Comment: The consumptive acre foot amount portion of the combined quantity condition was removed. This total combined annual consumptive use was 76,150 AF in the original recommendation. Due to the objection and approval from Dave Tuthill this was removed for the amended directors report filed with the court in November, 2002. The total acres recommended were not changed.

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

MEMORANDUM

April 6, 1995

TO: Any PRBA Claim with a Stipulation
FROM: RON HOWERTON

RE: RECOMMENDATIONS/STIPULATION

I. CONVERSATION WITH DON SHAFF:

1. Met with Don 4/5/95 at S.O. on how to proceed with "R" file recommendations.
2. Don re-confirmed that the stipulation amends the "A" claim, thus for the split ownership of this right both the "A" and "R" files can be completed.
3. He said that because of the stipulation no field exam is needed, nor do I need to print a CVR. In place of the CVR I'm to print out a profile report with comments pertaining to the stipulation.
4. I asked him if the copy of the stipulation he gave me had enough signatures on it to make the recommendation? He said yes.

II. CONVERSATION WITH JEFF PEPPERSACK

1. Met with Jeff 4/5/95 at S.O. asked if he had any paperwork pertaining to how much water was recommended for this right. He said that he thought Dan Steckel had all of it.

III. CONVERSATION WITH DAN STECKEL

1. Called Dan at S.O. 4/6/95 asked if he had the paperwork that showed how much water was to be recommended for this right. He said Don had it in his Boyd Jackson's file.

IV. CONVERSATION WITH DON SHAFF

1. Called Don at S.O. 4/6/95 asked him if he had the paperwork for the amount of water recommended? He said yes he did. He said that eventually that file would come over to Western. I asked if I needed to put the paperwork showing how much water was to be recommended in that file? He said yes, but it may be several months before he would send that file to us. So I asked was it necessary for me to have it to make the "R" file recommendation? He said no, proceed with the recommendations.

SPRING MEETING WITH DAVE SHAW & HIS ATTORNEYS:
Ref: OWNERSHIP CHANGES

1. Dan Steckel said that after an ownership change has been made, he needs a copy of the Ownership Change when completed. He doesn't need a copy of the claim.
2. During our conversation with Dave Shaw and Don Shaff, the Attorney's were in agreement that the stipulation's we have copies of now can be used to amend the "A" claim the same way as a Transfer would.
3. A recently licensed permit can also be used to amend the claim with an ownership change with an added requirement. A letter must accompany the ownership changed claim, stating that the claimed permit was licensed since this claim was filed, the claim has been revised to correspond to the licensing. If they have any difficulty with this clarification, they need to contact our office within 30 days of the letter. (The "A" claim is given a "T" status for the 30 day period.

THE
HISTORY OF DEVELOPMENT
AND
CURRENT STATUS
OF THE
CAREY ACT IN IDAHO

WILLIAMS, MIKEL H.

MARCH 1970

BIRCH CREEK COOPERATIVE IRRIGATION PROJECT

Carey Act Number:	27
Location:	Butte County
Acres Segregated:	Temporary withdrawal 19,107.36
Acres Patented:	None
Estimated Cost:	\$450,000.00
Final Cost:	Unable to locate
Comments:	Project never sanctioned

The first attempt to develop desert land in the Birch Creek area started in 1909 with a proposal from the Birch Creek Land and Irrigation Company. The plan for the project called for a dam on Birch Creek providing water to reclaim 30,148 acres of land at a cost of \$550,000.00. This first proposal was rejected by the State Land Board because of an apparent lack of water for the project.

Soon after the rejection of the initial proposal a second corporation was formed, the Birch Creek Irrigation Company. Later this company was amended to form a cooperative corporation composed of fifteen desert entrymen.

At the request of these entrymen a report was made by the State Reclamation Engineer as to the feasibility of the segregation. He found that all the water in Birch Creek was insufficient for even the previous decreed rights. He found that only a superficial investigation had been made and the estimated cost of \$450,000.00 for construction had been underestimated. The State Reclamation Engineer rejected the proposal.

In 1910 the company filed another request, this time for a temporary withdrawal. This request was granted by the Department of Interior for 18,605.28 acres of land. The temporary withdrawal was to provide the company with time to conduct surveys and to determine if the project would be feasible. The one year limitation elapsed and the lands reverted back to the public domain. Undaunted, the company again filed a request for a temporary withdrawal in 1916. This time the area was increased to 19,107.36 acres of land under segregation list 73. Although a canal was partially constructed the temporary withdrawal never resulted in a permanent segregation and the lands were relinquished back to the federal government.

