicial District Court in the Payette River Basin Adjudication. The parties maintained the diversion rate recommended for their water rights and others from the Payette River were not correct for the "bottom lands" irrigated by those water rights.

This group of water rights are among the last water rights remaining for decree in the Payette River Basin Adjudication, most of which were decreed on January 21, 1986. The water rights decreed in the Payette adjudication will be incorporated into the eventual decree in the larger Snake River Basin Adjudication (SRBA) now proceeding in the Fifth Judicial District, provided new claims have been filed in the SRBA. Otherwise the achievement of a decree in the Payette adjudication could be voided.

Your water right referenced above was listed in the Proposed Finding with a diversion rate of 3.05 cubic feet per second (cfs). You will find enclosed a two-page form that when completed by you will describe your water delivery system and irrigation methods. The information you supply is essential in order for the staff of the Department to evaluate your irrigation water requirements. Much of the information required is technical, and you may wish to contact the Soil Conservation Service or other professionals for assistance with the form.

To expedite the process to resolve the Frasier objection, please return the enclosed form within 45 days. Without the completed form, the Department will assume you agree with the water right described in the Proposed Finding with the diversion rate shown above.

Please contact me if you have questions about the matters set out above. Thank you for your patience in this process.

Regards,

Donald V. Shaff
Manager, Adjudication Section

State of Idaho

Dept. of Water Resources
Boise, Ida.

Mr. Robert Hamilton,

Dear Sir:

The enclosed notice has come to me. I sold my ranch a few years ago to Oather Bankford and by some error the water right was left in my name. But it belongs to him as the owner of the place. I do not know what action to take to have it turned over to him. But this notice should be sent to him. I will try to contact him and see what he wants to do about it.

Sincerely,

Anna Dentler

SUMMONS

THE STATE OF IDAHO SENDS GREETINGS TO:

ANNA BEUTLER
AND SPOUSE
1007 E. 3RD ST.
EMMETT, IDAHO

06N01WB
07160

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the **DIRECTOR, DEPARTMENT OF WATER ADMINISTRATION** of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon and Washington Counties.

And you are hereby notified that unless you appear and file a claim with the **DIRECTOR, DEPARTMENT OF WATER ADMINISTRATION**, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.

DATED this 27th day of July, 1970.
