Sue,
I'll just give you the low down via e-mail...Dave has agreed to add the language regarding the right to lower and refill on 65-02288 and 65-09481. Black Canyon (and BOR) will not pursue the AFY issue. If you can create the new recs to reflect this, I would appreciate it. Becky is working on the SF5 covers sheet. Let me know if you have any questions.

Norm and Susan:

I think that Don is correct. My understanding is that we can add subordination for a b/u claim or on one which we had already subordinated -- but not on a decreed right that had not been subordinated.

Your take?

My take is we cannot add the subordination language. My weak memory tells me this kind of question was visited in earlier basins with licensed rights for power use. I think the answer was we could retroactively apply the subordination language we would apply to a power right now. If you think my memory has failed me, I would suggest legal give the topic a review.

Subject: BOR's Power rights at Black Canyon

Good morning - We have two claims for the Bureau of Reclamation - filed in the PRBA by the Bureau - and refiled in the SRBA by the Bureau. They are for liveflow at the Black Canyon diversion dam outlet works for power. The numbers are 65-02288 and 65-09481. My question is whether or not any subordination language would be added. There is none in the PRBA decree since the Swan Falls situation was happening during that time.

I don't know if we can go back and add it in per the Swan Falls agreement or not. Could someone help me out on this or do you want me to assign that kind of review to the reviewer of the claims. It seems like more of an administrative call or legal call to me.

What do you think? Thanks, Jan

My guess is that Tuthill is right. Clive wants to treat Avista's rights at Post Falls on the Spokane River as being subordinated by virtue of the way they have operated over the past century or so. They have not made a call against junior users or protested a new application even though the flow of water has often fallen below the amount needed to fill their rights. Perhaps this same argument can be made about Black Canyon hydropower rights even though the rights have been recently decreed in the PRBA. This is an important enough issue, that I suggest it be given both a legal review and a policy review. I will discuss with Karl for the policy call if Susan will follow through on the legal part - this may be no more than just getting Clive's thoughts. Norm

Dave - Sue Bock is working on these two. I would like to be involved also. Perhaps this meeting should be sooner than later due to Susan's upcoming date. It would help if you were involved also, then you could relay to Karl and Norm? Susan - please let me know when a good time is for you. We have hearings all day November 30th and December 6th. Thanks, Jan

Jan, would it be possible to have our agent who is working these up coordinate with Susan about talking with the U.S. about this? Susan, I would be happy to be involved.

Dave: I talked to Karl about adding a subordination condition. He doesn't see any authority to do so at this point. Might be different if a junior user stepped forward and objected. Perhaps Karl would refuse a delivery call even though the right wasn't decreed with a subordination condition based upon a history of not protecting the right from new upstream uses. Any chance the US would just agree to a condition? Norm
