Water Delivery System Boundaries and/or Service Area

The purpose of this letter is to ask for your assistance in helping IDWR identify the boundaries and/or the service area of your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to draw outlines of the boundary and service on some form of a chart or map.

Please submit your service area boundary information within 30 days.

Water Delivery Service Areas

Williams Dryden

Thank you for providing me with your water delivery boundary map. I will now enter the boundaries into ARCVIEW, a computer digital photographic mapping program. Once this is complete, I will provide you with a color aerial photo image along with a copy of the map you sent me. You can then compare them and let me know if there are any adjustments you feel need to be made to the boundary.

Should your boundary overlap another water delivery system boundary, I will send you an aerial photo image showing both boundaries and the area of the overlap. You will then need to work with the other entity to resolve the boundary difference.

If you have any questions, please don't hesitate to call me at 208/327-7935.

Sincerely,

Dear Mr. Norquest,

Enclosed is a part of a Payette County map on which I have drawn in red the approximate location of the service area of the Williams Irrigation Company.

I am also including a Notice of Claim of Water Rights in case some of this information might be helpful.

If I can be of further help, please let me know. Sorry about the delay in getting this to you.

Sincerely,

Clifton Ralphs

P.S. One thing that might be confusing is that the larger part of the Ralphs ranch (darkened with lead pencil on the map) is not under the Williams Irrigation Co.

This part of the ranch can be found under Civil Case #39576. Identification #A65-0653 and #A65-0661. Hope this is helpful.