The Idaho Carey Act files list the developments in the Birch Creek areas as two separate Carey Act projects. The later cooperative project is listed as Carey Act project number 27, the earlier proposal of the Birch Creek Land and Irrigation Company and Birch Creek Irrigation Company as Carey Act project number 32. These two projects should have been listed as one project due to the interplay between the companies and the areas involved in the segregations.

BLACK CANYON PROJECT

Carey Act Number:	6
Location:	Canyon, Gem, and Payette Counties
Acres Segregated:	23,836.61

BLACK CANYON PROJECT (cont'd.)

Acres Patented:	None through a Carey Act project
Estimated Cost:	\$7,134,638.05
Final Cost:	No developments
Comments:	Project never completed

This project was unique in that it was proposed by an irrigation district rather than a construction company. It was also unique because the main purpose of the segregation was to secure protection for settlers rather than to reclaim desert lands.

Around 1905 much of the land in the area was settled under the Homestead Act and other land laws. The land had been previously withdrawn for reclamation uses by the Department of Interior which well suited the settlers in the area. A few years later the Department of Interior gave notice that the lands were about to be released from the withdrawal for reclamation uses and thrown open to all forms of entry. In order to protect their interest and because of the encouragement given by the Director for the Bureau of Land Management of the Department of Interior, the settlers formed an irrigation district and sought to have the land again withdrawn, this time as a Carey Act project.

Convenience was the motivating factor in the settlers' choice of using the Carey Act to reclaim land. The proposers never felt that this was a regular Carey Act project, it was used to give settlers respite from living upon their lands until water was ready and it permitted supervision of the settlement by the State of Idaho which seemed less severe than the regulations of the federal government. The main reason for the Carey Act withdrawal was to protect the settlers who could not make final proof under other land laws. Those that couldn't make final proof would release their interest in the lands in return for "*segregation receipts*."

Initially the source of water for this Carey Act undertaking was the Payette River and Payette Lakes. The original point of diversion was to be above Horseshoe Bend, Idaho. The proposal was to construct a gravity system carrying water through ninety-five miles of main canal to the lower valleys. The estimated cost was placed at \$7,134,638.05 with a charge of \$72.50 per acre for a perpetual water right. The project was to be initially financed by a sale of bonds.

By 1913, the irrigation district had received two segregations totaling 23,836.61 acres. After examining the proposal the Department of Interior felt that the gravity system would not be feasible and the Payette River approach was abandoned. By 1920 these lists were rejected at the urging of the Governor of Idaho and the prospect of developing the area through the Carey Act abandoned.

BLACKFOOT NORTH SIDE IRRIGATION PROJECT

Carey Act Number:	35
Location:	Bingham County
Acres Segregated:	22,360.34

resulting in the Big Bruneau (First Effort) Project.

The estimated cost for the project was placed at sixty-five million dollars. The proposers planned on using the dam already constructed at Milner, Idaho and using the Snake River as a natural channel for conveying water for the project.

In 1919 the company filed a request for segregation of land from the public domain, designated list number 76, totalling 251,359.45 acres in the Boise land district and 302,898.74 acres in the Hailey land district. In 1920 the General Land Office rejected the application for segregation on the grounds that most of the land in question had already been withdrawn from the public domain in 1902 by the United States Reclamation Service for future development. In 1921 the company requested that the State Land Board no longer consider the company for the project. This was the last attempted project in the Bruneau area.

CAMAS IRRIGATION AND POWER COMPANY PROJECT

Carey Act Number:	56
Location:	Camas County
Acres Segregated:	None
Acres Patented:	None
Estimated Cost:	Not available
Final Cost:	Not available
Comments:	Project never got beyond preliminary planning stage

The project is one of the many later projects on which little information is available. Camas Irrigation and Power Company was organized to pursue construction of the project. From what information is available it appears that they planned on reclaiming lands on the Camas Prairie by means of pumping ground water.

No segregations were ever approved for the project, nor was any acreage patented.

CANYON CANAL COMPANY PROJECT

Carey Act Number:	16
Location: (See Figure 4)	Gem and Payette Counties
Acres Segregated:	5,829.02
Acres Patented:	5,829.02
Estimated Cost:	\$300,000.00
Final Cost:	\$1,100,000.00
Comments:	Successful from the standpoint of acres patented

The first proposal to reclaim lands in the Emmett area was made in 1898 by J. B. Puckett. Mr. Puckett, representing the Iowa Irrigation Company, made a proposal and a request for a segregation totalling 17,000 acres. The

segregation was approved but it was later forfeited back to the state. Later in 1898 a request was filed by the Canyon Canal Company for 19,000 acres, which was amended to 5,829.02 acres. This segregation was granted by the Department of Interior as segregation list number 3.

