OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Basin 65 General Provisions No. 3, the Separate Streams
General Provision, does not apply to appropriations of water
after October 18, 1977.

This water right shall be administered as being from a
SEPARATE SOURCE PURSUANT TO BASIN 65 GENERAL PROVISION NO. 3.
If the holder of this right seeks to change the right pursuant
to Idaho Code Section 42-222 or successor statute, nothing in
this general provision shall preclude any other person or entity
from demonstrating that such change in use would cause injury to
its water right or from receiving any relief provided by law in
the event of injury.

The boundary encompassing the place of use for this water right
is described with a digital boundary as defined by I.C. Section
42-202B(2) (2003) and authorized pursuant to I.C. Section 42-1411
(2) (h) (2003). The data comprising the digital boundary are
incorporated herein by reference and are stored on a cd-rom disk
issued in duplicate originals on file with the SRBA District
Court and the Idaho Department of Water Resources. A map
depicting the place of use is attached hereto to illustrate the

place of use described by the digital boundary.

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT
ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY
DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE
ENTRY OF A FINAL UNIFIED DECREE. I.C. SECTION 42-1412(6).

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

I. FINDINGS OF FACT

A notice of claim was filed for the above listed water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights.

On June 9, 2000, the United States of America, Bureau of Reclamation filed a *Motion to File Late Objections* in multiple subcases. The Motion was granted on July 28, 2000. The objections were filed to "General Provisions Basin 65 Irrigation & Other Part II (3) Separate Streams Administration." A Show Cause Hearing was set for January 29, 2004. The claimant did not appear at the hearing. The United States Bureau of Reclamation Motioned, on record, to add General Provision separate streams language to the "other provisions necessary". The Motion was granted on record.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein, and pursuant to the Motion, IT IS RECOMMENDED that the above water rights be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

III.

**RECOMMENDATION FOR PLACE OF USE DESCRIPTION USING
DIGITAL BOUNDARY**

Effective July 1, 2002, the Idaho Legislature approved the use of a Geographic Information system (GIS) for describing the place of use (digital boundary) for water rights meeting certain

criteria. See I.C. §§ 42-219(2) and 42-1411(2)(h). The GIS mapping technology allows the geographic area encompassing the place of use for a water right to be particularly identified and visually displayed in a map overlay format through the aid of computer technology.

Digital Boundary mapping is appropriate for water rights that are for an irrigation purpose of use and also meet one of the following criteria: (1) used in conjunction with an irrigation project where the canals constructed cover an area of twenty-five thousand (25,000) acres or more; (2) the place of use for the water rights is located within an irrigation district organized pursuant to the laws of the state of Idaho; or (3) the water rights are for an irrigation project developed by an association, company, corporation or the United States to divert and deliver or distribute surface water under any annual charge or rental for beneficial use by more than five (5) water users in an area less than twenty-five thousand (25,000) acres.

The above water rights meet one of the above-stated criteria.¹ Therefore IT IS FURTHER RECOMMENDED that the above water rights be decreed using a digital boundary with the partial decree containing the following additional language as set forth in the attached Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b):

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. §42-202B(2)(2003) and authorized pursuant to I.C. § 42-1411(2)(h)(2003). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

DATED April 13, 2004.

THOMAS R. CUSHMAN
Special Master
Snake River Basin Adjudication

¹ In incorporating a digital boundary into a partial decree, the electronic or digital data is what is actually decreed as opposed to the visually displayed map ultimately generated from the data. The data is stored on a CD-ROM. The data on the CD-ROM is incorporated by reference into the partial decree. Duplicate originals of the CD-ROM will be issued. The SRBA District Court retains on original together with the original partial decree, and the Idaho Department of Water Resources (IDWR) retains the other original. Upon request, the claimant can obtain a copy of the CD-ROM from IDWR at no cost, although GIS software will still be required to access the data. Subsequent administrative changes to the place of use will also be stored in a digital format and kept on file and maintained by IDWR. IDWR will maintain all computer software and/or hardware necessary for reducing the data to a usable format that is accessible to the general public, including access through the IDWR Internet website (www.idwr.state.id.us) or its successor Uniform Resource Locator (URL).

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

Dear Basin 65 water user:

This letter is to inform you that you may be eligible to file a stockwater claim with the Idaho Department of Water Resources (IDWR) in connection with the Snake River Basin Adjudication (SRBA). IDWR is sending this letter to water users in Basin 65 who might have relied upon the non-irrigation season stockwater provision in the Payette Adjudication. This provision states:

"When stockwater is not a specifically mentioned use for a right that includes irrigation, a reasonable flow is implied and included for the watering of livestock during the non-irrigation season."

In another basin, the Idaho Supreme Court struck down general provisions that contained similar language. The non-irrigation season stockwater language quoted above was not included in the General Provisions for Basin 65 because of the Idaho Supreme Court's ruling.

IDWR recognizes that in reliance on the non-irrigation season stockwater language in the Payette Adjudication, water users might not have filed stockwater claims in the SRBA to cover the non-irrigation season period. Individuals who historically watered livestock during the non-irrigation season without a separate stockwater claim might desire to file a new stockwater claim with IDWR.

To be eligible for a new non-irrigation season stockwater claim:

1. You must have actually and historically watered livestock during the non-irrigation season without a separate stockwater right.
2. You must have filed a surface water irrigation claim in both the Payette Adjudication and the SRBA.
3. You must not have filed a stockwater claim with the surface water irrigation claim.

If you meet these three requirements, you may file a Notice of Claim form for stockwater with IDWR. **To have a timely filing you must file this claim with IDWR by May 25, 2001.** IDWR will waive filing fees for these stockwater claims if filed before this deadline. Failure to file your claim in a timely manner may prevent you from claiming it in the future. Notice of Claim forms are available on IDWR's website at www.idwr.state.id.us/info/water/srba/forms.htm or from any IDWR office. Claimants can call IDWR, Western Region at (208) 334-2190 to make an appointment if they need assistance filling out a Notice of Claim form.

Sincerely,

David R. Tuthill, Jr., P.E.

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

Enclosed please find the boundary and/or service area IDWR has on file for your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any additional information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to modify the outlines of the boundary and/or service area we have enclosed, and return a copy to us.

Please return your modified boundary and/or service area information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest

RE: Snake River Basin Adjudication (SRBA)
Water Delivery Service Areas

The purpose of this letter is to ask for your assistance in helping IDWR identify the boundaries and/or the service area of your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to draw outlines of the boundary and service on some form of a chart or map.

Please submit your service area boundary information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.

Sincerely,

Erik Norquest

RE: Snake River Basin Adjudication (SRBA)
Water Delivery System Boundaries and/or Service Area

Enclosed please find the boundary and/or service area IDWR has on file for your water delivery system. This is the initial phase for identifying water delivery systems for the Snake River Basin Adjudication. Any additional information you can provide us showing your boundaries and/or service area will be appreciated. The preferable method for presenting this information would be to modify the outlines of the boundary and/or service area we have enclosed, and return a copy to us.

Please return your modified boundary and/or service area information within 30 days.

Thank you for your assistance. If you have any questions or concerns, please contact me at 1/800-451-4129.