In 1903 the contract between the state and the company was formulated. It called for a main canal of thirty-two miles from the point of diversion on the Payette River to the lower valley. The estimated cost of the dam, canals, tunnels, and laterals was placed at three hundred thousand dollars, with water rights selling for thirty dollars per acre.

After construction started it was soon apparent that the company had underestimated the cost of construction and the project was rapidly being forced into debt. In 1908 the company requested that the price for water be raised from thirty dollars to forty-five dollars per acre. It was also during this period that the company began issuing bonds, by 1910 the cost had more than doubled the original estimate.

The second problem that developed on the project related more to the state than to the construction company. Rumors started circulating around the valley that the State Land Officials had defrauded the settlers in the openings of the lands. This rumor was quickly picked up by the local papers and many urged that a suit be brought against the State Land Board and ex-Governor Hunt for malfeasance in office. The controversy arose because many of the settlers claimed that on the day of the opening, the lands were not given to the entrymen in the order in which the entrymen were in line at the land office. One settler wrote that he was required to wait outside even though he was third in line, then he was later conducted into a "*dark back room*" where he was told which land was his and that he had no opportunity to select the land he wanted. Charges were also circulating that the Republican Land Board had discriminated against Democrat applicants. To settle the matter a hearing was held in the State Senate. The matter was quickly settled at least to the satisfaction of the then current state officials. It was shown that before the application was accepted the applicant had to have a copy of a water contract from the construction company. The construction company had already designated the land on which this particular water right would be valid and the land office officials issued the land according to the land listed on the water contract by the company.

In the 1910 the project was turned over to the operating company, Emmett Bench Canal Company, along with outstanding bonds totalling over five hundred thousand dollars. This company was subsequently succeeded by the Emmett Irrigation District. After the project was accepted the outstanding obligations of the company were apportioned for all the land in the district.

From a standpoint of acres patented this was certainly one of the most successful Carey Act project, however, this overlooks the financial problems involved. One may ask, did the benefit gained in reclaiming the desert land equal a cost of one hundred and seventy-three dollars per acre? The answer is probably yes, and the project has to be considered an overall success.

 FROM: David R. Tuthill, Jr. - 9/20/78
 SUBJECT: Ditch Losses

Two ditch loss calculations were made on the EID System, as shown on the attached sheets. The flow delivered was based on 1"/acre. Note that losses were 40.2% for the South Side and 14.2% for the North Side, when flowing at this 100% capacity. The loss for 65-0023 (the old Riverside Ditch) was calculated separately based on length measurements for the old system. This loss was computed to be 18.4%.

Based on these calculations, the following rights are summed for EID:

Right Number	Date Of Priority	(CFS) Amt. Claimed	CFS Rec. Amt. Before Loss	CFS After Loss Added	AFA With No Loss	AFA With Loss Added

DETERMINATION OF THE RIGHT TO THE USE
OF SURFACE AND GROUNDWATERS OF THE
PAYETTE RIVER DRAINAGE BASIN.

CIVIL NO. 3667

OBJECTIONS TO FINDINGS,
PROPOSED AND OTHERWISE,
IN SAID MATTER

COMES NOW, Emmett Irrigation District of Emmett, Idaho, and files its protest and objection to "Proposed Findings of Water Rights" and Findings of Facts and Conclusions of Law" in regard the above-entitled matter.

I

Emmett Irrigation District objects to the priority dates given Emmett Irrigation District and the amount of water allocated to the priority dates. Objection is made to the proposed finding of 11.34 CFS, with priority of 11/26/1883. Emmett Irrigation District has filings and recorded documents which show it is entitled to 200 CFS with priority of 11/26/83. This figure has been reduced by State of Idaho Water Resources to 11.34 CFS and Emmett Irrigation District objects to the amount of said reduction.

II

Emmett Irrigation District also objects to the allocation of 172 CFS to a priority date of 4/1/1919. The priority date should be earlier than 1919 and at the latest, 1911. Furthermore, the allocation should be at least 188.66 CFS.

III

State of Idaho water resources, by its proposed findings allocate a

total of 362.73 CFS to the Emmett Irrigation District, excluding "South Side." There are about 17,000 irrigated acres to be irrigated with 362.73 CFS, which is insufficient. The Black Canyon Dam was constructed to divert irrigation water from the Payette River, and it has been used for that purpose, but 362.73 CFS diversion of natural flow, does not provide adequate water to irrigate about 17,000 acres of land, considering evaporation, loss, soils and the like. The Payette River allocations based on water losses are inequitable.

IV

Emmett Irrigation District reserves the right and privilege to support these objections with oral, written and real evidence of facts and circumstances connected therewith.

DATED this 25th day of June, 1979.

Respectfully Submitted,

L. Corrono, Attorney for
Emmett Irrigation District

I hereby certify that a true and correct copy of the foregoing Objections to Findings, Proposed and Otherwise, in said matter, was mailed to the Director of the Department of Water Resources, Department of Water Resources, Western Region, 92 South Cole Road, Boise, Idaho 83705, on this 25th day of June, 1979.

RE: Emmett Irrigation District Claims

Seven claims have been filed by E.I.D.:

<u>Number</u>	<u>Priority Date</u>	<u>Rate</u>	<u>AFA</u>	<u>Comments</u>
65-0022	May 26, 1903	570 cfs		Filed April 8, 1970 by C.W. Parks. Number changed to 65-2004 (an old license No. 105) should have been assigned 65-2004.
65-0023	Nov. 26, 1883	-		Filed April 9, 1970 by C.W. Parks. Claim evidenced by Posted Notice of Thomas Elliott. This is the old Riverside Ditch Co. right.
Amended 65-0023	" "	30 cfs		Filed March 25, 1977 by Keith Standley.
65-0323	-	-		Filed April 22, 1970 by C.W. Parks. Disallowed and recommended as 65-2080. Claimed based on license but was not originally assigned license number.
65-2004	May 26, 1903	169.39 cfs		Number changed from 65-0022 based on priority date.
65-2080	July 29, 1908	124 cfs		Filed August 3, 1977 by Boyd K. Standley. Based on license 4112.
65-7832	March 25, 1977	6 cfs		Filed March 25, 1977 by Keith Standley. Based on permit.
65-10491	April 1, 1911	172 cfs		Filed March 25, 1977 by Keith Standley. (Questionable priority date.)

E.I.D. has filed seven claims for six rights although eight 65- numbers are listed. 65-0022 was changed to 65-2004, and 65-0023 has been amended; thus accounting for the eight numbers listed above. Additional information from the files is attached that documents actions taken on these claims.

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

CERTIFICATE OF CHANGE OF POINT OF DIVERSION OF LICENSED WATER RIGHT.

No. 211

THIS IS TO CERTIFY THAT The EMMETT IRRIGATION DISTRICT, of Emmett, Idaho, is the owner of and using a certain water right for 169,3886 cubic feet per second of the waters of Payette River, with priority of May 26, 1903, said water right being evidenced by License and Certificate of Water Right No. 105, issued by the Department of Reclamation of the State of Idaho, to the Emmett Irrigation District, said License bearing date of December 20, 1913, and being appurtenant to the lands within the boundaries of said Emmett Irrigation District.

That said License and Certificate of Water Right has been entered in the records of the Department of Reclamation of the State of Idaho, in Volume 3 of Licenses, at Page 1318.

And that now, upon the application of The Emmett Irrigation District, of Emmett, Idaho, for Certificate of Change of Point of Diversion for 169,3886 cubic feet per second of water from Payette River, made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to change such point of diversion is HEREBY GRANTED.

That said change of point of diversion shall not modify in effect said water right, or place of use. Said water is to be limited at any given time to an amount actually needed and beneficially used for such purposes, and shall not exceed the following amount, to-wit:

~~169,3886 cubic feet per second with priority May 26, 1903.~~

That said water right is appurtenant to the lands above described.

That the water right hereby described has heretofore been diverted from Payette River, with point of diversion 770 feet South, 16 degrees West from the quarter corner between Sections 25 and 30, Township 7 North, Ranges 1 and 2 East, B.M.

That the water right above described will hereafter be diverted from Payette River, with points of diversion located in Lots 1 and 6, Section 22, Township 7 North, Range 1 West, B.M., at the Black Canyon Dam.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the official seal of the Department of Reclamation of the State of Idaho, to be hereunto affixed at Boise, Idaho, this 30th day of January, 1952.

Re: Adjudication Claim No. 65-0022

Eldon Durk, Manager
Emmett Irrigation District
Route 3, Box 304
Emmett, Idaho 83617

Dear Eldon:

It appears the following lands are still outside the Irrigation District boundary. Please check your records and if you cannot find that they have been annexed, I would suggest the directors do so.

In T. 6N., R. 2W., B.M., Sec. 18, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 15 acres; NW $\frac{1}{4}$ NE $\frac{1}{4}$, 13 acres. In T. 6N., R. 3W., B.M., Sec. 9, NE $\frac{1}{4}$ NW $\frac{1}{4}$, 2 acres; Sec. 11, SW $\frac{1}{4}$ SW $\frac{1}{4}$, 4 acres; Sec. 13, SE $\frac{1}{4}$ NE $\frac{1}{4}$, 4 acres; NW $\frac{1}{4}$ NW $\frac{1}{4}$, 7 acres. In T. 7N., R. 1W., B.M., Sec. 27, SE $\frac{1}{4}$ SW $\frac{1}{4}$, 33 acres.

I feel a claim should be submitted showing the addition of the new pump in 1976.

Sincerely,

ROBERT W. HAMILTON
Supervisor of Water Distribution

Contract payments

The matter of a contract for deferred payments on the cost of a water right on lands above the canal, for D.W. Tolmie, and others was discussed; and it was agreed that the district would enter into such contracts, running over a period of 10 years or less, with interest not less than 2% per annum on unpaid installments, with the provisions that the purchasers would be required to pump the water from a sump on the upper side of the canal, with provisions for measuring the amount of water used, and also that ~~xxxxxx~~ adequate protection be provided for our canal against damage due to return water due to waste water or breaks in the irrigation works above the canal.

Dear Mr. Gorrone:

We are enclosing the tabulated acres in Emmett Irrigation District. Also enclosed is a copy of the Posted Notice for Thomas Elliot which we have on file in our office.

Please note the map attached with the Posted Notice. These are the lands which Mr. Allred tabulated on the claim he gave to you on Bissel Creek. It appears that the number of acres he listed on the claim are the acreages irrigated under the original notice.

I hope this will help you in preparing your claims.

Very truly yours,

Emmett Irrigation District:

On October 27, 1969, an action was commenced in the District Court of the Third Judicial District, in and for the County of Gem, to determine rights to the use of the surface and/or ground waters within the Payette River drainage basin.

As a result of this action, the District Court has authorized the State Reclamation Engineer to conduct a study of the Payette River drainage basin and to submit to the court a proposed determination of water rights.

Since it appears that you may have some interest in the waters of the Payette River drainage basin, you are being named a defendant in the action. The enclosed Summons, Motion for Order of Joinder, and Order of Joinder require that you file with the State Reclamation Engineer your claim of water right to the use of waters within the Payette River drainage basin within 60 days from the date this is served upon you. Since all defendants are not joined at one time, due to the large number of people involved, Exhibit A includes only those joined with your group. A complete list of defendants in this action is not included among the enclosures; however, a complete list is available upon request from this department.

In order to hold a water right under Idaho Law, you or your predecessor must have physically diverted and beneficially used water prior to this date. If you have not used the water and do not claim a right, it will not be necessary for you to file a claim with the Department of Reclamation. However, if you are using water and fail to assert a claim within the time stated, you may be forever barred and estopped from claiming a right to the waters within the Payette River drainage basin.

In order to assist you in filing any claim you may have, Department personnel will be available at Gem County Courthouse - Emmett on March 10, 1970, at 1:00 p.m. o'clock. The Department will have a preliminary claim prepared when you appear, to minimize the time which it may take to prepare your claim. There will also be a notary available to notarize your claim. It is strongly recommended that you appear at the above time, so that the most efficient use will be made of the personnel, maps,

and records which will be available to you. You should bring any information that you may have which will verify your claim and assist you in completing your claim, such as receipts for installation of the diversion facilities, power records indicating when power was installed to pumps and motors, tax notices, etc. In the event that additional claim forms are needed, they will be available at the time of the public meeting or upon request from the Department. Department personnel will also be happy to assist you during regular work hours at Statehouse - Annex #2, 614 West State Street, Boise, Idaho, or by phoning 384-2215.

THE STATE OF IDAHO SENDS GREETINGS TO: Emmett Irrigation District

You are hereby notified that an Order has been entered in the District Court of the Third Judicial District in and for the County of Gem, dated November 12, 1969, directing the State Reclamation Engineer of the State of Idaho to commence an investigation and determination of the various rights to the use of surface and ground waters of the Payette River Drainage Basin, from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties,

And you are hereby notified that unless you appear and file a claim with the State Reclamation Engineer, Statehouse - Annex 2, 614 W. State Street, Boise, Idaho, within sixty (60) days of the service of this Summons to the ownership of a water right for the use of any surface or ground waters of the Payette River Drainage Basin from its confluence with the Snake River to its source, such waters lying or being used within Gem, Valley, Boise, Canyon, Payette and Washington Counties, that you will be deemed to have forfeited any water right heretofore acquired for the use of the above waters.
